COLLECTION

CLEVER STORAGE, LIGHTING
WASTE & RECYCLING SOLUTIONS

Imagine a kitchen where everything has a home.

From the smallest spoon to the largest mixing bowl.
From the most precious china to the heaviest pans.
A kitchen that simply works.

WELCOME TO BEAUTIFUL ON THE INSIDE

Featuring the very best brands and products on the market, this magazine helps you make those hard-to-reach spaces a thing of the past, as well as making it easier to find those vital ingredients, and ensuring you never lose your favourite utensils again. Not only do the products featured bring you industry-leading quality and reliability; they also provide a taste of luxury to your day-to-day life in the kitchen! In simple terms, our inventive storage, waste systems and lighting solutions can make a good kitchen into a great one. It's our goal to ensure that your kitchen is as functional as it is attractive, or as we like to say: beautiful on the inside.

Clever storage solutions pay for themselves

Around 10 million tonnes of food waste is generated every year in the UK, at a value of over £20 billion! Reducing the amount of food you waste will save you money on your weekly food shop - meaning over a product's lifetime, storage solutions can pay for themselves again and again.

09

LARDER STORAGE

Our bedroom storage solutions transform cluttered spaces into functional, organised sanctuaries.

DRAWER STORAGE

Not content with revolutionising cabinet storage, we've set our sights on transforming the nation's kitchen drawers.

LIGHTING SOLUTIONS

Find out how considered lighting can completely alter the ambience of a home.

WASTE & RECYCLING

Learn why waste management and recycling doesn't mean compromising on kitchen aesthetics.

WHY THE INSIDE OF YOUR CUPBOARDS IS AS IMPORTANT AS OUTSIDE

EASILY ACCESS THOSE BULKY ESSENTIALS

Pots, pans, bread makers, blenders, toastie machines... your kitchen is full of large bulky items that can be tricky to store. Our clever corner solutions mean you no longer need to fight to reach the back of dark, inaccessible cupboards to get your hands on the items you need.

TAKE THE HASSLE OUT OF RECYCLING

It can be a challenge making sure paper, plastic and waste items are kept separate for recycling and not thrown away. Our multi-compartment waste solutions help you create a simple, spacious recycling system where items are easily divided.

REDUCE WASTE BY KNOWING WHAT'S IN YOUR CUPBOARDS

Our impressive full-height larders give you much greater visibility of your groceries, so you can quickly and easily find everything you need, without it requiring a serious rummage.

As our lifestyles get more and more hectic, it's more important than ever to have an organised kitchen, where your everyday essentials are accessible and close to hand.

Clever storage solutions save time and effort in the kitchen, making kitchen nightmares, such as inadequate space and food waste, a thing of the past.

Where to store those handy but cumbersome kitchen gadgets? How do you neatly keep that mountain of plastic storage containers in check? What's the best way to keep on top of the recycling? How do you stop wasting good food as it gets lost in those dark corners?

These are common problems in the kitchen and throughout this magazine you'll find all the wonderful ways in which we can help you tackle them, making your kitchen beautiful on the inside.

SHOW EVERYTHING IN THE RIGHT LIGHT

Choosing the correct lighting will not only make your space feel lighter and brighter, it can also add that all important wow-factor.

HIDDEN POWER SUPPLIES

Discreetly hide power supply outlets with our innovative solutions.

ORGANISED DRAWERS

Our trend setting drawer inserts are not only designed to house your cutlery and utensils, they also complement the style and look of your kitchen.

PLAN THE
PERFECT KITCHEN

Designing a great kitchen is a complicated task with many things to take into consideration. Storage is often overlooked, but the inside of your cabinets is as important as your door and drawer fronts.

KESSEBÖHMER

SYCAMORE

Gollinucci
DESIGNED FOR EVERY DAY

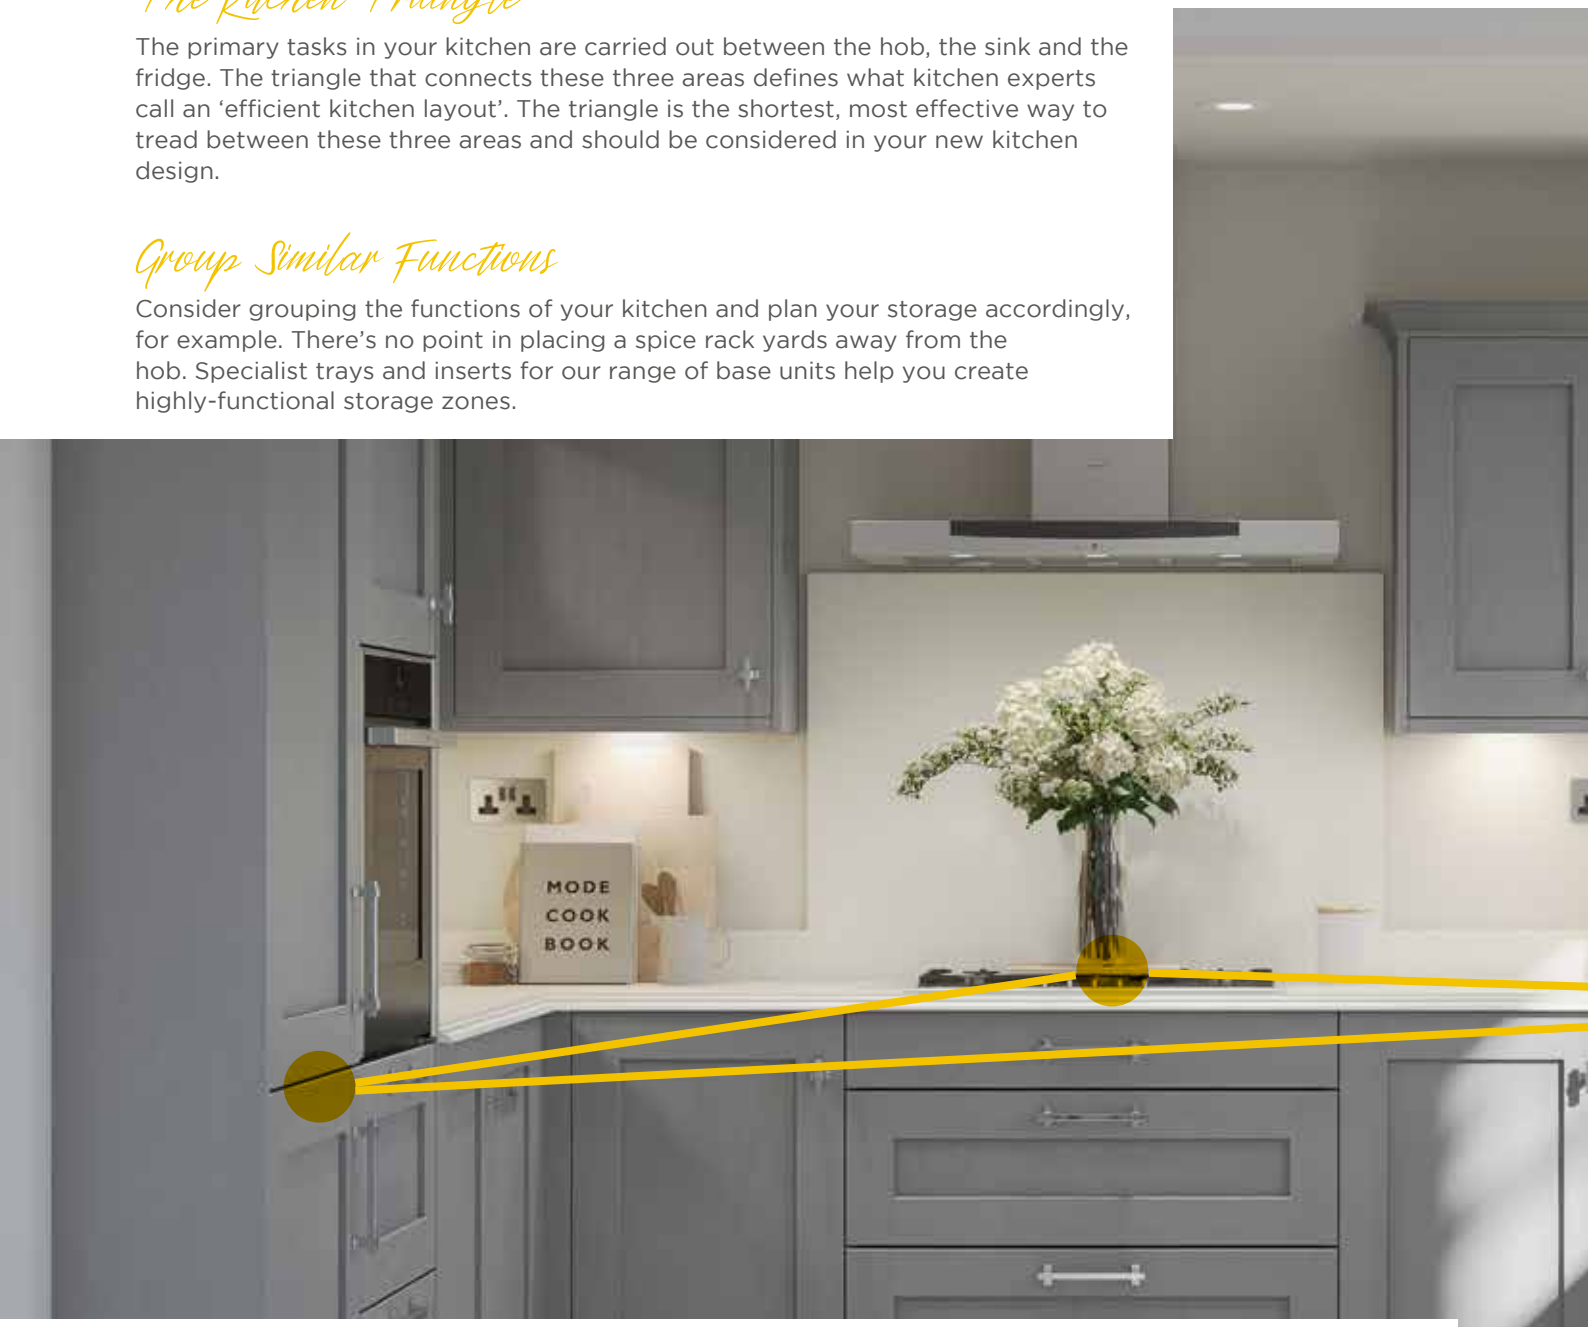
TOP TIPS FOR THE PERFECT FLOW

The Kitchen Triangle

The primary tasks in your kitchen are carried out between the hob, the sink and the fridge. The triangle that connects these three areas defines what kitchen experts call an 'efficient kitchen layout'. The triangle is the shortest, most effective way to tread between these three areas and should be considered in your new kitchen design.

Group Similar Functions

Consider grouping the functions of your kitchen and plan your storage accordingly, for example. There's no point in placing a spice rack yards away from the hob. Specialist trays and inserts for our range of base units help you create highly-functional storage zones.



The Perfect Serve

Try to imagine where you're most likely to serve up your meals. This is a great place to store your cutlery, plates and bowls. Take advantage of our wide range of drawer inserts to make your life easier and your serving perfect.

Don't be Afraid of Height

Many British homes enjoy high ceilings and utilising this extra space should be a priority in all kitchen schemes. For your higher cabinets, consider pairing doors that open upwards with the clever iMove unit from Kesseböhmer, which allows you to bring down the contents of high cupboards down to eye level.

The kitchen Triangle

ACHIEVE THE MOST EFFICIENT LAYOUT BY MAPPING YOUR 'KITCHEN TRIANGLE'

- THE SHORTEST ROUTE BETWEEN YOUR HOB, SINK AND FRIDGE.

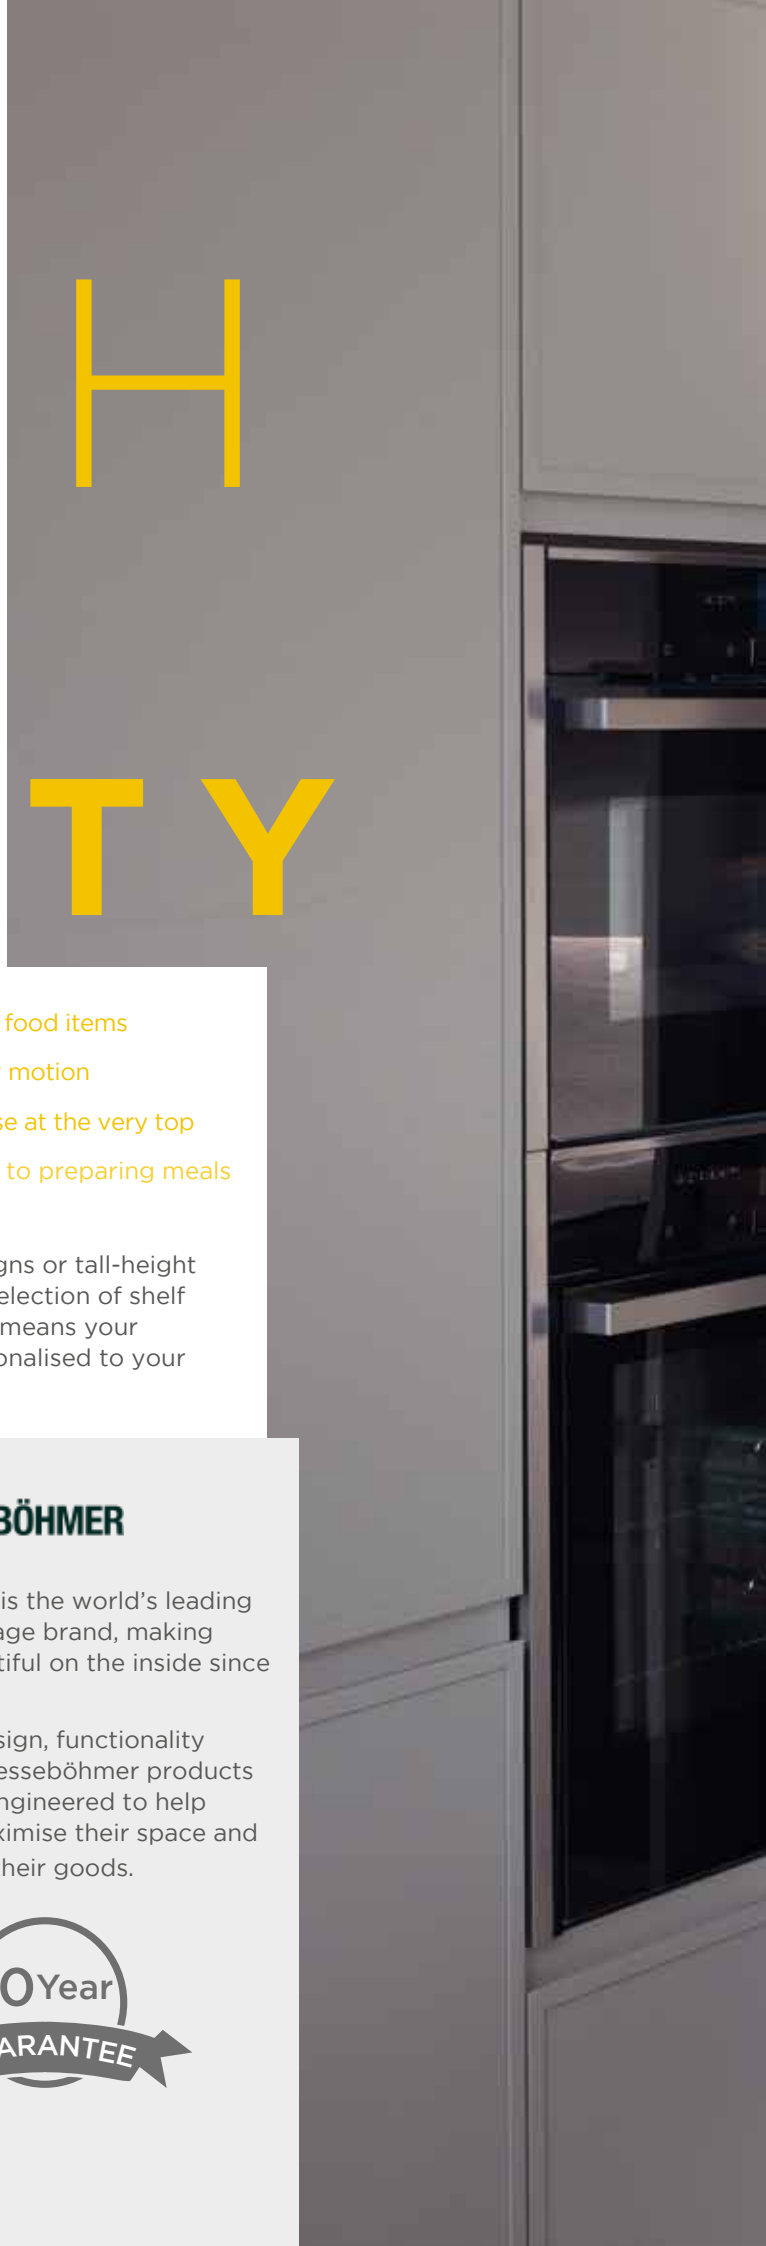
LARDERS

HIGH AND MIGHTY



✓ **Adaptability** Adjustable trays that can work around your food items

✓ **Accessibility** Reach every area of the cabinet in one easy motion

✓ **Visibility** Have a clear view of all your shelves – even those at the very top

✓ **Speed** Save time in all tasks from unpacking shopping, to preparing meals

Our larder range includes some of our best-selling storage solutions. From our Dispensa Larder, especially designed for 300mm & 400mm wide cupboards, through to our Tandem range for larger 500mm & 600mm units; we offer something to improve access and visibility of all your cupboards. finally, our premium Convoy range, which is essentially the Porsche of larders, offers a real "wow" factor to take your kitchen design to another level.

All our larders come with fully adjustable shelves, which means as your storage needs change over time, your larder changes with them. Need room for that extra-large family pack of your favourite cereals? No problem, your larder shelves can be adjusted to work around you and your needs.

Whatever your kitchen layout, we offer larder solutions to suit any kitchen design, including smaller studio-height designs or tall-height installations. Our selection of shelf styles and colours means your larder can be personalised to your style.

KESSEBÖHMER

Kesseböhmer is the world's leading premium storage brand, making kitchens beautiful on the inside since 1963.

Backed by design, functionality and quality, Kesseböhmer products are expertly engineered to help end-users maximise their space and easily access their goods.

10 Year GUARANTEE

DESIGNERS FAVOURITE

Lindsey Copperwheat,
TC Kitchens, Bedfordshire

> A larder decreases the risk of food items sitting for years at the back of the cupboard and going out of date!

DISPENSA LARDER

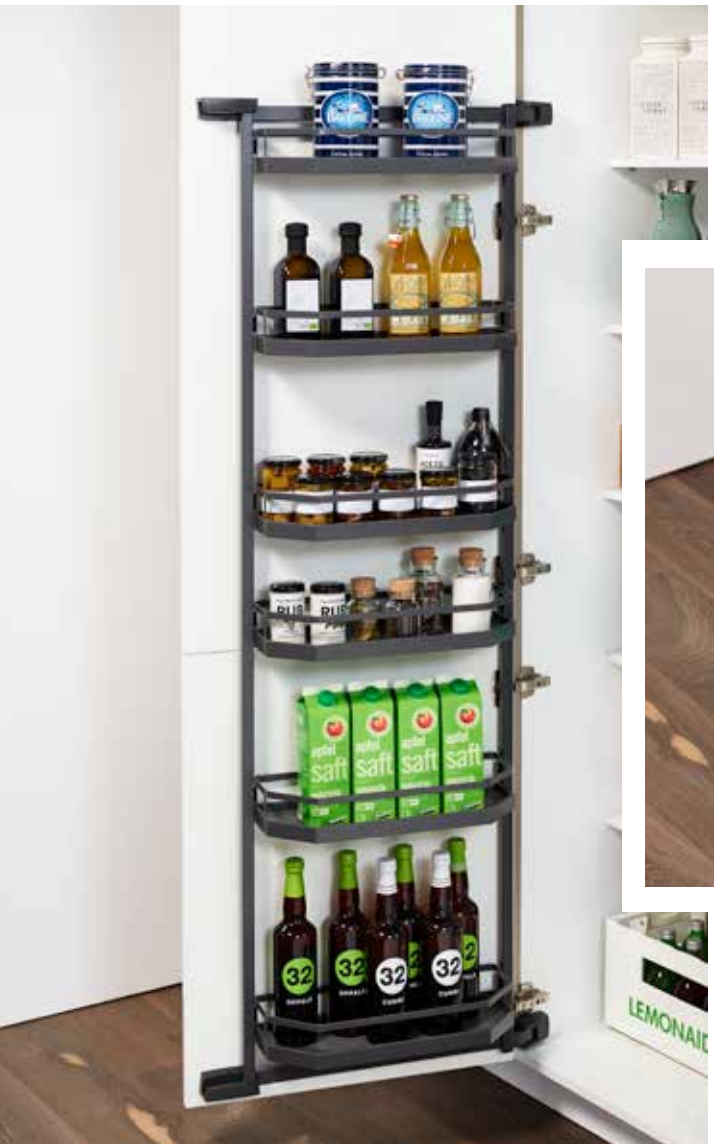
The unique design of our Dispensa Larder gives you access to your goods from both sides meaning all your food will be visible, even those items on the top shelf! Never again will you find out-of-date ingredients lurking at the back of your cupboard.

TANDEM SIDE ★★★

" The Modern Pantry"

Designed for use alongside traditional shelves, the Tandem Side is placed on the inside of the door in a tall height cupboard. It's the perfect place to house all your herbs and spices. If you've got the space, include two in side-by-side cupboards for a modern take on the traditional pantry.

Alternatively, a studio and base-heights design can be situated in your base units creating a handy place to store your tea, coffee and breakfast essentials.



TANDEMSOLO ★★★★

Our Tandem Solo offers immediate access to items. Unlike shelving, it offers complete transparency, even for wider cupboards. Open the door and the full contents will move towards you.

DESIGNERS FAVOURITE

Paul Davies,
Court Homemakers, Cleveland

> A Tandem Larder brings otherwise hard to reach items forward from the back of the cabinet so they can be easily accessed.

TANDEM LARDER ★★★★★

Inspired by the design of a fridge, no other storage product gives you such fantastic visibility of your groceries. Our Tandem Larders bring the rear shelves out to meet you, maximising the space available. In fact, our 600mm Tandem Larder will comfortably accommodate a whole week's worth of groceries.

CONVOY PREMIO

Convenience comes as standard with all Kesseböhmer products, but the Convoy range takes ease of use to another level. Providing unmatched visibility combined with vast storage space, convoy is a standout range. Available in a number of finishes, it is one of the most attractive storage products on the market. The ability to fine-tune each tray, with the help of our stylish inserts, makes the Convoy a fantastic addition to any kitchen.

Easy to adjust, a joy to use and highly flexible, Convoy represents the very best of Kesseböhmer in one, fantastic package.

DESIGNERS FAVOURITE

Lindsey Copperwheat,
TC Kitchens, Bedfordshire

"We love the smart and sleek design of the Convoy Premio. It allows safe and accessible storage for dozens of tins, packets, boxes and bottles. Not only does it provide accessible storage, it also helps with shopping lists and prevents over buying."

THE BEST WAY TO KEEP THINGS ORGANISED

BUILD A BETTER BASE-UNIT

Design your base units around the things you love doing most in the kitchen, whether it be cooking with fresh ingredients, baking special treats or making up cocktails.

Not only do our base units provide added functionality, the considered design of our standard 300mm or 400mm base unit trays also complements those used in our tall larder, so you can achieve a harmonious look throughout your kitchen.

These popular Kesseböhmer storage systems are designed to make your life much easier. After you've designed them into your kitchen, you'll wonder how you ever lived without them.

If you love cooking and experimenting with a wide range of different spices and infused oils, the 150mm Base Pull-Out is the perfect fit. Locate it next to your hob so everything you need is within easy reach when cooking.

Every kitchen needs help to keep those smaller items in check, ingredients in order and utensils in place. Our YouboXx system of storage boxes is a genius way to keep things organised. Compatible with both our Base Units and Larders, this clever system comes in several configurations to suit your needs.

150 BASE PULL-OUT
KBP150CH

DESIGNERS FAVOURITE

Amy Locke,
Kitchen Ergonomics, Hertfordshire

"The 150mm base pull-out is great for housing your oils and spices. It means they are close to hand whilst you're cooking at your new induction hob."

NO MORE
BLIND CORNERS

The innovative curves of the LeMans shelves allow them to smoothly glide out from inside the cupboard, bringing the whole shelf within easy reach.

As long as our houses are box shaped, we'll always have awkward corners to contend with. But dark and dingy corner cupboards are a thing of the past if you install one of our best-selling corner solutions. Both the aptly named LeMans and the equally clever Magic Corner utilise ingenious engineering, to bring the contents of the cupboard out to you.

The innovative curves of the LeMans shelves allow them to smoothly glide out from inside the cupboard, bringing the whole shelf within easy reach. The Magic Corner uses a similar conjuring trick by smoothly pulling out the entire contents of the cabinet.

Whichever you choose, you can be sure that scrambling around in blind, awkward corners is a thing of the past.

THE WORLDS BEST SELLING CORNER SOLUTION

KESSEBÖHMER

Tackle those tricky corners like a Grand Prix champion

LEMANS

DESIGNERS FAVOURITE

Lindsey Copperwheat,
TC Kitchens, Bedfordshire

"The LeMans turns a dark, back breaking, awkward corner, into an easily accessible area, where nothing gets lost or hidden at the back of the cupboard."

MAGIC CORNER

ACCESS ALL AREAS WITH **WALL STORAGE**

There is a Kesseböhmer wall storage product that will allow anyone, to access previously hard-to-reach areas.

Whether you're getting the kids interested in cooking from a young age or making sure that Granny can still reach her favourite biscuits, there is a solution for those high hard-to-reach areas. Not only do our smart storage systems suit those less able, they also ensure that everyone can maximise every last millimetre in their kitchen, meaning less wasted space.

iMove

Our clever iMoves bring the contents of the cupboard down to you so the full space comes into play. This is great if you've got high ceilings or you're not so keen on using a stool.

Lifters

The doors on your wall units don't have to open outwards. A lifting system can lift wall cupboard doors up and open much more smoothly and efficiently.

DESIGNERS FAVOURITE

Lindsey Copperwheat,
TC Kitchens, Bedfordshire

"We were very excited when the iMove storage unit came to the market. It's ideal for our customers with children and those who struggle to reach the top shelves. Many kitchens are now designed with tall wall units, however reaching that top shelf can be a challenge."

YOUK **SHELVING**

YouK by Kesseböhmer is a flexible, innovative shelving system to create bespoke wall units for any room in your house. Featuring an on-trend, industrial powder-coated black finish and an open, linear design, YouK can add a contemporary feel to any space.

PLANNING A BETTER *Bedroom*

For decades Kesseböhmer have been the global leader in innovative kitchen storage products, so we were delighted to see them launch their first ever comprehensive bedroom storage range, including contemporary glass fronted, velvet lined drawers, the world's first pull-down clothing rail with an integrated shelving unit and more.

Their pull-down solution (suitable for double wardrobes of all sizes) doesn't just give far better access to higher hanging rails, but also creates an additional deep shelf in an area which is an otherwise wasted space – and who wouldn't benefit from extra room in their wardrobes? A standard pull-down rail is also available without the additional shelving element.

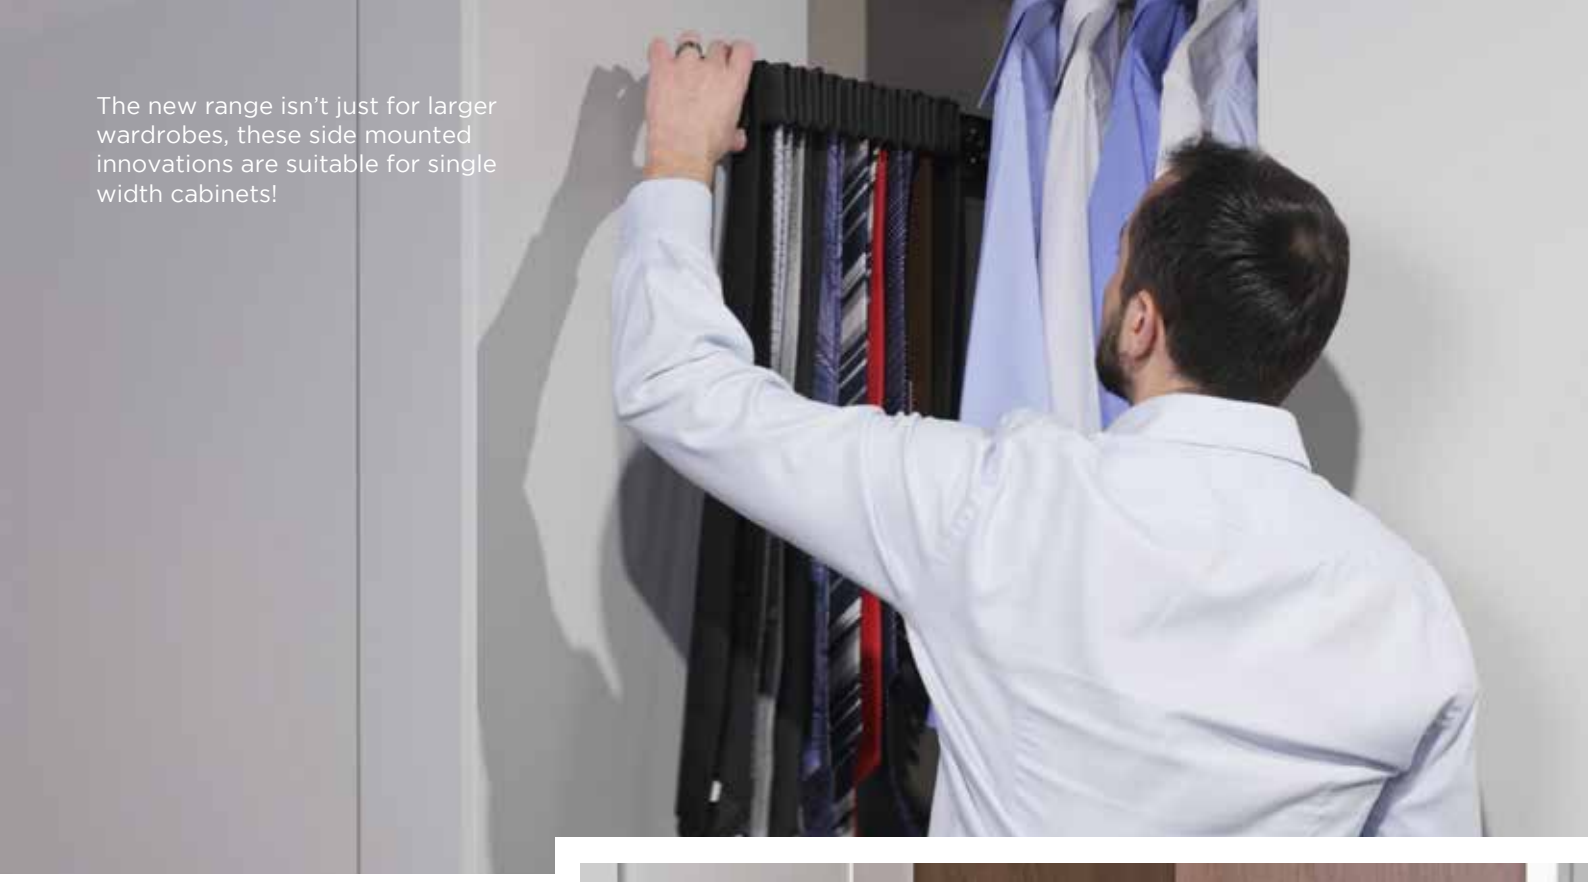
Pull-down

From packing away the ironing to deciding what to wear, seeing and accessing what's inside your wardrobe isn't always easy when using lower hanging rails (especially those installed under shelves). That's why we were so pleased to see the pull-out organiser from Kesseböhmer in their new bedroom range.

It's not just about easy access, their cleverly designed hangers are uniquely shaped to separately hold 2 pairs of trousers each, and even when loaded to its huge 33kg weight capacity, the system works beautifully, lightly and smoothly.

The system is also compatible with an integrated laundry basket.

The new range isn't just for larger wardrobes, these side mounted innovations are suitable for single width cabinets!



From shoes and ties, to cufflinks and watches, if you're thinking about a perfectly organised wardrobe, you have to find a home for those awkward accessories too, and with these side mounted pull-outs (also available with tray elements), you can ensure you're maximising the space, visibility, and accessibility of your entire cabinet!

A PLACE FOR EVERYTHING

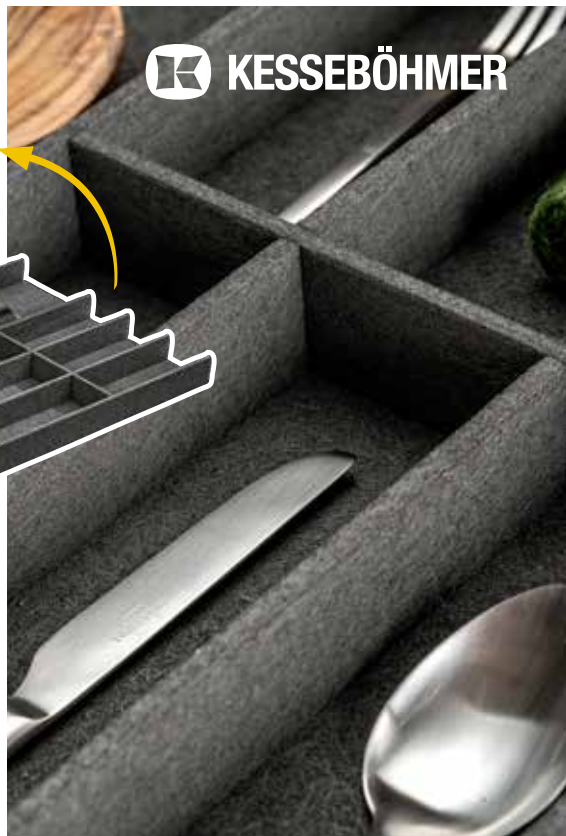
Not content with revolutionising cabinet storage, Kesseböhmer set their sights on transforming the Nation's kitchen drawers.

Advances in kitchen design have seen drawers come in a dazzling variety of shapes and sizes. Being able to look down on the complete contents of a drawer is hugely time-saving and also means that the need for proper organisation is paramount.

We've developed a huge range of accessories to help you keep your kitchen drawers functional and fit for purpose. As well as a wide variety of tray inserts, we offer knife blocks, chopping boards, foil and film holders, handy removable plate racks and a range of highly modular timber inserts that make every drawer as good to look at as they are to use.

ENVIRONMENTALLY FRIENDLY SOLUTIONS

Kesseböhmer OrganiQ drawer organisation inserts are made exclusively using hemp and other grasses.



MIX AND MATCH YOUR INSERTS

Knife Block

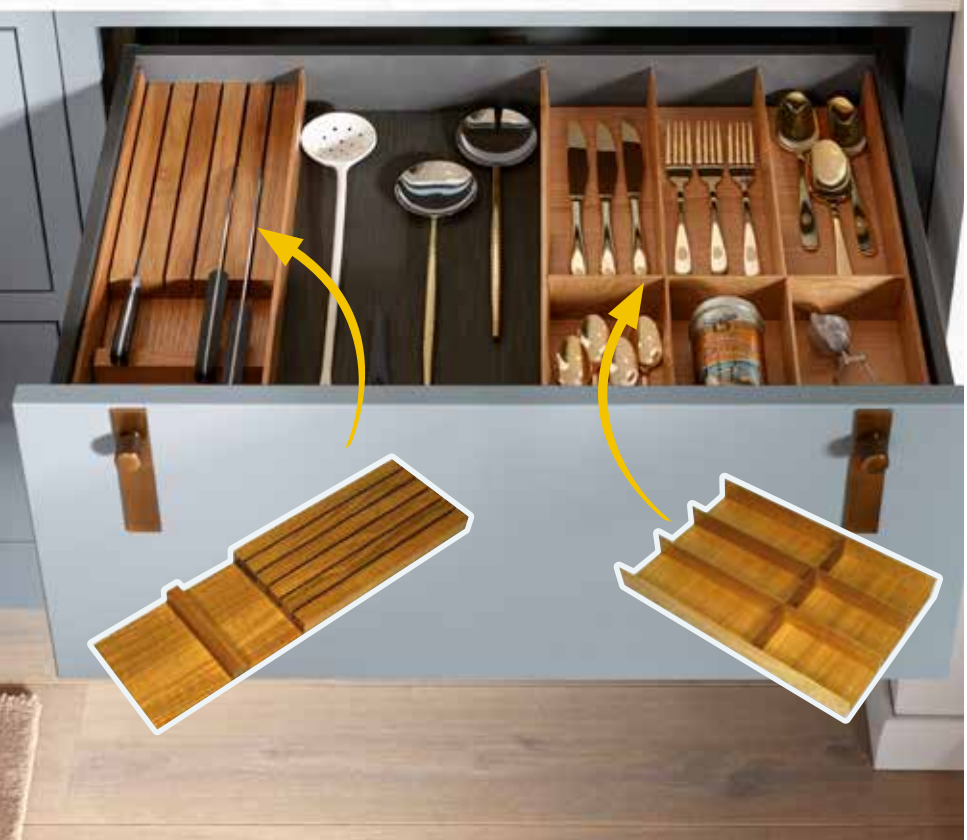
Gollinucci
DESIGNED FOR EVERY DAY

Drawer inserts infused with Italian style

Our range of Gollinucci drawer accessories allow you to bring great functionality to your drawers, including knife blocks, chopping boards and foil and film dispensers, as well as the more usual cutlery dividers. These durable anthracite plastic inserts can be cut-to-size to allow them to fit most drawers.

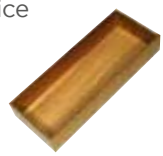
OVER 12 DIFFERENT CHOICES OF INSERTS

You can make hundreds of combinations to suit your requirements



KONFIGURE BY KESSEBÖHMER

Our range of Konfigure drawer inserts allow you to make every drawer unique, as well as useful.



Konfigure from Kesseböhmer offers almost infinite possibilities for organising your drawers. Available in warm and hardy oak, the range includes knife blocks, individual cutlery trays and spice holders. Each element can be easily moved to help you create the perfect mix of style and practicality.

Ask your Kitchen Designer about our full range of Konfigure options.

STORAGE TAKES A TURN

Turnmotion III

Easily see what's at the top of your cupboards with a rotating shelf.

The Kesseböhmer Turnmotion III is a simple but fantastic innovation which fixes on the shelving of high cupboards. Its rotating design allows you to easily view your whole space meaning all items are in reach.

KESSEBÖHMER

NO MORE TROUBLESOME TUPPERWARE

SpaceFlexx

The Spaceflexx is a new, unique solution to combatting chaos in the tupperware drawer.

It's a common conundrum "How can I organise awkward tupperware?" This new and innovative Kesseböhmer SpaceFlexx system easily solves these issues by employing high performance textile bands to nest any size and shape of storage container securely in place, in sight and always easily accessible.

YOUR HIDDEN POWER

BackFlip

Sits nearly flush on the worksurface.

At a touch of a finger, it turns 180 degrees to reveal two power sockets and a USB charger - giving you instant accessible power when you need it.

Socket Port

Flush and fully retractable; This handy unit provides a perfect solution for those who need accessible power on kitchen islands and worktops.

LIGHTING THE WAY

Lighting is no longer an afterthought; considered lighting can make all the difference.

In selecting the most appropriate lighting for the various tasks being carried out in your kitchen, a good place to start is considering these three key lighting environments:

TASK LIGHTING

Task lighting provides effective light to undertake everyday activities, such as food preparation. Perfectly positioned, task lighting makes the kitchen an efficient working space.

MOOD LIGHTING

Also referred to as feature, decorative or accent lighting, mood lighting is used to add dimension and depth to the room in order to create atmosphere and provide personality.

SYCAMORE

5 Year GUARANTEE

SycamoreLED.com is a market leading manufacturer and supplier of LED lighting and control systems to the KBB market and lighting sectors. Established in 1998, Sycamore has built a strong reputation for offering unrivalled customer service and innovative products.

CONVENIENCE LIGHTING

Convenience lighting has a more specific purpose. It is directional and intended to be focused towards a specific area or to be used for a particular job in drawers or in cabinets.

UNDER CABINET LIGHTING

Cabinet lighting provides the ultimate task lighting to illuminate your worksurfaces without the need for bright, dazzling ceiling lights. Strip lights provide diffused, unbroken light whilst spot lights create the perfect balance of ambience and enough illumination for your daily tasks.

SHELF & DRAWER LIGHTING

Internal shelf and drawer lighting is the perfect solution for providing quick night-time lighting right where you need it, without turning on your bright ceiling lights. Opt for a solution with an inbuilt motion sensor for further energy savings.

FLEXIBLE STRIP LIGHTING

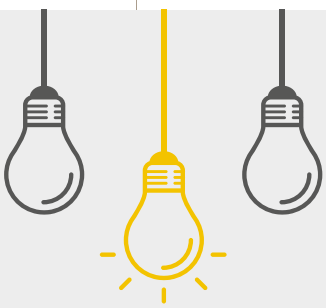
Flexible strip lighting creates a relaxing mood, and is perfect for highlighting your features and furniture. We even have strip lighting options which can alternate between 7 colours!

PLINTH LIGHTING

Trim your plinth with serene mood lighting to illuminate your floor, whilst adding depth and dimension to the room. Plinth lights are perfect for creating low-light situations to help you relax and complement your kitchen aesthetics in the evenings.

ALL OF THE ABOVE CAN EASILY BE CONTROLLED BY

- Light switch
- Remote control
- App
- Motion senses cabinets.

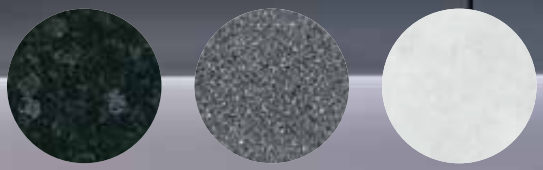


WARM WHITE
VS
NATURAL WHITE

NATURAL LIGHT

Natural light lighting can perfectly complement a monochrome, neutral, or minimal palette.

Natural lighting can perfectly compliment a monochrome, neutral, or minimal palette.



Lighting is no longer just an accessory, it's a necessity, and creating a tailored lighting plan in the early stages of your design can help transform your space in terms of style and functionality.

Our retailers are there to help you make those all-important lighting decisions- but if you're looking for inspiration, here are some of the key design elements to consider.

WARM WHITE

Warm white lighting pairs beautifully with deep, rich tones and woodgrains for a welcoming aesthetic.

Warm white lighting pairs beautifully with deep, rich tones and woodgrains.

WASTE AND RECYCLING **MADE EASY**

Gollinucci
DESIGNED FOR EVERY DAY

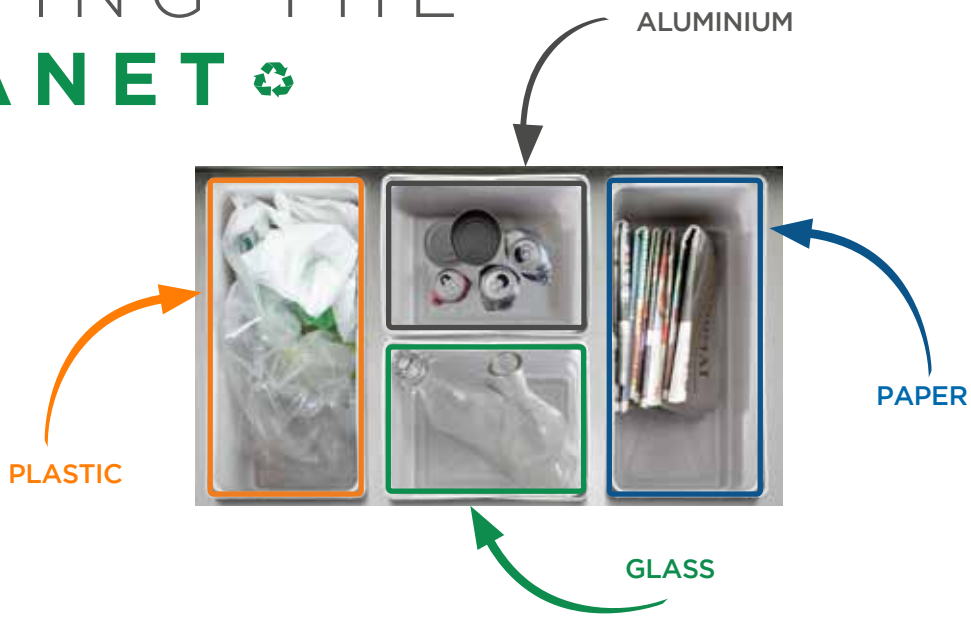
With a market-leading choice of capacity and compartment combinations you'll be able to find a waste bin which perfectly suits your new kitchen design.

Our top-quality, multi-compartment bins make it easier for you to keep on top of sorting your waste.

Available in a variety of colours and designed to fit a wide range of units, our bins are the perfect way to keep your new kitchen clean and tidy.

The days of unattractive pedal bins cluttering up the corner of kitchens are a thing of the past; bins have moved on and ours are designed around modern lifestyles. Include one of our waste systems in your new kitchen to keep waste and recycling hidden behind closed doors rather than on display for a cleaner, more hygienic environment.

SAVING THE PLANET



What can & what can't be recycled?

Take the guesswork out of your home recycling by getting to know packaging labels and recycling symbols. Common on most everyday items, these symbols help us to identify if and how different types of packaging can be recycled.

As local authorities do not collect the same materials, the labels are based on what the majority collect, or do not collect.

Know your icons

Pin our handy guide to your fridge so you're always sure about what can and what can't go into your recycling bin.

Widely Recycled

This label is applied to packaging that is collected by 75% or more of local authorities across the UK, for example plastic bottles.

Widely Recycled - Rinse

Rinsing packaging, for example food trays, ensures that any food residue doesn't contaminate other materials, particularly if they are collected together with paper.

Bottle - Widely Recycled, Sleeve - Not Yet Recycled

Remove sleeve – depending on the packaging it can be good to remove the outer sleeve. For example, a paper sleeve that is wrapped around a large yoghurt pot can be removed and recycled with paper.

Check Locally

This label is applied to packaging that is collected by 20-75% of local authorities across the UK, for example some types of plastic packaging.

Not Yet Recycled

This label is applied to packaging when less than 20% of local authorities collect it across the UK, for example, crisp packets.

Visit www.recyclenow.com for more information, further top tips on recycling and to find out what you can recycle at home in your local area.

Recycle Now is the national recycling campaign for England, supported and funded by Government, managed by WRAP and used locally by over 90% of English authorities.

DESIGNERS FAVOURITE

Lindsey Copperwheat,
TC Kitchens, Bedfordshire

"With a variety of sizes available, these bins allow our customers to sort their waste, as well as keeping smells contained and the kitchen tidy."

DID YOU KNOW?

60%

OF RUBBISH THAT ENDS UP IN YOUR BIN

COULD BE RECYCLED

AROUND **95% LESS** ENERGY IS USED TO MAKE PRODUCTS FROM RECYCLED MATERIALS THAN USING RAW MATERIALS

MAKE AN IMPACT

DID YOU KNOW?

Everything from shower gel, shampoo, washing up liquid and bleach bottles can be recycled as well – so put them all in your recycling bin!

12.5 MILLION TONS of paper and cardboard are used annually in the UK.

Recycled paper produces **73% LESS AIR POLLUTION** than if it was made from raw materials.

If all cans in the UK were recycled, we would need **14 MILLION FEWER BINS.**

It takes 24 trees to make **1 TON OF NEWSPAPERS.**

Each UK family uses an average of **500 GLASS BOTTLES & JARS ANNUALLY.**

DID YOU KNOW?

It's not just cans and tins you can recycle, kitchen foil and even empty aerosols are recyclable too.

Plastic can take up to **500 YEARS** to decompose.

275,000 TONS of plastic are used each year in the UK, that's about **15 MILLION BOTTLES** per day.

Glass is **100 %** recyclable and can be used again & again.

£36,000,000 worth of aluminium is thrown away each year.

GLASS THAT IS THROWN AWAY AND ENDS UP IN LANDFILL **WILL NEVER DECOMPOSE.**

DID YOU KNOW?

Alongside newspapers and magazines, you can also recycle envelopes, letters, cards - even toilet rolls.

We currently save enough energy from recycling glass **TO CHILL 34 BOTTLES OF WINE EACH DAY** for every UK household!

The largest glass furnace **PRODUCES OVER 1 MILLION GLASS** bottles and jars per day.
