Manitou®

Manitou®

Some boats are made for the water. Manitou is made to change the way you experience it.

Bold by design & innovative from deck up to deck down, every Manitou brings together distinctive styling, thoughtful craftsmanship, & exhilarating performance to create something truly exceptional.

Behind every detail is a team driven by a passion for boating & a commitment to doing things differently. We build with purpose, take pride in our craft, & continually push ourselves to deliver more than you expect, because we believe your time on the water deserves nothing less.

But what makes a Manitou truly special goes beyond the boat itself. It's the freedom to explore, the thrill of the open water, the laughter shared with family & friends, & the moments that become part of your story long after the day is done.

This is more than boating. This is the Manitou experience.

Discover Manitou.

Hull Options *V-Toon® Gen2 Technology*

V-Toon®
GEN2 Technology
PATENT PENDING

Rethink Everything You Know About Pontoons.

The first time you carve through a turn in a Manitou equipped with V-Toon® Gen2 Technology, you'll understand the difference. Responsive handling, confident cornering, & exhilarating performance redefine what you can expect from a pontoon.

V-Toon® Gen2 Technology is more than a third tube. It's a purpose-engineered hull system designed around the precise size, positioning, and geometry of the center tube, working in harmony with strategically placed positive-angle lifting strakes. The result is a pontoon engineered to deliver the agile handling and dynamic feel of a V-hull, bringing a whole new dimension to life on the water.

Three tubes. One innovative design. A completely different ride.

Scan To View
More Info

Engineered to Perform. Designed to Make a Difference.

Exceptional performance doesn't happen by simply adding another tube. It comes from getting every detail right. Manitou's V-Toon® Gen2 Technology combines carefully calculated hull geometry w/ a precisely positioned center tube & positive-angle lifting strakes to optimize lift, stability, acceleration, & handling. Every element works together to create a more responsive, controlled ride that inspires confidence through turns & delivers excitement across a range of speeds & conditions. It's a smarter approach to pontoon design, engineered to bring together the comfort & versatility you expect from a pontoon w/ a more dynamic on-water experience.

Center Tube Design

Precision makes the difference. At the heart of V-Toon® Gen2 Technology is a center tube engineered to work in perfect harmony w/ the outer tubes. The 25-27-25 configuration features a 27-inch center tube positioned 1.25 inches lower than the two outer tubes, creating a 5.25-inch differential between the bottoms of the center & outer tubes. This carefully calculated geometry is designed to optimize water displacement, establish the desired running attitude, & contribute to the handling characteristics that distinguish the V-Toon® Gen2 hull. Every measurement matters. Extensive engineering & testing informed the precise dimensions & positioning, because even small changes in hull geometry can influence ride quality, stability, acceleration, speed, & handling. The result is purposeful engineering you can feel every time you take the helm.

Positive-Angle Lifting Strakes

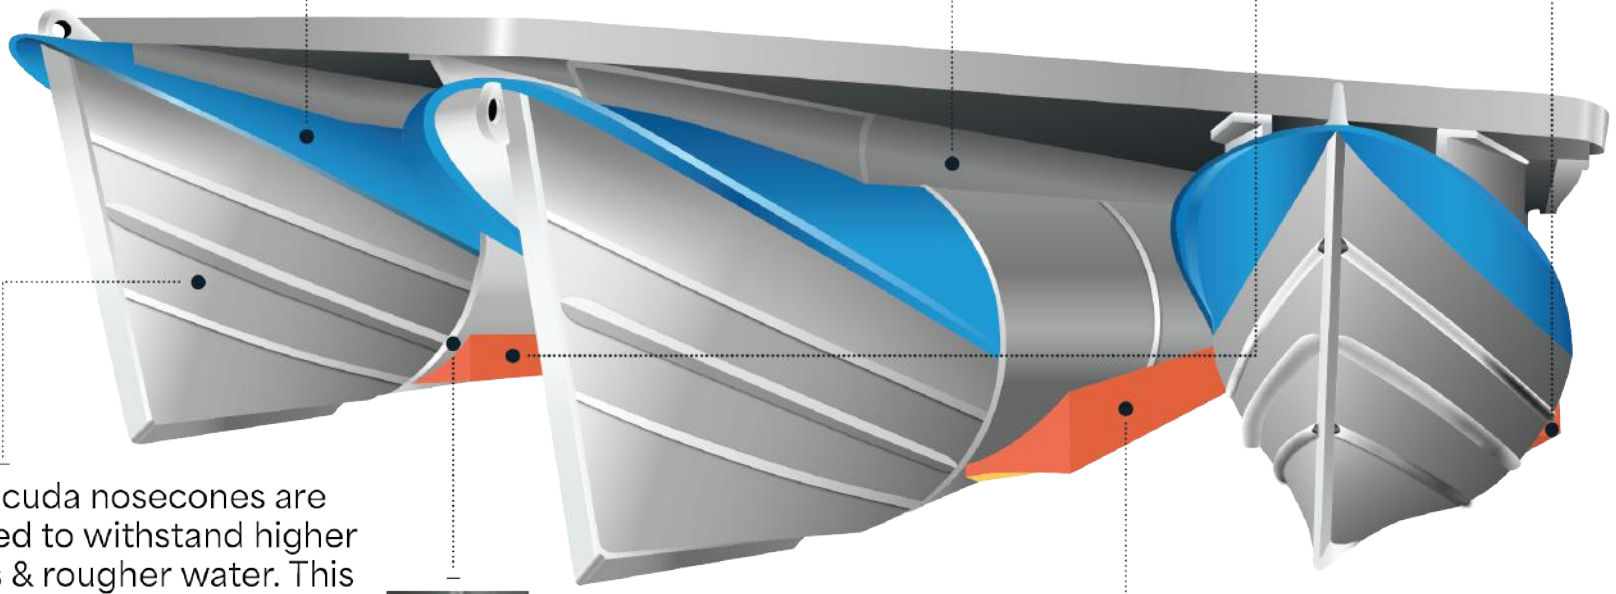

Built for a better kind of turn. Performance is about more than speed. It's about how a boat responds when you ask more of it. V-Toon® Gen2 Technology incorporates strategically designed positive-angle lifting strakes that help generate lift while supporting a smooth, controlled ride & responsive handling. Their geometry & placement are essential to balancing the hull's planing characteristics w/ the agility & confidence drivers want when navigating turns. Where hull geometry & strake design work together, the difference goes beyond the numbers. You feel it in the responsiveness at the helm, the confidence through a turn, & the excitement of a ride that feels anything but ordinary. This is pontoon performance, reimagined. This is Manitou V-Toon® Gen2 Technology.

Hull Options *Sport Handling Package Hull*

Integrated splash guards for maximum durability.

The oversized center tube is mounted lower than the outside tubes providing essential deadrise for optimum manueverability.

Additional positive angle lifting strakes on the inside & outside of all tubes.

Barracuda nosecones are designed to withstand higher speeds & rougher water. This is accomplished through the use of thicker aluminum & three pressed stiffeners.

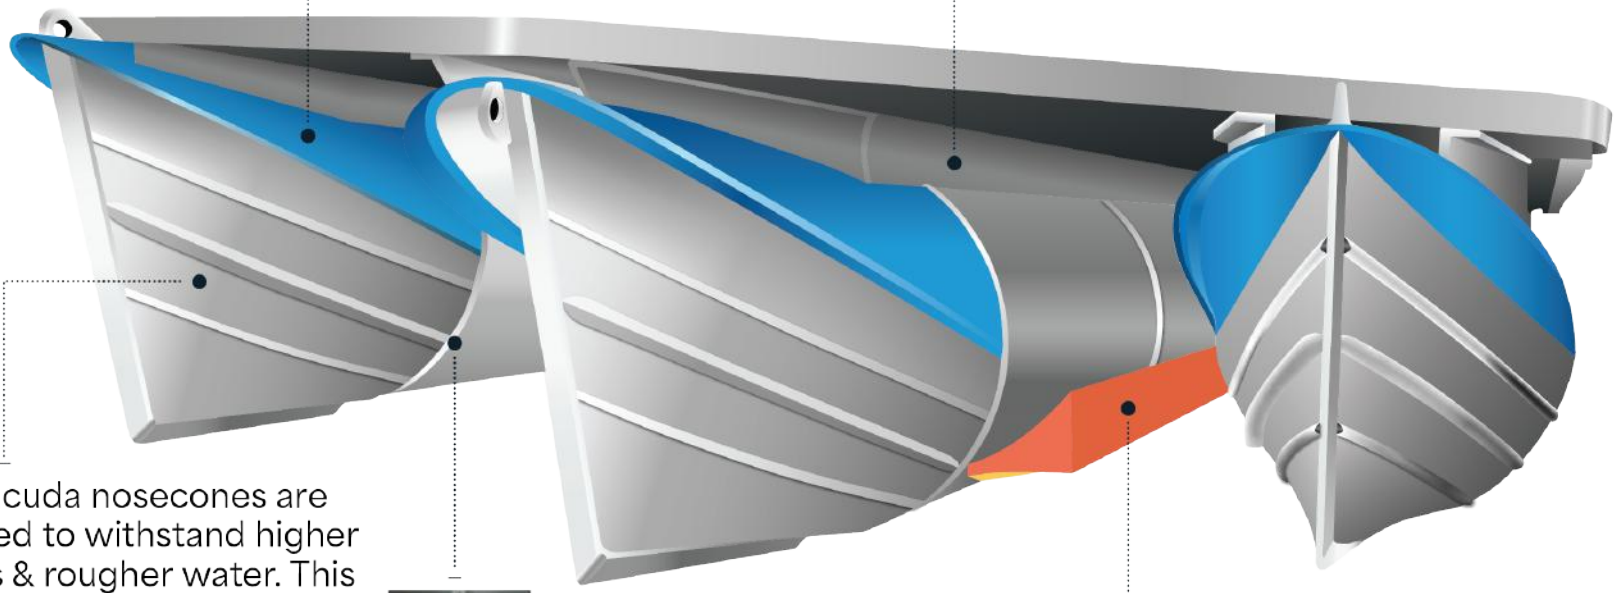

Our welds are the benchmark of the industry.

Positive angle lifting strakes on the inside & outside of the center tube create a chine like feature that adds lift & stability.

Hull Options *VPII Hull*

Integrated splash guards for maximum durability.

The oversized center tube is mounted lower than the outside tubes providing essential deadrise for optimum manueverability.

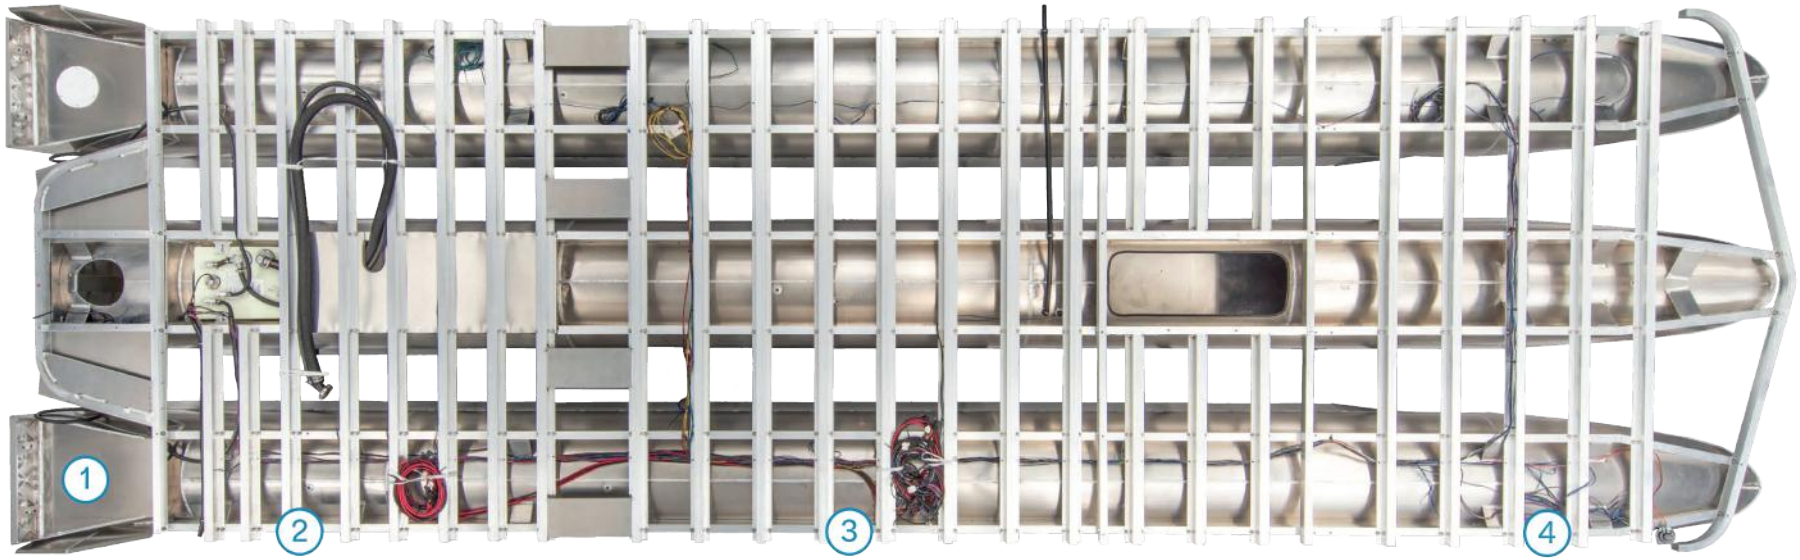

Barracuda nosecones are designed to withstand higher speeds & rougher water. This is accomplished through the use of thicker aluminum & three pressed stiffeners.

Our welds are the benchmark of the industry.

Positive angle lifting strakes on the inside & outside of the center tube create a chine like feature that adds lift & stability.

Hull Options *Twin Engine Hull*

1 **Billet Aluminum Motor Mounts**
Machined from solid billet aluminum for strength, durability, & compatibility w/ larger engines.

2 **Precision-Spaced Crossmembers**
Crossmembers spaced as close as 7” apart in key areas for added strength where engine & water forces are greatest.

3 **Hat-Shaped Extruded Crossmembers**
Reinforced frame design engineered to handle the speed & sharp turns of V-Toon® Gen2 Technology.

4 **Superior Welds**
High-quality welds built for lasting strength & structural integrity.

Manitou Warranty

Manitou pontoon boats come with a wide-ranging pontoon boat warranty. This means Manitou pontoon boats and accessories will serve you well for years to come, and with peace of mind comes a world of possibility.

- Fully Transferable Warranty to Second Owner
- Limited Lifetime Decking Warranty
- Limited Lifetime Structural Warranty
- 7 Year Warranty on Furniture Vinyl
- 7 Year Warranty on Bimini Fabric / Mooring Cover Fabric
- 7 Year Warranty on Floor Covering
- 2 Year Warranty on Gelcoat & Paint
- 7 Year Bow to Stern Warranty on all Other Components
