WELCOME

TO THE SUMMER EDITION!

Hello!

This issue is a particularly special one for me, as it's my first as the **new Editor of Toddle About Northamptonshire**. I'm absolutely delighted to be here in Northamptonshire and can't wait to get to know the wonderful local businesses, attractions and families that make this area so special.

As we head into what is hopefully **a summer filled with sunshine**, adventures and precious family memories, we've packed this issue with ideas to help you make the most of the holidays. Inside, you'll find fantastic **days out, crafts, recipes, money-saving vouchers, seasonal inspiration and updates** from both familiar faces and new local businesses, all ready to help keep little ones entertained throughout the break.

Whether you're planning big adventures, searching for ways to keep busy on rainy days, or simply looking for inspiration closer to home, I hope you'll find **plenty to enjoy** in these pages.

Finally, a special **good luck** to all the children starting school this September. It's such an exciting milestone, and I'm sure there will be lots of proud (and perhaps slightly emotional!) parents waving goodbye at the school gates. Wishing all of your little ones a happy and confident start to their new adventure.

I hope you and your family **have a fantastic summer**, and I'm looking forward to sharing many more issues with you in the future!

A GROWTH MINDSET IN ACTION

10 Ways To Help Your Young Child Foster & Apply a Growth Mindset

by Louise Treherne

You might have heard many times of the term 'Growth Mindset', coined by the psychologist Dr. Carol Dweck. We know it can have a huge impact on how we see ourselves, the world around us and our capability to be successful. But how on earth do we instil this mindset in our toddlers? And what does a growth mindset in action actually look like?

Let's start by looking at the opposite. A child with a fixed mindset, is a child who believes that their capability is fixed; either they can or can't and they will often shy away from taking risks where the outcome might prove the point that they can't. Tasks are approached with the goal of looking smart, mistakes and hard work simply pull their abilities into question.

WHAT'S THE LONG-TERM IMPACT OF ADOPTING A GROWTH MINDSET?

Fostering a growth mindset in your child takes work but the gains are endless. You're literally setting your child up for success by helping them understand their potential to grow and develop. Our view of ourselves determines everything; how we think, feel and behave. If your child sees themselves as someone capable of growth, they are much more likely to try new things, take risks, accept mistakes and learn from setbacks rather than take them personally.

So how do we do it?

10 SIMPLE WAYS TO FOSTER A GROWTH MINDSET...

1 Praise the process not the outcome: If your child only ever hears you praise the success of the outcome, they learn that is the only thing that matters. Instead, look to praise the specific skills they showed or mindset they applied. It might sound like: *"Wow, you completed the puzzle! What really made me smile was how you kept trying different pieces when they didn't work! It was frustrating, but you kept trying!"*

2 Build the narrative that 'challenge' is good: Very early on, children often learn that being challenged and doing something 'hard' is a negative thing. We can easily change this narrative. Think about how they hear you talk about challenge and find opportunities to say, "This is tricky - this is exciting!" or "I haven't tried this before, learning new things is fun!". We know young children watch and learn from how we respond, so let them see you relish the opportunity to stretch yourself rather than be fearful.

3 Remind them of their progress: Children quickly forget the progress they've made and how far they've come. By reminding them that when they started, they couldn't yet do the activity but now they have mastered it, it helps them to understand that 'can't' doesn't mean forever. This might sound like:

"Remember when you first tried putting your coat on yourself? It was tricky and you couldn't do it... now look. You've been practising and now you can!"

4 Model your own growth mindset in action: The easiest way to show your child a growth mindset in action is to narrate your own inner thoughts. This is beneficial not just for them but also makes us more mindful of the way we speak to ourselves! Let them hear self-compassion and reflection rather than negative self talk. This might sound like: *"I'm getting this wrong, that's ok it's something new to me". Or "I need to give myself a chance to learn how to do this".*

5 Learn to laugh at yourself: Learning to laugh at yourself and not taking things too seriously can have a positive impact on your mindset and is a very underrated skill. Teaching our children to put things into perspective and modelling how we can laugh at ourselves when we mess up or make mistakes, means they are much more likely to have a grounded sense of self. This might seem a small thing now, but if they've developed this skill early on, they may be more ready to shrug off a setback or laugh off a misdemeanour as they grow up.

6 Explore the unfamiliar & uncomfortable: Young children love familiarity and predictability. It brings them comfort and confidence. It's also important to find opportunities to try new things and a great way to do this is as a family. Pick an activity that might be new for you all and let your little one see you struggle. It could be climbing, tennis, trampolining... anything goes, but the important thing is they see you getting comfortable with being outside of your comfort zone and being challenged.

7 Model making mistakes: Being accepting of making mistakes rather than crumbling at them is another mark of a growth mindset. You can help your child become more accepting of their own mistakes by modelling this to them. Find opportunities such as when you're cooking and the recipe goes wrong, or while you're drawing or making a birthday card you could misspell a word and show them your reaction. Rather than throw the

cake away or scrunch up the card, say out loud "Oops I got that bit wrong, that's ok I'm learning as I go!". If we want young children to have a positive response to making mistakes, we have to let them see those around them make them and react positively too.

8 Look for the back story: Children are often in awe of those around them who appear to be able to do things they can't. Whether it's their peers or famous people, they often focus on the success and fail to see the back story. What an opportunity while they're young, to help them get curious about what's behind the success! This could be simply saying out loud, "I wonder how they got so good at that?" or "I bet that took lots of hard work".

9 Show me the hard part: Ever heard your little one say, *"It's too tricky! I can't do it!"*? A simple way of helping a young child develop resilience and a growth mindset is helping them get really specific about which part of a task is challenging. When your little one says they want to give up, try saying "Show me the hard part". This encourages them to identify the particular part they're struggling with and helps them see often, it's just one small part of a task rather than the entire thing. Whether it's a Lego brick that won't attach or a sleeve that's inside out, 'show me the hard part' helps them see that the problem is often surmountable.

10 I can't YET: You've probably heard of the power of the word YET. I can't tie my shoe laces... yet. I can't ride my bike without stabilisers... YET. Why not make a 'YET' wall in your kitchen and get the whole family to write on a post-it note something they can't do YET. I'll never forget the impact it had on my boys when I learnt to drive in my late 30s. If you can choose an activity to write on your post-it note that other people your age typically might be able to do (but you can't yet), it's a really powerful thing to model. And of course as you practise and learn, you might all be able to move your post-it notes to the 'CAN' wall and then choose a new 'YET' activity!

THE PATH TO PASSION

**YOUR PASSIONS MAKE YOU A BETTER MUM.
HERE'S HOW TO FIND THEM AGAIN.**

I know the feeling well. The sense that wanting something for yourself – time, space, an interest that has nothing to do with anyone else's needs – somehow makes you a lesser parent. I felt it too, and it's the reason I started Passion Collective in 2014 when I was navigating new motherhood, a demanding career and wondering how on earth other people managed to keep doing the things they loved. Were they just better at this thing called life? They weren't. They'd simply stopped waiting for permission.

THE TRUTH ABOUT "MUM GUILT"

The "Mum Guilt" that rears its ugly head whenever we think about – let alone spend time with – our own passions is a sign that we care. That love is rarely something we want to leave behind. However, the guilt is telling us that we've bought into a story that isn't necessarily true; that a good mother always puts herself last, and wanting more is something to be ashamed of.

The research tells a different story. When we engage consistently with what we love (what academics call "harmonious passions"), we're less stressed, more present, and more patient.

BECOME A PROUD DABBLER

The main barrier we all have is time. We are running through our days, and the thought of dedicating a few hours to anything beyond the day-to-day can feel totally out of reach.

This is where "dabbling" comes in – and bear with me, because it gets an unfair reputation!

We tend to think of dabbling as half-hearted, uncommitted, what you faff around with before

you find your "real" passion. But in my book, *Born to Buzz*, I make the case for being a Proud Dabbler: someone who explores with curiosity and without the pressure to excel or turn a hobby into a million-pound side hustle.

Dabbling is how most people actually find what lights them up. It means we don't have to wait for that thunderbolt moment of clarity; we can try a series of small, low-stakes experiments that gradually point us toward our passions.

AN EASY WAY TO START

First, promise yourself you'll allow one hour this weekend to dabble. If you need to, get your spouse to cover, or even book a babysitter for an hour!

Then, start with one thing that makes you even slightly curious. Try it without expectation. If it sparks something, stay with it. If it doesn't, note what you'll do next.

Now, here's the most important step. If you're comfortable, share your dabbling with a friend. Let's say you've got back into knitting, and for that hour, you knitted half a scarf. It may be unfinished, and perhaps imperfect. Do not let that stop you – share your "dabbling" with someone close to you who'll support you. Tell them what you've done – something like "Ta-da! Look what I've done!" – and see how that feels. Remember that their reaction doesn't matter (although they'll probably be amazed at your progress). Instead, you're proudly embracing your "dabbling".

Above all, even on those long days, remember that you haven't lost yourself in parenthood. You've just been last on your own list for a while. Dabbling is how you find your way back.

VIP CLUB READER REVIEW:

MEMORY BUNNY KEEPSAKE

Written by Caroline O'Gorman, Toddle About Subscriber

This adorable memory bunny is handmade from your preloved baby clothes, transforming precious fabrics into a keepsake, with embroidered features and optional personalisation including name and date of birth. £45 from www.edieandjoe.com.

I hadn't appreciated how wonderful owning this Memory Bunny would be for our child, not just for us as parents. Our son loves hearing the stories about the clothes it wears, why they are important to us and where they came from.

Our son used to wear a shirt his dad wore when he was little, and now the Memory Bunny wears it too! He is not a five-and-a-half-year-old who usually cuddles teddies, but this one has come everywhere; he has a name and even a mini bed! I think it's the memories and stories associated with a time he can't

remember which mean so much to him and evoke special memories for all of us.

At first, it was hard to think about meaningful clothes being turned into something else, but it is so much better they are made into a tactile Memory Bunny than left in a drawer. It has been beautifully sewn, with the best parts thoughtfully showcased.

Our only dilemma now is whether to let it become well-cuddled and well-worn, or leave it on a top shelf as a keepsake. I think it will have to be the former!
