Meet Me in Como

LUXURY HANDMADE RUGS

Meet Me in Como

BY HOLMES BESPOKE

Inspired by the faded glamour of the villas, cobbled streets, wrought iron details and shimmering reflections of Lake Como, Meet Me in Como translates the romance and elegance of the Italian destination into a collection of beautiful rugs. The softly washed tones, expressive details and handwritten typography bring a contemporary feel to the collection.

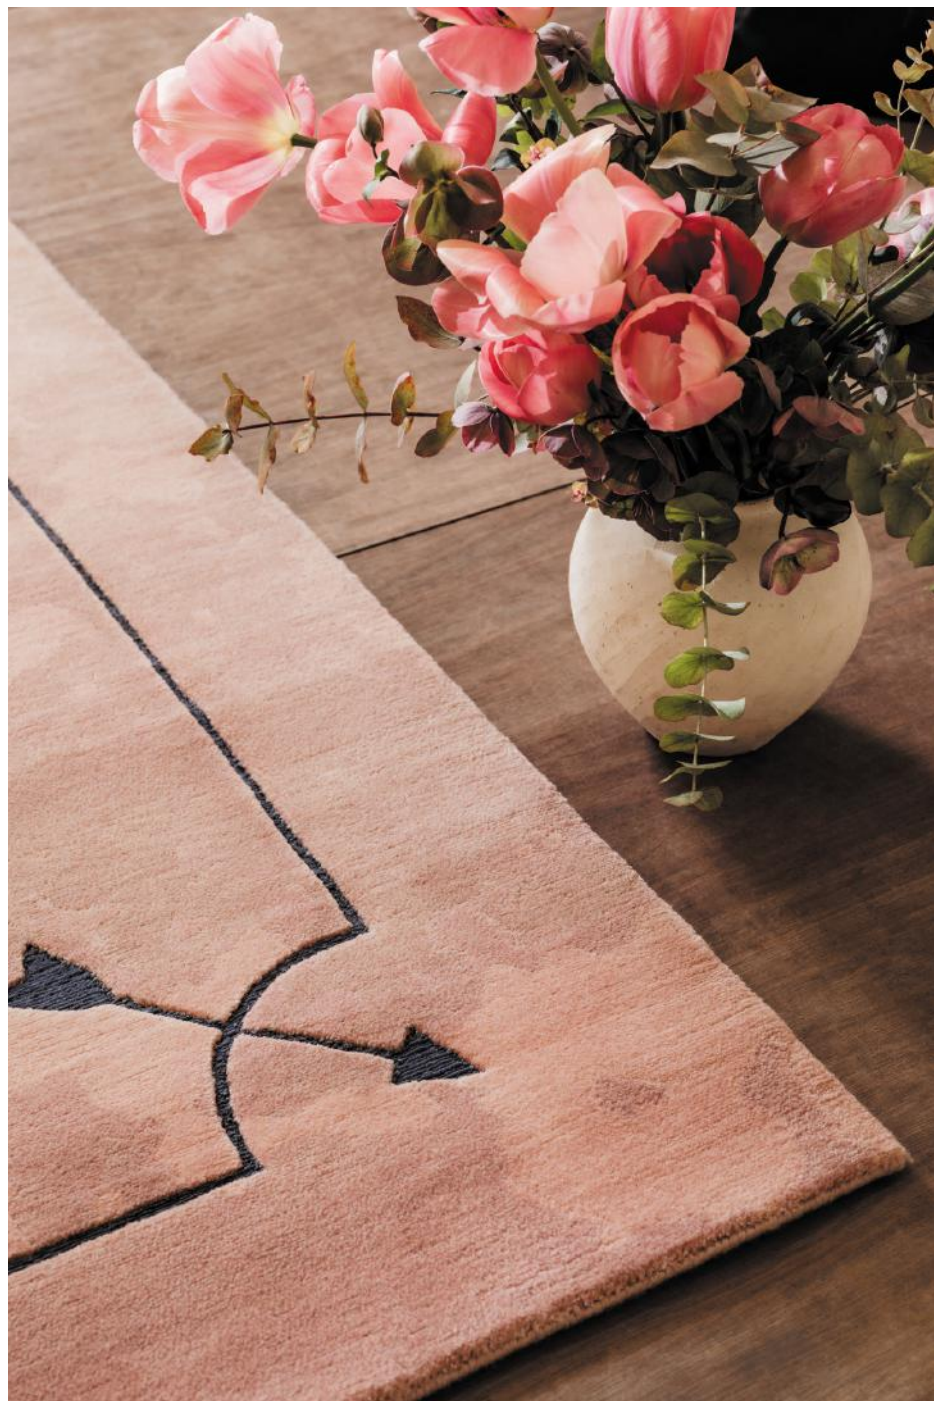

Romance in the Details

Amore

The collection comprises six distinct yet beautifully complementary designs, brought together through a palette of soft pastels, deep olive greens and warm, earthy browns. Evoking the faded elegance and effortless refinement of the Italian lakes, each design offers an expression of European sophistication.

"What I love most about interiors is their ability to hold memories and emotion in such a subtle way, and that was something I kept returning to while creating this collection. The Amore rug is especially personal because the words are written in my own handwriting, inspired by all the little details I associate with my wedding at Lake Como."
