Zirconia Blanks

Unicorn DenMart proudly presents its in-house manufactured Unicorn Zirconia Blanks, specially developed to deliver exceptional strength, translucency, and shade accuracy for dental crowns, bridges, and restorations. Designed to meet the evolving demands of modern dentistry, these blanks are highly compatible with open CAD/CAM milling systems, making them ideal for both labs and chairside workflows.

Key Highlights

High Translucency (43%)

Mimics the natural appearance of enamel, ensuring lifelike restorations in both anterior and posterior zones.

Superior Strength (1300 MPa)

Engineered for long-term durability, making them suitable for full-contour crowns, bridges, and multi-unit prosthetics.

Shade Options – ST White & ST Shaded

Choose between ST White for custom coloring or ST Shaded for consistent color gradient results, reducing manual staining efforts.

CAD/CAM Compatibility
Designed to fit seamlessly into open-system milling machines, enhancing workflow efficiency.

- Multiple Disc Sizes**
- ✦ Available in 10mm to 25mm diameter options to suit various restoration requirements and material usage optimization.
- Affordable Yet Premium**
- ✦ A cost-effective alternative to imported blanks without compromising on performance or clinical outcomes.

Product Parameters	
Parameter	Details
Material Type	Zirconium Dioxide (ZrO2)
Translucency	43%
Flexural Strength	1300 MPa
Available Shades	ST Shaded (Preshaded)
Applications	Crowns, Bridges, Full Contour Restorations
Disc Diameters	10mm, 12mm, 14mm, 16mm, 18mm, 20mm, 22mm, 25mm
CAD/CAM Compatibility	Open system
Brand	Unicorn Denmart
Country of Manufacture	India
