

PTAC UNITS

FOR HOTEL ROOMS

We excel at hospitality, like you do!

AIR&WATER
SOLUTIONS

Hotpoint®

ZONELINE PERFECT CONTROL

Say goodbye to rooms that are too hot, too cold, too loud or too humid. Thanks to cutting-edge inverter technology and a variable-speed compressor, GE Appliances' Zoneline® Perfect Control PTAC helps keep rooms comfortable and quiet for occupants, all while offering greener operation and energy savings for you.

PERFECTCONTROL
TECHNOLOGY

AIR&WATER
SOLUTIONS

Whisper-Quiet Operation

Twin rotor variable speed compressor, large cross-flow blower and two EC motors work together to minimize noise and maximize comfort.

One Size Fits All

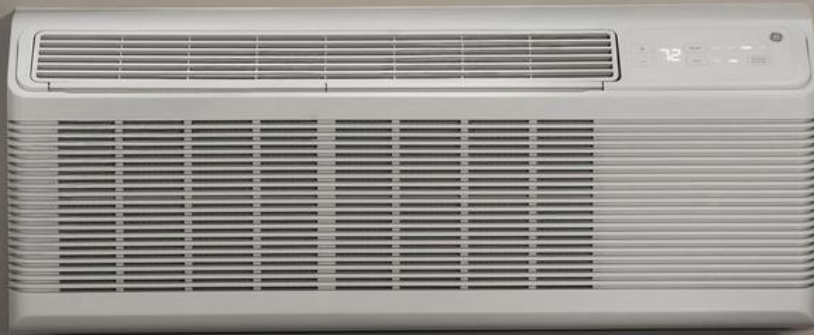

Perfect Control technology PTAC self regulates to room size & room conditions from 4000 to 15000 BTUh.

Efficient Cold Weather Heat Pump

The variable speed compressor and advanced defrost capability on Perfect Control models allow for the best-in-class heat pump operation down to 0°F (excludes ICR models).

ZONELINE FIXED SPEED

ECO-FRIENDLY BUILD

All Zonline PTACs will be using R454B refrigerant, the lowest GWP refrigerant on the market.

AIR&WATER
SOLUTIONS

New Updated Appearance

The new Zonline® grey white chassis color will complement any installation and room decor. Easy-to-read interface makes navigation simple.

Unmatched Durability

All Zonline® units are made of the highest quality materials and tested in extreme environments to ensure they operate at peak performance, season after season.

OPTIONAL SPECIAL FEATURES

Corrosion Protection

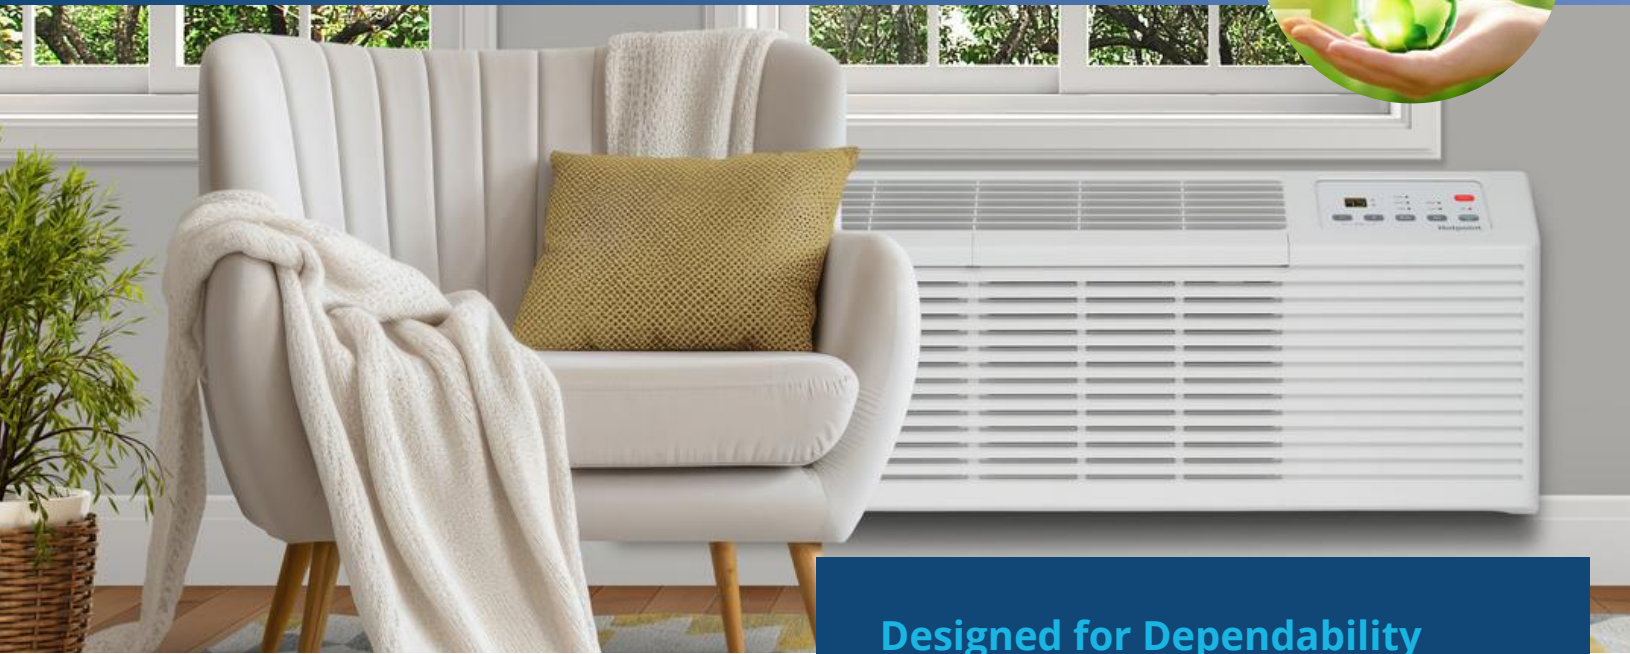

MUA (Make-Up Air)

ICR (Internal Condensate Removal)

HOTPOINT PTAC UNITS

**Designed for Dependability
Providing a Better Environment**

Hotpoint®

Why R32?

R32 is easy to recycle and has a 30% lower GWP than R410A. R32 has a zero ozone depletion potential and is easy to charge and recover. Its increased efficiency over R410A means the air conditioner will use less refrigerant than previous models, thus improving its environmental impact over the life of the product.

SPECIAL FEATURES

2 Fan Speeds

**Slinger Ring
Condensate Removal**

Coverless Control Panel

**Automatic
Emergency Heat**

**Freeze/Frost &
Overheat Protection**

Auto Power Recovery

Self-Diagnostics

Constant Fan Button
