Digital Air Fryer Oven

WHOV03K

The Westinghouse Digital Air Fryer Oven brings modern convenience and versatile cooking capabilities to your kitchen in one sleek, multifunctional appliance. Built with a durable black painted steel body and a dual-layer tempered glass door, this oven not only looks sophisticated but also ensures safe, energy-efficient operation. Its high-definition digital display, touch-sensitive controls, and easy-turn dials provide a user-friendly interface to access a wide range of cooking options with precision. With a spacious 25L capacity and powerful 2200W output, it's perfectly equipped to handle everything from everyday meals to entertaining.

Featuring 12 preset cooking functions—including air fry, bake, roast, and more—this appliance simplifies meal preparation with consistent results. It offers a generous temperature range of 30°C to 230°C and a programmable timer of up to 9 hours, giving users full control for both fast and slow cooking. The oven comes complete with a frying basket, bake tray, wire rack, drip tray, and tray handle, providing all the essential accessories needed for a variety of dishes. The Westinghouse Digital Air Fryer Oven is a powerful, space-saving solution designed to elevate your home cooking experience.

Blender
WHBL04K

The Westinghouse 1.5L Digital Blender is a sleek and powerful kitchen appliance designed to meet a variety of blending needs. It features a sturdy 1.5-litre glass jug mounted on a modern black and stainless steel base, offering both style and durability. With a 900W motor at its core, this blender delivers strong performance for everyday use, and its LED digital display on the control dial facilitates easy operation and precise control.

This versatile appliance includes dedicated function buttons for Pulse, Ice Crushing, and Smoothie modes, making it ideal for preparing everything from frozen drinks to creamy blends and chunky salsas. With 8 speed control levels, users can fine-tune their blending to suit the texture and consistency required for different recipes, offering flexibility and convenience in the kitchen.

Designed with safety and efficiency in mind, the Westinghouse 1.5L Digital Blender comes equipped with a hex stainless steel blade featuring serrated edges for thorough blending of even the toughest ingredients. The suction-cupped base adds extra stability during use, minimizing movement and enhancing safety. Combining power, versatility, and user-friendly features, this blender is a reliable and stylish addition to any modern kitchen.

Instant Hot Water Dispenser

WHIHWD06SS

The Westinghouse WHIHWD06SS Instant Hot Water Dispenser combines rapid performance with sleek aesthetics. Its stainless steel construction, accented with matte black trim, offers a modern, countertop-friendly design. With a generous 2.3-litre removable jug, the dispenser delivers hot water (100 °C approximate) in just 5-10 seconds. It features a one-touch control system, visualized via an LED-lit ring, and allows users to choose between single-cup or continuous-flow dispensing. Safe and reliable, the unit incorporates boil-dry and overheat protection, and comes with a 12-month limited warranty.

Beyond performance, this model emphasizes user convenience and safety. Its removable water jug simplifies refilling and cleaning, while the intuitive one-button interface makes it easy to operate. The LED ring provides clear visual feedback for added usability. Compact yet capable, the dispenser is ideal for everything from morning coffees to warm soups or heating baby bottles, making it a smart choice for homes seeking both speed and elegance in their kitchen appliances.

Westinghouse

Ice Maker

WHIM01SS

The Westinghouse WHIM01SS Ice Maker offers on-demand ice production with a sleek stainless steel body and compact countertop design. Equipped with soft-touch controls, LED indicators, and a windowed lid, it allows effortless operation and visual monitoring of the ice with no need to lift the top. You can choose between small or large bullet-shaped ice, and the machine churns out batches of nine cubes every 6–12 minutes. A built-in sensor automatically halts production when the internal bin, which can hold over 60 large cubes, is full.

Under the hood, this 120 W ice maker packs a 1.3 L water reservoir and can produce up to 12 kg of ice in 24 hours. Compact yet robust, it measures approximately 22.2 cm (W) × 29.4 cm (D) × 29 cm (H) and weighs around 6.2 kg. Safety and convenience features include automatic shut-off when the ice storage is full or water runs out, variable ice size control, indicator lights, and an easy-cleaning, stylish stainless steel and BPA-free plastic construction.
