Better together

There is something very energising about being in a room full of people who genuinely care about the future of this industry.

Coming out of The Beauty Circle, that was probably our biggest takeaway. Bringing together salon owners, therapists, clinicians, educators, media and brand partners reminded us just how much knowledge, experience and ambition exists within professional beauty, and how valuable it is when we make the time to share it.

Across the day, the conversations kept returning to the same themes: how clients are changing, how technology is shaping the way we work, the importance of education, and above all, the value of human connection. Today's client arrives more informed than ever, but that only makes the role of the professional more important. Your ability to listen, guide, personalise and cut through the noise is something no algorithm or online retailer can truly replicate.

We are seeing the same sentiment across the wider industry. Consumers are still investing in beauty, but they are becoming more considered about where they spend, what they buy and who they trust. Professional skincare and clinically led treatments continue to be areas of strong interest, while retail remains one of the biggest opportunities within the salon and clinic environment.

It is also something we felt strongly while spending time across the industry recently, from The Beauty Circle to Beauty Expo and the many conversations we continue to have with our salon partners. There is a real appetite for new ideas, better education and smarter ways to grow, but also a renewed appreciation for the fundamentals: great service, trusted recommendations and meaningful client relationships.

For us, that is what BLC continues to come back to.

Beauty. Loves. Community.

Our role is not simply to bring you great brands and products. It is to support the businesses and people behind them, through education, ideas, opportunities and a partnership that feels genuinely useful.

Thank you to everyone who joined us at The Beauty Circle, and to every salon, clinic and retailer that continues to be part of the BLC community. We are incredibly excited about where professional beauty is heading, and even more excited to be moving through it alongside you.

Hayley + Josie

INSIDE THE BEAUTY CIRCLE

CELEBRATING THE MOMENTS, CONVERSATIONS AND CONNECTIONS
THAT BROUGHT OUR INDUSTRY TOGETHER.

The event brought the beauty industry together through thought-provoking conversations, practical education, immersive brand experiences and meaningful connections. From Tamara Reid's keynote and brand-led sessions to treatments, product discovery and the LightStim LED Lounge, the day celebrated the people and ideas shaping the future of beauty.

TESTIMONIALS FROM THE DAY

"Truly had such a wonderful time and found all of the speakers so knowledgeable and insightful. It was incredibly refreshing and inspiring to hear from so many voices within our industry."

"The networking element was particularly meaningful for those of us who spend most of our time in a treatment room. Having a dedicated space to connect with peers across the industry was so genuinely refreshing."

"I have been in the industry for over 20 years and I still found the day so informative! I loved being reminded of things that had fallen off my radar, as well as discovering new ways to work smarter with technology and move with the times."

THE SCIENCE BEHIND LCA COMPLEX™

THE TECHNOLOGY AT THE HEART OF PRIORI

Every Piori product is powered by proprietary skin complexes designed to deliver targeted, adaptive skincare. The original and most iconic is the LCA Complex™ – a unique blend of lactic acid and essential antioxidant vitamins that has been at the heart of the brand for more than 20 years.

WHAT IS LCA COMPLEX™?

LCA stands for Lactic Acid + Vitamins A, C, E and Pro Vitamin A.

This carefully balanced complex combines gentle exfoliation with antioxidant protection to support healthier, smoother and more radiant skin. The active ingredients are delivered through a time released liposomal system, allowing for optimal absorption and long-lasting performance.

WHY LACTIC ACID?

Unlike many exfoliating acids, lactic acid is naturally found within the skin's Natural Moisturising Factor (NMF). This means it not only encourages healthy cell turnover but also helps the skin retain moisture.

Piori chose lactic acid because it delivers multiple benefits in one ingredient:

GENTLY EXFOLIATES WITHOUT
COMPROMISING THE SKIN BARRIER

BOOSTS NATURAL HYDRATION

ENCOURAGES HEALTHY CELL RENEWAL

IMPROVES THE ABSORPTION OF
OTHER ACTIVE INGREDIENTS

LEAVES SKIN SMOOTHER, BRIGHTER
AND MORE RADIANT

THE POWER OF FOUR ANTIOXIDANT VITAMINS

Alongside lactic acid, the LCA Complex™ combines four essential vitamins to maximise skin performance:

VITAMIN A – Supports healthy cell turnover.

VITAMIN C – Helps stimulate collagen production while protecting against environmental damage.

VITAMIN E – Protects cell membranes with powerful antioxidant defence.

PRO VITAMIN A (BETA-CAROTENE) – Provides an antioxidant reservoir that supports ongoing skin renewal.

Why therapists love it

Suitable for virtually every skin type

Delivers exfoliation and
hydration simultaneously

Supports brighter, smoother,
healthier-looking skin

Forms the foundation of the
entire Piori retail collection

Makes homecare
recommendations simple,
consistent and results-driven.

THE FUTURE OF SKINCARE IS LONGEVITY

WHY LONGEVITY IS THE BIGGEST CONVERSATION IN
BEAUTY RIGHT NOW

Long before longevity became one of beauty's biggest trends, /skin regimen/Lx was built around this philosophy. Backed by more than 12 years of research, the range combines advanced longevity science with powerful botanical actives to help slow the visible effects of ageing at their source.

WHAT IS THE LONGEVITY COMPLEX™?

At the heart of every /skin regimen/Lx formula is the proprietary Longevity Complex™.

Developed to help protect skin cells from the daily stressors that accelerate ageing, the complex works to support healthier skin for longer by targeting four key mechanisms associated with skin ageing:

INFLAMMATION

OXIDATION

GLYCATION

DNA METHYLATION

Together, these are influenced by the exposome – the environmental and lifestyle factors we encounter every day, including UV exposure, pollution, stress and lack of sleep.

The Longevity Complex™ combines Wild Indigo, Spinach extract, Myrtle Berry polyphenols and Carnosine to help defend against these ageing pathways and support long-term skin vitality.

SCIENCE THAT SETS THE RANGE APART

The Longevity Complex™ has been scientifically shown to protect skin cell longevity and reduce the rate of cellular ageing by 80% in laboratory testing, reinforcing /skin regimen/Lx's philosophy of working proactively to preserve healthier-looking skin over time.

Rather than chasing a quick fix, every formula is designed to support stronger, healthier skin day after day, making longevity an achievable skincare goal for every client.

WHY IT'S AN EASY SALON SELL

- One of the industry's original longevity skincare collections
- Addresses the root causes of skin ageing, not just visible symptoms
- Every core product features the proprietary Longevity Complex™
- Simple three-step regimen that's easy to personalise and prescribe
- Clinically proven to improve hydration, firmness, elasticity, smoothness and luminosity while reducing wrinkle depth.
