# EVERGREEN HOLIDAY TRADITIONS

## The Inspiration Behind the 2026 Design:

Celebrate the magic of the season with the 2026 Evergreen Holiday Traditions Annual Limited Edition Glass Ornament. Inspired by the cherished memory of family trips to cut the fresh Christmas tree, lush garlands draped over mantels, and the crisp, nostalgic scent of evergreen pines filling the winter air, this exquisite piece captures the heart of holiday spirit.

Handcrafted with brilliant, textured glass, the ornament features a striking diamond pattern of shimmering forest greens and iridescent highlights that catch and refract tree lights. Its undulating, scale-like texture mirrors the lush needlework of pine boughs and pinecones, finished with a delicate clear glass hanging loop at the crown.

Bring home the warmth, nostalgia, and beauty of evergreen forests this holiday season before this year's numbered edition is gone.

Timeless. Crafted. Celebrated. Local.
