OVERVIEW

Easy. Efficient. Electric.

The Prologue is the next step in our electric evolution—delivering the quality, reliability, and performance you expect from Honda—in a fully electric SUV. With access to an expansive charging network, including select Tesla Superchargers, the Prologue is ready for the road ahead.

OVERVIEW

Electric-Driven Adventure

The Prologue blends modern aesthetics with rugged elements, like available 21-inch wheels. The unique e: badging is an added distinct detail, while available accessories like roof rails and crossbars offer extra storage for all your adventures.

OVERVIEW

Room for Everyone

Inside the Prologue, the cabin offers ample space for friends and family and is fully loaded with clean and functional design details like two-tone leather seating and increased storage capacity.

OVERVIEW

Smart Technology

Take advantage of all the benefits offered by HondaLink® connected by OnStar services and Google built-in, * which allows you to discover nearby charging stations, pick up a call, or send a message, all with your voice. The digital instrument cluster puts crucial information at your fingertips, while the available head-up display projects vital info on your windshield.
