Bachelor of Commerce (Honours)

Accounting

(R3/344/6/0072)(03/27)(A7943)

Accounting involves the systematic recording, analysis and reporting of financial information in accordance with established standards. The Bachelor of Commerce (Honours) Accounting develops competent and industry-ready accountants equipped with strong technical expertise. Through collaboration with the Alibaba Group, students can undertake the Alibaba Global Digital Talent (GDT) Programme in Digital Transformation and Digital Entrepreneurship, earning certification upon completion. The curriculum integrates digital-focused subjects such as Financial Technology and Machine Learning applications to ensure graduates are prepared for the evolving, technology-driven financial landscape. Graduates of the Bachelor of Accounting (Honours) programme are eligible for certain exemptions from the professional examinations listed above.

Career Prospects: Accountant (Costing & Financial), Pricing Manager, Financial Controller, Audit Manager, Investment Analyst, Corporate Planning Executive, Tax Consultant

Bachelor of

Accounting (Honours)

(R3/0411/6/0100)(04/33)(A9649)

Accounting is the systematic recording, categorising, analysing, reporting and preparation of financial statements by following a set of rules and regulations that govern financial reporting. Accountants analyse the performance and financial health of a business. They provide businesses with meaningful information to make sound decisions and allow businesses to strategise and achieve its business objectives. This 3.5 years accounting programme leads to a prestigious accounting degree recognised by the Malaysia Institute of Accountants (MIA). After graduation, graduates can apply to become a Chartered Accountant with MIA if they have three years of relevant work experience. Graduates of the Bachelor of Accounting (Honours) programme are eligible for certain exemptions from the professional examinations listed above.

Bachelor of Business Administration (Honours)

(Risk Management)

(R/0414/6/0332)(09/30)(MQA/SWA13951)

A risk is an uncertainty or a potential threat to an organisation. It has the potential to materially affect the value and survival of a business. As a result, businesses must understand, evaluate, and manage risks in order to achieve their primary objectives while keeping all risks under reasonable control. The Bachelor of Business Administration (Honours) (Risk Management) aims to provide students with a broad understanding of risk management for financial and non-financial corporations. The programme's core curriculum includes analytical knowledge, operation management, legal framework and strategic planning. More importantly, the programme strikes a balance between the need to provide students with solid theoretical knowledge while also including some case studies that parallel to the current ever-changing business environment, as well as an emphasis on hands-on practical and risk analytical techniques.

Retail Management

(R/345/6/1036)(03/27)(MQA/SWA8828)

The retail industry in Malaysia is expected to expand as the country grows. The management of a shopping mall, from its identity to tenant mix and then to the management of overall shopping mall and tenant relationship management, requires specialised skills and knowledge. To thrive and remain competitive in the retail industry, a brand must pay special attention to display and merchandising decisions in addition to traditional marketing and promotional efforts. The retail management programme focuses on inculcating a strong foundation and innovative application of knowledge, as well as analytical and creative skills in the overall management of retailing. Students will be trained in fundamental areas before progressing to specialised retailing areas. These areas include merchandising, logistics and supply chain management, and customer relationship management.

Career Prospects: Merchandising Manager, Marketing Manager, Senior Buyer, Store Manager, Shopping Mall Manager

Bachelor of Science (Honours) in

Logistics and International Shipping

(R3/1041/6/0007)(04/30)(A10759)

This programme aims to produce professionals who are well equipped to analyse and solve problems in the operations of logistics and shipping. Nowadays, logistics and shipping have moved to a higher agenda in an organisation in every industry and sector. Senior management has begun to see the transportation function as an important competitive tool because logistics costs represent such a significant proportion of total cost that it is possible to make major cost reduction through fundamentally re-engineering logistics processes. Proper logistical procedures can lead a company to reduce cost and achieve efficiency by receiving greater responsiveness and reliability from suppliers, reduced lead time, just-in-time delivery and value-added services as a way of gaining market share and increase profitability. Students are required to undergo a period of industrial placement in manufacturing/service industries. This experience will prepare students to perform their final year project and enhance their future employability.

Career Prospects: Supply Chain Analyst, Logistics Executive, Marine Surveyor, Marine Insurance Agent, Operation Executive, Warehouse Executive, Transport Analyst, Warehouse Planner, Logistician, Transport Planner, Freight Forwarder, Ship Agent, Expeditior, Procurement Executive
