FEATURE · AS SEEN ON CHANNEL 4

# Small space, big impact

Watch Elena, John and Brian in episode 2 on Channel 4 on demand

When a bus conversion on *George Clarke's Amazing Spaces: First Home* needed a shower door that didn't steal space, ROLdoûr was the answer. It rolls away into a slim side cartridge when it's not in use – no glass and no outward-swinging door – so the bathroom works as hard as the rest of the build.

VAN LIFE NEWS

## October at the NEC

The NEC show happened in October and we backed our trade partners by resharing their posts across our social media.

Behind the scenes, fresh stock landed to meet demand for the rest of autumn and winter – while we juggled very little storage space and rearranged to fit it all in.

Our trade accounts are growing, and our goal is quick delivery with a range of colours for their customers.

BEHIND THE SCENES

BEHIND THE SCENES · HONEST UPDATE

## Our pivot door: back to the drawing board

Our first pivot shower door prototype arrived and we put it straight to the test. It was a great idea, but the quality wasn't what we expect, so it won't be going on sale as it is.

One thing we loved: the lockable handle that works from inside and outside. That's staying. We're redesigning the rest and will keep testing until it's right – we'd rather get it right than rush it.

YOU ASKED

## "Do you have resellers outside the UK for pre-made ROLdoûr?"

Not yet – but with demand growing, we're now starting to consider it. Interested in stocking ROLdoûr in your country? We'd love to hear from you.
