NEW
permamem®

HIGH-DENSITY **PTFE BARRIER** MEMBRANE
Now available through The Surgical Room

Space for better healing.
REGENERATE | PRESERVE | RESTORE

non-resorbable | synthetic | biocompatible

A non-resorbable, ultra-thin PTFE membrane designed for predictable GBR/GTR and open-healing socket and ridge preservation.

Key Benefits
- 100% synthetic high-density PTFE
- Ultra-thin (~0.08 mm)
- Impervious to bacteria due to dense structure
- Exceptional 360° tear strength
- Supports open healing in socket & ridge preservation
- Easy retrieval thanks to blue color

Indications
• Socket & ridge preservation • Horizontal/vertical augmentation • Fenestration & dehiscence defects • Intraosseous defects • Furcation defects

Available Sizes
• S - 15×20 mm (801520) • M - 20×30 mm (802030) • L - 30×40 mm (803040)

Contact your TSR Surgical Specialist to learn more.
