Design Prompts You Must Try

Create amazing designs with gamma.app

Feeling stuck in a design rut?

- It happens to the best of us!
- But what if you could spark endless inspiration with a ***few simple prompts***?
- Get ready to **supercharge** your creativity with **Gamma.app**.

Design Made Easy with Gamma

- Gamma.app it's your AI-powered design assistant
- From stunning layouts to cohesive branding, Gamma helps you create beautiful visuals faster than ever
- Let's dive into how it can transform your design process

Generative Brand Systems

The Mission: Establish a cohesive visual language from a single command.

Prompt

Try it in **GAMMA**

*"Act as a Brand Strategist. Generate a presentation theme for a **[Industry]** startup. Use a 'Swiss Modern' aesthetic with a palette of Deep Charcoal, Electric Blue, and Slate Gray. Apply high-contrast sans-serif fonts for headers and geometric monospace for data."*

Interactive Data Infographics

- **The Mission:** Convert raw metrics into a visual narrative that sticks.

Prompt

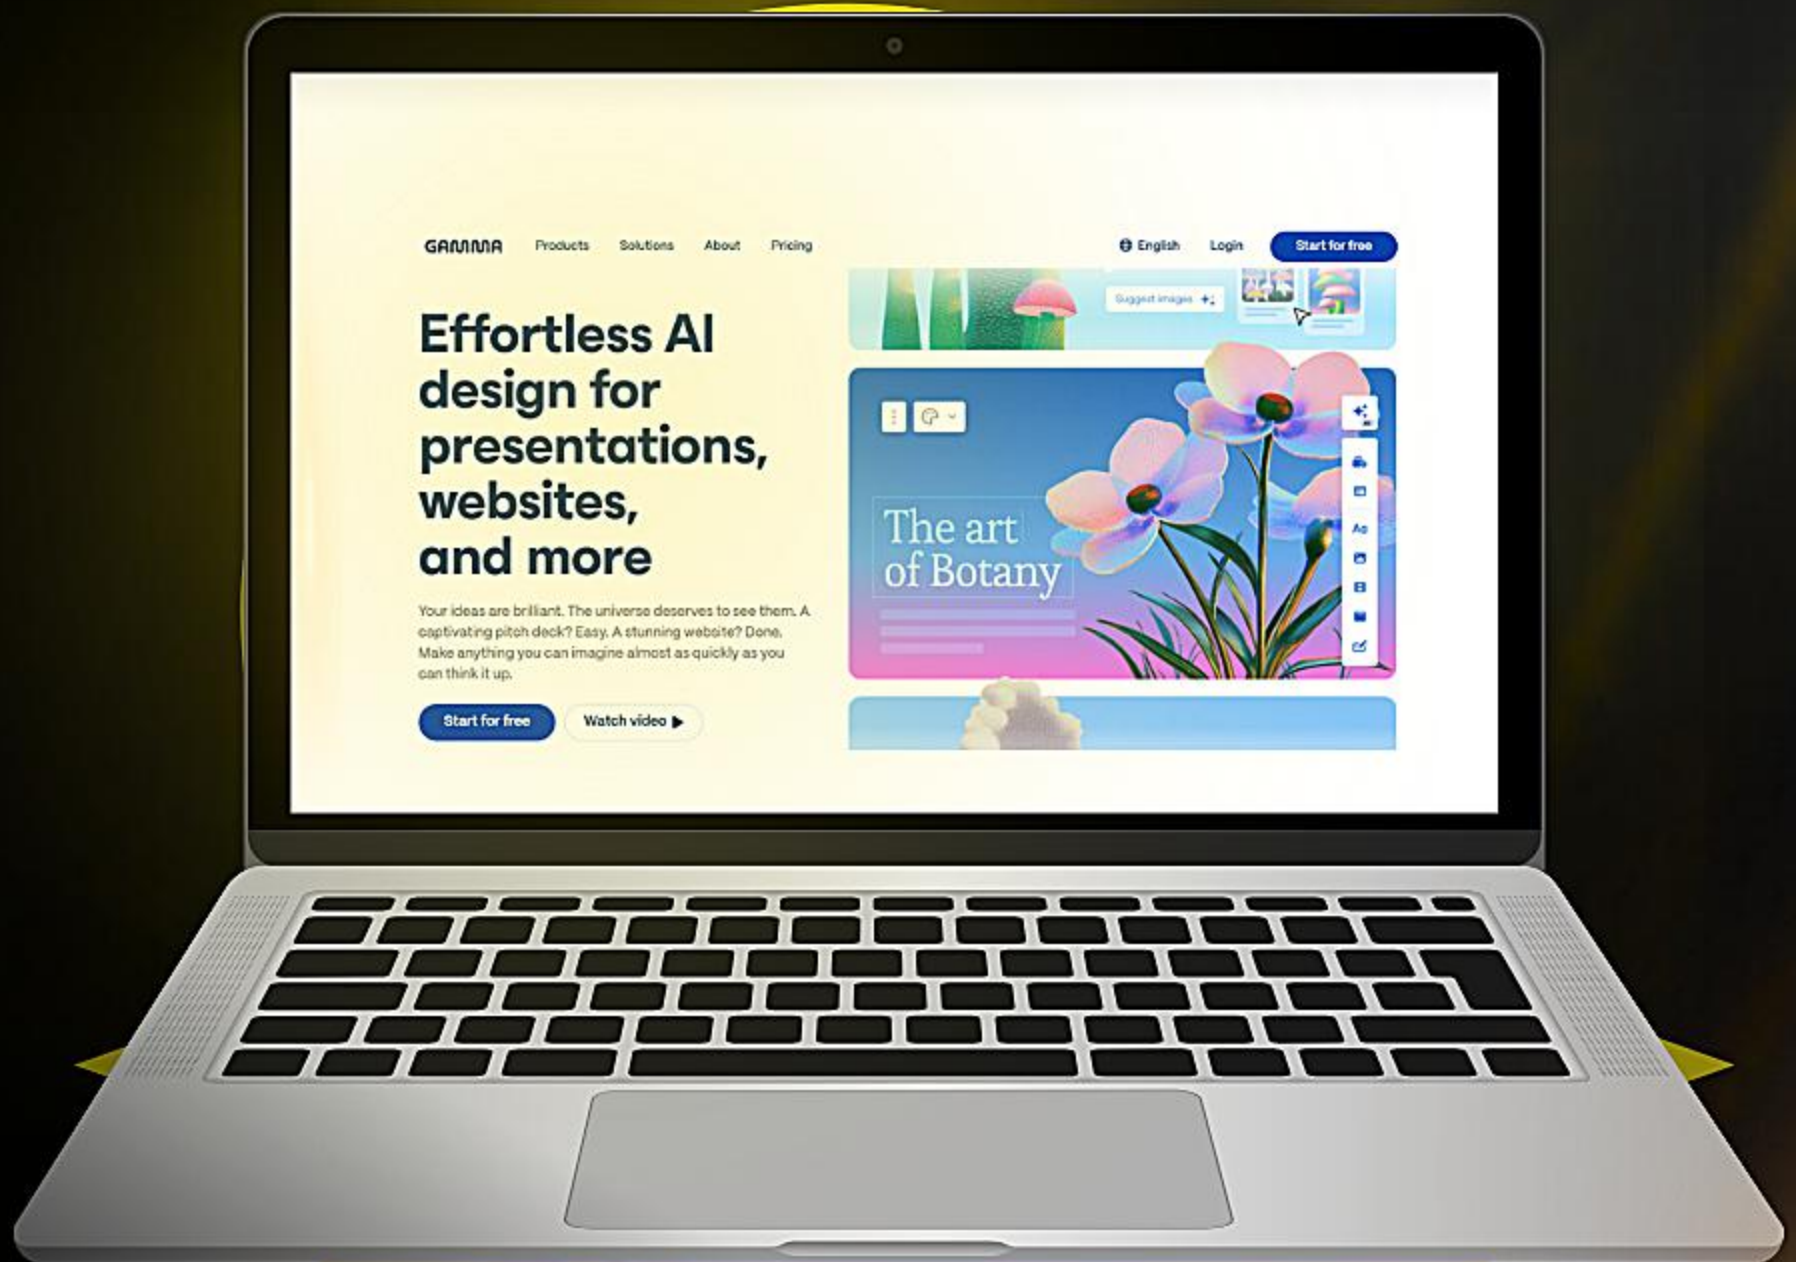

Try it in **GAMMA**

*"Transform this data into a 3-step process infographic. Use a '**Zig-Zag**' layout with professional icons. Ensure each step is color-coded using a gradient of our brand colors and keep descriptions under 15 words for maximum scannability."*

Create Easy Designs with **Gamma** Now

High-Engagement Carousel Layouts

The Mission: Create a LinkedIn-ready PDF structure optimized for mobile.

Prompt

Try it in **GAMMA**

*"Create a 10-card educational carousel layout. Focus on 'Statement' headers, minimal body text, and a dedicated '**Resource**' slide. Optimize the layout for square aspect ratios with bold, centered typography."*

High-Fidelity Product Mockups

The Mission: Showcase software features without opening Figma.

Prompt

Try it in **GAMMA**

*"Design a feature showcase slide. Include a **3D browser frame placeholder on the right** and a **'Pain Point vs. Solution' table on the left**. Use a 'Soft UI' style with subtle shadows and a clean, light-mode background."*

Narrative Storyboards

The Mission: Map out campaigns or video scripts visually.

Prompt

Try it in **GAMMA**

*"Generate a 6-frame storyboard for a **60-second brand film**. Use a 'Grid' layout where each card represents a scene. Include a visual description, a camera angle (e.g., Close-up), and the corresponding script in the caption area."*

Investor-Ready Pitch Decks

The Mission: Build a logical, high-stakes flow that wins funding.

Prompt

Try it in **GAMMA**

*"Draft a 12-slide Seed Round Pitch Deck. Structure: Problem, Solution, Traction, Market Size, and The Team. Use a '**Venture Capital**' aesthetic: dark background, gold accents, and professional architectural photography."*

Psychological Color Palettes

The Mission: Use color logic to drive user action and mood.

Prompt

Try it in **GAMMA**

*"Apply a new color theme based on '**Environmental Sustainability**.' Use Earth tones: Sage Green, Terracotta, and Off-White. Ensure the 'Call to Action' buttons use a high-contrast accent color like Burnt Orange."*

Dynamic Motion Sequencing

The Mission: Make the deck feel premium through subtle movement.

Prompt

Try it in **GAMMA**

*"Configure this deck with professional transitions. Set all images to '**Fade-In**' on scroll and use 'Slide' transitions between sections. Ensure the entrance speed is set to 'Natural' to maintain a high-end agency feel."*

Content Repurposing

The Mission: Turn one piece of content into multiple visual assets.

Prompt

Try it in **GAMMA**

*"Repurpose this **[article/report/post]** into a cohesive set of visual assets. Create a LinkedIn carousel, executive summary, social media graphic, and short visual guide. Keep the core message consistent while adapting the structure and amount of information for each format. Use a clean, modern visual system with strong hierarchy and concise copy."*

Micro-Site Lead Magnets

The Mission: Align stakeholders on a visual direction instantly.

Prompt

Try it in **GAMMA**

*"Generate a creative mood board for **[Project Name]**. Include sections for: Color Palette, Typography Pairings, Material Textures, and Photography Style. Use an 'Asymmetric Masonry' grid for a contemporary feel."*

You've got the tutorials. Now put it to work.
