Professional profile

Architect with experience in feasibility studies, architectural design development and technical coordination across residential and hospitality projects. Background in coordinating external architects, engineers and interior designers, reviewing documentation and following design decisions through construction and fit-out.

Education

Master's in BIM Management

Zigurat Institute of Technology

2024 - 2025

Barcelona, Spain

Degree in Architecture and Urbanism

2016 - 2021

Pontificia Universidade Católica de Campinas

Campinas, Brazil

Professional experience

Architect | Design Manager

Apr 2024 - Present

The Central House | Madrid, Spain

Develop feasibility, capacity and layout studies for hostels, hotels and holiday apartments. Coordinate external architects, engineers and interior designers, reviewing design development, building and operating licence submissions, and construction documentation. Follow up on design solutions and technical revisions during construction and fit-out, and review materials, finishes and FF&E.

Junior Architect

Oct 2023 - Jan 2024

Twisterella Arquitectos | Madrid, Spain

Prepared building permit and construction documentation for four commissions: a ten-home development, two multi-unit residential schemes and a refurbishment. Produced architectural drawings in AutoCAD and Revit.

Junior Architect

Jun 2023 - Aug 2023

Smart Habitat | Guyana

Developed a two- and three-bedroom social housing proposal for the Government of Guyana, incorporating energy efficiency, cross-ventilation and construction systems designed to reduce waste.

Junior Architect

Jan 2022 - Mar 2023

Guardini Stancati Architecture & Design | São Paulo, Brazil

Developed residential, commercial and workplace projects entirely in Revit, from preliminary design through to construction documentation. Produced design reports and architectural details, and helped develop the practice's Revit template.

Architectural Intern / Junior Architect

Jul 2020 - Jan 2022

Padovani Arquitetos | São Paulo, Brazil

Developed preliminary designs in AutoCAD and SketchUp. Following promotion to junior architect, contributed to design development and construction documentation in Revit, producing models, plans, sections, elevations and construction details, alongside interiors and built-in furniture.

Architectural Intern

Jan 2019 - Jul 2020

Primi & Appoloni Arquitetura | São Paulo, Brazil

Supported architectural projects from preliminary design through to building permit submissions and construction documentation. Produced design reports, construction details and 3D models.
