Horticultural maintenance

Specialised plant care:

Working with local authorities, BIDs and other public realm partners, we deliver extensive aftercare across rain gardens, SuDS planters, parklets, street furniture, pocket parks and more.

Sustainable Practices:

**Natural products
and pest control**

**Electric fleet and
water pumps**

**Local and
dedicated team**

We provide services for:

We maintain a wide range of locations, from large scale public spaces to smaller highstreet planters.

Our Services

Meristem Design's maintenance features a comprehensive set of upkeep services including:

Watering

Weeding

Pruning

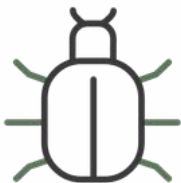

Plant Replacement*

Soil Health Monitoring

Cleaning

Pest Control

Plant-based Fertiliser

Litter Removal

Other services include: Topping up mulch throughout the year and a monthly planter quality check with a detailed photo report sent to the client.

Each maintenance service is tailored to fit the needs of the installation, and will keep them looking their best. We also check the structural integrity of the product, to make sure it continues to effectively serve its intended purpose.

Additional services available. Please speak to a member of our team for details and a quote.

*Plant replacement for natural failures only.

Our Maintenance Team

Our friendly and dedicated maintenance team brings expert horticultural care to every project, ensuring your green space stays vibrant and healthy all year round. Whether you need one-off support or regular visits, our team works with care, precision, and a passion for sustainable practices to help your space thrive.

Meristem Design will ensure an operative visits each location, carrying out general maintenance, as well as recording notes on any issues, suggestions, or work that has been carried out. Here is an example, if we were visiting the site 30 times in a year:

30 visits per year											
Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
x	x	x	xx	xxxx	xxxxx	xxxxxx	xxxxxx	xxx	xx	x	x

Please note, the table above is a general scope of the monthly frequencies. This may be altered by Meristem Design to combat changeable weather conditions throughout the year, however the yearly frequency will remain the same.

We would then provide a spreadsheet report, as well as some accompanying photos for your reference.
