ACTIVITY TOWERS

Lift their **fun** to new heights.

CLIMB, SPRAY, SLIDE, SPLASH, AND SPIN!

There are no limits to how much fun our Activity Towers create. Designed to inspire the imagination, Activity Towers are much more than elevated slides and splashing features. They're made for solo adventurers and swarming clusters of kids of all ages. Get engaged in sensory play from down below or race to the top while dodging splashes from fellow Waterplayers. Slide your way to the bottom and chart a new adventure each and every time you climb, spray, splash, and spin.

Activity Towers are easily customized for your specific space – there's an Activity Tower design that fits any budget, location, and footprint.

AT04
Oceana

A vibrant photograph of a modern water park pool. In the foreground, a young boy in camouflage swim trunks is jumping into the water. Several other people, including children and adults, are playing in the pool. In the background, there are wooden benches, large windows, and potted plants. A blue water feature is visible on the left side of the pool.

RESEARCHED-BACKED DESIGN.

Our designs are built using research in support of kids' cognitive, social, creative, and physical growth. This has created exciting structures that allow all kids to explore, experiment, discover, and solve problems in their own imaginative and playful ways.

EVERYONE IN!

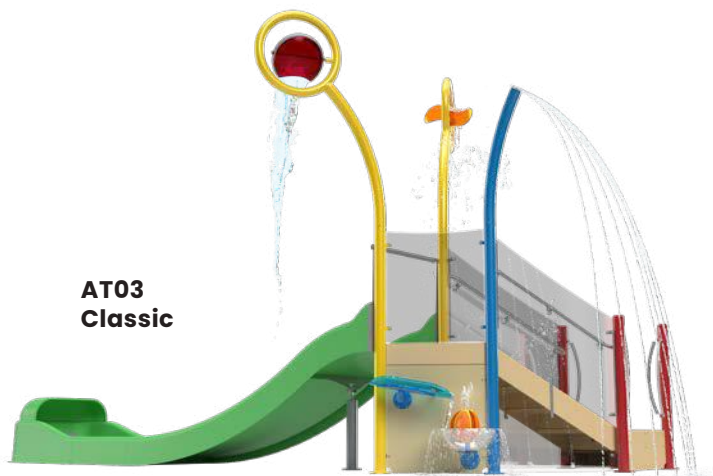

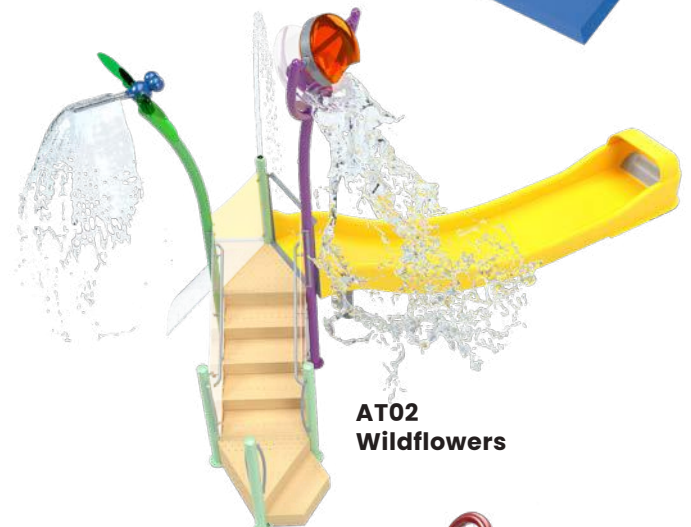

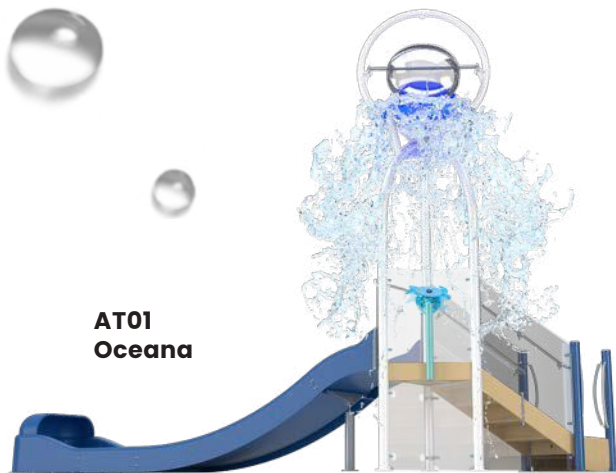

Waterplay Activity Towers are designed for all. Any age and every ability will find their version of fun in the water.

SAFE AND SOUND.

Every detail is carefully considered to ensure the safety of the kids and adults who love amping up their fun in the water. All of our Activity Towers meet the ADA Standards for Accessible Design and ASTM Safety Standards.

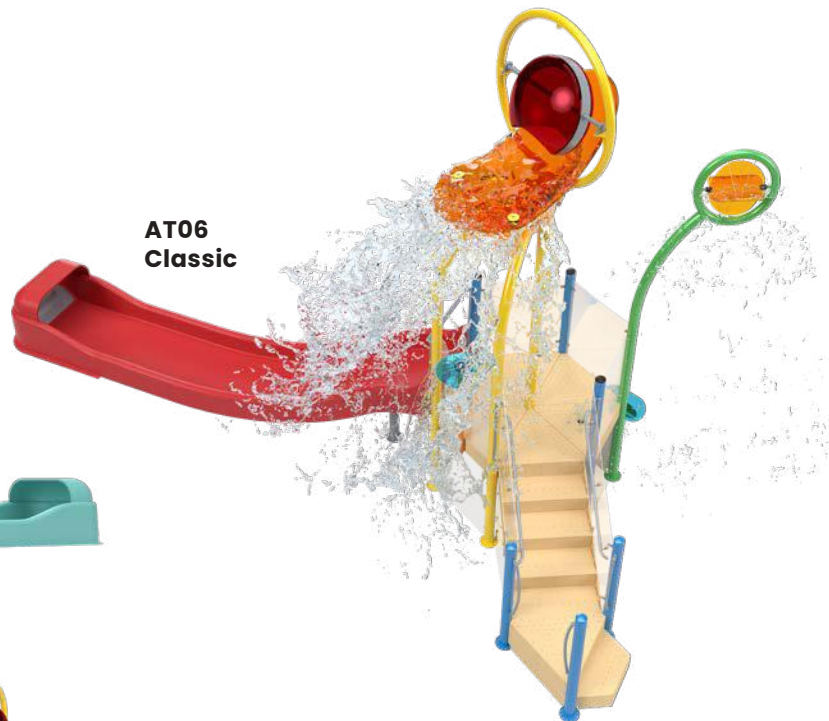

AN ACTIVITY TOWER FOR ANY SPACE AND BUDGET

Waterplay makes building fun easy with its signature designed Activity Towers. We offer a wide range of options from mini to mighty in three beautifully-themed colours: Oceana, Classic, and Wildflowers. Streamline your planning by selecting one of our curated designs!

EXCITEMENT FOR YEARS TO COME

Your play space will go through many phases and we've designed our Activity Towers to evolve with your kids, your facility, and your budgets.

Give your Activity Tower an exciting glow up! Made possible with playCONNECT™.

AT03
Classic

MAINTENANCE MADE EASY.

If a feature needs adjustment or repair you can simply remove that feature or turn off the water without keeping the kids from playing on the entire structure.

SIMPLE TO INSTALL.

The playCONNECT™ and playPHASE™ mounting systems make installation easy. Modular pieces means fewer installers are necessary and also allows you to phase your installation to meet timelines or budgets.

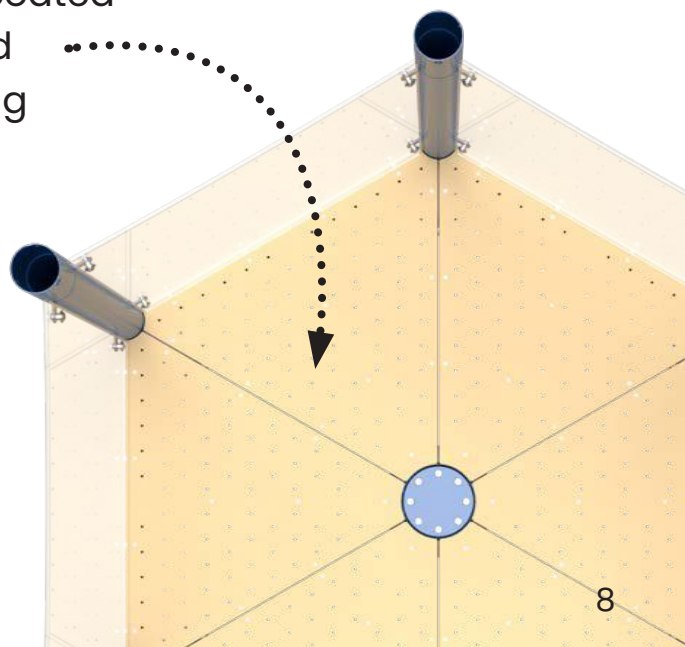

REIMAGINE THE FUN!

Revitalize your Activity Tower by easily swapping out existing features with thrilling new splashing experiences faster than you can say playCONNECT™. Make your awesome play space even better down the road and keep everyone coming back for wild new adventures.

DECKS THAT STAND THE TEST OF TIME.

Our decking surface is powder coated by hand with a durable non-skid finish that not only looks amazing but stands up to countless sets of pounding feet. The built-in traction control provides a safe place to play. Now that sounds like something to stomp your feet about.

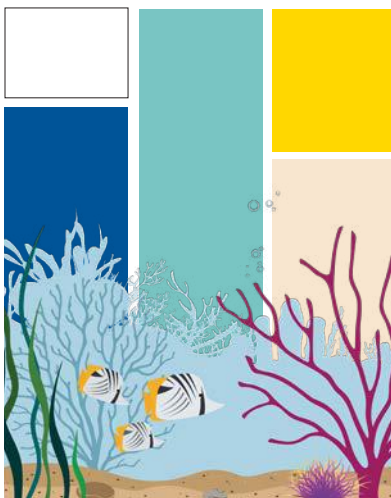

THEME IT FOR YOUR SPACE

Instantly transform your space into a whimsical meadow with **Wildflowers**, a seaside adventure with **Oceana** or a **Classic** colourful discovery. You can choose from our pre-designed packages or customize one to suit your specific colours and style.
