Permafex PVC Corrugated Flexible Conduit provides a wide range of technical properties designed for reliable cable and wire management applications. It offers excellent protection against mechanical damage, UV radiation, weathering, and various chemical influences.

Widely used in automotive, industrial equipment, railway, and electrical installations, this flexible conduit ensures long-lasting protection for wire and cable harnesses in demanding environments. It is also suitable for safeguarding hydraulic hoses, helping extend their service life and maintain optimal performance.

PVC CORRUGATED CONDUIT

Nominal (mm)	Size (in)	OD	ID	Standard Length/Coil
20	1/2	20	15.2	100/50 LM
25	3/4	25	19.8	100/50 LM

DIMENSION

- Highly Flexible PVC Conduit
- Tough, Durable & Cost Effective
- Easy to use
- Lightweight
- Used Effectively to protect electrical wirings in underground and above ground installations

TECHNICAL DATA

Mechanical Resistance | 125 N / 5 cm

Classifications | EN 50 086-1141, IEC 614-125

Color | Red Orange RAL 2001

Material | PVC Self-Snuffing

Flamability Resistance

Temperature Resistance Scope of Application

-25 - + 60 °C
