Leading the World in Nutraceuticals

HUMAN
GRADE

We supply premium-quality
ingredients for developing successful,
nutritious pet products

HUMAN
GRADE

Our Corporate Mission

Leading the World in Nutraceuticals

Founded in 1998, NP Nutra® is committed to supplying only the finest-quality nutraceutical ingredients produced at its manufacturing partners' state-of-the-art facilities around the world. Whether you are looking for individual ingredients or custom formulations and blends, NP Nutra® is here to satisfy your product needs and exceed your expectations.

Quality, Price and Reliability

NP Nutra® strives to provide you with the most pure, potent ingredients at the best possible price. Agreements established with growers worldwide ensure uninterrupted supply year-round. NP Nutra® can offer you the reliability that your large projects need.

Outstanding Customer Service

Our experienced, friendly sales team is committed to working with you to satisfy your ingredient needs and develop a long-term partnership. NP Nutra's excellent customer support has won the trust of a growing clientele, which includes many of the world's largest functional food, beverage, dietary supplement, cosmetic and pet food manufacturers, who have become loyal customers through the years.

Premium Ingredients

Successful Pet Formulations

We supply premium-quality ingredients for developing successful, nutritious pet products; foods, food-toppers, dietary supplements, drinks and pet grooming products.

Only the Best is Accepted

NP Nutra is proud to be part of the NASC Preferred Supplier program. The National Animal Supplement Council is a nonprofit trade association whose mission is to promote the health and wellbeing of companion animals and horses given animal health supplements by their owners, and to protect and enhance the animal health supplement industry.

A great ingredient begins with the best raw materials. NP Nutra's commitment to perfection is seen at every step of our process. Raw materials are meticulously examined by Quality Assurance teams and only those that meet our strict quality standards are accepted. Our products are produced at advanced state-of-the-art facilities using innovative technology.

Human and Food Grade

Our plant-based ingredients are certified food grade and are safe for human consumption.

Extensive Product Catalog

Bursting with nutrients and flavor, natural ingredients are increasingly in demand. Unlike animal ingredients, plant-based ingredients provide fiber and phytonutrients, which are vital for good health. NP Nutra® is at the forefront in the industry, offering an extensive product catalog of the highest quality, nutrient-dense ingredients.

Research and Development

NP Nutra's R&D team is constantly researching innovative, premium-quality ingredients, always endeavoring to seek out organic and clean label products. Let us present you with the next trend-setting ingredient for your product formulation.

GMP-Compliant and Kosher-Certified

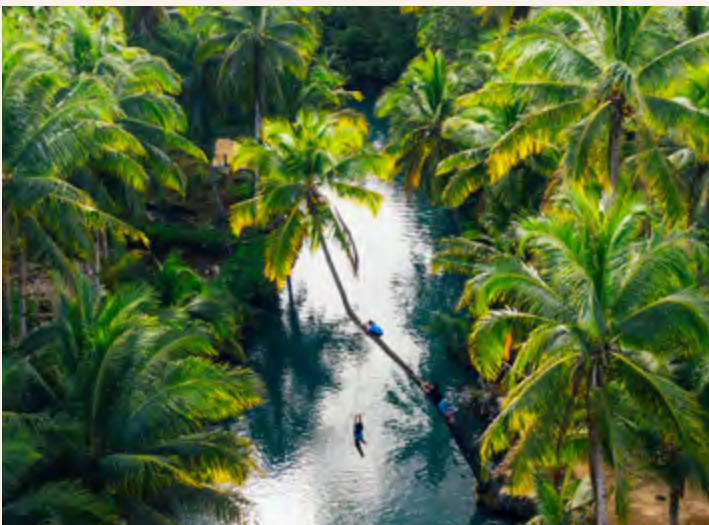

NP Nutra® strives to ensure all of our ingredients are GMP-compliant and Kosher-certified.

Supporting Organic and Non-GMO

Organic farming has many benefits such as supporting consumer health, promoting sustainability, and preserving original plant species and natural biodiversity. Additionally, by law, all certified organic ingredients are automatically non-GMO. We remain committed to sourcing certified organic ingredients, and audits by our Quality Assurance team include traceability verification by mock recall, which traces raw materials and verifies organic soil. Our organic products are tested for pesticide residues. Check out our Nutra Organics product line, containing more than 75 ingredients.

Supporting Sustainable Practices

By supporting and encouraging sustainable practices at all stages of the supply chain, NP Nutra® recognizes our role of environmental stewardship to fulfill our responsibilities to our farmers, workers, consumers and planet. We work closely with our manufacturing partners to verify traceability and ensure that sustainable growing and harvesting practices are used.

Quality Assurance

Triple-T Verification® Program – Quality, Safety, Traceability

Supply-chain transparency and ingredient quality, safety and traceability are ensured by our Triple-T Verification® Program, which is one of the most stringent Quality-Assurance systems in the industry. Our fully integrated Quality Control System is complete with policies, procedures and prerequisite programs that guarantee safety and compliance to the FSMA (Food Safety Modernization Act) and GFSI (Global Food Safety Initiative) regulations.

Our Triple-T Verification® Program includes four preventive programs:

1. Process Preventive Control
2. Allergen Preventive Control
3. Sanitation Preventive Control
4. Supply Chain Preventive Control

Trace: The supply chain is validated starting with the raw materials at the point of origin, ensuring ingredient traceability.

Test: Each production lot is tested by our Quality Control teams for purity (HPLC/UV), consistency (organoleptic), pesticides (USP), heavy metals (ICP-MS) and microbials (AOAC/USP). We frequently use third-party testing services to verify in-house lab test results and to guarantee product quality, potency and safety.

Trust: We provide our customers with peace of mind, supplying the highest-quality, traceable ingredients, processed at certified state-of-the-art manufacturing facilities.

Manufacturing Partners

To ensure ingredient quality and safety, our manufacturing partners are carefully selected using a thorough process that involves product-sample evaluations, supply-chain validation, certificate verification and onsite facility audits, including traceability verification by mock recall. We conduct ongoing performance evaluations and audits of our manufacturing partners' facilities, to ensure our ingredients are always safe and of the highest quality.

The facilities of our manufacturing partners have attained GFSI-certification status, under which accredited third-party schemes provide comprehensive supply-chain guidance.
