RECOMMENDED CARPET QUALITIES FOR HOSPITALITY PROJECTS

DANSK WILTON

DURABLE CARPET QUALITY

For optimal lifetime.

When you choose a carpet for your hospitality project, it is important to choose a quality that can withstand the heavy wear and tear, so that the carpet will have a long life. The choice of carpets is crucial for both aesthetics and functionality.

One of the parameters in ensuring a long lifespan for the carpet solution is proper cleaning. In our maintenance manual you can learn about the recommended daily maintenance and cleaning. The carpets' high durability together with the correct maintenance ensures both premium carpet quality and an aesthetically appearance that will last for years to come.

Maintenance manual: How to keep your new carpets beautiful

Our carpets are manufactured in an 80/20 wool/nylon blend using pre- or undyed yarn.

PRE-DYED YARNS

Pre-dyed yarns offer the advantage of preserving vibrant and saturated colours over time, due to the colour being consistent throughout the entire carpet fibre. These pre-dyed options are ideal for those who desire long-lasting, rich hues that will not fade easily.

UNDYED YARNS

Undyed yarns are developed by blending the raw wool from sheep of various breeds and colours, resulting in a beautiful range of nuances. This carpet solution is called Colortec ORIGIN. The yarn is mixed before the spinning process. It is a very meticulous process, done by hand, to ensure the right nuance.

Whether you prefer the enduring brilliance of pre-dyed yarns or the natural and diverse style of undyed yarns, we will help you define which carpet solution will be the best for your project.

RECOMMENDED CARPET QUALITIES

At Dansk Wilton we always set the highest standards when it comes to quality. Throughout our company we focus on quality in our procedures and our products. The following table provides recommended pile weight for different use scenarios depending on expected wear and tear of the carpet.

Application		General wear	Heavy wear
Public areas	Ballroom, Pre-function areas	Pile weight: 1500 g/m^2 LC 5 Class 33	Pile weight: 1700 - 1900 g/m^2 LC 5 Class 33
	Casinos *– 24 hours use*	Pile weight: 1700- 1900 g/m^2 LC 5 Class 33	Pile weight: 1900 g/m^2 LC 5 Class 33
	Cinemas, Theatres	Pile weight: 1500 - 1700 g/m^2 LC 5 Class 33	Pile weight: 1700 - 1900 g/m^2 LC 5 Class 33
	Lobby, Public spaces	Pile weight: 1500 - 1700 g/m^2 LC 5 Class 33	Pile weight: 1900 g/m^2 LC 5 Class 33
	Restaurants	Pile weight: 1500 - 1700 g/m^2 LC 5 Class 33	Pile weight: 1700 - 1900 g/m^2 LC 5 Class 33
	Staircases	Pile weight: 1700 g/m^2 LC 5 Class 33	Pile weight: 1900 g/m^2 LC 5 Class 33
	Corridors	Pile weight: 1500 g/m^2 LC 5 Class 33	Pile weight: 1500 - 1700 g/m^2 LC 5 Class 33
	Convention centres	Pile weight: 1500 g/m^2 LC 5 Class 33	Pile weight: 1700 g/m^2 LC 5 Class 33
Guest rooms and cabins	Guest room, Cabins	Pile weight: 1100 - 1300 g/m^2 LC 4 Class 32	Pile weight: 1300 g/m^2 LC 4 Class 32
	Suites	Pile weight: 1100 - 1300 g/m^2 LC 4 Class 32	Pile weight: 1300 - 1500 g/m^2 LC 5 Class 33

WEIGHTS AND QUALITY EXPLAINED

Pile weight	Conditioned yarn weight in g/m^2, woven or tufted into the carpet. Tolerance -10% + 15%
Luxury Rating Class	Refers to the carpet's comfort level in a range from one to five. The more comfortable and softer a carpet is, the higher the LC number.
Overall Classification	This classification shows the amount of traffic the carpet has been tested and approved for. The rating for contract use goes from 31 – 33.

CARPET SOLUTIONS

Customised to your projects.

DW AXMINSTER

Axminster is the classic luxury woven carpet solution. It offers an exceptionally durable contract carpet and an extraordinary comfort, partly thanks to a 3-ply yarn.

Our Axminster setup is one of the most modern in the world, based on high-speed looms with a 100% automated creel system that gives you unlimited design possibilities and range from 1100 g/m^2 to 2300 g/m^2. Our complete Axminster solution is Cradle to Cradle Certified®.

DW COLORTEC

Colortec carpets are manufactured with modern tufting technology. It offers an exceptionally durable contract carpet and an extraordinary comfort with a 2- or 3-ply yarn.

Colortec provides unlimited design possibilities and qualities range from 1100 g/m2 to 1800 g/m2. Colortec is produced in 400 or 500 cm width and is available with either an integrated textile backing or an integrated felt backing. Our complete Colortec solution is Cradle to Cradle Certified®.

COLORTEC BACKING

We provide two backing options, textile and felt. Your choice between textile and felt backing depends on your specific needs, requirements, and conditions in the space it is installed as well as installation method. We will help you to define which carpet solution will be the best in your project depending on design and the amount of wear and tear.
