Artist

Maria Mazuchova Capakova

Maria M. Capakova is a multidisciplinary artist whose practice bridges the balance between fine art painting, photography, and graphic design.

Operating under her brand, Royal Eyes Art & Design, she creates predominantly medium- to large-format, meticulously detailed oil paintings crafted specifically to function as architectural statement pieces.

Working in a bright, modern pop-surrealist aesthetic, Maria's work is deeply conceptualised, yet completely accessible.

Rather than leaning into the dark conceptualism often found in contemporary art, she makes a deliberate choice to replace modern absurdity with vibrant, profound positive energy. Her philosophy is simple but powerful: the art we choose to live with acts as a mirror to our daily human experience.

Because it matters what surrounds us, Maria believes that a painting should not deplete a room, but actively bring life into it.

Moving beyond traditional canvas art, she approaches each piece as an integral part of interior design.

Her mission is to create magnetic focal points that anchor a room's architecture, elevate the surrounding space, and infuse the home with an unmistakable sense of warmth, light, and vitality.

Honesty

Winner of “Art Bias III” international art competition, exhibited in Golden Duck Gallery, Budapest (2025)

The art to show as a statement Series

In a world of curated illusions, radical authenticity remains the highest form of art.

Honesty is a captivating exploration of radical authenticity and the courage it takes to remain true to oneself. Emerging from soft cloudscapes, a five-faced blue muse captures the shifting layers of human expression, serving as a powerful reminder to always maintain one's true face. To be unapologetically honest is not easy—it requires immense strength of character and unyielding resolve, making it one of the rarest traits to possess.

With its striking typography and cool monochromatic depth, this award-winning piece serves as a thought-provoking manifesto. Designed for contemporary spaces that value intellect, dialogue, and authentic design.

Designer Note

Ideal placement: Perfect as a standalone statement piece in an executive home office, above a minimalist console table in an architectural foyer, or anchoring a contemporary reading nook.

Liberty

A Surrealist Allegory on Personal Power

The art to show as a statement Series

True sovereignty is not about playing by the rules of the board—it is having the grace and courage to rise above them.

Liberty is a bold visual metaphor for personal power, strategy, and unapologetic freedom. Set upon a surrealist cosmic chessboard, a figure clad in pristine white fearlessly commands a powerful red stallion.

She does not passively move like a piece on the board; she dominates the grid with effortless poise. Designed as an empowering focal point for spaces where vision, ambition, and creative leadership take center stage.

Designer Note

Ideal placement: Perfectly sized to serve as a commanding focal point above a dark wood console table, anchoring an executive desk, or bringing dynamic energy to a private reading room.
