From Everyday Eye Health to Macular Support

Eye health matters at every stage of life. From screen-heavy lifestyles and every day visual demands to healthy aging and long-term macular support.

Screen-Heavy Lifestyles

Phones, computers, and digital displays are a constant part of modern life and place constant strain on our delicate eyes.

Healthy Aging

As we age maintaining healthy vision becomes an important part of long-term wellness.

Macular Health Matters

Age-related macular degeneration is a real health concern that drives the demand for supplements that actually work.

Vision^{plus}
See the world better!

Born from Macular Health, Built for Every Stage of Life

Originally developed with macular health in mind, VisionPlus delivers potent lutein and zeaxanthin, plus targeted nutritional support for healthy vision at every stage of life.

Antioxidant Support

VisionPlus provides antioxidants like vitamins A, C, and E, alpha lipoic acid, NAC, quercetin, and glutathione for improved vision.

Beyond Basic Support

With vitamins, minerals, and targeted support nutrients, VisionPlus goes beyond basic with market-leading nutrition.

Inspired by ARMD

What began with a focus on ARMD support has grown into a more complete daily eye-health formula for modern visual needs and healthy aging.

Vision^{plus}

Every purchase helps extend our commitment to supporting communities across Africa.

Targeted Daily Nutrition Trusted Around the World for Nearly Two Decades

"Several years ago, after completing my eye examination, my eye doctor said that I have Macular Degeneration. He indicated that at my advanced age, I could expect it to progress and eventually result in blindness. This was a depressing experience. But, he also said it may be slowed down by using a special eye vitamin with Lutein in it. The eye condition continued to worsen. After a couple of years, I learned about VisionPlus. I agreed to give it a try, and much to my surprise, my macular degeneration has slowed remarkably. My eye doctor was elated and suggested I continue with my present program. In order to hold on to the great progress in controlling this degeneration, I am now taking VisionPlus every day. I would wholeheartedly recommend these vitamins." - Dr. F

"I'm a Type I Diabetic, and have had issues with my eyes since I was a young boy. My doctors have always recommended I supplement with an eye vitamin containing Lutein, but I've never found anything that works as well as VisionPlus in helping me combat my constant eye issues. I also like that it serves as my multivitamin. I only have to take VisionPlus and I get all the daily support that I need. I highly recommend VisionPlus." - Jon

"I have been using Vision Plus for just a few months and have noticed a significant enhancement to my vision. I am now able to read messages on my cell phone that previously required magnifying glasses. Also, I can now see the words to read books without glasses. The only change I have made for my eyes is to take Vision Plus and it works." -Brad
