From the moment you first get in touch, you'll be paired with a dedicated account manager who will be your trusted point of contact throughout your journey with us. Our experienced account managers have undergone extensive training and have in-depth knowledge of our products, allowing them to provide personalised guidance and expert advice. They'll work closely with you to understand your unique needs and preferences, helping you navigate our product range and make informed decisions to ensure you find the perfect solutions for your requirements.

ACCOUNT SETUP

Registering an account with us is a straightforward and hassle-free process. To get started, your dedicated account manager will provide you with an account application form, which can be completed at your convenience. This form allows us to capture all the necessary information to ensure seamless interactions with our company, including accurate shipping and delivery details etc. We offer flexible payment options, including credit terms, subject to a successful credit application and approval by our finance team.

Our account managers are always on hand to assist with your order, answer any questions, and provide guidance on product selection or any other aspect of your purchase.

WHAT HAPPENS NEXT

Once your order is received, our administrative team will process it and generate a purchase order. Your order will then be forwarded to our production team for preparation and packaging. Your dedicated account manager will keep you informed throughout, providing a confirmed delivery date and transportation details, ensuring you're always up-to-date on the status of your order.
