PERFORMANCE

POWER AT THE CENTER

The naturally aspirated **LT2 6.2L V8** sits behind the driver, putting mass and power where they can deliver immediate response and balanced control. An eight-speed dual-clutch transmission combines rapid shifts with everyday smoothness.

Z51 PERFORMANCE PACKAGE

- Brembo performance brakes and Z51 suspension
- Electronic limited-slip differential
- Performance exhaust and rear axle ratio
- Front splitter and rear spoiler
- Michelin Pilot Sport 4S summer tires
- Heavy-duty cooling for track use

DESIGN

SCULPTED FOR SPEED

Low, wide and unmistakably mid-engine, Stingray wraps aerodynamic function in an exotic silhouette. Large side intakes feed the engine while the short nose and forward cabin deliver a commanding view of the road.

COUPE

A removable roof panel stores in the rear trunk, letting the coupe switch from enclosed comfort to open-air driving.

HARDTOP CONVERTIBLE

The power-retractable hardtop can raise or lower at speeds up to 30 mph while preserving Stingray's dramatic profile.

AVAILABLE Z51 AERO | SIGNATURE QUAD EXHAUST

COCKPIT

COMMAND EVERY DRIVE

The reimagined 2026 cockpit brings key controls closer, opens space between driver and passenger, and adds a configurable three-screen layout built around performance information.
