PRAGAT GLOBAL

PRAGAT GLOBAL is no different.
We stand with a simple vision
to connect global supply chain.

www.pragatglobal.com

PRAGAT GLOBAL is no different. We stand with a simple vision to connect global supply chain experts with customers to build trust through quality, and responsible trade.

As global demand for sustainable agricultural products continues to grow, we recognize the need for an export partner that values consistency, transparency, and long-term relationships. This vision inspires us to build PRAGAT GLOBAL as a company focused on delivering premium organic products that meet international export standards.

- Premium organic products meeting international export standards**
- Consistency, transparency, and long-term relationships**
- Trusted export partner for global buyers**
- 100% organic and sustainably sourced products**

Our Mission

To be the gold standard for quality in organic agro exports, delivering premium products that meet international standards while building lasting trust with global partners through transparency, consistency, and responsible trade practices.

Our Vision

To become the most trusted global export partner for premium organic products, connecting supply chain experts with customers across continents through quality, transparency, and responsible trade that creates lasting value for all stakeholders.

Organic Cow Dung Powder

Premium Quality Organic Cow Dung Powder Made From Naturally Processed Cow Dung, Rich In Essential Nutrients For Healthier Soil, Improved Plant Growth, And Sustainable Agriculture. Ideal For Bulk Export And Commercial Farming Applications.

Pragat Global is a trusted exporter of premium-quality Organic Cow Dung Powder, carefully processed from natural cow dung using hygienic production methods. Rich in essential organic nutrients and beneficial microorganisms, our cow dung powder helps improve soil fertility, enhance plant growth, and support sustainable farming practices.

Designed for international markets, our export-grade product is widely used in organic farming, horticulture, nurseries, landscaping, and agricultural applications. Every batch is processed under strict quality standards and packed with export-grade packaging to ensure product safety during global transportation.

At Pragat Global, we are committed to delivering consistent quality, reliable supply, and customized export solutions that meet the diverse requirements of buyers worldwide.
