SINCE 2012

NEWSLETTER

SEPTEMBER 2026

EDITOR'S NOTE

Welcome to the September edition of the CLC Projects network newsletter. Me, Lisa and Heidi recently hosted a full day of one to one meetings and lunch ahead of Breakbulk Americas in Houston where we had a booth in the media lounge alongside our sister publication Project Cargo Weekly. It was great meeting with members, service providers and new contacts. See the group photo below.

Shipping line contacts from Breakbulk Americas can be found here, (must be logged in). The focus is on **shipping lines that are freight forwarder friendly**, meaning they are not in the practice of trying to contact your customers / shippers directly. On the list you will find HMM, ONE Line, dship, Hyundai Glovis, OOCL, NYK, American Roll-On-Roll-Off Carrier, RORO Shipping Company and Volans Maritime.

We continue to host **online one-to-one meetings on Wednesdays**, see the scheduled meetings for November and December on page three of this newsletter, also note the in-person events in Amsterdam and Houston in 2027

In **member news** we share movements related to: Asia, China → Finland, Malaysia, China → Moldova, Ukraine, Germany → Greece, China → Taiwan, United Arab Emirates → Indonesia, Finland → Australia, Germany → Philippines, Switzerland, Netherlands, Finland, and Morocco. We are also happy to welcome **new members** representing Taiwan and Burkina Faso, and a **new service provider** with global coverage.

Cody Abram Thrush cody.abram@clcprojects.com

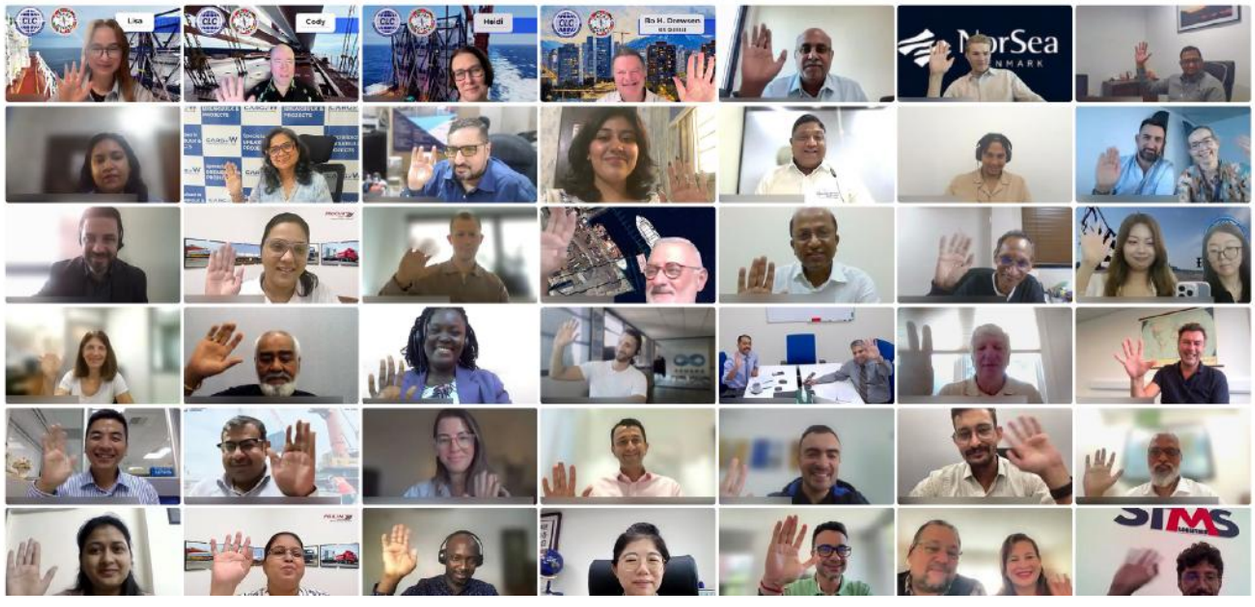

MEETINGS + LUNCH HOUSTON

21st September 2026

Upcoming Zoom Meetings

for October, November & December

	New York	Vienna	Hong Kong
11th November	10:00 UTC–5	16:00 UTC+1	23:00 UTC+8
09th December	10:00 UTC–5	16:00 UTC+1	23:00 UTC+8
16th December	03:00 UTC–5	09:00 UTC+1	16:00 UTC+8

Comark Shipped Oversized Wide Rings to Asia by Air and OOG Sea Freight

Urgent pieces were sent by air while the remainder moved as out-of-gauge cargo on flat racks. Comark manufactured custom seaworthy packaging so large that even the empty packaging required oversized transport to the customer's site, where the team packed the rings.

Formag Forwarding Delivered 13 BESS Units from China to Moldova and Ukraine

The route included ocean freight from China to Bulgaria, transshipment and onward delivery by rail. Each 20-foot unit weighed around 45 tonnes and contained lithium batteries, totaling approximately 585 tonnes of cargo that required permits, specialized handling equipment and precise transshipment coordination. The project involved the Odesa office, led by Dmitriy Lytvynenko, together with GTI Group companies MET Bulgaria, Via-Multima Moldova and Formag Group.
