

HAGS[®]

A young child with light brown hair, wearing a white t-shirt with a colorful dinosaur pattern and blue pants, is standing on a sandy playground. The child is holding onto a dark brown vertical metal post of a playground structure. To the left of the child is a large, dark brown panel with a yellow scalloped border and a green circular inset. Inside the green circle is a yellow rectangular panel with a black line and five red circular knobs labeled 1 through 5. The background shows more of the playground structure and green foliage.

PRODUCT HIGHLIGHTS

An introduction to the HAGS product range

HAGS®

Inspiring all generations

Welcome to the world of HAGS

At HAGS, a love for the outside environment is inside all of us. It is the beating heart of our Swedish passion, vision, and ambition to create inspiring spaces for all.

We have five different strands to our personality all united by a common goal: creating inspiring spaces for every generation to enjoy. Whether it's engaging young children or helping retired couples to relax in nature, every facet of our being is intertwined so that every space feels refreshingly different, unquestionably Swedish, and inimitably HAGS.

HAGS has spent the last 75 years combining Swedish heritage, craft and expertise to create the most inspiring spaces for our customers. We educate through play, inspire activity and help all ages enjoy the great outdoors. But we never stand still. We want to continue to show our unique energy - always building, striving, and going beyond.

PLAY for all

The playground should be **a fun place** for as many people as possible. It is through play that a child takes on the world and makes it comprehensible.

Not everyone can do everything, but there must be **something for everyone.**

The feeling of being **part of the game** and not feeling left out is among the most important things.

A playground is so much more than just a place with play products. It's a place where you meet, make **new friends** and learn a lot of great things.

Through social interaction, children get to practice cooperation and to resolve conflicts. When a child dares to try new things, their **courage and self-esteem develop.**

These abilities are especially important for children with disabilities.

It is important to vary challenges so that children with different abilities can be **inspired** at the same time.

Try to group similar equipment with varying degrees of difficulty next to each other.

Strong **colours** and **contrasts** are great for the visually impaired.

Play Experiences are also sometimes referred to as Play Values and describe the opportunity that an environment, object or piece of equipment brings to children's experience of play.

Play Experiences are **crucial to a child's development** and enjoyment of the play facilities.

Hard surfaces make it possible to crawl, walk, run, bounce and roll **together**.

On **hags.com** you will find suggestions for play equipment which are great for some of the most common disabilities:

- ADHD
- Intellectual disability
- Visual impairment
- Autism
- Hearing loss

We are happy to show you all the possibilities available to create places with play opportunities for **everyone**.

Ramps, adapted swing seats, backrests and stairs **increase accessibility**.

Sustainability: A Core Value, Not a Trend

Our Vision for the Future

At HAGS, sustainability isn't just a goal – it's a promise deeply rooted in our commitment to the well-being of children. They are at the heart of everything we do, representing not only the present we cherish but the future we work tirelessly to protect.

Our vision is a world where today's children and generations to come can thrive in a healthy, vibrant environment that nurtures life, play, and endless possibilities.

A Legacy of Care

As a Swedish company, for decades, sustainability has been woven into the fabric of who we are. Long before it became a global priority, HAGS embraced genuine care for the environment and people as a guiding principle.

Our rich history reflects this unwavering commitment, not as a fleeting trend but as a steadfast value – one that shapes every decision we make and every product we create.

5 FOCUS AREAS

1. Maintain respect for our **PLANET**

2. Give back to our **COMMUNITIES**

3. Build a better business around our **PEOPLE**

4. Design **PRODUCTS** that support a circular economy

5. Work with a **SUPPLY CHAIN** we believe in

Sustainability in Action

At HAGS, responsibility goes beyond words. We actively ensure that every aspect of our operations - economic, social, and ecological - aligns with our sustainability goals.

From designing active, inclusive outdoor spaces to crafting products with care, we approach every stage of production thoughtfully, keeping the well-being of both individuals and the planet in mind.

Our efforts don't stop there:

- We focus on sustainable sourcing and responsible production methods.
- We continuously optimize packaging, logistics, and transportation to minimize environmental impact.
- We collaborate with teams, customers, and partners to drive meaningful change.

Step by step, we're advancing toward a, more sustainable future - because at HAGS, sustainability is not just what we do; it's who we are.

Play Systems

For over 30 years, HAGS' multi-play systems have been a favorite among children. How has a play system from the 80s become a global bestseller? By embracing timeless play and maintaining a modular, flexible design that sparks curiosity across ages and cultures. Our play systems create a world of play, happiness, and fantasy where children are in charge.

UniMini and UniPlay are expertly designed for maximum enjoyment, packed with rich play value to engage children of all ages. With a wide range of standard models to choose from, these systems cater to various play needs while providing opportunities to adapt or expand as requirements evolve.

Thanks to their modular nature, there's no need to replace an entire play structure when wear and tear appear. Simply replace the most used parts! At HAGS, we stock all essential spare parts, ensuring the play area continues to bring joy for years to come.

UNIMINI

Ideal for 2-5 year olds

UniMini is small, charming, and easy to install, packed with play features designed to meet the needs of little ones.

Children can crawl, slide, climb, hang, or engage in quieter activities, turning the playhouse into a store, a pirate ship, or whatever their imagination creates.

All units are available in two material options:

- Steel posts/HPL panels
- Wood posts/HPL or wood panels

CUSTOMIZED UNITS FOR YOUR INSPIRATION

If you can dream
it, we can build it!

Do you want to create a playground perfectly tailored to your environment? Have a specific theme or idea in mind? Let your imagination run wild with our modular play systems!

Those comprehensive building systems offer endless possibilities. Customize the color, shape, and size to fit your space, budget, and vision. Plus, our team is here to help design a completely custom playground if desired. Bring your unique project to life with our diverse components and play functions.

Create a theme with local connections, such as a replica of a famous building, landmark, or adventure experience. We've constructed castles, farmhouses, trains, spaceships, haunted houses, and even our version of Pippi's Villa Villekulla. With our expertise, we can turn your vision into reality.

Looking for more budget-friendly units? Try our standard models on pages 10-21!

Freestanding playground equipment

Explore a world of fun with our freestanding playground equipment. Our swings, carousels, and spring riders are designed to stand out on their own or integrate seamlessly into large playgrounds and parks.

Built to last, they bring joy to any outdoor area. Whether you're creating a cozy playground or enhancing a large park, our equipment is perfect for building long lasting play areas.
