DOMETIC ON THE WEB

Here's where you can find the complete Dometic range, with detailed information about all products. Plus, interesting facts about our company and download links for all our catalogues.

DOMETIC.COM/PROFESSIONAL

PIONEERING INDUSTRY.

GIVE YOUR GUESTS AN UNFORGETTABLE STAY

You will find more Dometic minibars and safes than any other make in first-class hotels across the world. Why? Know-how accumulated more than over 50 years, a track record of innovation as well as leading design solutions are the three main reasons.

The top of the line Dometic HiPro Evolution and Alpha range minibars are developed with your business experience in mind. A sustainable minibar is a smart minibar. The HiPro Evolution range is just that. Boasting precise temperature control, world-class efficiency and the best minibar cooling capacity, the premium Dometic HiPro range ensures chromate-free absorption technology checks in for a clean, sustainable future in your hotel.

Our modern and energy-efficient range of noiseless drawer minibars (Dometic DM 20 drawer minibar).

Dometic HiPro minibars

The next generation of minibars

The state-of-the-art design of Dometic HiPro will help you create a premium in-room feeling. With sleek design, elegant illumination and crystal clear doors, invite your guests to treat themselves to something special.

Sustainability checking in

Sustainability means doing more with less. It's a philosophy we put into action with outstanding energy efficiency and the first chromate free minibar range on the market. A sustainable minibar is a smart minibar. The HiPro range delivers more powerful cooling with up to 40% less energy consumption, making a visible difference in OPEX for hotel owners.

SUSTAINABILITY AND EFFICIENCY: RECOGNIZED EXCELLENCE

At Dometic, we are proud to lead the way in sustainability, efficiency, and innovation in the hospitality industry. Our efforts have been widely recognized with several prestigious awards and certifications.

MOST EFFICIENT 2025 – ENERGY STAR®

Our minibars have been awarded the “Most Efficient 2025” label by ENERGY STAR® in the USA. This accolade reflects our commitment to creating products that deliver exceptional energy performance, helping hoteliers reduce operating costs and environmental impact.

LEADER LEVEL – MINDCLICK SUSTAINABILITY ASSESSMENT PROGRAM (MSAP)

The MindClick MSAP evaluates suppliers based on their environmental and social performance. Our minibars achieved the highest “Leader Level” rating, acknowledging our excellence in hotel impact, end-of-use considerations, packaging, and sustainable production practices.

DOUBLE STAR AWARD

Our Dometic HiPro minibar generation was voted gold in the Food & Beverage category of the Star Awards, a recognition chosen by readers and decision-makers in the hospitality sector. The Dometic MoBar also earned gold in the Technology category, reinforcing our reputation for combining innovation and functionality.

PLUS X AWARD

The Dometic HiPro Absorption minibars have been honored with the prestigious Plus X Award, celebrating excellence in High Quality, Design, Ease of Use, Functionality, and Ecology. As the first chromate-free absorption minibar, this innovation is a milestone in sustainable design and performance.

WHY IT MATTERS

Each recognition we receive drives us further in our mission to provide high-quality, energy-efficient, and sustainable solutions that exceed guest expectations. These achievements inspire us to continue setting new standards for sustainability and operational excellence in hospitality.

WE DEVELOPED HIPRO WITH HOTEL GUESTS IN MIND

A well-stocked minibar is an expected and appreciated hotel room feature for well-traveled hotel guests. Let's have a deeper look at some outstanding features we offer to the market with the HiPro minibar generation:

1

Lower energy consumption

The HiPro range can reduce energy consumption by up to 50% compared to standard units.

2

Premium guest experience

HiPro is an attractive and sales-promoting feature in the guest room.

3

Improved cooling power

Improved cooling capabilities with updated and optimized functionality.

4

A strong partner

With more than 50 years of experience and more than 6 million installed units; we are a proven partner.

Many business travellers are constantly on the move living a suitcase life. Most days represent hard work with long hours – arriving late to the room preparing for the next day’s meeting while burning the midnight oil. That’s why the minibar is a much-appreciated feature offering cold beverages and energizing snacks. For the leisure tourist, the hotel minibar is an opportunity to enjoy a cold beverage at the late arrival check-in, after a long city excursion and while getting ready for a fun night out – or perhaps waking up with a need to quench the thirst.

PREMIUM EXPERIENCE
HIPRO EVOLUTION

A sustainable minibar is a smart minibar. The new Dometic HiPro range is just that. It's also more efficient with improved cooling and up to 40% less energy consumption. Add to that the first chromate-free absorption inhibitor on the market and sustainability is an easy choice. After more than 50 years in the hotel business and 6 million installed units, we're proud to say that we're pioneering the hotel industry. Again.

PATENTED DESIGN IN TWO SIZES

DRAWER MINIBARS

Convenient slide-out access, noiseless operation, low energy consumption: Dometic drawer minibars set new standards in design and efficiency. Dometic DM 20 is the world's first noiseless 20-litre class drawer minibar. Having the same width as conventional 30-litre absorption minibars, it will easily replace them. Dometic DM 50 provides 50 litres capacity in an award-winning design featuring an automatic slide-out tray for snacks and mini bottles and an adjustable drawer for bottles and cans.

- Unique design for convenient slide-out access
- Thermoelectric cooling unit for low energy consumption
- Noiseless cooling comfort
- Patented and design awarded technology

VENTILATION GUIDELINES

HIPRO MINIBARS AND HIPRO CARE MINIFRIDGES

Dometic absorption fridges are equipped with an electrically heated cooling unit which is virtually silent in operation. The heat which the cooling unit extracts from the refrigerator interior is emitted at the back of the fridge. If you have a free-standing model, sufficient ventilation is provided in most cases. If you want to integrate the fridge into a piece of furniture, however, the following instructions need to met.

	A	B	C	D
A30	384 mm	446 mm	520 mm	356 mm
N30	384 mm	415 mm	520 mm	356 mm
A40	405 mm	466 mm	550 mm	376 mm
N40	405 mm	435 mm	550 mm	376 mm
C40	405 mm	481 mm	550 mm	376 mm

Please note that there must be sufficient room for ventilation behind the refrigerator to prevent heat build-up. During installation, make sure that the refrigerator is standing on a stable, level surface, and not directly near a heat source.

You can find all our documents, manuals and guidelines at documents.dometic.com.

FROM STANDARD TO PREMIUM

The range of Dometic ProSafe models

Security is an essential requirement for hotel guests, and one of the main reasons for choosing or discarding a destination and a hotel. The Dometic Group aware of this, is always developing and improving all of its products in order to meet the needs of customers.

The Dometic ProSafe range goes one step further in terms of design, functionality, technology and security. All Standard and Premium safes have a very modern design with a LED display with white digits, an ADA-compliant keypad, confirmation buzzer, screw fastened battery slot, smooth automatic opening*, optional EU socket with an USB-A and USB-C charging slot**, solid locking 19mm steel bolts,

LED interior light, and a soft carpet. Forgotten PIN? No problem. A master code is standard, with optional master key for all models. The ProSafe Premium line includes an anti-tampering system, a tracking system that logs the 1st 1000 operations and an online tool which offers the possibility to operate the safe with the strictest security. The elegant cabinets of the ProSafe Premium line have laser cut doors and frames with rounded corners and edges and include a soft beige colored carpet.

Batteries included

Ready to use with lids secured by screws

Automatic opening *

Safe door opens automatically

EU socket with USB-A and USB-C slots**

Optional EU socket for charging mobile devices

Low battery indicator

Standard models displays "LO-BAT," while the Premium model shows "BAT-LO" on its screen

*not available on MD400T and MD400D

**not available on MD280, MD310 and MD400D

Premium Class

Excellence in form and function: Dometic safes offer features like iAudit tracking and the REOS Remote Emergency Opening System ensure security on all levels.

Standard Class

High security level combined with easy operation for perfect comfort and convenience.

PRODUCT FINDER - THE QUICK WAY TO FIND THE RIGHT PRODUCT

Laser-cut door

Our doors are precisely cut and crafted by a laser beam. This allows us to achieve 100% accuracy in dimensions and an extremely small clearance between the door and casing, making the door impossible to pry open.

SAM

The unique Dometic safe management system (SAM) allows for iAudit Trail and one time emergency code generation (REOS) from a user friendly but PIN secured online tool.

Anti-Tamper system

The anti-tamper system protects the unit from unauthorized interference. If an attempt is made to manipulate the electronics—such as prying open the control board or tampering with internal components—the system automatically blocks the user interface. Once activated, the safe cannot be opened or closed until it is reset through the Safe Management system.

REOS code

REOS stands for Dometic's Remote Emergency Opening System. The emergency-opening system from Dometic is based on an innovative encoding system. The unique solution

combines advanced electronics with state-of-the-art online technology to allow simple yet highly secure emergency opening by authorised hotel staff.

iAudit tracking

All operations effected on a safe must be documented – for your own security and for your insurance provider. This is where Dometic's Premium iAudit system offers a truly convenient solution: the integrated microchip provides storage capacity for the last 1,000 events.

SAFE TO SAY IT'S MORE CONVENIENT

PREMIUM CLASS IN-ROOM SAFES

DOMETIC PREMIUM CLASS SAFES

Protection for more privacy – comfortably and with absolute reliability. With a Dometic Premium class safe, a hotel room becomes a perfectly private haven for the guest. A safe place for storage, conceived and implemented according to the newest standards. Its innovative design suits every hotel in a stylish way, available in both left- and right-hinged or top opening and drawer versions. Smooth surfaces and rounded edges make it easy to look after and give it long-lasting character. An easy to read LED display and the integrated soft-touch

keypad make operation effortless. The Premium ProSafe line also breaks new ground when it comes to protective properties: technology like the iAudit and the anti-tampering system ensure security on all levels. The demand for contemporary security systems with added convenience is supported by special features such as REOS software with its emergency code-opening system (optional).

- LED interior light and Automatic opening
- Enough room to fit laptop and tablet computers
- Beige soft carpet
- Laser-cut door and frame
- iAudit for convenient documentation
- Emergency opening with key and master code
- Anti-tamper system (optional)
- Remote Emergency Opening System (optional)

WIDE CHOICE OF MODELS AND SIZES

Dometic ProSafe Premium class safes are available in various sizes to suit different capacity demands, interior designs and installation conditions. Sizes range from 8 to 28.7 litres.

Beige carpet

Soft beige carpet for clear visibility and gentle placement

Laser-cut door and frame

Elegant design with precise and robust construction

iAudit for convenient documentation

Special microchip with storage capacity for the last 1000 event

Safe Management System (optional)

Secure one-time emergency code generation and Anti-Tamper system

DOMETIC STANDARD CLASS SAFES

Robustly made with user-friendly features and functions

It puts hotel guests' mind at rest to have a safe place for their valuables while travelling. Providing a secure space for important or valuable objects yet it is a distinctive feature when choosing a hotel room or suite. With a Standard class ProSafe, you can create a reliable spot in a guest room that is worth every penny. Security and functionality are paramount with all Dometic safe models. The Standard class safe models offer your guests a high level of security thanks to their robust construction. Their simple and intuitive usability provides perfect comfort and convenience.

- LED interior light and Automatic opening
- Enough room to fit laptop and tablet computers
- Grey soft carpet
- Master key and master code emergency opening
- Wide choice: horizontal, top-opening, drawer

DOMETIC PROSAFE MD 310 / 390 / 450 SAFE INVESTMENT

With quality and security at their core, these value-for-money in-room safes significantly enhance the security of existing hotel rooms.

The doors on all the Standard Class safe models are precisely cut and crafted. Their robust construction and a locking system with extra-strong steel bolts leave no point of attack for burglars. The LED interior light minimises the risk of forgotten valuables. Fast and secure emergency opening is possible with a master key or master code.

- Value-for-money solution for upgrading hotel rooms
- Left- and right-hinged models – from 7.5 to 28.2 litres capacity

DOMETIC PROSAFE DRAWER-OPENING SAFE

The doors on all the Standard Class safe models are precisely cut and crafted. Their robust construction and a locking system with extra-strong steel bolts leave no point of attack for burglars. Fast and secure emergency opening is possible with a master key or master code (depending on the model).

- Robust, reliable construction for optimal safety
- Sturdy rails for smooth opening and closing

Simply slide

Sturdy rails for smooth opening and closing

Pull-out Handle

Integrated handle for easy opening and closing.

DOMETIC PROSAFE TOP-OPENING SAFE

Part of the Dometic Standard class range, the Dometic ProSafe MD 400 T top-opening safe provides a simple, yet ingenious solution that is easy to operate and safe to use. The top-opening safe can be integrated in an existing furniture drawer and provides easy access to guests' valuables. At the same time it meets the highest demands on ergonomic design, comfort and security with an LED inside light for standard, master key and master code opening possibility in case of emergency, digital keypad, four-digit code and top-opening stabilizer arm. An audio signal confirms that the safe is securely locked.

- Convenient access from above
- Ideal for installation into existing hotel room drawer
- Stabilizer arm for smooth opening and closing of the lid

Easy operation

ADA-compliant keypad and an elegant LED display with white digits

Handle

Integrated handle for easy opening and closing.

Hydraulic arm

Stabilizer arm for smooth opening and closing

Soft close

Muted door closing.

A woman with dark hair pulled back, wearing a light blue button-down shirt and large hoop earrings, is smiling and looking towards the right. She is holding a bottle of wine with both hands. The bottle has a white label with the text "MAIN ROAD" and "EST. 1988". In the background, there is a potted plant with green leaves in a terracotta pot. The word "DRAW" is written in large, bold, white capital letters across the middle of the image.

DRAW

THE DOMETIC DRAWBAR

Tailored to your taste

Re-creating the feeling of a perfect evening out in the comfort of your own kitchen means getting the details right. Like un-corking a good wine and serving it at the optimal temperature, at just the right moment. The Dometic DrawBar blends elegantly into your kitchen and adds a unique finishing touch to your home. It's an enticing detail that elevates every glass and turns it into a memorable experience.

reddot award
product design 2022

KEY FEATURES

A PERFECT WINE EXPERIENCE

For optimal serving temperature, select one of five pre-set options, professionally tailored for different types of wine: 5, 8, 11, 14 or 17 °C.

COMPACT WINE STORAGE

The Dometic DrawBar is always close at hand and fits up to five bottles, from long Riesling to large Champagne.

CONTROLLED STORING ENVIRONMENT

Powerful and efficient compressor cooling technology with electronic controls. Humidity-control tray further improves the storing environment.

DESIGNED TO STAND OUT

Soft illumination elegantly showcases your wine bottles and adds a touch of luxury to your kitchen.

PERFECT FIT

The Dometic DrawBar fits standard 60 cm wide cabinets. Glass or custom front panels ensure a refined and coordinated finish to your kitchen design.
