SUSTAINABLE INITIATIVES

GREENER PACKAGING

With nearly 500 product lines in our accessory offering, we realise the kind of impact that using plastic was having on the environment. In 2019, we took the decision to eradicate plastic entirely from our accessory range and have since fed this into other areas of the business with a 'zero plastic first' mindset when packaging products.

In some cases, we're able to offer biodegradable products where possible with our Bamboo tees being the first to adopt this new way of packaging.

GREENER PRODUCTS

It's one thing to adopt a zero plastic policy with our packaging, but we have now shifted our thinking as to how we can create products in a more sustainable way. Replacing plastic tees with bamboo or biodegradable options is one of our key initiatives and we are working hard to bring to market these options in the near future.

Furthermore, whilst we understand plastic is incredibly durable and in some case ideal for some of our products, we are entering a new era where product design is considered from a new perspective, exchanging single use for sustainable and continuing to serve quality and value as we always have.

GREENER DEVELOPMENT

In May 2022, we entered a new and exciting partnership with Edinburgh Napier University to support their research into the possibility of converting wood and bamboo sawdust into usable material for construction, packaging and most importantly to us, golf tees.

With our extensive knowledge of golf tee production, we are advising on the project in a supportive capacity to help with product development. As industry leaders in golf tee production, we feel it is pertinent to be involved in the development of new materials, processes and ways we can contribute to a greener future for the sport we love.

Our previous plastic accessory 'blister' packaging.

Accessory packaging that is 100% recyclable and uses far less space in transit.

ERADICATING PLASTICS

In 2019, we took the decision to eradicate plastic packaging entirely from our accessory range. We are now in a position where 90% of our current accessory range boxes are smaller than the previous 'blister' plastic packaging.

But not only have we reduced the amount of plastic, but we have also reduced the amount of 'air' that needs to be shipped. Fuller containers that are imported without wasting space has now been made possible with our cardboard packaging.

90%

of our current accessory range boxes are smaller now that they are not made of plastic.

0.11m³

is the average size of an outer packaging box, equivalent to saving 0.06m³ on every box containing cardboard packaging.

950

the amount of outer boxes that a 40ft shipping container can hold, vastly reducing the amount of actual containers needed to transport product.

PuttCup
The PuttCup is the most realistic putting cup ever designed and provide pace and line feedback. If not hit perfectly, the ball will lip-out or jump out.

Replicates a real-life golf
Can be used both indoors and outdoors and is also perfect for practicing short greenside chip and run shots.

Non-slip backing
A stay-flat latex rubber backing means that PuttMat won't crease or roll-up during use, giving golfers that true green feel.

TOUR ROLL PUTTMATT | PUTTING PRACTICE

A quality Putting Mat designed to reflect the true roll of a ball on greens. The synthetic grass has been engineered to provide golfers with the truest roll yet and can be used in practice time and time again without leaving the house for the course. Measures in at 100cm (w) x 350cm (h) and comes with putting cup which can easily be positioned at either end in the pre-made holes.

OUR BRANDS

Our extensive knowledge of the Golf Industry has allowed us to develop a number of unique and innovative in-house brands catering for every sector in golf retail, offering incredible value and excellent margins.

Masters 24/7 is the primary selling vehicle for the business throughout the UK and Europe. It is the 'mothership' brand and the central point from where, you the customer, come to for both product and service. You'll find more detail below about our in-house brands.

In 2017 we made the first steps as a company to distinguish between our service & logistics brand (Masters 24/7) and Masters Golf. The latter is our specialist in-house golf brand that offers a comprehensive range of equipment and accessories. Masters Golf is all about product for purpose and has unbeatable value when it comes to price and quality.

MKids and Golfway are our specialist junior golf product ranges offering progressive playing equipment for young golfers. Recognised for quality and playability throughout UK and Europe, MKids is a great way for youngsters to begin their journey in the game with a range of features to support their development.

The iCart brand offers a range of high specification bags and trolleys as well as accessories. iCart products are produced with a specification of materials and features making it one of the leading golf trolley brands on the market.

Level 4 is our specialist customisation brand offering a huge range of golf products from brassware to headwear that can be personalised with a customer's own brand. We embellish on-site, covering a range of print or embroidery products, making Level 4 a unique reliable option for personalisation customers.

TourDri is the brand that is designed for tackling the elements. Built on the simple principle that products and people need protecting from the harshest of conditions on the course, TourDri products are engineered to respond effectively and never fail. With a range of wet weather equipment from umbrellas to waterproof bags, TourDri is a course favourite.

ClubCraft is everything you'll need for club building and repair. It's our new signpost brand for offering an extensive range of products dedicated to running a technically capable and successful workshop, as well as a huge choice of grips, shafts, tools and machinery.
