TECHNICAL SPECIFICATIONS

Lock type	Mechanical keypad gate lock
Keypad type	RapidReset single-sided
Handing	Reversible, supplied right-handed
Latchbolt throw	20mm (3/4")
Lock case width	70mm (2 3/4")
Fixing method	3-hole drilling. Bolt-on
Fixings included	Yes
Warranty	5 years
Compatible Keeps	BSK, BSKS, BSKG
Compatible Shroud	BQSL

INSTALLATION INSTRUCTIONS

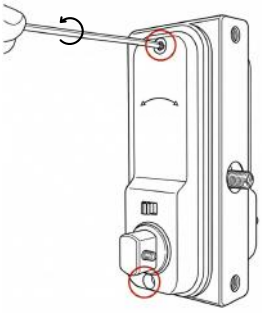

1. Check the gate handing. If left-hand is required, reverse the handing using the instructions below. For right-hand gates, go to step 2.
2. Drill 2 x 9mm (3/8") holes at 140mm (5 ½") centres for fixing bolts provided.
3. Drill a 18mm (¾") clearance hole for the latchbolt at 60mm (2 3/8") centres up from the bottom fixing hole.
4. Hold the lock against the back of the box section and screw on the latchbolt through the larger hole.
5. Lock the latchbolt with the hex key supplied by inserting the hex key into the end of the latchbolt.
6. Fix lock in place using the stainless steel bolt support plate and the countersunk screws provided. Ensure the latchbolt moves freely.
7. Fix strike plate by either welding or screw fixing onto the gate post.

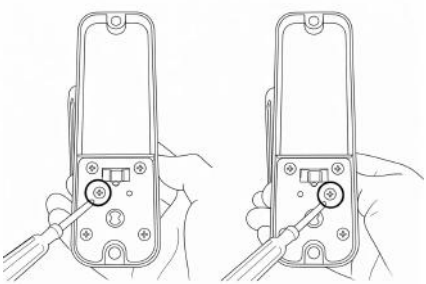

HOW TO CHANGE HANDING FROM RIGHT TO LEFT HANDING

Handing refers to the side on which the gate is hinged. This determines whether the lock should be set for left-hand or right-hand installation. When standing outside the gate, if the hinges are on the left, the lock must be changed to left-hand setting.

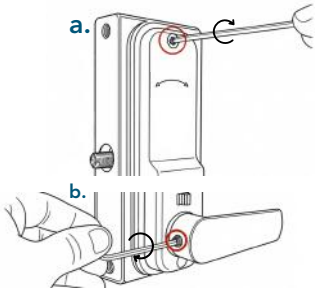

OUR LOCKS ARE SUPPLIED RIGHT-HANDED. IF A RIGHT-HANDED LOCK IS REQUIRED, SKIP THE STEPS BELOW AND CONTINUE WITH INSTALLATION.

1. Using the 3mm hex key, unscrew the two screws located at the top and bottom.

2. Remove the keypad. On the inside handle, unscrew only the blue screw and screw it into the adjacent hole.

3a. Refit the keypad using the 3mm hex key, ensuring the flat spindle and rubber gaskets are in place.
3b. Using the 2.5mm hex key, screw on the handles to face the opposite way to the latch.

Check that the code and handle work correctly and then follow the instructions install the lock onto the gate.
