LUXURY HANDMADE RUGS

# *Thames Collection*

BY HOLMES BESPOKE

Introducing the Thames Collection, inspired by the ever changing character of London's iconic river that flows past our riverside showroom.

Drawing inspiration from the organic textures, subtle movement and natural details found along the river Thames, each rug is hand crafted using a considered blend of natural fibres. From the iridescent lining of an oyster shell to the fluid rhythm of rippling currents and shifting reflections, the collection captures the distinctive character of the river through richly layered texture and design.

The Oyster rug is an organically shaped design, hand tufted from a blend of bamboo silk and wool. Presented in a palette of soft, natural tones, it features sculpted hand-carved detailing reflecting an oyster shell's layered contours, while subtle bronze lurex accents reflect the distinctive golden edge found within the oyster.

*Tide*

The collection includes Eleven unique designs, each developed from hand painted watercolour sketches and translated into tactile compositions through a variety of techniques such as loop, raised and cut pile. Every design is fully customisable, offering endless possibilities in size, shape, colour and fibre and allowing each piece to be tailored to its setting.

# *Our most Textural Collection yet*

*Ripple*

Moving beyond the idea of rugs as purely functional pieces, each design is conceived as a work of art in its own right, bringing a distinctive sense of artistry and presence.

*Cloud*

The Cloud Tapestry is a statement piece, defined by its organic silhouette and highly textural finish. Hand-tufted in a palette of soft, natural tones. Varied textures and pile heights create a richly tactile surface with depth and dimension.

## ABOUT HOLMES BESPOKE

Holmes Bespoke specialises in custom rugs, hand crafted to order using the finest natural fibres for projects worldwide, across luxury residences, hotels and super yachts.

Led by Founder Laylah Holmes, from her West London showroom, the brand is committed to building long lasting relationships, fostering a creative and enjoyable design experience whilst delivering exceptional quality every time.

Laylah and her team work closely with individuals, interior designers and project leaders to create truly unique design solutions for all interiors, offering fully customisable rugs, runners, fitted carpets, wall hanging tapestries and home accessories as well as a range of 'ready to order' rug collections.

Designed in house, Holmes Bespoke draws on the knowledge and expertise of their skilled artisans, whose centuries old techniques ensure that each design is entirely one of a kind, crafted by hand to last a lifetime.
