With the excitement of the BBU Convention in mind, H Bar Ranch wanted to go big on their 2026 offering by giving the breed a shot at the very first offering of new super sire, CJ King. In true Hendrix fashion, Greg not only offered up a King daughter, he's provided you a pick of the very best available. The A heifer here needs no introduction, a quick view of her donor dam spells it out as simple as possible in black and white – DESTINY. Beyond being polled and gorgeous, this female boasts top 4% YW, top 2% REA, top 10% IMF, and a whopping top 3% \$T of 138. Here is the next big time donor you've been waiting for.

Just when you think H Bar made this pick a soft toss, Greg throws you a curve ball with King on Solution's Portrait. The amazing Solution's Portrait currently reigns as the highest selling Collier female to date at \$100,000 and this absolute doll emphasizes why elite donors are worth the money. From bone and dark red color, to mass, volume, and true maternal appeal, this future donor has it all. Study the massive WW pushing 800 with low BW of 68 and \$T in the top 3%. We've been watching this one come up in the pasture since she arrived and only gets better each day.

King delivers big again here and we do mean BIG. This massive made heifer could easily have the most volume to date of any female coming out of the H Bar program. One will instantly appreciate the spring of rib, overall capacity, and true muscling all while combining it with dark red color and polled. A review of her bottom side will explain it all when you see legendary donor, The Picture Cow, up close and personal. TPC delivers both herd bull power and donor female longevity and passes that along with some of the most feed efficient and fleshing ease genetics to be found. Here is the future of the breed.

Oh my oh my! It's King on Flint Rock and Red Queen! Consider the maternal greatness offered here. Consider the influence and value across the breed that has come from Red Queen and Queen of the South. It's truly remarkable to consider the value of maternal genetics and proven herd sire production found in these lines. Now throw in that both parents are Homozygous Polled and this girl is destined to be the same. With her amazing design and incredible EPD profile this female yields nothing to her A-C pick counterparts. Don't wait around for H Bar to sell more than one, you will have to wait until next June to get a shot at any of these again!

From the donor of our BBU convention lot comes another outstanding open heifer prospect from JBBA member Hazel Agnew. This gorgeous red James Bond daughter pushes up performance all while staying soft, sound and functional to create the kind of mama cow we all need in the pasture. On the bottom side, this doll brings in Kid Rock and Tank's Mama to add a star-studded lineup of Pacesetter dams to the pedigree and high selling genetics showcased at the BOF events. The moderate BW of 69 and strong WW growth enhance her strong \$T index and high Milk EPD.

Over the past year and a half, one of the most impactful buyers throughout the industry has been Clark Winslow and Big Cypress Ranch. With the acquisition of countless high caliber females, Clark and Big Cypress are just beginning to turn out some of their first production with outstanding females like this New Genesis daughter. Dark red, perfectly designed, and polled were to be expected with Red Revolution and Bet on Bubba covering the bottom side. Her strong performance measures and solid \$Index values make this female easily desired by any program in the industry. Add in that she's amazingly gentle.

As one of the co-owners of the great Daybreak bull, it was only fitting that Bill Botard of Triple B Beefmasters would entice us with one of his best for the 2026 BBU Convention. This broody yet elegant female could stroll down any fashion show catwalk showing off the kind of stuff she offers. With a polled package and great lines this female brings in strong Collier genetics on bottom including Picture Perfect to pair up with Daybreak. This phenomenal female was scanned just outside the window but had an incredible actual REA of 14.99" and IMF of 5.82%!

All the way from the Rio Grande Valley to the mountains of Reno, Santa Ana Ranch has brought us a super long made and clean lined daughter of the great

McDiamond bull. Of course McDiamond puts together Magnitude and Diamond Pearl for one of the most unique genetic masterpieces in the industry, but when adding Knockout Coffee to the bottom it gets even better. This darling polled female arrived at a tiny 51 pounds and bloomed into a big beautiful female with a 9+ inch REA and IMF of 3.5%. Don't miss her great \$M index adding to the value.

When you think Creedmoor, you instantly think about long flowing lines and great angle but you rarely think BLACK. This absolutely stunning black female delivers everything we love about Creedmoor and does it with Codigo and Jasmine on the bottom side. From a conformational standpoint, it would be hard to stand in the show ring against this beauty. Then when CWL threw in top 1/3 \$M values and impressive actual growth and scan data, this one is hard to pass. Think about the black outcross potential in this unique breeding piece.

Leonidas and Genesis and Destiny, oh my! Outlier Cattle hits hard here with a mega-strong polled female out of their Destiny daughter donor and one of the most consistent bulls from the NG program. Yes, we can talk about her looks and pedigree all day but let's dive straight into the numbers. From her moderate birth weight and strong individual growth, this female bloomed into a massive carcass queen with a 12" REA and 3.5% IMF. If that alone isn't enough, dive into the \$Indexes to find a top 1% individual in both \$T and \$M. This kind of data in a beautiful polled female is absolutely incredible.

Legendary females come from legendary programs. L2 Ranch dug deep into their keeper pen to offer the next great L2 donor prospect at the 2026 BBU convention. As expected, this super long topped female has the perfect conformational design and structure that only comes from generations of planned matings. L2 Crimson and Sweet Britches combine to generate this big ribbed and thick ended female with world class pedigree and unmatched consistency. These are the kind you build your program from today to create certain success in the future.

From Walking M Cattle, Brien shows us they can do it too in California by taking some of the breed's most proven genetics and pairing it up. Custom Made on Standing Ovation brings in the polled power of Enforcer and blends it with the unrivaled consistency of Madam Secretary. Bravado and Madam Secretary have been one of the legends at Collier Farms and now Standing O back with one of the best Lyssy bred bulls of all time has created this unique polled female with look and strong EPD profile. Watch her close.

V-Seven Beefmasters could have easily built their entire program from Kingston and 711. This big, broody, polled female has the conformational consistency one would expect from Kingston and blends it with Fusion and Painted Tiger x Clementine on the bottom side. Then take Cool Cowboy with New Dimension and Endless Oasis on top and mix with the great Princess Jackie to get this super predictable female with big IMF measures and a balanced EPD profile.

All the way from Florida to Reno (via video) comes an outstanding female from Goodwin Beefmasters. David and family have been laser focused over the past few years on creating some of the most modern cattle in the industry with that special Beefmaster look we all love. This female is an easy home run straight from the Lyssy playbook with Diamond Rolex and Karma back over Enforcer. She has the looks, the polled, and the huge numbers for both carcass scan and \$Indexes. Top 15% for both \$T and \$M with a top 3% IMF EPD.

It's well documented that Vivid Oasis

is one of the most productive Oasis

daughters of all time and probably

one of the breed's best donors ever.

It was no surprise that a daughter

like Simply Vivid would rise to the

occasion and carry on the Oasis and Vivid O legacy. Leonel Lopez and Cross L Beefmasters

went straight to their best for the 2026 convention and grabbed this stunning Magnifico

daughter by Simply Vivid. Imagine combining Diamond Pearl and Vivid O up close in a polled

performance package to create a masterpiece that could be all yours. Outstanding \$T and

\$M values in the top 25%.

When we talk about all-time great maternal genetics, it's easy to list L2 and Cottage Farm females at the top of the list. Then when you talk about incredible individual producers, the great Belle cow is a quick pick. So it was destiny when Neal Hiatt at Hiatt's Diamond H took L2 Crimson and flushed him to Belle to achieve this undeniably attractive female that delivers polled, performance, and predictability all in one package. From her low birthweight and big milk EPD to strong growth and solid indexes, this doll is one everyone will have circled. My name for her would be HDH Endless Possibilities!

Please don't tell Elton Landry at ProVentures we are selling this pick! Joey let me slip these supermodels out the back door and put them in the 2026 convention as a pick that will definitely get your attention. Unico on Mon Cherie is one of those super elite matings putting the most stylish and productive lines in the breed together in one package. From great indexes and strong individual measures to her gorgeous flowing lines, these polled beauties are the kind everyone wants to keep for themselves. The A heifer here boasts top 10% \$M and a 3.5% IMF.

It's easy to see why ProVentures didn't want to let these true donor prospects go. Unico was the #1 AI sire in 2025 because of his uncanny ability to create show ring style with true growth performance and maternal excellence. Mon Cherie brings in Madam Secretary and Superior 8 up close to ensure consistency then Bebe brings in the style. This is a tough pick. The A has the flow and higher \$T and the B heifer has the better mass and capacity and YW. With both heifers being polled and perfect solid red, it's personal preference, but don't wait for both to sell. Elton's gonna definitely keep one of these donor dolls.

The boys from Carolina are not to be outdone in the 2026 BBU convention. Jeff McQuaigue at Triple M Cattle went big here in this powerhouse bred Bernard daughter back out of his MacBelle donor. Combining the style of Ring of Fire and Moneymaker with the performance and McAlester and the predictability of Belle was an easy decision. Study the length and rib shape in this super easy fleshing female with great EPDs and big indexes. When you consider that she is polled and bred to the new Breakthrough bull, a Daybreak son, it's easy to want this one for your pasture.

It's big carcass time with Beck Creek Ranch. Mark and Janan Moore let me pick this deep made, super cow, polled Picasso daughter for the 2026 convention.

It's easy to like the great lines and strong conformation, but when you study the giant REA of nearly 12" and high IMF of 3.7% on this strong numbered girl, she's an easy pick. Picasso is quickly raising the bar for both growth and consistency which was expected by the high grading, high selling bull at the Collier Farms bull sale. AI bred to CB Roc Star and cleaned up with NG Moose, both LBW polled semen sires over at H Bar Ranch.

From bone and length to rib shape and a stellar front, you will quickly be drawn to this impressive Brazos daughter from the Siptak Family over at SCS. Shane and Marsha have put numerous heifers in the winner's circle over the years by combining conformational excellence with down home dependability. Brazos is quickly rising to the top of the breed for creating depth and functionality in his progeny and this stout made girl brings in Logan and Tiger Baby on bottom for even more predictability. AI bred to Unico on June 1 to create even more potential in the belly.

At first glance, the first thing that will come to mind when appraising this female is mass. Alan and Kayce Wright at AK Beefmasters know that breeders want power in their mama cows and this girl's got it all. Gulf Stream is known for fleshing ease, volume, and growth, while Brock and Madam Secretary deliver the style and predictability. This superbly bred female has extremely strong \$ index values in the top 30% and an impressive scan with actual REA of 12.53 and IMF of 4.3%. Bred up to V3 Gunnison, an LBW CF Industry son.

Elegant pairs are what the Beefmaster breed is known for and no one does it better than Collier Farms. Each year, Mike and Rhonda Collier allow the breed to pick from some of the fanciest pairs in the industry at their annual Advantage Sales. This time, they held back one of the best ever offered with this 3N1 for the 2026 BBU convention. Unico and Picture Perfect need no introduction. These highly proven breed leaders have created a unique polled female with the best maternal lines available. From Penelope and The Picture Cow to Bebe and Logan's Bengal Baby, breeders have a chance to put the best from Collier Farms into their herd. Then study the gorgeous heifer calf at side to showcase what this true donor prospect can do on her very first calf. For even more productive proof, this elite female is bred back 6+ months to new semen sire CF Bolt Action, creating additional value. The lucky new owner of this future donor will be able to work her this winter season for a quick turnaround on their money.

Collier Farms is retaining one flush or IVF aspiration at the buyer's convenience with Collier Farms paying all related expenses. To be done at mutually agreeable time and facility.

The industry is on fire for elite polled super sires with incredible EPD data and actual performance. In the spirit of the 2026 Winning Hand sale, Valor Cattle Co is offering up one of the most exciting herd sire prospects of the year. Built from performance lines, this NG Odyssey son started out low birthweight as predicted by his top 10% birth weight and calve ease EPDs originating from Game On. He then went on to smash the scales with a crushing 830 lb weaning weight and 1169 lb yearling weight, again as suggested by his top 3% WW and 5% YW EPDs. When his carcass was added in, this heavy muscled stud marked an REA pushing 13" and IMF over 2 that ratioed 130 with moderate rib fat. Once combined, Valor 2183N indexed a \$T of 136 in the top 4% and a \$M of 32 in the top 3%. With performance sires like Enforcer, SirePro, Game On, and Ring of Fire, this homozygous red polled performance sire is built for the future of the industry and destined to create big revenue for his new owner.

Lot 31: PICK OF DONOR

The key to success for any registered operation is consistent quality. But, that kind of consistency only comes from highly proven maternal lines. With that in mind, Lyssy Beefmasters has committed to the advancement of the breed by offering up an unprecedented opportunity for the 2026 BBU Convention sale. For the first time ever, Lyssy Beefmasters is offering a pick of IVF aspiration or flush on any female in their donor herd! Instantly, progressive and visionary breeders will jump at an opportunity like this to try their hand on some of the most productive females in the Beefmaster industry. Imagine the possibilities that could be created from a long lineup of highly proven donors and any one of the new super sires of the breed. A smarter breeder looking for a proven return on investment may just replicate one of the high dollar combinations that Lyssy Beefmasters has already mastered. Either way, the potential for certain success is as high as it gets and only the lucky buyer of this lot will have the key to unlocking their own future success.

Lyssy Beefmasters will provide the chosen donor to be flushed or IVF aspirated at Lyssy Beefmasters/South Texas Reproduction Services under the direction and control of Lauren Lyssy. Lauren will make recommendation of process type based on previous production of selected donor. All costs associated with flushing or aspirating donor will be at buyer's expense. Lyssy Beefmasters will guarantee a minimum of 6 transferable grade 1 or 2 embryos. Failure to meet minimum will result in a prorated discount or second flush/IVF aspiration per Lyssy Beefmasters decision. Donor selection to be made within 30 days of purchase and process to donor must be completed by end of calendar year 2027 depending on calving date and availability of donor for processing.

Beefmasters

Lot 32 (A-D): PICK OF FLUSH

At Rocking RB Cattle, owners Camaron and Erin Cox are focused on the future of the Beefmaster industry and through their advanced embryo transfer program, have quickly risen to become one of the leading programs in the breed. Beyond the creation of outstanding product, Camaron and Erin are dedicated to the future successes of their customers as well. With the goal of customer support and breed loyalty, Rocking RB is offering a pick of flushes for the 2026 BBU Convention sale. This exclusive pick will feature some of their most proven donors as well as some of their upcoming stars, but the choice will be yours. The buyer of this lot will get to choose from the highly proven Queen Annabelle and Solution's Diamond or the exciting new ladies RB Icon and RB Hot Topic. From super proven and legendary pedigrees to hot new polled performance genetics, this pick has something every breeder will want for their program.

Rocking RB is guaranteeing a minimum of 6 transferable grade 1 or 2 embryos via IVF aspiration or traditional flushing at Rocking RB's option. Rocking RB will provide access and transportation of selected donor to TransOva Genetics in Bryan, TX or other mutually agreeable facility. All costs associated with process with exception to freight will be at buyer's expense. Process to be completed at a mutually agreeable time in the next calendar year depending on when donor is available per calving status. If donor fails to produce minimum amount of embryos, seller may choose a prorated refund on embryos not made or proceed with a second embryo collection process.

Elite donors and programs are the result of uncommon vision and relentless discovery. At NextGen Cattle Co, finding those rare individuals in the industry is one of their greatest achievements. One of their most recent finds lies in their exciting new donor prospect NG Flawless Diamond 2031N. This rare jewel boasts extreme performance, an unmatched EPD profile, and incredible structural design and visual appeal. From a genetic roadmap for performance, this program changing female blends Bernard and Flint Hills Ruby with Game Changer and the Diamond of Soul cow family. Dive into the charts and review the statistics of this diamond doll. Giant individual growth and ratios, impeccable carcass measures for both REA and IMF, and of course, some of the highest EPDs of any female in the breed. Her enormous \$T of 188.42 puts her deep into the top 1% of the breed as the current #1 individual on record as of catalog time. If you have been in search of the most elite homozygous polled donor available in the breed, your quest could land you here.

Selling ½ embryo interest and no possession in this exclusive donor prospect. Buyer of this exciting lot can choose to double down and get 100% embryo interest and full possession. Half interest constitutes half of embryos produced from mutually agreeable embryo recovery process and sire selection. If full interest is selected, NextGen retains the right to 2 IVF aspirations to be done at mutually agreeable time and location, and within one year of purchase unless otherwise agreed to in writing.

Lot 34 (A-D): EMBRYOS & SEMEN

When considering program history and elite individual production records, few breeders today can match the accomplishments of J&T Farms. From over a decade of successful production sales to some of the most valuable, record setting animals currently in the breed, J&T Farms has proven that their genetics can rival any. With that in mind, J&T Farms is proud to offer an exclusive pick of embryos from some of their very best genetic combinations. Consider the impact sires and predictable donors available in these matings. The lucky buyer will be able to choose between Daybreak and Alexa, Sugar Britches and Wicked Witch, or Enforcer with JT 194. From the most cutting edge genetics to proven breed greats, this embryo pick has something for everyone. But don't hold out, J&T may only sell one set and keep the rest for themselves.

Enhancing the J&T Farms offering for the 2026 Convention is the opportunity to grab a package of semen on their exciting new JT Nightfall bull. This black, full brother to the great

package. From length and bone to EPD performance and exclusive pedigree, JT Nightfall has what it takes to throw a little shade on his brother by breaking his own records. Offering 3 packages of 3 straws at auction. Semen located at Cottage Farm Genetics, Jackson, TN

Lot 35 (A-E): PICK OF 3 EMBRYOS

(Minerva x Pick of Bulls)

From the heart of Tombigbee Farms and Dr. Summerford comes an exclusive set of embryos from his full sister to Tank, VFF Minerva. Minerva dominates in terms of structural mass and muscling, then turns up the dial with top tier performance measures and EPDs. This outstanding pick of embryos will allow the lucky purchaser(s) to choose from sires never offered before such as CJ Game Day, Enforcer, NG Bedrock, Flint Rock, and Genesis. When studying the amazing performance of this great donor female and combining her with these elite herd sires the possibilities are limitless. Just consider the carcass measures and EPD profile of Minerva and then do the math on what kind of results come from any of these combinations. The next great semen sire or dream donor female could easily be frozen in time here, just waiting for you to unlock their potential.

By special request, Gary Osmundson of 6-X Beefmaster is offering up some of his private stock embryos for the 2026 BBU Convention sale. This enticing pick of embryos is rooted in high-performance polled genetics. For those familiar with the 6-X program, Gary went across the industry searching for the kinds of elite beef genetics to blend with his dairy program and create a truly enhanced product for the future of the industry. These cutting edge carcass performance genetics also deliver highly proven maternal attributes that can complement any registered program. Whether you like the highly predictable full sister to Game Day in the CJ 28/15 cow or the cutting edge NG Smoke, these embryo matings are sure to raise the data and quality when the calves hit the ground.

For Beefmaster breeders looking to up the performance data, carcass measures, and keep them polled, these high impact embryos are sure to draw your attention. John and Barb Gillespie of Dancing G's Beefmasters are offering up an awesome pick of embryos by their premier donors NG MS Flint Red Queen 1840L3 and JL MS 293G3. From the Red Queen daughter, breeders can choose from either John Boy M35 or GLC Zydeco embryos for serious numeric value. Then from their Cross Fire/ Red Ryder combo, embryos by Rockin Two Step may just be their best bet. Either way, polled carcass performance with proven muscling, mass, and substance runs deep at Dancing G's.

Each lot includes three Graded 1 embryos, along with one Grade 2 embryo at no additional cost.

Gipson Brothers Cattle Co. is offering up the first chance of female sexed embryos at the 2026 BBU Convention out of their Blue Jean Lady donor and NG Hall of Fame. One of the all-time greats from the Collier Farms program has been Denim's Wrangler. This highly proven donor is now deceased, but through daughters like Blue Jean Lady, her longevity and maternal prowess will live on forever. When combining the polled performance and structural excellence of the new Hall of Fame sire, the possibilities to get one of the newest and most elite genetic combinations in the industry is unmatched. Here's a set of embryos wise breeders will wrap up quick.

Here's a mic drop mating! Unico on Oasis Clone, what else needs to be said? Cottage Farm knows how to get it done from years of record-setting sales to the owner and manager of the most productive cow in breed history, there's no need for lengthy explanations here. Just consider the most used and proved polled bull currently going in the breed on the greatest donor of all time and there's really no need to think, just buy them!

Lot 40: SEMEN PACKAGE

Breeders looking to get a jump on the coming breeding season decisions will land here quick! This outstanding semen package from Bounds Swinging B puts together some of the hottest bulls in the breed including Hall of Fame, Brand New Man, and King Tide. From the bull that took the 2026 Houston Futurity by storm to 2 new polled superstars, this semen package has serious value and an even bigger impact on the industry ahead. From ET work or just AI breeding your top brood cows, these are the kind of genetics serious breeders can use and future buyers want progeny from. This is not a pick, one money gets it all! Each straw comes with 1 AI certificate. Additional certificates are available at market price through Strategy Cattle.

TERMS & CONDITIONS OF SALE

BIDDING:

Each animal will be sold to the highest bidder without reserve.

BIDDING DISPUTE:

The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.

TERMS:

Terms of the sale are cash due upon sale, unless prior credit arrangements for the sale have been agreed upon in writing between the Buyer and Seller, in which event, the terms of the written credit arrangement between the Buyer and Seller for the sale shall prevail. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, section 9 of the By Laws of BBU.

PURCHASER'S RISK:

Each animal becomes the risk of the purchaser as soon as the auctioneer declares it sold.

CERTIFICATE OF BREEDING AND/OR TRANSFERS:

All required paperwork will be transferred to the buyer at the seller's expense, upon settlement.

HEALTH:

All animals will have appropriate certificates of veterinary inspection for travel to the sale site and will to the best of the seller's knowledge be eligible for interstate shipment, however, buyers need to be aware of their individual resident state's requirements for shipment of cattle. Any and all testing will have been completed within thirty (30) days of the sale date.

ANNOUNCEMENTS:

If any changes in information of any kind are announced from the auction box, said announcements shall take precedence.

BREEDING GUARANTEES:

1) The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; (d) animals administered any super ovulation drug or growth hormone after purchase; and, (e) animals subjected to negligence by or willful misconduct on the part of the buyer.

2) Females: (a) open females are so guaranteed; (b) any female is considered to be a breeder if she is certified to be pregnant by a licensed veterinarian at the time of sale and/or has a nursing calf at side; and, (c) safe in calf females have been examined by a veterinarian and so guaranteed.

3) Bulls eighteen (18) months or older are guaranteed by the seller to have passed a breeding soundness exam (BSE) and have been certified a satisfactory potential breeder by a licensed veterinarian within 60 days prior to the sale.

4) If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a BSE certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU BSE form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.

PRIVILEGES OF RETURN OR ADJUSTMENT OPTIONS:

1) With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.

2) Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.

3) If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in a good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.

4) If an animal is sold and subsequently becomes ineligible for registration under the rules of BBU for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the seller, refund the purchase price upon the return of the animal to the farm of the seller.

5) If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the seller's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of the sale.

6) Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

MISCELLANEOUS:

1) The above terms and conditions of sale constitute a contract between the buyer and the seller and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.

2) Neither BBU nor any director, officer, employee or representative of BBU or any of its related entities shall be liable in any way with respect to a transaction conducted under these Sales Terms and Conditions; nor shall BBU, its directors, officers, employees or representatives be responsible in any way for enforcing the terms and conditions of any agreement between a buyer and a seller. Each buyer and seller agree to hold BBU, its directors, officers, employees, representatives and related entities harmless from all damages, expenses, claims, losses and other liabilities associated with a transaction conducted under these Suggested Sales Terms and Conditions.

3) No sponsor, sale manager, or other person connected with the management of a sale shall be liable in any way with respect to transactions conducted under these Sales Terms and Conditions.

4) These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale occurs, without giving effect to such state's choice of law rules.

5) UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OR BEEFMASTER, BEEFMASTER ADVANCER, E6 OR UPGRADING CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS AND THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.
