

Data Center

Consulting & Research

Dr. Duong Van Thinh
September - 2026

Data Center Certification

Data Center Tier Certification defines infrastructure reliability levels, ensuring uptime, redundancy, and operational resilience.

Organizations pursue Tier I–IV to meet global standards for performance and availability. More insights at www.drthinhduong.com and www.aidcvietnam.org

Uptime Institute

Uptime Institute provides globally recognized Tier Certification that verifies a data center's design, construction, and operational resilience, ensuring reliable performance and industry-standard uptime.

Contact: thinh.duong@aidcvietnam.org

TIA-942

TIA-942 provides a globally recognized standard for data center tier certification, covering telecommunications, power, cooling, safety, and operational resilience to ensure reliable, compliant infrastructure. Contact:
thinh.duong@aidcvietnam.org

Data Center Operator

Data center operators ensure reliable uptime, secure infrastructure, and efficient energy use while supporting growing digital workloads.

Explore Vietnam-focused insights at

www.drthinhduong.com and

www.aidcvietnam.org

Data4

Data4 is a European data-center investor and operator delivering secure, scalable, and energy-efficient digital infrastructure for cloud, AI, and enterprise workloads. The company develops sustainable campuses across Europe. For collaboration, contact:

thinh.duong@aidcvietnam.org

Equinix

Equinix operates world-class data centers with unmatched reliability, interconnection, and global reach, enabling secure, high-performance digital infrastructure for enterprises and cloud providers. Its facilities support scalability, low latency, and continuous uptime. Contact

thinh.duong@aidcvietnam.org

Digital Realty

Digital Realty operates one of the world's largest global data-center platforms, with 300+ facilities across 55+ metros, delivering secure, scalable infrastructure for cloud, AI and mission-critical workloads. Contact:

thinh.duong@aidcvietnam.org

DIGITAL REALTY

FPT Formix HCM-02

FPT Formix HCM-02 is Vietnam's largest Tier III-certified data-center facility, offering 10,000 m² of space and 3,600 racks with high-redundancy architecture and $\geq 99.982\%$ uptime for mission-critical workloads. Contact:

thinh.duong@aidcvietnam.org

IPTP Networks

IPTP Networks operates advanced data centers delivering secure infrastructure, global connectivity, and high-availability services for modern digital workloads. Its facilities support efficient, resilient operations across diverse industries. Contact:

thinh.duong@aidcvietnam.org

STACK Infrastructure

Stack Infrastructure delivers **scalable, high-performance data center capacity** across key global markets, offering reliable power, robust connectivity, and flexible expansion for enterprise, cloud, and AI workloads.

Contact

thinh.duong@aidcvietnam.org

NextDC

NEXTDC is a leading data-center operator delivering high-performance, secure and energy-efficient digital infrastructure across Australia, supporting cloud, AI and mission-critical workloads with world-class reliability and connectivity.

Contact:

thinh.duong@aidcvietnam.org

NTT Data

NTT Data operates modern data centers delivering secure infrastructure, high availability, and scalable capacity for global enterprises. Its facilities support reliable, efficient digital operations across diverse industries.

Contact: thinh.duong@aidcvietnam.org

SST GDC

SST GDC delivers advanced data center operations with high-efficiency infrastructure, strong reliability, and optimized performance for cloud and AI workloads, supporting scalable, secure digital growth. Contact:

thinh.duong@aidcvietnam.org

STTelemedia
Global Data Centres

Data Center Vendor

Data center vendors deliver power, cooling, DCIM, BMS, and rack solutions, enhanced by AI-driven energy optimisation for efficient, sustainable operations. Learn more at www.drthinhduong.com and www.aidcvietnam.org

42U

42U data center power systems deliver high-density, reliable electrical infrastructure for modern compute loads, supporting scalable racks, redundancy, and continuous uptime for mission-critical environments. Contact:

thinh.duong@aidcvietnam.org

Data Center Solutions

ABB

ABB delivers reliable, scalable electrification and automation solutions that enhance data center efficiency, uptime, and sustainability, from source-to-rack power distribution to advanced cooling and digital monitoring. Contact:

thinh.duong@aidcvietnam.org

Altera

Altera delivers FPGA-based acceleration and high-performance computing solutions that enhance data center efficiency, scalability, and workload optimisation across modern infrastructures. Ideal for AI, networking, and edge-to-cloud systems. Contact:

thinh.duong@aidcvietnam.org

An Intel Company

SystemAir

SystemAir delivers efficient, reliable ventilation and cooling solutions that stabilize temperatures, reduce energy use, and support continuous operation in high-density data center environments.

Contact: thinh.duong@aidcvietnam.org

Research, Consulting & Advisory

Data Center Research & Advisory delivers market insights, technical assessments, and strategic guidance to support investment, design, and operational decisions. Explore expert resources at www.drthinhduong.com and www.aidcvietnam.org

AIDC

AIDC provides research and advisory services for data center infrastructure, supporting design, optimization, and operational efficiency for modern facilities. Contact:

thinh.duong@aidcvietnam.org

DCByte

DC Byte delivers specialised research for data center infrastructure, offering insights that strengthen design, efficiency, and operational performance across modern facilities. Contact: thinh.duong@aidcvietnam.org

Data Center Investor

Data center investors seek scalable, energy-efficient infrastructure, strong connectivity, and long-term returns. Explore opportunities and insights at www.drthinhduong.com and www.aidcvietnam.org for Vietnam's rapidly growing digital ecosystem.

KKR

KKR is a major US investment firm actively investing in data center infrastructure worldwide, focusing on scalable, high-performance digital assets supporting cloud, AI, and hyperscale growth. Contact: thinh.duong@aidcvietnam.org

The KKR logo is displayed in white, bold, sans-serif capital letters. It is centered within a dark purple square, which is itself centered within a light gray rectangular background.

Data4

Data4 is a European data-center investor and operator delivering secure, scalable, and energy-efficient digital infrastructure for cloud, AI, and enterprise workloads. The company develops sustainable campuses across Europe. For collaboration, contact: thinh.duong@aidcvietnam.org

ERM

ERM is a global sustainability consultancy supporting data center developers with environmental compliance, energy efficiency, carbon reduction strategies, and resilient infrastructure planning for large-scale digital facilities. Contact:

thinh.duong@aidcvietnam.org

Digital Core REIT

Digital Core REIT is a pure-play data-center investor sponsored by Digital Realty, owning mission-critical facilities across major global markets and delivering stable, long-term value through diversified digital-infrastructure assets. Contact: **thinh.duong@aidcvietnam.org**

Green Power

Green Power invests in data-center solar EPC, O&M, and renewable-energy solutions, delivering efficient and sustainable clean-energy development for modern infrastructure needs.

Contact:

thinh.duong@aidcvietnam.org

The logo for Green Power, featuring the words "GREEN POWER" in a bold, black, sans-serif font. The letter "O" in "POWER" is replaced by a solid red circle. A small registered trademark symbol (®) is located to the upper right of the word "POWER". The text is set against a background of a blue sky with white clouds.

GREEN POWER[®]

VinaCapital

VinaCapital invests in high-growth digital infrastructure, including scalable and energy-efficient data centers, supporting long-term value creation and regional cloud and AI expansion.

Contact: thinh.duong@aidcvietnam.org

Data Center Contractor

Data Center contractors deliver end-to-end design, construction, and infrastructure integration, ensuring reliable power, cooling, security, and scalability for modern digital facilities across enterprise and hyperscale environments. www.drthinhduong.com
www.aidcvietnam.org

SAIF Eagle II

SAIF Eagle II invests in scalable, energy-efficient data center infrastructure, focusing on long-term value, sustainability, and supporting regional cloud and AI expansion.

Contact: thinh.duong@aidcvietnam.org

SAIFPartners

Gensler

Gensler delivers **innovative, sustainable data center design**, integrating resilient infrastructure, efficient layouts, and future-ready architecture to support high-density computing and mission-critical operations for global clients. Contact **thinh.duong@aidcvietnam.org**.

The Gensler logo is displayed in red text within a white rectangular box. The word "Gensler" is written in a bold, sans-serif typeface.

Gensler

Data Center MEP

Data Center MEP solutions delivering reliable power, cooling, fire protection, and infrastructure integration for high-performance facilities in Vietnam. More at www.drthinhduong.com and www.aidcvietnam.org.

ABTech

ABTech is a data center contractor delivering secure infrastructure, precision engineering, and end-to-end deployment for high-performance facilities across Vietnam. For project inquiries, contact thinh.duong@aidcvietnam.org.

Minh Giao

Minh Giao is a data center contractor delivering MEP systems, busway solutions, and advanced security services including camera and CCTV integration for modern facilities in Vietnam. More information at minhgiao.com.vn. Contact thinh.duong@aidcvietnam.org

NexTier Infrastructure

NexTier Infrastructure (NTI) is an AI-focused ecosystem integrator connecting partners across energy, digital infrastructure, investment and technology to deliver mission-critical, scalable and buildable AI-era projects.

Contact:

thinh.duong@aidcvietnam.org

Saigon Distribution

Saigon Distribution, an Aginode partner, supplies high-quality data-center equipment, supporting scalable infrastructure, efficient deployment and reliable performance for operators and enterprises across Vietnam's digital-growth landscape.

Contact:

thinh.duong@aidcvietnam.org

The logo for Saigon Distribution is displayed within a white rectangular box. The word "Saigon" is written in a red, sans-serif font, and the word "Distribution" is written in a black, sans-serif font directly below it.

Saigon
Distribution

Sơn Hữu M&E

Sơn Hữu M&E is a data-center M&E contractor delivering mechanical and electrical solutions for reliable, efficient, and scalable infrastructure. The company provides design, installation, and maintenance services supporting high-performance data-center operations. Contact:

thinh.duong@aidcvietnam.org

Xin Cảm ơn

Thank
You
