YOUTH HOMELESSNESS IN WESTERN AUSTRALIA: THE FACTS

Over 9,000 young people experience homelessness in WA each year.

40% of WA's homeless population are under the age of 25.

Many young people experiencing homelessness are fleeing domestic violence, poverty, or neglect.

Without stable housing and support, they face increased risks of mental illness, addiction, and long-term disadvantage.

Demand for Specialist Homelessness Services jumped 39% from 2017 to 2022.

Aboriginal youth (35% of homeless young people) face rising costs, unaffordable housing, and systemic barriers.

**This crisis can't be ignored. But with your help,
we can change that.**
