ABOUT US

Welcome to Rakhi's Resin Wonders – a small, passionate resin studio where every piece is thoughtfully handcrafted with love, patience, and unwavering attention to detail. Founded in 2024 by Rakhi Bhadauria, our journey began as a creative exploration of epoxy resin art and has since blossomed into a brand dedicated to transforming simple ideas into beautiful, meaningful creations that last a lifetime.

We specialize in unique resin art pieces including customized photo frames, pooja/tilak thalis, varmala preservation pieces, coasters, trays, jewelry, keychains, wall decor, name plates, and artistic home accessories. Each creation is designed to bring elegance, color, and individuality into everyday life, making every piece truly one of a kind.

What sets us apart is our commitment to personalization. We don't just create resin products – we craft memories.

Whether you're looking to preserve your wedding varmala, create a personalized gift for a loved one, or add a touch of artistic flair to your home, we work closely with you to bring your vision to life. Our specialty lies in designing personalized resin creations that blend elegance, creativity, and functionality.

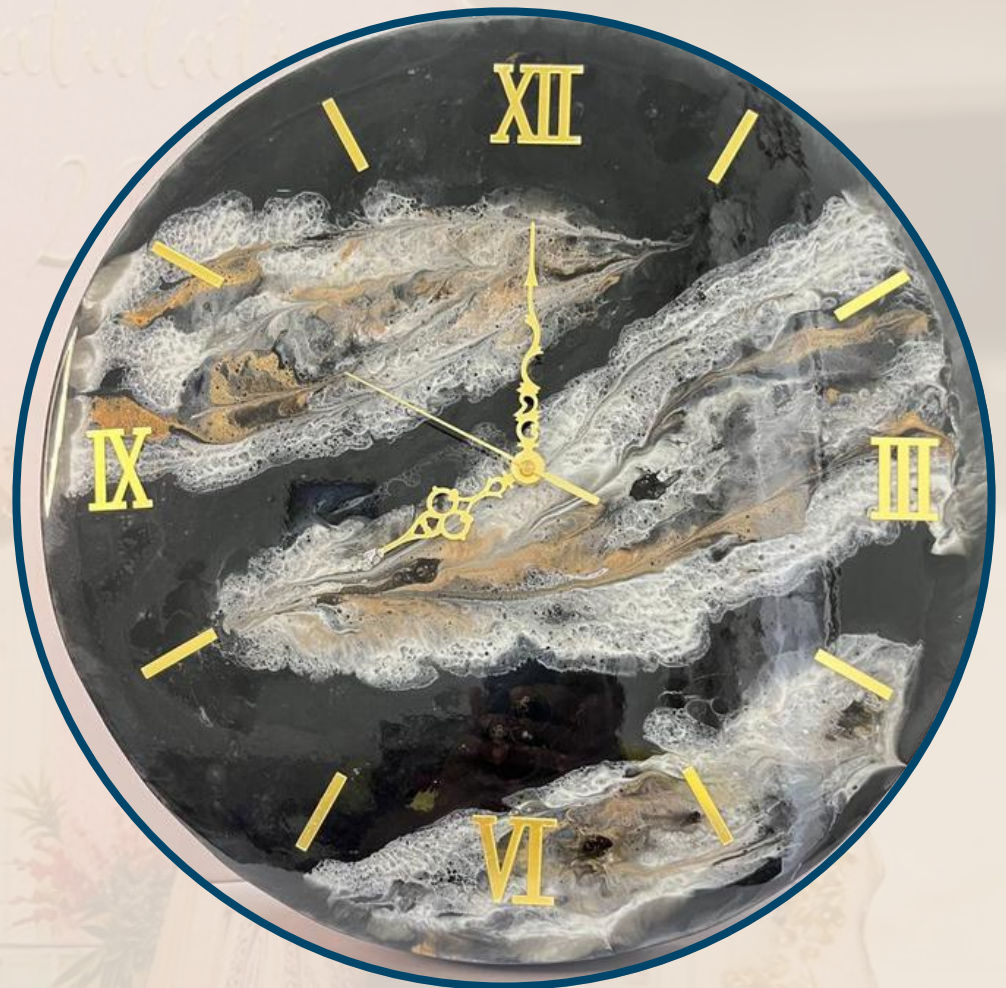

At Rakhi's Resin Wonders, we believe that true beauty lies in the details. Every piece that leaves our studio carries a piece of our heart – from the initial mixing of resin and hardener to the careful placement of dried flowers and crystals, from the patient curing process to the final sanding and gloss
