Apprenticeship Assessments

Flexible assessment, backed by strong sector expertise

BIIAB

Skills & Education Group Awards

We support apprenticeship assessment for:

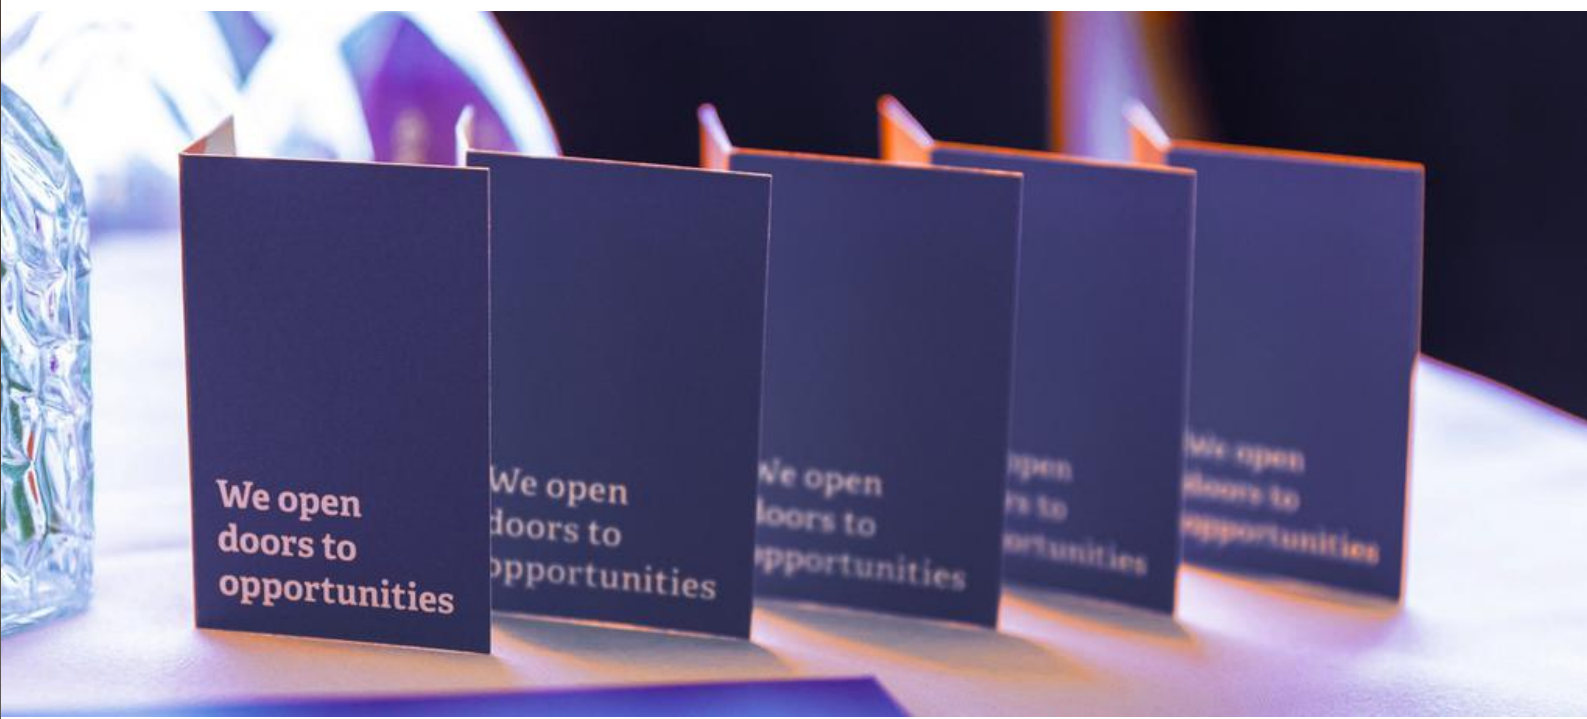

- Business & Administration
- Care Services
- Catering & Hospitality
- Education & Early Years
- Engineering & Manufacturing
- Transport & Logistics.

Our offer combines established EPA expertise with a flexible approach to the new Apprenticeship Assessment model.

One Apprentieship System Two Assessment Models

Apprenticeship assessment is changing. During the transition, End-Point Assessment (EPA) and the new Apprenticeship Assessment (AA) model will operate alongside each other. The model that applies depends on the version of the apprenticeship standard and its published assessment plan.

END-POINT ASSESSMENT (EPA)	APPRENTICESHIP ASSESSMENT (AA)
For standards still operating under an existing EPA plan, assessment takes place after gateway and is delivered independently in line with the relevant assessment plan.	For newly reformed standards, assessment can take place at appropriate points during the apprenticeship or towards the end. Where permitted, approved centres may assess specified components under the assessment organisation's controls and quality assurance.

Two ways to work with us under Apprenticeship Assessment

Where the assessment plan and our standard-specific assessment design permit centre assessment, we offer two service routes. The available route will always be confirmed for the individual standard.

Complete

We deliver and assesses all required assessment methods.

Best suited to organisations that want the assessment organisation to manage the full assessment process, including assessor deployment, assessment decisions, quality assurance and final result confirmation.

Flex

An approved centre assesses the permitted centre-assessed method(s), while the assessment organisation delivers the remaining method(s) and retains oversight of the overall assessment.

Best suited to providers, colleges and employer-providers with suitable occupational assessors, IQA capacity and established assessment systems.

Flex is designed for ultimate flexibility, even where you are approved as a centre to deliver part of the assessment, you can still opt for complete Skills and Education Group Awards or BIIAB assessment for any apprentice.

Why Choose Us

Experience of apprenticeship assessment across high-volume occupational sectors.

A choice of full assessment delivery or approved centre assessment where the reformed standard permits it.

Occupationally knowledgeable assessors and clear standard-specific support.

A practical approach designed to make assessment straightforward to plan and manage.

Quality assurance and regulatory controls that protect the reliability and consistency of results.

Support for providers, employers, centres and apprentices throughout the assessment journey.

Support from enquiry to *Completion*

- Dedicated Relationship Management support.
- Clear guidance on registration, assessment planning and the applicable assessment model.
- Standard-specific assessment specifications and guidance for apprentices, providers and employers.
- Assessment and internal quality assurance guidance for centre-assessed components where applicable.
- Training provided for centre assessors and IQAs.
- Standardisation toolkits for approved centres.
- Reasonable adjustment processes designed to support access without changing what the assessment is intended to measure.
- Quality assurance, results and completion checks managed by the assessment organisation.
- Ongoing operational support throughout the apprentice journey.

For Organisations Choosing Flex

Centre assessment is subject to approval. Organisations complete Centre Recognition followed by standard-specific Apprenticeship Assessment Approval. Approval considers governance, policies, resources, assessor and IQA competence, conflicts of interest, record keeping and readiness to meet our assessment and quality requirements.

Our Apprenticeship Assessment Portfolio

We offer both End-Point Assessments and Apprenticeship Assessments across the following sectors:

- **Business & Administration**
- **Care Services**
- **Catering & Hospitality**
- **Education & Early Years**
- **Engineering & Manufacturing**
- **Transport & Logistics**

Check out our website for a complete, up-to-date listing of both End-Point Assessment and Apprenticeship Assessments on offer.
