- Kosher-Certified Products
- Custom Blends

Leading the World in Nutraceuticals

We supply the premium-quality ingredients needed to develop successful, nutritious products.

Our Corporate Mission

Leading the World in Nutraceuticals

Founded in 1998, NP Nutra® is committed to supplying only the finest-quality nutraceutical ingredients produced at its manufacturing partners' state-of-the-art facilities around the world. Whether you are looking for individual ingredients or custom formulations and blends, NP Nutra® is here to satisfy your product needs and exceed your expectations.

Quality, Price and Reliability

NP Nutra® strives to provide you with the most pure, potent ingredients at the best possible price. Agreements established with growers worldwide ensure uninterrupted supply year-round. NP Nutra® can offer you the reliability that your large projects need.

Outstanding Customer Service

Our experienced, friendly sales team is committed to working with you to satisfy your ingredient needs and develop a long-term partnership. NP Nutra's excellent customer support has won the trust of a growing clientele, which includes many of the world's largest functional food, beverage, dietary supplement, cosmetic and pet food manufacturers, who have become loyal customers through the years.

Premium Ingredients

Only the Best is Accepted

A great ingredient begins with the best raw materials. NP Nutra's commitment to perfection is seen at every step of our process. Raw materials are meticulously examined by Quality Assurance teams and only those that meet our strict quality standards are accepted. Our products are produced at advanced state-of-the-art facilities using innovative technology.

Extensive Product Catalog

Bursting with nutrients and flavor, natural ingredients are increasingly in demand. NP Nutra® is proud to be at the forefront in the industry, offering an extensive product catalog of the highest quality, nutrient-dense ingredients.

To accommodate our customers' diverse application needs, NP Nutra® offers ingredients in a variety of formats including freeze-dried powders, water-soluble powders, dispersible powders, extract powders, pure whole food powders and juice concentrate powders.

Our product catalog features key categories for ease of ingredient selection; Signature Ingredients, Nutra Organics, Additive-Free, Super Fruits, Super Greens, Vegetables, Nutra Protein, Nutra Flow, Nutra Pura, Nutra Raw, Nutra Keto, Vitamin C, Weight Management, Nutra Ayurveda, Botanical Extracts, Adaptogens, Nutra Body and Nutra Pet.

Research and Development

NP Nutra's R&D team is constantly researching new botanicals and sourcing premium-quality ingredients, always endeavoring to seek out organic and clean label products. NP Nutra® has been at the forefront of emerging ingredients such as Acai, Baobab, Camu Camu, Goji, Jabuticaba, Mangosteen, Maqui, Sea Buckthorn and Sacha Inchi. Let NP Nutra® present you with the next trend-setting ingredient for your product formulation.

GMP-Compliant and Kosher-Certified

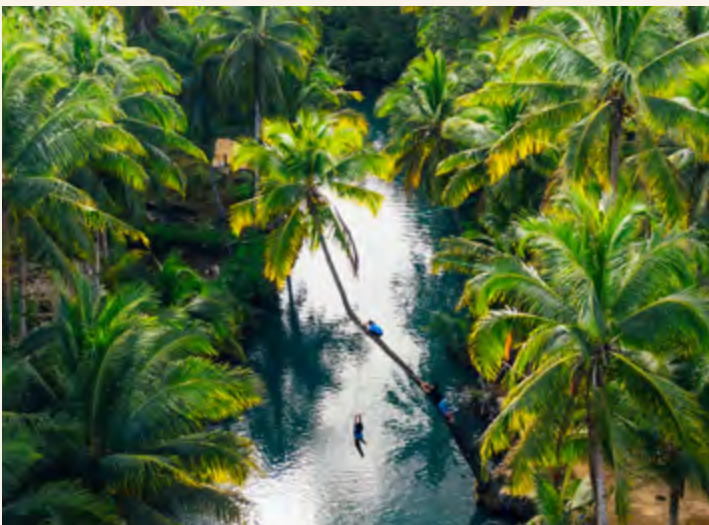

NP Nutra® strives to ensure all of our ingredients are GMP-compliant and Kosher-certified. Our most popular Kosher-certified products include Acai, Acerola, Chlorella, Coconut, Mangosteen, Maqui, Pomegranate, Spirulina and Wheatgrass.

Supporting Organic and Non-GMO

Organic farming has many benefits such as supporting consumer health, promoting sustainability, and preserving original plant species and natural biodiversity. Additionally, by law, all certified organic ingredients are automatically non-GMO. We remain committed to sourcing certified organic ingredients, and audits by our Quality Assurance team include traceability verification by mock recall, which traces raw materials and verifies organic soil. Check out our Nutra Organics product line, containing more than 75 ingredients.

Supporting Sustainable Practices

By supporting and encouraging sustainable practices at all stages of the supply chain, NP Nutra® recognizes our role of environmental stewardship to fulfill our responsibilities to our farmers, workers, consumers and planet. We work closely with our manufacturing partners to verify traceability and ensure that sustainable growing and harvesting practices are used.

Quality Assurance

Triple-T Verification® Program – Quality, Safety, Traceability

Supply-chain transparency and ingredient quality, safety and traceability are ensured by our Triple-T Verification® Program, which is one of the most stringent Quality-Assurance systems in the industry. Our fully integrated Quality Control System is complete with policies, procedures and prerequisite programs that guarantee safety and compliance to the FSMA (Food Safety Modernization Act) and GFSI (Global Food Safety Initiative) regulations.

Our Triple-T Verification® Program includes four preventive programs:

1. Process Preventive Control
2. Allergen Preventive Control
3. Sanitation Preventive Control
4. Supply Chain Preventive Control

Trace: The supply chain is validated starting with the raw materials at the point of origin, ensuring ingredient traceability.

Test: Each production lot is tested by our Quality Control teams for purity (HPLC/UV), consistency (organoleptic), pesticides (USP), heavy metals (ICP-MS) and microbials (AOAC/USP). We frequently use third-party testing services to verify in-house lab test results and to guarantee product quality, potency and safety.

Trust: We provide our customers with peace of mind, supplying the highest-quality, traceable ingredients, processed at certified state-of-the-art manufacturing facilities.

Manufacturing Partners

Our manufacturing partners are carefully selected using a thorough process involving product-sample evaluations, supply-chain validation, certificate verification and onsite facility audits, including traceability verification by mock recall. Once approved, we carry out ongoing performance evaluations and audits to ensure our ingredients are always safe and of the highest quality.

Our manufacturing partner facilities have attained GFSI-certification status, under which accredited third-party schemes provide comprehensive supply-chain guidance.

Signature Ingredients

AçaíVida® is a freeze-dried juice powder made from the fruit of the açaí palm, often called the Amazon's "Tree of Life." AçaíVida® is known for its rich purple color and naturally tangy flavor, making it a distinctive ingredient for various formulations.

The powder provides consistency and ease of use in many types of products. Its vibrant color and flavor make it suitable for incorporation into beverages, foods, supplements, and personal care items, offering formulation flexibility without additional flavorings or colorants.

Applications

Our AçaíVida® is produced so that some of the oil content normally present in Açaí powders is reduced, ensuring it does not have the clumping issues often associated with açaí juice powders. The delicious berry flavor, exceptional water dispersibility and creamy texture of AçaíVida® enables its use in a much wider variety of products than ever before.

Functional foods: RTE meals (frozen bowls), sauces, salad dressings, snacks (frozen treats, bars, energy balls), baked goods (breakfast bars, toaster pastries, muffins, cakes, cookies), cereals, granola, desserts (yogurts, puddings, ice creams), candies and chocolates.

Functional beverages: RTD beverages (juices, smoothies, teas), drink powders (latte mixes)

Dietary supplements: Superfood and wellness powders, tablets, capsules

Cosmetics: Scrubs, masks, shampoos and conditioners

Product name: AçaíVida®

Botanical name: Euterpe oleracea

Part used: Acai juice

Drying method: Spray dried

Appearance: Bordeaux to purple powder

Solubility: Partly soluble

Certifications: Kosher, Food-grade. Produced in an FSSC 22000-certified facility.

Key nutrients: Acai berries are a rich source of polyphenolic compounds, especially the flavonoids known as anthocyanins, which give the berry its characteristic deep purple color.

Acai berries are also high in oleic acid (omega-9), and contain linoleic acid (omega-6) and palmitic acid. Linoleic acid is an Essential Fatty Acid which the body cannot produce and must be obtained through diet.

Adapt'n Thrive™ Adaptogen Blend is a plant-based organic powder blend of botanicals popular for their adaptogenic properties and used since ancient times in Ayurveda, Traditional Chinese Medicine and other cultures – Amla berry, Ashwagandha root, Astragalus root, Cordyceps mushroom, Goji berry, Lion's Mane mushroom, Maca root, Panax ginseng root, Reishi mushroom and Siberian ginseng root (Eleuthero).

With what feels like an increasing number of stressors, consumers are turning to natural botanicals as one method, amongst other lifestyle practices, as a way to manage stress and its impact on the body.

What are Adaptogens?

Adaptogens are botanicals that support the entire body's ability to manage internal and external stress and maintain homeostasis (balance) under stressful conditions. They promote rejuvenation and stamina, and have a positive stimulating effect on the body, without the adverse side effects of overstimulation.

Applications

With a mild savory, earthy and nutty flavor, this powder blend is easy to incorporate into products.

Functional foods: Chocolates, snacks, baked goods, trail mixes, fruit and nut clusters, granolas, cereals, soup mixes, salad dressings

Functional beverages: RTD smoothies, adaptogen drinks

Dietary supplements: Adaptogen, stress and superfood powders, tablets and capsules

Pet care: Food-toppers, treats and supplements

Product name: Adapt'n Thrive™ Adaptogen Blend (Organic)

Botanical source: Various

Appearance: Beige to brown powder

Solubility: Partly soluble

Certifications: Organic, Kosher and Food-grade. Produced in an SQF-certified facility.

Key nutrients: In addition to supporting a healthy stress response, adaptogens contain potent antioxidants, as well as vitamins, minerals, amino acids, fatty acids and fiber, and are known to provide a multitude of health benefits.

Berry Essential™ Antioxidant Blend (Organic) is a unique proprietary blend of antioxidant-rich berries, and an ideal product to complement diets deficient in fruits. Rich in antioxidant phytonutrients, these berries also contain a wide array of vitamins, minerals, healthy fats and fiber.

Berry Essential™ Antioxidant Blend contains:

Acai: Rich source of polyphenolic compounds, especially **anthocyanins**

Acerola: Rich in Vitamin C and a good source of bioflavonoids, anthocyanins, phenolics and carotenoids

Amla: Concentrated source of Vitamin C and ellagitannins

Camu Camu: Rich source of Vitamin C, anthocyanins and flavonoids

Cranberry: Rich in antioxidants, especially proanthocyanidins

Goji: Rich in Lycium barbarum polysaccharides (LBPs) and carotenoids

Grape: A source of resveratrol, hydroxycinnamic acids, and catechins

Maqui: Excellent source of anthocyanins

Pomegranate: Rich source of anthocyanins, ellagitannin compounds and flavonoids

Sea Buckthorn: Rich source of Vitamin C, carotenoids, xanthophylls and flavonoids

Applications

With a mildly sweet, tangy berry flavor and aroma, our organic berry blend powder is ideal in:

Functional foods: Snacks, baked goods, chocolates, granolas, cereals

Functional beverages: RTD smoothies and juices, tea bags

Dietary supplements: Superfood powders, capsules and tablets

Cosmetics: Body scrubs, masks

Product name: Berry Essential™ Antioxidant Blend (Organic)

Botanical source: Various

Appearance: Beige to reddish-brown powder

Solubility: Partly soluble

Certifications: Organic, Kosher and Food-grade. Produced in an SQF-certified facility.

Key nutrients: This blend features a diverse range of fruits that are natural sources of plant compounds such as anthocyanins, resveratrol, quercetin, xanthones, carotenoids, flavonoids, ellagitannins, catechins, coumarins, polysaccharides, Vitamin C, and fatty acids, along with fiber and a variety of vitamins and minerals.

BettaBerries® Antioxidant Blend is a concentrated, proprietary blend of many of the most phytonutrient-rich and well-known berries. Bursting with potent antioxidant plant compounds, these berries contain polyphenols, anthocyanins, bioflavonoids, carotenoids, Vitamin C, and an array of vitamins and minerals.

Acai: Rich source of polyphenolic compounds, especially anthocyanins

Acerola: Excellent source of Vitamin C and bioflavonoids

Amla: Concentrated source of Vitamin C and ellagitannins

Cranberry: Rich in flavonoids called proanthocyanidins

Goji: Contains a spectrum of carotenoids

Jabuticaba: High in jaboticabin, a unique antioxidant

Mangosteen: Particularly rich in the potent antioxidants, xanthones

Maqui: Excellent source of anthocyanins

Pomegranate: Rich in anthocyanins and ellagitannin compounds

Strawberry: Contain more than 25 different anthocyanins

Product name: BettaBerries® Antioxidant Blend

Botanical source: Various

Part used: Various

Appearance: Burgundy powder

Solubility: Partly soluble

Certifications: Kosher, Food-grade. Produced in an SQF-certified facility.

Key nutrients: The berries in BettaBerries® contain a wide range of antioxidants including Vitamin C, anthocyanins, flavonoids, carotenoids, xanthones, healthy fatty acids, and more, as well as being a good source of many vitamins and minerals.

Applications

With a mildly sweet, tangy berry flavor and aroma, our berry blend powder is ideal in:

Functional foods: Snacks, baked goods, chocolates, granolas, cereals

Functional beverages: RTD smoothies and juices, tea bags

Dietary supplements: Superfood powders, capsules and tablets

Cosmetics: Body scrubs, masks

CocOrganic® Plus is a freeze-dried organic coconut water powder known for its naturally light and subtly sweet flavor. It can be rehydrated to create a pure coconut water beverage without the need for additional sweeteners or flavorings.

The powder offers high solubility and consistent quality, making it easy to work with across a variety of formulations. Its clean flavor profile pairs well with other tropical fruits, juices, and a wide range of functional foods, beverages, dietary supplements, and personal care products.

Applications

CocOrganic® Plus is a highly soluble freeze-dried organic coconut water presented in powder format for ease of use and convenience. With a sweet, subtle coconut flavor and aroma, it is ideal in a wide variety of formulations, and combines especially well with exotic fruits such as acai, dragon fruit, jabuticaba, papaya, passionfruit, pineapple and mango.

Functional foods: Desserts, candies, dressings, RTE meals and sauce mixes

Functional beverages: RTD beverages (juices, smoothies, sodas, hydration drinks, energy drinks), drink mixes

Dietary supplements: Hydration and superfood powders

Cosmetics: Lotions, cleansers, body scrubs, masks, shampoos, conditioners, toothpastes

Product name: CocOrganic® Plus
(Coconut Freeze-Dried Powder, Organic)

Botanical source: Cocos nucifera

Part used: Coconut water

Drying method: Freeze-dried

Appearance: White to light yellow powder

Solubility: Highly soluble

Rehydration: Mix 10g of CocOrganic® Plus with 100ml cold water

Certifications: Organic, Kosher, Food-grade. Produced in an FSSC-22000 certified facility.

Key nutrients: Coconut water is rich in natural electrolytes, especially potassium.

CocoHydrate® Hydration Blend is a versatile hydration base combining coconut water powder with minerals, designed for easily adjusting electrolyte ratios in custom formulations. Its electrolyte profile supports efficient water absorption, fluid balance, and cellular function, while naturally occurring carbohydrates from coconut water activate sodium-dependent glucose transport for faster absorption. Formulated at a baseline sodium:potassium ratio of approximately 1.5:1 for light to moderate activity, sodium levels can be easily customized to match high-intensity performance requirements and sweat losses.

Ingredients

CocoK6™: A high-potassium coconut water powder supporting electrolyte balance, fluid regulation, and efficient hydration.

Calcium Lactate Gluconate: A highly soluble and bioavailable form of calcium, ideal for maintaining cellular fluid balance without affecting flavor.

Trimagnesium Citrate Anhydrous: A premium magnesium source known for superior absorption, supporting muscle function, and electrolyte replenishment.

Sea Salt: Sodium helps drive fluid retention, maintain extracellular fluid balance, and support nerve and muscle function. Chloride helps maintain osmotic balance and supports normal fluid regulation.

Applications

Functional Beverages: RTD/RTM hydration, electrolyte, energy, and meal replacement formulations

Functional Foods: Nutritional bars and fortified snacks

Dietary Supplements: Gummies, liquids, powders, tablets, and capsules for sports, hydration, energy, and meal replacement applications

Cosmetics: Hydration supplements

Pet Care Products: Targeted hydration formulations

Product name: CocoHydrate® Hydration Blend

Appearance: White to light cream powder

Solubility: Highly soluble in water for seamless integration into high-performance liquid systems

Sensory Profile: Neutral, clean profile with minimal impact on formulation taste or texture

Certifications: Kosher and Food-grade. Produced in an FSSC 22000-certified facility.

Purity: Clean-label integrity (Fermentation-derived minerals / No anti-caking agents)

Key nutrients: Concentrated electrolyte profile including sodium, chloride, potassium, calcium, and magnesium

CocoK6™ (Coconut Water Powder, ≥6% Potassium) is a natural fit for beverage, wellness, and functional nutrition applications. Valued for its clean profile and naturally occurring minerals, coconut water is a sought-after ingredient for modern formulations. CocoK6™ provides developers with a high-quality powder that is versatile, easy to handle, and soluble. Produced from fresh coconut water using an innovative spray-drying process and fortified with potassium citrate, CocoK6™ delivers a fine, easily soluble powder with no less than 6% potassium, offering a dependable option for projects requiring elevated potassium levels in a clean-label format.

Appreciated for hydration and mineral content in tropical regions, coconut water is combined in CocoK6™ with modern processing techniques to create a consistent, easy-to-use powder. Its mild, neutral flavor integrates seamlessly into a wide variety of beverage and nutrition products without altering taste or appearance.

Applications

CocoK6 is a soluble, coconut water-based potassium ingredient delivering a concentrated, high-potency potassium source for advanced formulations. With its clean sensory profile and excellent solubility, it integrates seamlessly into high-performance sports nutrition and targeted supplementation systems.

Functional foods: Nutritional bars, fortified snacks, RTM (ready-to-mix) powders, meal replacement mixes

Functional beverages: RTD beverages (juices, smoothies, hydrations drinks, energy drinks, sodas)

Dietary supplements: Hydration and superfood powders, electrolyte blends, sports supplements, potassium-focused formulations, capsules, tablets, gummies, powdered supplements.

Product name: CocoK6™ (Coconut Water Powder, 6% Potassium)

Botanical source: Cocos nucifera

Part used: Coconut water

Appearance: White to light cream powder

Drying method: Spray-dried

Solubility: Soluble

Certifications: Non-GMO, suitable for vegans. Kosher and food-grade. Produced in a BRC/FSSC 22000-certified facility.

Key nutrients: Naturally occurring potassium, Tripotassium Citrate; total potassium ≥ 6%

CocoK6™ is a clean-label, easily soluble coconut water powder, ideal for functional beverages, sports nutrition, and dietary supplement formulations requiring elevated potassium content.

Fruit Fusion® Blend (Organic) is a proprietary blend of fruits rich in essential vitamins and minerals, soluble and insoluble fiber, and antioxidant phytonutrients. With many people struggling to consume enough fruits each day, help consumers bridge the nutrition gap by creating flavorful, convenient, and better-for-you products using our **Fruit Fusion® Blend (Organic)**.

Acai: Polyphenolic compounds (especially anthocyanins), fatty acids, vitamins and minerals, fiber
Apple: Antioxidants (quercetin, chlorogenic acid, procyanidin and catechin), pectin (a soluble fiber)

Banana: Potassium, manganese and phosphorus, fiber

Baobab: Prebiotic fiber (including pectin), antioxidant phytonutrients (phenolics and bioflavonoids), vitamin C, potassium, calcium, magnesium, and other vitamins and minerals

Blueberry: Antioxidants (anthocyanins, proanthocyanidins, resveratrol, flavonols, pterostilbene, kaempferol, tannins, zeaxanthin, lutein), vitamins, minerals

Goji: Antioxidants (polysaccharides, carotenoids), beta-sitosterol, vitamins, minerals, fiber

Lemon: Citric acid, citrus limonin, flavonoid glycosides hesperetin, naringin and naringenin, vitamins, minerals

Mango: Antioxidants (mangiferin, catechins, quercetin, kaempferol, anthocyanins, gallic and ellagic acids, carotenoids), vitamins, minerals

Orange: Citric acid, citrates, citrus flavanones like hesperidin and naringenin, carotenoids like beta-cryptoxanthin, as well as anthocyanins, vitamins, minerals

Papaya: Papain enzyme, beta-carotene, flavonoids, vitamins, minerals, fiber

Pineapple: Bromelain enzyme, beta-carotene, flavonoids, vitamins, minerals

Pomegranate: Antioxidants (anthocyanins, ellagitannin compounds), vitamins, minerals, fiber

Applications

Dietary supplements: Powders, tablets and capsules

Functional foods: Snacks

Functional beverages: Ready-to-drink smoothies and Ready-to-mix beverages

Pet care: Supplements, foods and food-toppers

Product name: Fruit Fusion® Blend (Organic)

Botanical source: Various

Appearance: Light pink-orange powder

Solubility: Partly soluble

Certifications: Organic, Kosher and Food-grade. Produced in an SQF-certified facility.

Key nutrients: Fruits are an excellent source of essential vitamins, minerals, soluble and insoluble fiber, and antioxidant phytonutrients.

Green Balance Alkalizing Blend® (Organic) is a synergistic “green” formula of concentrated alkalizing superfoods. A valuable source of naturally occurring phytonutrients, chlorophyll, enzymes, vitamins and minerals, it helps boost energy, assist with mineral replenishment, provide optimal support for the body, and helps the body to maintain a healthy pH balance.

Alfalfa Grass, Barley Grass, Oat Grass, Wheatgrass:

Rich sources of vitamins, minerals, enzymes, fiber, and phytonutrients like chlorophyll, saponins, coumarins, alkaloids, phytosterols, phenolics, flavonoids, alkaloids and carotenoids, and a good source of protein

Kale: Rich in chlorophyll, carotenoids, flavonoids, glucosinolates, vitamins, minerals, protein and fiber

Chlorella: Excellent source of a spectrum of phytonutrients, chlorophyll, essential fatty acids, nucleic acids, protein, vitamins and minerals

Spirulina: Contains over 60% complete protein, and a very good source of nucleic acids, lipids, essential fatty acids, polysaccharides, phycocyanin, chlorophyll, carotenoids, vitamins and minerals.

Astragalus: Contains triterpenoid saponins, bioflavonoids, polysaccharides and glycosides

Lemon: Excellent source of ascorbic acid (Vitamin C), citric acid and citrus limonins, as well as containing flavonoids and carotenoids

Applications

Functional foods: Snacks, RTE meals, salad dressings

Functional beverages: RTD beverages (smoothies)

Dietary supplements: Superfood and wellness powders, tablets, capsules

Pet care: Foods, food-toppers, supplements

Product name: Green Balance Alkalizing Blend® (Organic)

Appearance: Light green powder

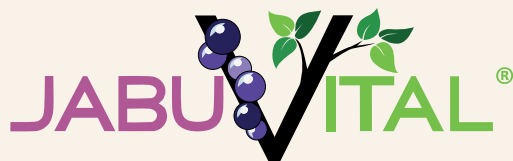

Solubility: Partly soluble

Certifications: Organic, Kosher, Food-grade. Produced in an SQF-certified facility.

Key nutrients: Contains botanicals that are a rich source of phytonutrients, enzymes, vitamins and minerals, and a very good source of protein and fiber

Alkalinity: Tested using the PRAL method, with a result of -46.437/100g, which is in the higher range of foods with an alkalizing effect on the body. A PRAL value of < 0 is considered to increase the alkalinity of body fluids, and a PRAL value > 0 increases the acidity of body fluids.

JabuVital® is a delicious juice powder produced from the fruit that grows on the trunk of the Jabuticaba tree, also known as “Brazilian Grape Tree.” Jabuticaba is one of Brazil’s favorite fruits and the name Jabuticaba, derived from the Tupi word *Jabuti* (tortoise) + *Caba* (place), means “the place where you find tortoises.”

Jabuticaba’s deep purple skin covers a translucent white to rosy pink flesh that has a delicate, sweet flavor, a sub-acid tang and an exotic fragrance. As the fruit begins to ferment 3-4 days after it’s picked, fresh fruit is rarely available outside of growing areas and the fruit is processed and dried soon after harvesting.

Applications

With a delicate, exotic fragrance and a flavor compared to grape, blackcurrant, lychee, mangosteen and guava, jabuticaba fruit is ideal in a wide variety of foods and beverages.

Functional foods: Snacks (bites, bars, fruit leather, fruit and nut clusters), candies, jellies, jams, syrups, chocolates, desserts (puddings, ice creams, yogurts, sorbets), salad dressings, granolas

Functional beverages: RTD beverages (smoothies, juices, sodas)

Dietary supplements: Superfood and wellness powders, tablets, liquids, gummies

Product name: JabuVital®
(Jabuticaba Juice Powder)

Botanical source: *Myrciaria cauliflora*

Part used: Fruit pulp

Appearance: Pink to purple powder

Solubility: Partly soluble

Certifications: Kosher and Food-grade. Produced in an FSSC-22000 certified facility.

Key nutrients: Several compounds have been isolated from jabuticaba fruit, including jaboticabin, a depside unique to jabuticaba. Anthocyanins, the most abundant type of flavonoid in jabuticaba, are responsible for the color of its dark purple skin. The fruit is also a good source of Vitamin C.

MacaXtra® (Organic) is a gelatinized maca powder made from maca root, which is valued for its stamina-enhancing and energy-boosting potential. Maca is also a well-known adaptogen that helps the body adapt to mental, physical and environmental stressors. Cultivated for over 2000 years by the native people of Peru, maca grows at elevations between 10,000 and 15,000 feet on the harsh high plateaus of the central Andes and was consumed by Incan warriors to fuel strength and endurance.

Gelatinized maca is maca root that's been cooked and pressure-processed to remove most of its starch content, making it easier for the body to digest and absorb. Compared to non-gelatinized maca, it's typically gentler on the stomach, less likely to cause bloating or gas, and often more concentrated in active compounds by weight.

Our MacaXtra® is organically grown in Peru by subsistence farmers using traditional farming practices, providing a sustainable source of income in a region where little else grows.

Applications

The fine, free-flowing organic MacaXtra® powder, with its lightly sweet and malty flavor, is a popular ingredient in a wide variety of formulations.

Functional foods: Snacks (bars, bites, energy balls), baked goods (muffins, cookies, cakes), cereals, granolas, chocolates, desserts

Functional beverages: RTD beverages (smoothies, adaptogen drinks), drink powders (coffee substitutes, teas, adaptogen mixes)

Dietary supplements: Adaptogen and superfood powders, tablets and capsules

Pet care: Foods, food toppers, treats, supplements

Product name: MacaXtra® (Organic)

Botanical source: *Lepidium meyenii* Walp

Part used: Root

Appearance: Beige to light brown powder

Extraction/drying method: Gelatinized and Dehydrated

Solubility: Partly soluble

Certifications: Organic, Kosher and Food-grade. Produced in a BRC-certified facility.

Key nutrients: Dried maca is rich in amino acids, lipids and sterols, and contains several secondary metabolites which are only found in the maca plant; macaridine, macaene, macamides and maca alkaloids.

MacaXtra® (Organic) is a standardized powder of 100% organic maca root with a minimum content of 1% glucosinolates.

MaquiForza™ is produced from certified organic Maqui berries native to Chile, which have been freeze-dried using a unique patented technology. This drying method reduces the vacuum to 50 times lower than the standard freeze-drying process, with lower surface temperature and shorter drying time. This unique process which uses the whole fruit, maintains 50-70% more anthocyanin content, resulting in a very potent organic, freeze-dried Maqui powder.

Maqui berries are treasured by the Mapuche Indians of South America, who consider them a traditional symbol of health and vitality. For centuries the Mapuche have used the Maqui berry for both food and medicine, to provide strength and stamina, and to improve health.

Applications

Functional foods: Snacks (bars, energy balls, fruit leathers), cereals, granolas, baked goods (muffins, cookies, cakes, pastries), jams, chocolates, desserts (yogurts, cheesecake topping), frozen smoothie blends

Functional beverages: RTD beverages (smoothies)

Dietary supplements: Superfood and wellness powders, tablets, capsules

Product name: MaquiForza™
(Freeze-Dried Powder, Organic)

Botanical source: Aristotelia chilensis

Part used: Whole fruit

Appearance: Light to dark purple powder

Drying method: Freeze-dried

Solubility: Partly soluble

Certifications: Organic, Kosher and Food-grade. Produced in a BRC-certified facility.

Key nutrients: Maqui berries are high in dietary fiber and rich in anthocyanins, the pigments responsible for its deep purple color. They contain many other bioactive compounds like delphinidin, malvidin, petunidin, cyanidin, coumarins, triterpenes and flavonoids.

NutraGrass™ is a concentrated raw juice powder made from freshly-harvested organic young wheatgrass sprouts.

Organically grown and harvested at the peak of its nutritional potency, the wheatgrass used in NutraGrass™ is gently dried by air stream at very low temperatures to preserve the bright colors, flavors and nutrients found naturally in the freshest wheatgrass juice.

Commonly consumed as wheatgrass shots and used in nutritional cleansing programs, wheatgrass juice is a rich source of many beneficial nutrients, including an exceptionally high amount of chlorophyll and a wide array of phytonutrients, vitamins, minerals, amino acids and enzymes. Our NutraGrass™ is the perfect way to boost the nutrient profile of many formulations.

Applications

With its fresh, sweet green flavor and excellent dispersibility, NutraGrass™ is a popular, versatile ingredient.

Functional foods: Snacks (bars, energy balls), salad dressings

Functional beverages: RTD beverages (juices, smoothies, wheatgrass shots)

Dietary supplements: Superfood and 'green' protein powders, tablets and capsules, and liquid herbal blends

Cosmetics: Body scrubs, masks, shampoos, conditioners

Pet care: Foods, toppers, supplements

Product name: NutraGrass™
(Wheatgrass Juice Powder, Organic)

Botanical source: Triticum aestivum

Part used: Leaf and stem

Appearance: Green powder

Extraction method: Cold-pressed

Solubility: Partly soluble

Certifications: Organic, Kosher and Food-grade.

Key nutrients: Wheatgrass is rich in chlorophyll, protein, calcium, iron, potassium, magnesium, zinc and Vitamin A, and contains many other vitamins and minerals. It also contains metabolic enzymes, including superoxide dismutase and cytochrome oxidase, as well as a wide array of antioxidant phytochemicals.

PlantPWR® Protein

ORGANIC BLEND

PlantPWR® Protein Blend (Organic) - Unsweetened,

a plant-based protein powder containing over 72% protein, is a mild-flavored, versatile formulation base that can also be sold to consumers as it is. With complementary amino acid profiles, brown rice, pea, pumpkin seed and sacha inchi seed combine to form a complete plant protein powder that is a great alternative to soy and dairy proteins. It is non-GMO and clean label, containing no fillers, additives, sugars or artificial sweeteners.*

Take advantage of the growing plant protein trend! Consumer demand for plant proteins is on the rise, driven by increased awareness of the health benefits of plant proteins in supporting an active lifestyle, a desire for clean label products, ease of digestion, the need by some to avoid allergens, compatibility with vegan and vegetarian lifestyles, and sustainability concerns. Organic plant-based protein products are especially popular with consumers who want to limit their intake of harmful pesticides and for their benefits to the environment.

Applications

With a naturally sweet, mild nutty flavor, PlantPWR® Protein Blend won't overpower other flavors in your formulation. This fine powder mixes quickly into liquids, and with over 72% protein it can be combined with many of our other nutritious powders to produce a high-quality protein powder: berries, greens, matcha, tropical fruits, keto-friendly ingredients, adaptogens, other protein powders, spices and natural sweeteners.

Functional foods: RTE meals, crackers, bites, snack bars, protein bars, granola, waffles, pancakes, muffins, cakes, cookies, pastries, breads, pie crusts, pizza bases

Functional beverages: RTD protein and keto-friendly smoothies

Dietary supplements: Protein, post-workout and meal replacement powders and formulations

Pet care: Foods, food-toppers, treats, supplements

Product name: PlantPWR® Protein Blend (Organic) - Unsweetened

Botanical source: Various

Appearance: Light brown powder

Solubility: Partly soluble

Certifications: Organic, Kosher and Food-grade. Produced in an FSSC-22000 certified facility.

Key nutrients:

- 100g powder contains >72g Protein, and approx. 7g Fat and 7g Dietary fiber
- Amino Acids, including the Branched Chain Amino Acids (leucine, isoleucine and valine), which are of particular importance in muscle growth, repair and maintenance.
- Non-Essential Amino Acids
- Vitamins, minerals, phytonutrients, fiber and fatty acids

Although the advantages of adopting a diet rich in Nutrient-dense whole foods are widely recognized, many people struggle to attain this goal and are not eating the recommended amount of vegetables each day. Make healthy eating easier for consumers by creating convenient, better-for-you products using our **Veggie Fusion® Blend (Organic)**.

Beet root: Dietary nitrate, betacyanins, phenolic compounds, carbohydrates, fiber, amino acids, vitamins and minerals

Broccoli: Glucobrassicin, glucoraphanin, carotenoids, flavonoids, fiber, amino acids, vitamins and minerals

Carrots: Beta-carotene, fiber, vitamins and minerals

Cauliflower: Phenolic acids, flavonoids, carotenoids, glucosinolates, fiber, vitamins and minerals

Inulin (from Jerusalem Artichoke): Soluble fiber with prebiotic benefits that can help to promote a healthy microbiome

Kale: Chlorophyll, carotenoids, flavonoids, glucosinolates, amino acids, fiber, vitamins and minerals

Pumpkin: Carotenoids, carbohydrates, fiber, vitamins and minerals

Spinach: Carotenoids, flavonoids, dietary nitrates, fiber, amino acids, vitamins and minerals.

Sweet Potato: Beta-carotene, chlorogenic acids, carbohydrates (starches and fiber)

Tomato: Lycopene, alpha-carotene, beta-carotene, neoxanthin, lutein, α-cryptoxanthin, naringenin, chlorogenic acid, vitamins and minerals.

Applications

Dietary supplements: Powders, tablets and capsules

Functional foods: Snacks

Functional beverages: Ready-to-drink smoothies and Ready-to-mix beverages

Pet care: Supplements, foods and food-toppers

Product name: Veggie Fusion® Blend (Organic)

Botanical source: Various

Appearance: Brownish green powder

Solubility: Partly soluble

Certifications: Organic, Kosher and Food-grade. Produced in an SQF-certified facility.

Key nutrients: Vegetables are an excellent source of essential vitamins, minerals, soluble and insoluble fiber, amino acids and antioxidant phytonutrients.
