The Berlex Story

From Workshop Grit to National Growth

Berlex's story is one of resilience, opportunity, and a deep connection to the automotive industry.

It began in 1977, when founder Paul stepped straight out of school into a vehicle repair shop. From mechanic to panel beater to spray painter, he mastered the full spectrum of automotive refinishing — skills that built his sharp eye for detail and commitment to quality.

By the 1990s, Paul launched his own trade supply business, making deliveries in his trusty VW Kombi van. Balancing entrepreneurial ambition with the challenges of raising a young family, Paul lived the grit and hustle that would later shape the Berlex DNA.

A turning point came when he joined Berlex Industries, a Sydney-based promotional company for car dealerships. The role clicked, it combined his automotive know-how with a new way to help

dealerships showcase their brands.

What started as a side hustle soon became the future. Paul acquired the Queensland Berlex franchise, building it into a thriving, family-owned business with a dedicated local team.

In 2022, Berlex took a bold step forward by acquiring its largest vendor, an injection moulding company specialising in number plate frames. The move positioned Berlex as the leading supplier of Australian-Made frames nationwide - giving clients faster delivery, tighter quality control, and greater reliability.

In 2024, Berlex grew again, acquiring competitor Goldstem Promotional Products to strengthen its presence in NSW. On July 1, Goldstem officially joined the Berlex family, forming the Berlex Group - today a trusted partner to dealerships right across Australia.

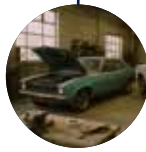

After School

With a sharp eye for details and commitment to quality, Paul stepped straight into the automotive world as soon as he stepped out of Indooroopilly State High School.

INDOOROOPILLY
STATE HIGH SCHOOL

1977

Joined Berlex Industries

Paul joined Berlex Industries as Queensland Sales Representative. With a trusty old VW Kombi as his workhorse, he kicked off a venture that lit the fuse for the incredible journey ahead.

1992

Berlex Queensland

In just a few years after starting in the company, he went on his own when he acquired Berlex Industries Queensland.

1995

Family Support

With Paul's children now working alongside him, Berlex entered a new chapter. Their involvement brought fresh energy and new ideas, helping the business evolve beyond its early foundations and build even greater momentum for the future.

2008

Injection Moulding

Buying the machine turned out to be a pivotal call. It marked the beginning of Berlex's rise as Australia's go-to supplier of number plate frames.

2022

Acquired Goldstem

With the acquisition, Berlex expanded again - deepening its presence across New South Wales and opening the door to new customers, new capabilities, and continued growth.

2024

Testimonials

Black Toyota

Black Toyota
Committed to the Future

We teamed up with Berlex Promotional to create our custom-branded hats for Farmfest and wow, what a great experience! John and The Berlex crew was an absolute delight to work with: friendly, fast, and full of great ideas. From quotes to product options right through to delivery, everything was smooth sailing.

The hats turned out even better than we imagined, and the quick turnaround meant we were Farmfest-ready in no time. We especially loved the clear

communication and the awesome support during the designs — it made the whole process a breeze.

Berlex made the project genuinely enjoyable, and we couldn't be happier with the result. Highly recommend them to anyone chasing top-notch promo gear and exceptional service!

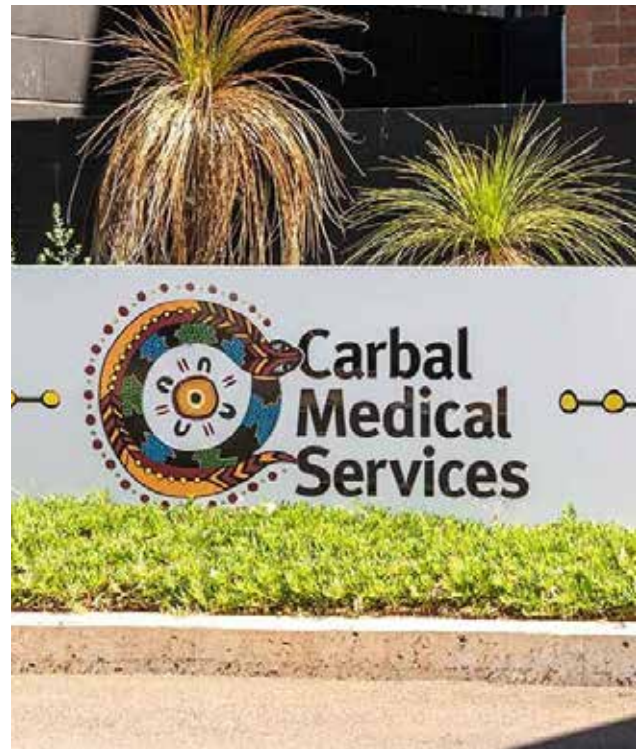

Ox Trailers

We've partnered with Berlex Promotional since 2021 to design and print a wide range of promotional items. From custom caps and bags to stubby coolers, boxes, and bottles, Berlex has helped us stand out and represent our brand with confidence.

The team is fantastic to work with, especially Marcie. Every email and enquiry is answered quickly, with a friendly attitude and a genuine willingness to help. From getting quotes and exploring product options through to delivery, everything has been smooth, efficient, and well-priced.

The product quality has been excellent, and both our team and customers are always impressed. We really appreciate how simple their ordering process is and how easy they make it to request samples of anything we're considering.

Overall, Berlex has made the entire experience easy and enjoyable. We'd highly recommend them to any business looking for quality promotional products and genuinely great service.

Carbal Medical Services

Carbal has worked with Berlex for more than 5 years. We have created many promotional merchandise items to help promote health services to our community and encourage healthy lifestyles across all ages. Our branded merchandise has been very successful and is highly sought after by our patients.

The team at Berlex has been fantastic to work with and no idea or time frame has ever deterred them from providing the product we needed. From the first draft through to delivery has always been exceptional service.

The quality of the products exceeded our expectations, and the turnaround time was impressive. We especially appreciated that we could make changes even if we changed our mind several times while we were going through the design process.

Overall, Berlex made the entire process easy and enjoyable. We'd highly recommend them to any business looking for quality promotional items and great service.

Build Your Branded Trucker Cap

Branded trucker caps are a timeless promotional staple, combining everyday wearability with strong brand visibility. Designed to be practical, comfortable, and effortlessly stylish, they offer a large, prominent area for custom branding while remaining suitable for work, events, and casual use. With their breathable mesh backs and durable construction, trucker caps are made to be worn often—ensuring your brand stays front of mind wherever they go.

Brand Inspiration

Brand consistency matters because it builds familiarity while quietly reinforcing who you are every time someone sees your name, colours, tone, or product in the real world. When everything looks and feels connected, customers don't have to work to understand you; they simply recognise you, trust you, and remember you. Over time, that cohesion makes even small touchpoints like signage, packaging, or a number plate frames feel more premium and more reliable, helping the brand show up with confidence wherever it appears.

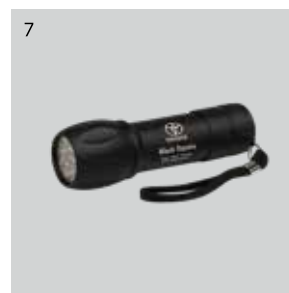

And as your promotional partner, we're here to protect that consistency: we follow your brand guidelines to the letter. We'll produce exactly what you specify so that every merchandise lands exactly the way you intend.

RETURN

Send back your clean, unused, or obsolete frames that are no longer needed.

REGRIND

These frames are then ground into small plastic pellets, ready to be remolded for creating new frames.

RECYCLE

By utilising the recycled plastic pellets, we can produce new frames that are perfect for screen printing, helping reduce plastic waste.

Australia generates over 3 million tonnes of plastic waste each year, and we're committed to reducing this impact. With our advanced granulating technology, we can grind down clean, unused, or obsolete number plate frames into small pieces, allowing us to reintegrate 10% of this recycled material back into our production.

Join us in making a difference by recycling any old, non-compliant, or surplus number plate frames.

Contact us today to arrange pickup of your old frames and help us build a more sustainable future!
