

Solar Pool Lights

synergies group limited

About Us

Since 1995, Synergies Group Limited has been a leading player in the design and production of indoor and outdoor lighting solutions, providing high-quality products for mass distribution, the DIY sector, and large enterprises. With extensive expertise and a strong focus on innovation, we support our clients in the development of large-scale lighting projects, ensuring efficiency, reliability, and outstanding design.

Our Philosophy

Our mission is to offer cutting-edge lighting solutions that combine aesthetics, functionality, and energy efficiency. Our work is guided by three fundamental pillars:

Innovation: We continuously develop new technologies and materials to provide state-of-the-art products with smart and sustainable solutions. **Quality:** Each product is designed for durability, using weather-resistant materials and certified manufacturing processes.

Design: We create lighting solutions with a strong visual impact, enhancing commercial spaces, residential exteriors, and public areas.

Our Product Range

We offer a comprehensive selection of technical and decorative lighting solutions, tailored to meet various market needs:

Indoor Lighting: Functional and stylish solutions for retail stores, offices, and residential environments.

Outdoor Lighting: Luminous globes and shapes designed for gardens, public areas, and commercial spaces.

LED and Solar Technology: Energy-efficient systems for greater sustainability and lower consumption.

Thanks to flexible production and an optimized logistics management system, we help our partners plan and distribute products efficiently, ensuring fast deliveries and operational reliability.

A Strategic Partner for Your Business

We collaborate with major distribution networks to provide customized solutions, supporting every stage of the process—from product selection and supply chain management to post-sales assistance.

Trust Synergies Group Limited for your lighting projects and discover how we can help your business grow with innovative, high-quality, and market-driven products.

Solar Inflatable Flame Light CT1302

Features:

- With flame light show
- Waterproof: IP68
- Working hours: 6-8 hours after full charge
- Built-in AA Ni-MH 600mAh 1.2V
- Solar panel: 2V 180mAh
- Automatically charging in sunlight
- Automatically illuminates at night
- Weight: 280±5g
- Dimension: 14inch (full of air)
- Material: PVC, thickness 0.23mm

Solar Duck Inflatable Pool Light CT218H

Features:

- Automatically charging in sunlight
- Automatically illuminates at night
- Waterproof: IP68
- Working hours: 5-8hours after full charging
- Built-in AA Ni-MH 1200mAh 1.2V
- Solar panel: 2V 500mAh
- Weight: 270±10g
- Dimension: 15inch (full of air)
- Material: PVC, thickness 0.23mm

Solar LED Light Ups

CT228DE

Solar Duck Light

- Battery: Ni-MH 600mAh/ 1.2V
- Charging: Solar Panels 2V 60mAh
- LED light: White
- Waterproof: IP68
- Working hours: 6 to 8 hours per full charge
- Product Size : 3 inch

Solar charging

Waterproof
IP68

Solar LED Light Ups

CT228Z

Solar Octopus Ball Light

- Battery: Ni-MH 600mAh/ 1.2V
- Charging: Solar panels 2V 60mAh
- LED Light: Warm white
- Waterproof: IP68
- Working hours: 6 to 8 hours per full charge
- Product Size : 3.16 inch

Solar charging

Waterproof
IP68

Solar LED Digital Thermometer

CT909FG

Solar LED Digital Thermometer

- Battery: 2/3AAA Ni-MH 350 mAh 1.2V*2
- Charging: Solar Panels 2V 40mAH
- Working hours: 5-8 hours
- Degree of temperature range: 0°C-70°C/32°F-158°F

Solar charging

Waterproof
IP68

Advantage:

- The animals could be lighting up, with LCD digital thermometer display.
- Auto charges in sunlight regardless the button is turned on or not.
- Auto lights up at night if the button is on.

Solar LED Digital Thermometer

CT909SW

Solar LED Digital Thermometer

- Battery: 2/3AAA Ni-MH 350 mAh 1.2V*2
- Charging: Solar Panels 2V 40mAH
- Working hours: 5-8 hours
- Degree of temperature range: 0°C-70°C/32°F-158°F

CT909DE

Solar LED Digital Thermometer

- Battery: 2/3AAA Ni-MH 350 mAh 1.2V*2
- Charging: Solar Panels 2V 40mAH
- Working hours: 5-8 hours
- Degree of temperature range: 0°C-70°C/32°F-158°F

CT909SH

Solar LED Digital Thermometer

- Battery: 2/3AAA Ni-MH 350 mAh 1.2V*2
- Charging: Solar Panels 2V 40mAH
- Working hours: 5-8 hours
- Degree of temperature range: 0°C-70°C/32°F-158°F

CT909TO

Solar LED Digital Thermometer

- Battery: 2/3AAA Ni-MH 350 mAh 1.2V*2
- Charging: Solar Panels 2V 40mAH
- Working hours: 5-8 hours
- Degree of temperature range: 0°C-70°C/32°F-158°F

LED Fountain Lights

CT507Y

Features:

- Battery: built-in lithium battery 4000mAh 3.7V
- Charging: DC 5V, 8h for full charge
- Light show: RGB ripple light show
- Lighting modes: 6 lighting modes can be switched
- Lighting time: ≥ 16 hours (without fountain)
- Spraying time: up to 3 hours
- Spraying: up to 39.37inch high (100cm)
- Waterproof: IP68
- Dimension: 168.5*163*99.8mm / 6.63*6.42*3.93 inches

LED Fountain Lights

CT517

Features:

- Battery: built-in 21700 battery 10000mAh 3.7V
- Charging: DC 5V, 6h for full charge
- Light show: 5 kinds of light show
- Lighting modes: 3 lighting modes can be switched
- Spraying modes: 2 kinds of spraying modes
- Lighting time: ≥ 24 hours (without fountain)
- Spraying time: 8 hours after full charge
- Spraying: up to 39.37inch high (100cm)
- Waterproof: IP68
- Dimension: 159.5*159.5*170.5mm / 6.28*6.28*6.71 inches

LED Fountain Lights

CT1502

Features:

- Battery: built-in 21700 battery 5000mAh 3.7V
- Charging: DC 5V, 4h for full charge
- Light show: flame light show
- Lighting modes: 3 lighting modes can be switched
- Spraying modes: 3 kinds of spraying modes
- Lighting time: ≥ 16 hours (without fountain)
- Spraying time: 8 hours after full charge
- Spraying: up to 11.8inch high (30cm)
- Waterproof: IP68
- Dimension: 165.5*165.5*166mm / 6.52*6.52*6.54 inches

Waterproof
IP68

LED Fountain Lights

CT523

Features:

- Battery: built-in 18650 battery 2000mAh 3.7V*2
- Charging: Solar panels 5.5V 300mAh & 5.5V 235mAh
- Light show: flame light show
- Lighting modes:
 - above the fountain: colourful flash
 - Below the fountain: red, green and blue slow flash
- Working time: 4 hours after full charge
- Spraying: up to 13.78inch high (35cm)
- Waterproof: IP68
- Dimension: 205*205*77.55mm / 8.07*8.07*3.05 inches

Waterproof
IP68

LED Fountain Lights

CT506A

Features:

- Battery: 3000mAh lithium battery/ 3.7v
- Charging: DC 5V/ 5.5H for fully charging
- LED lighting time: $\geq 16\text{H}$ (Without spraying)
- Lights modes: 7 kinds of lighting modes could be switched
- Spraying fountain can spray up to 42 inch high(105cm)
- Waterproof: IP68
- Spraying time: 4 hours
- Product size: 189.00*93.00mm
- Product weight: 715g $\pm$ 10g

Waterproof
IP68

LED Fountain Lights

CT518

Features:

- Battery: 3000mAh lithium battery/ 3.7v
- Charging: DC 5V/ 8H for fully charging
- LED lighting time: $\geq 16\text{H}$ (Without fountain)
- Lights modes: 7 kinds of lighting modes could be switched, with Light show
- Spraying fountain can spray up to 43 inch high(110cm)
- Waterproof: IP68 full sealed
- Spraying time: up to 4 hours per full charge
- Product size: 168.5*163*99.8mm/6.63*6.42*3.93 inches

Waterproof
IP68

LED Fountain with Diamond Light show

CT507

Features:

- Battery: 3000mAh lithium battery/ 3.7v
- Charging: DC 5V/ 8H for fully charging
- LED lighting time: ≥ 16H(Without fountain)
- Lights modes: 7 kinds of lighting modes could be switched, with Diamond Light show
- Spraying fountain can spray up to 43 inch high(110cm)
- Waterproof: IP68 full sealed
- Spraying time: up to 4 hours per full charge
- Product size: 168.5*163*99.8mm/6.63*6.42*3.93 inches

LED Fountain with Hexagon Light show

CT507L

Features:

- Battery: 3000mAh lithium battery/ 3.7v
- Charging: DC 5V/ 8H for fully charging
- LED lighting time: ≥ 16H(Without fountain)
- Lights modes: 7 kinds of lighting modes could be switched, with Hexagon Light show
- Spraying fountain can spray up to 43 inch high(110cm)
- Waterproof: IP68 full sealed
- Spraying time: up to 4 hours per full charge
- Product size: 168.5*163*99.8mm/6.63*6.42*3.93 inches

Hexagon Light show

LED Fountain with Diamond Light show

CT511

Features:

- Battery: 3000mAH lithium battery/ 7.4v
- Charging: DC5V/280mA
- LED lighting time: $\geq 48\text{H}$ (Without fountain)
- Lights modes: 7 kinds of lighting modes could be switched, with Diamond Light show
- Spraying fountain can spray up to 47.24 inch high(120cm)
- Waterproof: IP68 full sealed
- Spraying time: up to 3 hours per full charge
- Product size: 214*199*102mm/ 84.25*78.35*40.16 inches

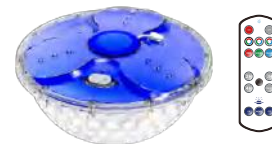

LED Fountain with Hexagon Light show

CT511L

Features:

- Battery: 3000mAH lithium battery/ 7.4v
- Charging: DC5V/280mA
- LED lighting time: $\geq 48\text{H}$ (Without fountain)
- Lights modes: 7 kinds of lighting modes could be switched, with Hexagon Light show
- Spraying fountain can spray up to 47.24 inch high(120cm)
- Waterproof: IP68 full sealed
- Spraying time: up to 3 hours per full charge
- Product size: 214*199*102mm/ 84.25*78.35*40.16 inches

Waterfall Fountain with Solar LED Light

CT322S

Features:

- Battery: Ni-MH 1500mAh/1.2V
- Charging: Solar panel: 2v 270mAh
- When light turns on, automatically charging in sunlight, LED light automatically illuminates in darkness
- Light modes: 9 different light modes can be switched
- LED light: RGB/Hexagon light show(optional)
- Waterproof: IP68 Full sealed
- Light working hour: 6-8 hours after full charging
- Light size: 130.1mm*127.6mm*128.7mm/5.12*5.02*5.07 inches

Waterfall Fountain with Solar LED Light

CT322L

Features:

- Battery: Ni-MH 1500mAh/1.2V
- Charging: Solar panel: 2v 270mAh
- When light turns on, automatically charging in sunlight, LED light automatically illuminates in darkness
- Light modes: 9 different light modes can be switched
- LED light: RGB/Hexagon light show(optional)
- Waterproof: IP68 Full sealed
- Light working hour: 6-8 hours after full charging
- Light size: 130.1mm*127.6mm*128.7mm/5.12*5.02*5.07 inches

Solar Pool Floats Light

CT1206

Features:

- Light show: fireworks light show
- Lighting mode: 4 lighting modes can be switched
- Waterproof: IP68
- Working hours: 6-8 hours after full charging
- Battery: built-in AA Ni-MH 900mAh 1.2V
- Charging: solar panels 2V 200mAh
- Automatically charging in sunlight
- Automatically illuminates at night
- Weight: 360±5g
- Product size: 5.9*6.3 inches

Solar Pool Floats Light

CT1205F

Features:

- Light show: flame light show
- Lighting mode: 3 lighting modes can be switched
- Waterproof: IP68
- Working hours: 6-8 hours after full charge
- Battery: built-in AA Ni-MH 900mAh 1.2V
- Charging: solar panels 2V 200mAh
- Automatically charging in sunlight
- Automatically illuminates at night
- Weight: 355±5g
- Product size: 5.9*6.3 inches

Solar Pool Floats Light

CT1601/1601L

Features:

- Light show: 9 multiple RGB light shows
- Lighting mode: revolving light and 3 light modes
- Battery: built-in 21700 battery 10000mAh 3.7V
- Input: Type-C 5V/2A
- Waterproof: IP68
- Lighting time: 11-12hours
- Dimension: 152*152*83.4mm / 5.98*5.98*3.28 inches

Solar Pool Floats Light

CT1207

Features:

- Light show: RGB light show
- Lighting mode: 11 lighting modes can be switched
- Battery: built-in AA Ni-MH 900mAh 1.2V
- Charging: solar panels 2V 200mAh
- Waterproof: IP68
- Working hours: 3-5hours after full charging
- Automatically charging in sunlight
- Automatically illuminates at night
- Weight: 396±5g
- Dimension: 5.9*6.3 inches

Solar Pool Floats Light

CT287S

Features:

- Light show: RGBW light show
- Lighting mode: 9 lighting modes can be switched
- With remote control
- Battery: built-in polymer battery 2000mAh 3.7V
- Solar panel: 5.5V 300mAh
- Waterproof: IP67
- Working hours: 5-8 hours after fully charging
- Automatically charging in sunlight
- Automatically illuminates at night
- Dimension: 177.5*193.5*100 / 6.99*7.62*3.94 inches

Solar Pool Floats Light

CT287L

Features:

- Light show: hexagon light show
- Lighting mode: 9 lighting modes can be switched
- With remote control
- Battery: built-in polymer battery 2000mAh 3.7V
- Solar panel: 5.5V 300mAh
- Waterproof: IP67
- Working hours: 5-8 hours after fully charging
- Automatically charging in sunlight
- Automatically illuminates at night
- Dimension: 177.5*193.5*100 / 6.99*7.62*3.94 inches

Solar Pool Floats Light

CT1201F

Features:

- LED light: Simulated torch flame
- Light modes
 - Torch flame
 - Steady warm light
 - Pulsating gradient light
- Waterproof: IP68
- Working hours: 6 to 8 hours per full charge
- Charging: Solar panels 2V Max 190mAh
- Battery: Ni-MH 900mAh 1.2-1.4V
- Product Size: 4.5X4.5inch

Solar Pool Floats Light

CT1201C

Features:

- LED light: Colorful light
- Lights mode
 - Breathing slow flash
 - Keep light on
 - Fast flash
- Waterproof: IP68
- Working hours: 6-8 hours per full charge
- Charging: Solar panels 2V 180mAh
- Battery: AA Ni-MH 900mAh 1.2-1.4V
- Product Size: 4.5X4.5inch

Solar Pool Floats Light

Solar Pool Floats Light

CT1201W

Features:

- LED light: Warm White light
- Lights mode
 - Breathing slow flash
 - Keep light on
 - Fast flash
- Waterproof: IP68
- Working hours: 6-8 hours per full charge
- Charging: Solar panels 2V 180mAh
- Battery: AA Ni-MH 900mAh 1.2-1.4V
- Product Size: 4.5X4.5inch

Solar Pool Floats Light

CT223

Features:

- LED light: Simulated torch flame
- Light modes
 - Torch flame
 - Steady warm light
 - Pulsating gradient light
- Waterproof: IP68
- Working hours: 6 to 8 hours per full charge
- Charging: Solar panels 2V Max 190mAh
- Battery: Ni-MH 900mAh 1.2-1.4V
- Product Size: 7X6.5(inch)

Solar Pool Floats Light

CT227

Features:

- LED light: RGB
- Light modes: 3 kinds of modes could be switchable
- Waterproof: IP68
- Working hours: 6 to 8 hours per full charge
- Charging: Solar panels 3V 170mAh
- Battery: Ni-MH 600mAh 1.2-1.4V
- Product Size: 7X6.5(inch)

Solar Pool Floats Light

CT223PP

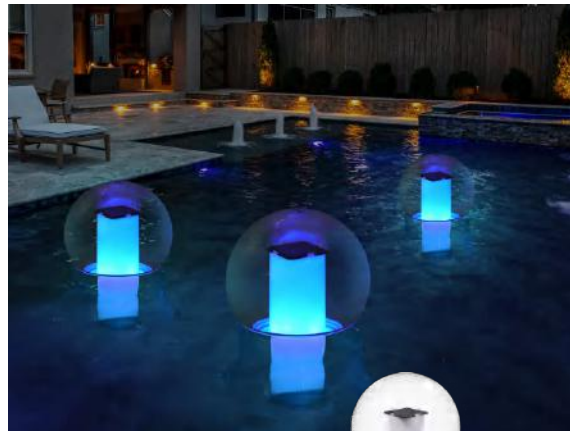

Features:

- LED light: Purple
- Lights mode
 - Purple flame
 - Keep light on
 - Lights gradient
- Waterproof: IP68
- Working hours: 6-8 hours per full charge
- Charging: Solar panels 2V 180mAh
- Battery: AA Ni-MH 900mAh 1.2-1.4V
- Product Size: 7*6.5(inch)

Solar Pool Floats Light

CT223PB

Features:

- LED light: Blue
- Lights mode
 - Blue flame
 - Keep light on
 - Lights gradient
- Waterproof: IP68
- Working hours: 6-8 hours per full charge
- Charging: Solar panels 2V 180mAh
- Battery: AA Ni-MH 900mAh 1.2-1.4V
- Product Size: 7*6.5(inch)

Solar Powered Pathway Lights

CT1103S

Features:

- LED light: RGB
- Light modes: 3 kinds of modes could be switchable
- Waterproof: IP68
- Working hours: 6 to 8 hours per full charge
- Charging: Solar panels 3V 170mAh
- Battery: Ni-MH 600mAh 1.2-1.4V
- Product Size: 5.9X32.5inch

Solar Powered Pathway Lights

CT1103FP

Features:

1. Battery: AA Ni-MH 900mAh 1.2V
2. Charging: Solar panels 2V Max 190mAh
3. LED light: Purple light
4. 3 kinds of Lights modes could be switched:
 - Purple flame
 - Keep light on
 - Lights gradient
5. 6-8 hours
6. product size: 5.9X32.5inch

Solar Swan Inflatable Pool Light CT212SWH

Features:

- Automatically charging in sunlight
- Automatically illuminates at night
- LED light show: RGB light show
- Waterproof: IP68
- Working hours: 4-7hours after full charging
- Built-in AA Ni-MH 1200mAh 1.2V
- Solar panel: 2V 500mAh
- Weight: 250±10g
- Dimension: 15inch (full of air)
- Material: PVC, thickness 0.23mm

Solar Flamingo Inflatable Pool Light CT212FGH

Features:

- Automatically charging in sunlight
- Automatically illuminates at night
- Waterproof: IP68
- Working hours: 4-7hours after full charging
- Built-in AA Ni-MH 1200mAh 1.2V
- Solar panel: 2V 500mAh
- Weight: 225±10g
- Dimension: 15inch (full of air)
- Material: PVC, thickness 0.23mm

Solar Inflatable Rainbow Cloud Light CT259

Features:

- Automatically charging in sunlight.
- Once charged, LED light automatically illuminates in darkness and automatic color gradient.
- There are 4 drink holders and a floating serving bar, you can put your favorite beverages, beer, food tray can put ice cubes, chips, champagne, fruit as you like.

Solar Inflatable Moon Light CT219

Features:

- Automatically charging in sunlight.
- Once charged, LED light automatically illuminates in darkness and automatic color gradient.
- Size: 15inch(Full of air)

Solar Inflatable Crescent Moon Light CT310

Features:

- Automatically charging in sunlight.
- Once charged, LED light automatically illuminates in darkness and automatic color gradient.
- Color Changing: Green, Red, Blue and White
- Size: 24inch(Full of air)

Solar Inflatable Duck Light CT218

Features:

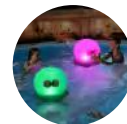

- Waterproof IP68
- Built-in AA Ni-MH 600mAh 1.2V battery
- Charging Solar panels 2V 190mAh
- Material: PVC, thickness 0.23mm
- LED light: White
- Working hours: 6-8 hours
- Size: 18*16inch(Full of air)

Solar Inflatable Octopus light CT217

Features:

- Waterproof IP68
- Built-in AA Ni-MH 600mAh 1.2V battery
- Charging Solar panels 2V 190mAh
- Material: PVC, thickness 0.23mm
- LED light: RGBW light show
- Lights mode: 5 kinds lighting modes could be switched
- Color changing: blue ,green,red and white
- Working hours: 6-8 hours
- Size: 15*11inch(Full of air)

Outdoor LED Solar Wall Light

CT285

High Brightness Pool Wall Light

- LED colors: 7 changing light colors
- Light modes: 9 light modes
- Waterproof: IP44
- Built-in 18650 battery 1500mAh 3.7V
- Solar panel: 5.5V 200mAh
- Automatically charging in sunlight
- Automatically illuminates at night
- Application: metal frame above ground swimming pool, front door, yard, garage, patio
