A REAL ECO FENCES CUSTOMER STORY

SHE WANTED MORE THAN ANOTHER REPAIR.

NEELAM CHOSE A FRESH START.

A complete new composite fencing system, designed around her home and installed from the ground up.

SWIPE / TURN THE PAGE TO FOLLOW HER JOURNEY →

WHEN PATCHING IT UP WASN'T ENOUGH.

BEFORE

THE STARTING POINT

Ageing timber. Existing concrete posts. A damaged, leaning boundary.

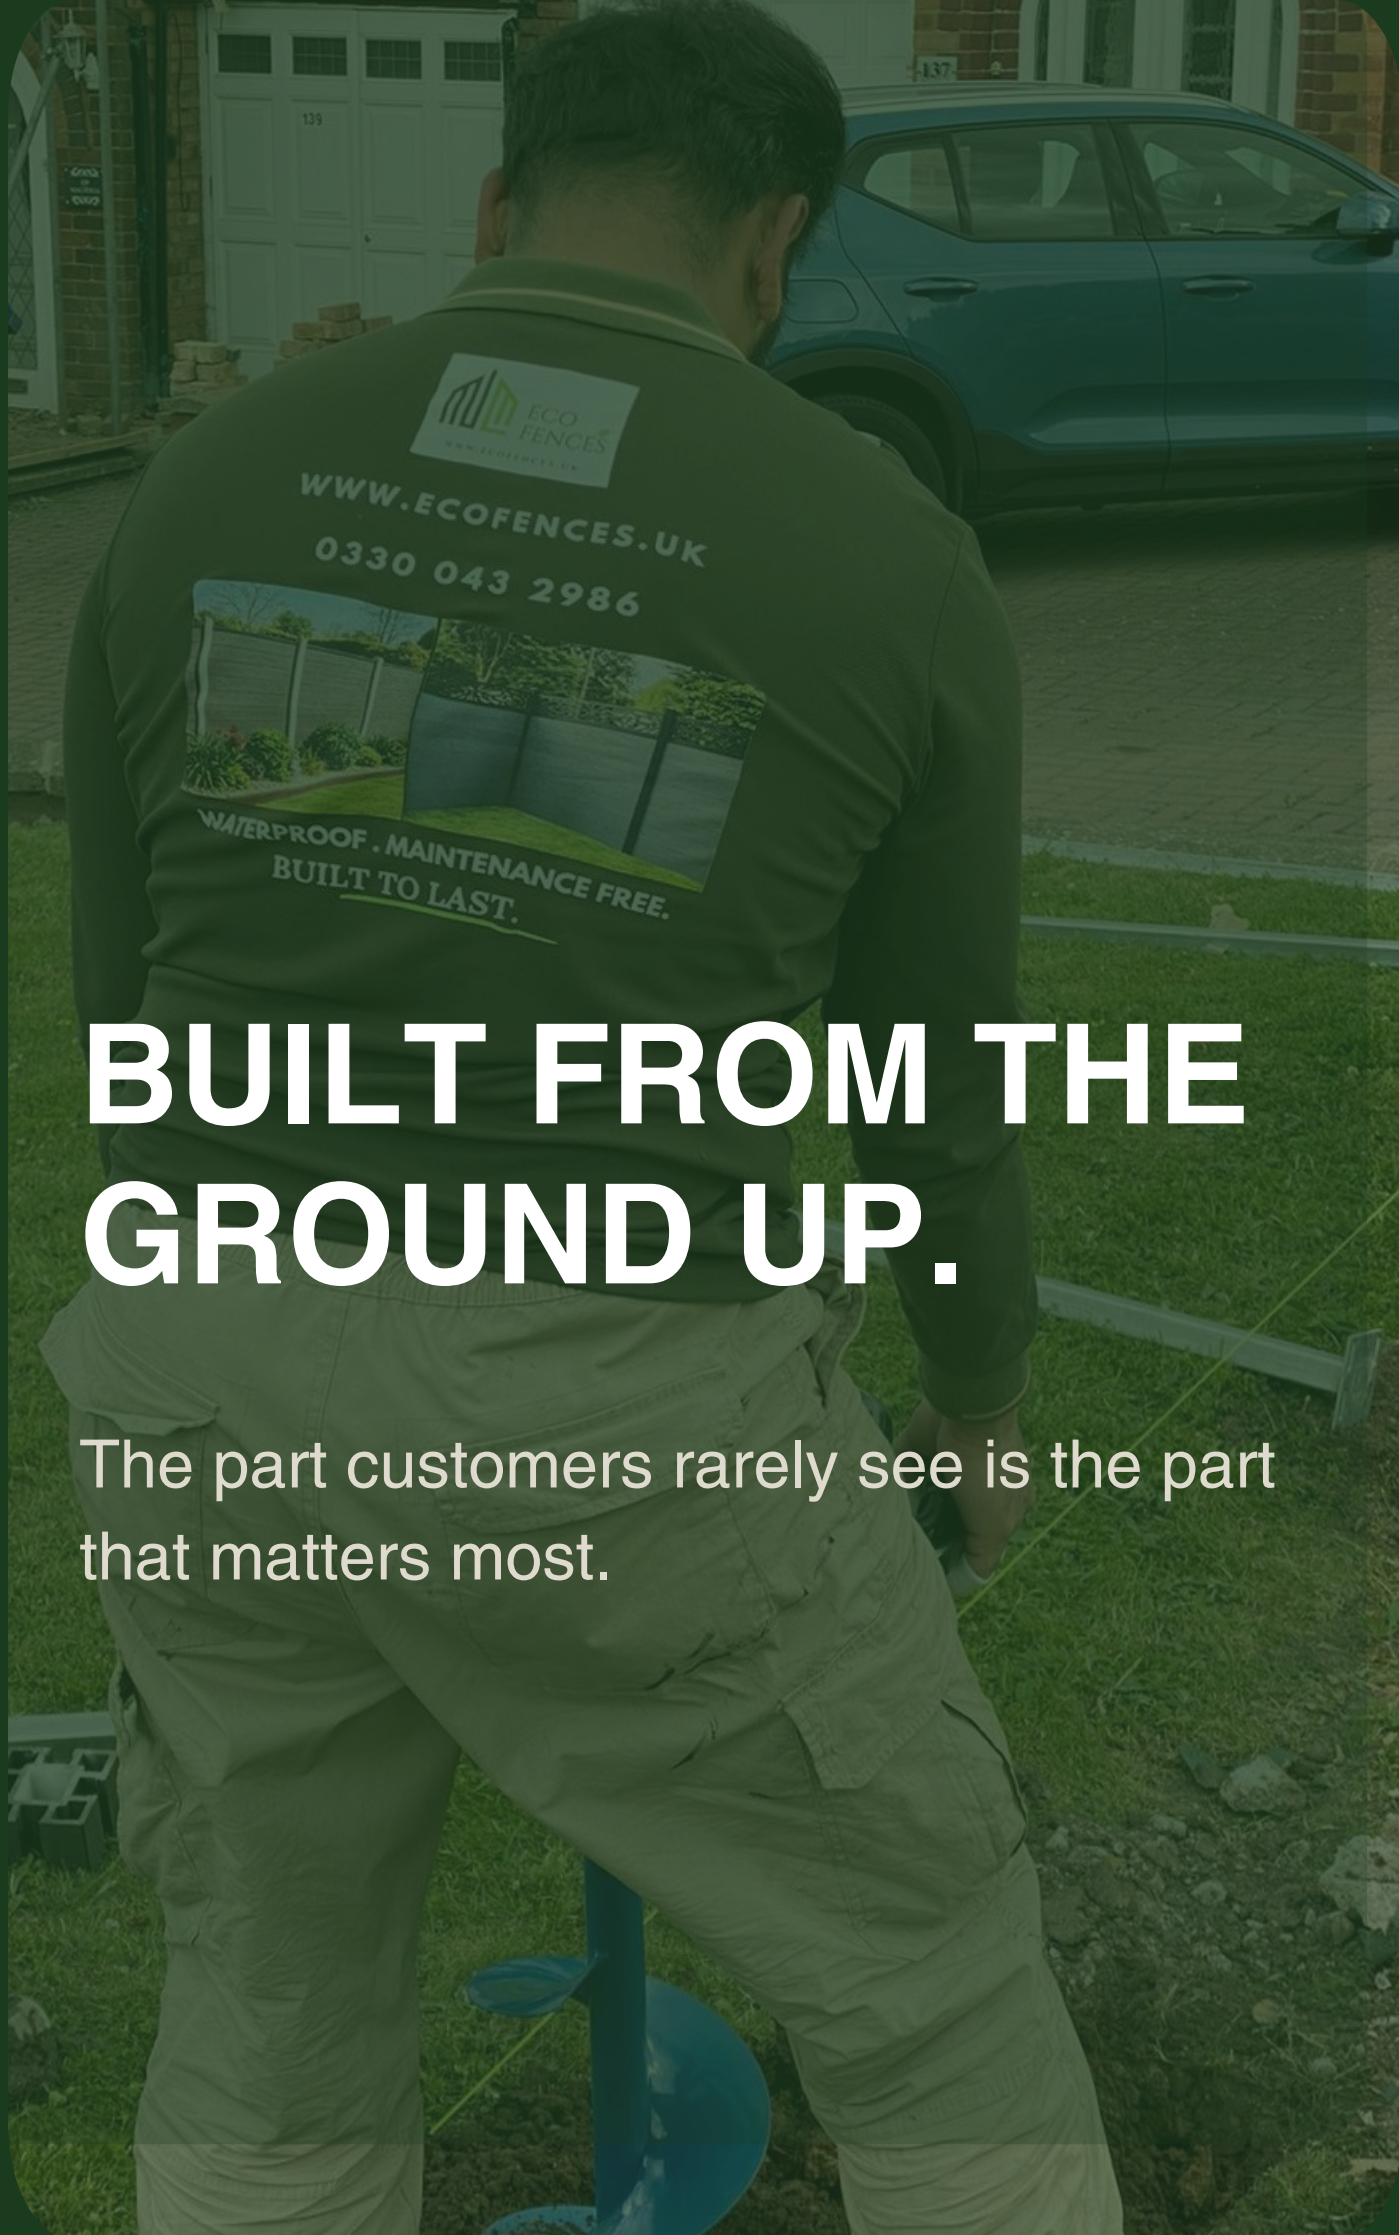

Neelam decided not to keep repairing the old system.

THE DECISION

START AGAIN. BUILD IT PROPERLY.

After her enquiry and site survey, Neelam chose a complete new installation: new composite posts with Eco Luxe Grain fencing in Dark Grey.

BUILT FROM THE GROUND UP.

The part customers rarely see is the part that matters most.

02 / THE CRAFT

NEW POSTS. NEW SYSTEM.

Ground preparation, alignment and careful installation before the final panels go in.

WHAT CHANGED

**OLD BOUNDARY REMOVED.
NEW COMPOSITE POSTS INSTALLED.
LUXE GRAIN PANELS BUILT IN.**

A clean, modern boundary designed as one complete system - not a cosmetic cover-up.

**THE DIFFERENCE
SPEAKS FOR ITSELF.**

★★★★★ NEELAM AFZAL · GOOGLE REVIEW

**"It has completely transformed
the look of my outdoor space..."**

*"The quality of their work is exceptional - precise, neat, and completed
in a timely manner with minimal disruption to my property."*

YOU'VE ALREADY TAKEN THE FIRST STEP.

HE WASN'T LOOKING FOR ANOTHER FENCE.

He wanted the cycle of repairing, replacing and repainting to stop.

THE PROBLEM

A boundary that had stopped working.

Leaning concrete posts. Weathered timber. Broken or missing panels. Constant up keep.

Tony was tired of spending time and money making an old fencing system last a little longer.

**LEANING
POSTS**

**BROKEN
PANELS**

**REPEAT
MAINTENANCE**

THE TURNING POINT

**DESIGNED •
PREPARED •
INSTALLED BY
ECO FENCES**

OLD OUT. A DIFFERENT IDEA IN.

Rather than repeat the same solution, Eco Fences reimagined the boundary as a single architectural feature.

Eco Luxury Vertical Slatted Cladding • Dark Grey • Continuous visual finish

ONE CONTINUOUS LINE. A COMPLETELY DIFFERENT GARDEN.

The vertical rhythm visually stretches the boundary making the space feel cleaner, taller and more expansive.

TONY'S EXPERIENCE

“Beyond what we expected.”

I didn't know where to start. Eco Fences listened, gave us ideas we hadn't considered and transformed the whole boundary. The garden feels bigger, cleaner and completely different and I'm no longer thinking about painting or replacing another timber panel.

WHAT COULD YOUR GARDEN BECOME?

STOP PATCHING. START AGAIN.

If your existing fence is leaning, damaged, dated or simply becoming another maintenance job, we can show you a different way forward.

REAL CUSTOMER TRANSFORMATION

FROM PATCHED-UP TO PERMANENTLY POLISHED.

Carol's front garden | Concrete Post Conversion | Eco Luxe Slatted - Dark Grey

ECOFENCES.UK | 0330 043 2986

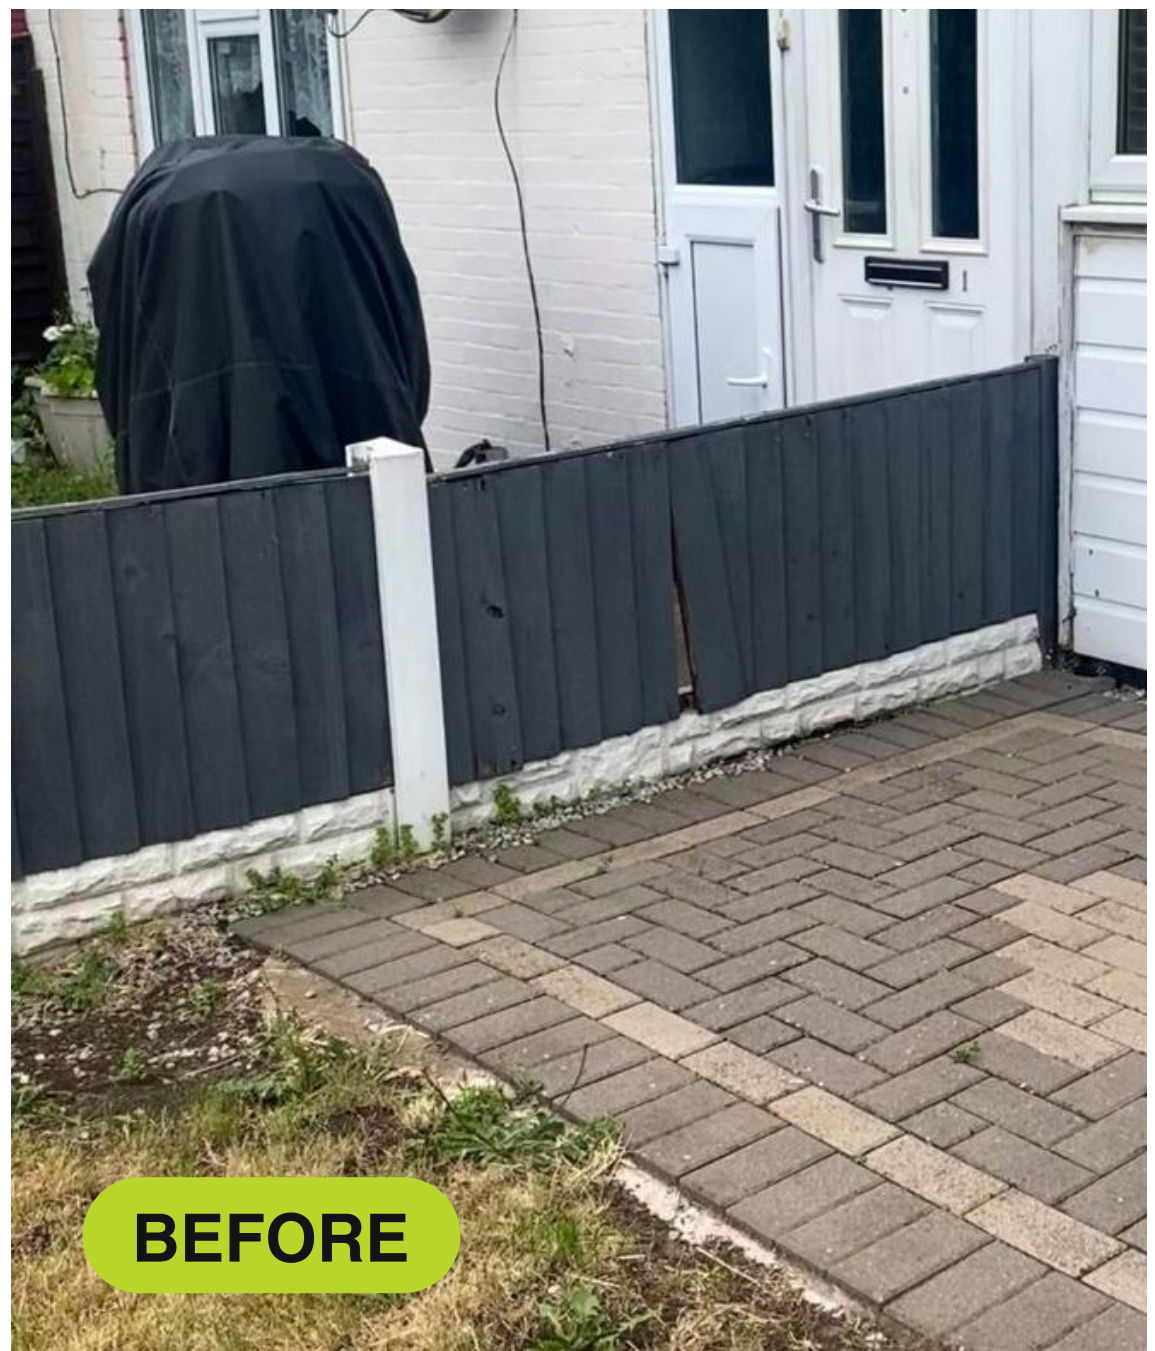

01 / THE PROBLEM

A FRONT BOUNDARY THAT KEPT ASKING FOR MORE.

Broken timber boards. Uneven sections. Repeated painting and patch repairs. Carol wanted the front of her home to feel cared for again - without throwing away concrete posts that could still be put to work.

BEFORE

BEFORE

**THE SMARTER QUESTION WASN'T:
“HOW DO WE REPLACE EVERYTHING?”**

IT WAS, ‘WHAT CAN WE RETAIN, RESTORE AND UPGRADE?’

That's where Eco Fences' Concrete Post Conversion system changes the conversation.

KEEP THE FOUNDATION. CHANGE THE FINISH.

Rather than defaulting to a full rip-out, we worked with the existing concrete-post boundary.

01 STRIP BACK

Damaged timbersections removed and the old boundary prepared.

02 REVAMP

Existing gravelboards levelled, restored and finished with multiple coats of paint.

03 CONVERT

Our conversionsystem creates the framework for the new composite finish.

04 UPGRADE

EcoLuxe Slattedcomposite boards in Dark Grey complete the transformation.

THE RESULT

A clean, low-maintenance frontage that looks purpose-built - while making intelligent use of what was already there.

THE BEST SIGN OF A JOB WELL DONE?

The customer starts planning the next one.

“

I wasn't sure where to start. Eco Fences gave me a clear solution and transformed the old boundary without the upheaval I expected. I'm over the moon with the finish - so much so that I've already asked for a price for the back fence.

CAROL | ECO FENCES CUSTOMER

Customer reaction, adapted from her feedback and follow-up message.

THE FOLLOW-UP MESSAGE

“Can you give me a price for the back fence? I'm looking to have it done after the way the front came out”

- Carol

YOUR OLD CONCRETE POSTS MAY HAVE ANOTHER LIFE.
