SCAN FOR VIDEOS

Welcome

On behalf of the Committee and Vendors of the 2026 Top Shelf Limousin Bull Sale we warmly welcome you to our 5th annual sale. This year the sale will be held at 10:00am on Saturday the 15th of August 2026 at the Nanango Showgrounds.

This year we are excited to put together a line of 35 industry relevant sires that each vendor backs and guarantees from their breeding programs. The Limousin breed is gaining momentum each year throughout Queensland, as well as the southern states, and with strong season conditions and strong prices forecast for the remainder of 2026 and well into 2027, you can rest assured that your investments will turn a profit faster than ever before.

Sale yard prices have reached their highest level in 4 years and the continuing global protein shortages, driven by the lowest US cow-herd in 75 years, there has never been a better time to utilise high performance Limousin bulls into your crossbreeding operation. The continued focus on Limousin do-ability, calving ease, docility and yield has now allowed Limousin bulls to find true value as they continue to be utilised within Queensland breeder herds.

All our bulls come to you fully vaccinated and vet checked. Ready to work from the time they arrive home. For added reassurance, all bulls have been semen motility and morphology tested prior to sale.

Gilliland Livestock Marketing and Nutrien continue from 2025 as our selling agents. Both operations offered tailored solutions and expanded reach to service your needs across Queensland and Northern NSW. The sale will be interfaced by Stocklive for those unable to attend on the day.

As per previous years, we are offering free freight to all major Queensland selling centres and ask any interstate buyers to contact us for delivery options we can offer you.

All bulls will be available for viewing at the Nanango Showgrounds from 2:00pm on Thursday 13/08/2026.

We welcome you to join us for our BULL WALK at 3:00pm on Friday the 14th of August. This is a great opportunity to inspect the bulls in a relaxed environment and talk to the vendors. Afternoon tea and light refreshments will be served.

If you wish to inspect the bulls prior to sale, feel free to contact the GLM or Nutrien agents in this catalogue, or any of the vendors who are more than happy to facilitate any questions you may have.

We look forward to meeting you.

Kind Regards,
The Top Shelf Limousin Sale Committee

Sale Information

Health and Fertility Evaluation:

All bulls have been soundness and fertility checked. Crush side semen and Morphology results will be available prior to sale and displayed on the supplementary sheet.

All sale lots have had a minimum of the below vaccinations:

- 3-day sickness
- 7 in 1
- Blooded with 3 germ tick fever blood
- Pesti Tested Negative
- Vibrio

Guarantee:

All vendors stand behind their sale drafts. If you have any issues with your purchases, we want to be the first to know and will work with you to come up with a favourable outcome.

Supplementary Information:

All bulls will be Ultrasound scanned for EMA, Rib and Rump Fat and IMF on Monday the 10th of August by Lonnie Stone. Supplementary data including weights, scrotal circumferences and semen testing results will also be available on Thursday the 13th of August following Scanning.

Inspections:

All sale lots will be on Display at Nanango Showgrounds from 2:00pm on Thursday the 13th of August 2026. Prior Inspections can be arranged with vendors or by contacting one of the GLM or Nutrien Team.

Outside Agent Rebate:

A 3% outside agent rebate will be offered to agents providing they meet the following requirements;

1. Buyer to be introduced to GLM & Nutrien or Sale committee at least 24 hours prior to sale.
2. Agent to accompany or represent the Buyer at the Sale or bid on their behalf through Elite Livestock Auctions.
3. Accounts to be settled in line with GLM terms and conditions

Sale Information *(continued)*

Online Bidding:

Stocklive will join us again this year to offer their online platform to buyers that can't make sale day. Contact Jaimie Kriesch on 0484 106 426 to ensure you are setup prior to the sale for online Bidding.

Freight:

Free freight to all major Queensland selling centres. Contact the committee prior to the sale for Interstate options.

All interstate purchases will be held at Leegra Bull Depot, at the purchaser's responsibility. Fees to be agreed between Purchaser and Leegra prior to the sale, Contact Les on – 0407 589 027

Tick Clearance:

All bulls will be pre-treated and inspected clean to travel to clean country from the day of the sale. Alternatively, all bulls have been vaccinated with 3 germ blood to ensure safe travel into an infected zone.

Accommodations:

Accommodation in Nanango and nearby in Kingaroy is available. But booking in advance would be recommended. Contact us if you require any assistance:

- Copper Country Motor Inn, Nanango (07 4163 1011)
- Nanango Fitzroy Motel, Nanango (07 4163 1100)
- Room Motels, Kingaroy (07 4162 5115)

Happy Hour and Bull Walk:

On Friday afternoon from 3.00pm please join us to enjoy some refreshments and inspect the bulls at your leisure. You are welcome to join us for dinner following the bull walk.

EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

LIMOUSIN SUFFIXES			
Trait	**SUFFIX**	**STATUS**	**STATUS ARRIVED AT BY** Details available for individual animals on Limousin database Animal Details page
Horn status	**PP**	Homozygous polled	DNA test confirmed homozygous polled, or Animal is homozygous polled by pedigree as both parents are confirmed homozygous polled, or Animal is confirmed homozygous polled by progeny analysis process.
	P	Polled	DNA test confirmed heterozygous polled, or Animal is untested, information was provided by breeder.
	Ps	Polled with Scurs	Identified by details provided by breeder at time of registration, or DNA test confirmed heterozygous polled and breeder information indicates animal shows scurs.
	H	Horned	DNA test confirmed horned, or Animal is untested, information was provided by breeder.
Coat colour	**BB**	Homozygous black	DNA test confirmed homozygous black, or Animal is homozygous black by pedigree as both parents are confirmed homozygous black. Animal is confirmed homozygous black by progeny analysis process.
	B	Black	DNA test confirmed heterozygous black, or Animal is untested, information provided by breeder.
	R	Red	Identified by details provided by the breeder.
	A	Apricot	Identified by details provided by the breeder.
	O	Other	Identified by details provided by the breeder.
F94L gene	**AA**	F94L 2 copies	DNA test confirmed animal carries 2 copies of the F94L gene, or Animal carries 2 copies of the F94L gene as both parents carry 2 copies of the F94L gene.
	AC	F94L 1 copies	DNA test confirmed animal carries 1 copy of the F94L gene.
	CC	F94L 0 copies	DNA test confirmed animal carries no copies of the F94L gene.
	U	F94L Status unknown	Animal is untested and parent status is unknown.
Lim-Flex	**LF**	Lim-Flex	Animal is identified as Lim-Flex by pedigree details in line with ALBS regulations.

EXPLANATION OF ESTIMATED BREEDING VALUES

An Estimated Breeding Value (EBV) is an estimate of the genetic merit of that animal for each trait measured.

EBVs are provided for the following traits:

Calving Ease Direct: estimates the differences in the ability of a sire's calves to be born unassisted from a 2-year-old heifer.

Gestation Length: ranks sires for the time between conception and the birth of a calf. Shorter gestation is indicated by negative EBVs and longer by positive EBVs.

Birth Weight: indicates the genetic potential for birth weight. Positive EBVs indicate higher birth weights and negative EBVs indicate lower birth weights of progeny.

200, 400 & 600 Day Weight: give us an estimation of the animal's genetic potential for growth.

Mature Cow Weight: estimates differences between animals in live weights of cows at 5 years of age.

Milk: a key component of fast growth to weaning is the dam's maternal performance. A bull with a high milk EBV should produce daughters which milk well.

Scrotal Size: indicates whether the bull will produce sons with above average or below average scrotal sizes.

Carcase Weight: ranks animals for carcase weight.

Eye Muscle Area: ranks animals for eye muscle area measured at the 12th rib on a 300kg carcase.

Rib Fat: ranks animals for rib fat depth at the 12th rib on a 300kg carcase.

Rump Fat: ranks animals for fat depth at the p8 site on the rump on a 300kg carcase.

Intra Muscular Fat: ranks animals for the percentage of intramuscular fat at the 12th rib of a 300kg carcase.

Docility: is expressed as the increase or decrease in the percentage of progeny that will be scored as docile (score 1 or 2). Positive EBVs indicate a higher proportion of progeny that will be scored as docile and negative EBVs indicate a lower percentage of progeny being scored as docile.

Comparing EBVs: The EBVs for Limousins cannot be compared with EBVs for animal of other breeds. They should be compared with the current average EBV for the Limousin breed shown below.

Breed Average EBVs for 2024 Born Calves														
CED	**GL**	**BWt**	**200**	**400**	**600**	**MCW**	**MLK**	**SS**	**CWT**	**EMA**	**RIB**	**RMP**	**IMF**	**DOC**
+0.8	-3.2	+1.4	+23	+39	+55	+55	+8	+1.2	+36	+2.4	+0.1	+0.1	+0.1	+48

Accuracies: Accuracies are presented with each EBV and give an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal and its relatives.

Disclaimer: The Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither the Australian Limousin Breeders' Society or ABRI oversee or audit the collection of this data.

1 FERNVALE VEGIMITE (P B AA)

RJZPV59	2/10/2024	Hetero Polled (by DNA)	22.5 mths	Hetero Black (by DNA)

COTTAGE LAKE BIG STAR (IMCPK908) (PP BB AC)

200 DAY	28	59%
400 DAY	48	59%
600 DAY	73	67%
MILK	5	36%
DOCILITY	59	36%

An absolute standout Red Hunt GAME 169G bull here out of an outstanding ZAMBUKA daughter. Homo Polled with 2 copies of F94L adding yield and power to calf crop. Great feet and legs as well as square hip shape which should add value to replacement females. He was the heaviest bull in his group at 600 days off grass. A soft muscled pattern with top fats (top 25% or better) and top 15% for IMF. Check out the soft eye on this calf- absolutely bomb proof docility (Top 20%). This bull should be OK on heifers. A bull we would of kept if he wasnt so closely related to a large portion of our herd. Semen retained for in-herd use.

Purchaser: **$**

4 MCL VEGEMITE V13 (P B AA)

MCLPV13	30/08/2024	Hetero Polled (by DNA)	23.5 mths	Hetero Black (by DNA)

400 DAY	**32**	**63%**
600 DAY	**47**	**66%**
MILK	**8**	**36%**
DOCILITY	**57**	**57%**

Our first calf of RUNL Justified calf coming through the ranks here. He is a black and polled embryo calf and carries two copies of F94L. Very balanced and well put together that would suit a crossbred cow herd to add muscle and hybrid vigour. He will be a sure bet on heifers. Full brother to MCLPV19 also in the sale. High IMF, High Calving ease and birthweight with another awesome disposition. 4 out of 5 indexes in the top 45% of the breed or better! A true blue Aussies bull here ready to work in Aussie conditions.

Purchaser: **$**

5 MCL VECTOR V16 (PP B AA)

MCLPV16	2/09/2024	Homo Polled (by DNA)	23.5 mths	Hetero Black (by DNA)

400 DAY	**34**	**64%**
600 DAY	**46**	**70%**
MILK	**5**	**48%**
DOCILITY	**31**	**56%**

Another well put together Black Homo Polled Denver son here who is also carrying 2 copies of F94L gene. He is extremely well put together with great feet and legs tied together in a slick coat with clean underline. He is a half brother to MCLPV12. Similar to our other bulls he carries high fat numbers with Rib and Rump fats both in the top 10% of the breed as well as an awesome IMF number in the top 6% of the breed. Will work well on an Angus based cow herd. Should be OK for heifers. 4 out of 5 indexes in the top 45% of the breed or better.

Purchaser: **$**

6 MCL VERSATILE V12 (PP B AA)

MCLPV12	1/09/2024	Homo Polled (by DNA)	23.5 mths	Hetero Black (by DNA)

WULFS ZIPLOCK N922Z (IMUP922Z) (PP U)

200 DAY	**31**	**68%**
400 DAY	**54**	**67%**
600 DAY	**74**	**72%**
MILK	**8**	**51%**
DOCILITY	**56**	**56%**

A bull whose tag number suits him to a tee. V12 a Black Homo Polled who is stacked full of horsepower. Absolute meat wagon of a bull here. By far the stoutest made bull in our draft this year with an awesome slick black coat and a heap of volume. His mum is a 10-year-old cow who has another keeper heifer on her this year. If youre looking for terminally focused calf crop this is the bull for year. Top 15% or better for all growth traits, top 20% or better for fat, EMA and IMF, a rare combination. All 5 indexes in the top 20% of the breed or better. A safe bet to add pounds to your next calf crop.

Purchaser: **$**

7 MCL VENOM V21 V21 (PP B AC)

200 DAY	**16**	**64%**
400 DAY	**29**	**62%**
600 DAY	**33**	**69%**
MILK	**4**	**28%**
DOCILITY	**39**	**52%**

A specialist Homo Polled and Black heifer bull by RUNL Justified who also sired V13 and V19 in this sale. His mum was a fullblood Limousin 15 year old cow with V21 being her last calf. His dam also was the mother of MCL Unreal U8 who sold in 2025 sale for $8000. V21 will add softness as well as being another specialist calving ease bull with a top 25% EBV number for birth weight and a top 15% for IMF. Will suit a program looking to maintain softness and fat but wants to access safe and reliable Limousin genetics to add yield and flexibility to their calf crops.

Purchaser: **$**

8 MCL VENTURE V19 (P BB AC)

MCLPV19	2/09/2024	Hetero Polled (by DNA)	23.5 mths	Homo Black (by DNA)

RUNL JUSTIFIED- SIRE OF MCL VENTURE V19

RUNL RIALTO 135R (PEDPRUNL135R) (P B U)
RUNL JUSTIFIED 364 J (PP BB AC)
RUNL EVENING GLOW 205 E (PEDPRUNL205E) (P B U)

WARRIGAL CAVIAR N14 (H B AA)
WARRIGAL GOLDEN CAVIAR L4 (JPRPL4) (P A AA)

BIRTH WT	**-0.2**	**70%**
200 DAY	**22**	**66%**
400 DAY	**37**	**63%**
600 DAY	**47**	**67%**
MILK	**10**	**36%**
DOCILITY	**43**	**57%**

A larger framed, polled bull here who is a full brother to MCLPV13. His mum N14 was a donor cow we purchased out of the Warrigal program. He tested Homozygous Black meaning all calves will be born black enabling utilisation into Angus based programs weaner or feeder programs. He is a sleep easy calving ease bull sitting in the top 6% for birth weight and top 8% for calving ease. Coupled with a high milk EBV as well as top draw fats and a top 15% for IMF. A self-replacing specialist here who easily fits the bill. Great footed with another very easy disposition to manage. Will add frame and maternal do ability to his calf crop.
