EDITOR'S LETTER

Dearest readers,

There are journeys that take us to explore the world, and there are journeys that lead us to discover ourselves. For us, Phu Quoc is where these two paths converge – an island blessed with pristine beauty and a place where every emotion is awakened in its purest form.

From above, as the plane begins its descent, Phu Quoc reveals itself like a vibrant canvas of nature – the deep blue of the ocean, the golden shimmer of soft sand, and the lush green of ancient forests. Yet what makes this island truly exceptional lies not only in its scenery but in how it touches the heart. It is the moment you surrender to the crimson sunset at Kiss Bridge, greet the serene dawn on Kem Beach, feel peace while strolling through a fishing village, or stand in awe beneath fireworks illuminating the night sky over Sunset Town.

Carrying the message “Phu Quoc – The Real Paradise,” SPA Visit Phu Quoc is both a guidebook and a trusted companion, leading you to unmissable destinations, extraordinary experiences, and the fascinating stories behind them. From some of the world’s most breathtaking islands and beaches to signature Phu Quoc cuisine; from spa and wellness journeys that nurture body, mind, and spirit, to stays that range from boutique hotels to world-class resorts cherished by the elite – every essence of this island, ranked among the most beautiful in the world, is captured within these pages.

We believe that when you turn the final page, you will be inspired to embark on your own journey – to live each moment fully and embrace the magic of Pearl Island. May SPA Visit Phu Quoc accompany you every step of the way as you uncover this real paradise.

Warm regards!

WHY PHU QUOC?

THE PEARL OF VIETNAM: WHY PHU QUOC IS NOW ONE OF THE WORLD'S HOTTEST DESTINATIONS

With more than 150 kilometers of coastline, Pearl Island, as it is known to Vietnamese, possesses some of the world's most beautiful beaches. It is essentially an archipelago with numerous pristine islets, making it ideal for island hopping. Visitors can discover hidden coves, glassy lagoons, vibrant coral reefs, and untouched stretches of sand, perfect for fulfilling Robinson Crusoe-style fantasies.

More importantly, Phu Quoc has emerged as a rising global destination thanks to its world-class tourism, diverse entertainment options, and distinctive architectural landmarks.

Phu Quoc is also one of the few Vietnamese islands with fully developed infrastructure, positioning it for global recognition. It is the only coastal city in Vietnam – and one of the few worldwide – to have an airline named after the destination, Sun Phu Quoc Airways. The airline directly connects travelers to the island's resorts, entertainment complexes, private beaches, restaurants, and shows, making each flight the start of a seamless holiday experience from sky to shore.

Vietnam's most beautiful island has now surpassed the Maldives and even Hawaii, ranking among the top three best islands on the planet, according to the readers of Condé Nast Traveler.

6
Reasons

Why Phu Quoc is a Once-in-a-Lifetime Destination

1. **Natural Beauty** – Voted the World's Leading Nature Island Destination by the World Travel Awards, Phu Quoc is celebrated for its unspoiled landscapes and stunning seascapes.
2. **Visa-Free Convenience** – It's the only destination in Vietnam offering a 30-day visa exemption for all international visitors, making it easy for travelers to explore without extra paperwork.
3. **Sun-Soaked Days** – With nearly 200 days of sunshine each year, the island offers ideal conditions for beach activities, island hopping, and outdoor adventures.
4. **Ecological Richness** – Phu Quoc is home to vibrant marine ecosystems and ancient rainforests, alongside beaches consistently ranked among the world's finest.
5. **Top-Tier Tourism Infrastructure** – Luxury resorts, premium entertainment complexes, and seamless amenities position the island as one of the most accessible and attractive destinations in Southeast Asia.
6. **Global Spotlight** – Selected as the host for APEC Economic Leaders Week 2027, Phu Quoc is gaining recognition not only for tourism but also as a hub for international events.

Shaped by centuries of maritime trade, Duong Dong has served as the island's commercial gateway since the 17th century, when merchant ships first anchored along its shores. A leisurely stroll through town reveals layers of history: narrow streets lined with traditional tube houses and bustling shopfronts, weathered tiled-roof homes, and spiritual landmarks that reflect Phu Quoc's distinctive coastal culture.

Today, Duong Dong remains a lively hub for both visitors and locals. The dining scene is diverse, offering everything from sit-down restaurants to casual street food stalls. Accommodation options are equally varied, ranging from charming homestays to comfortable three- and four-star hotels, with room rates typically between VND 500,000 and 1,500,000 per night.

PHU QUOC PRISON: A POWERFUL HISTORICAL LANDMARK

Located in the southern part of the island, Phu Quoc Prison offers a sobering insight into one of the most significant

chapters of Vietnam's modern history. The site was used to detain tens of thousands of Vietnamese revolutionary soldiers during both the French colonial period and the subsequent war against the United States.

Beyond the entrance, visitors encounter reconstructed detention blocks and curated exhibits that document the harsh realities of life inside the prison. Displays include the infamous barbed-wire "tiger cages" and life-size models that illustrate the severe conditions endured by prisoners, serving as a powerful reminder of the resilience and sacrifices of those held here.

VIETNAM FUTURE

PHU QUOC: THE HEART OF APEC 2027

Chosen as the host for APEC 2027, one of the Asia-Pacific region's most significant economic events, Phu Quoc is undergoing a series of major developments to prepare for the spotlight.

At the center of these upgrades is the expansion of Phu Quoc International Airport, funded by Sun Group, which will boost capacity to 20 million passengers per year. Cutting-edge technologies will streamline check-in and create a seamless, world-class smart travel experience.

A range of transport projects, multifunctional complexes, and mixed-use urban developments are underway in preparation for APEC 2027. The standout is the APEC multifunctional complex, anchored by a convention and exhibition center with a total gross floor area of 157,375 square meters. Its main hall will surpass the size of the largest convention hall in the world at Caesars Forum in Las Vegas. The complex will also house a 4,094-seat multipurpose arts and culture center.

The DT.975 provincial road project, spanning 19.26 kilometers, will directly connect the airport with the DT.973 arterial road, the APEC Convention Center, An Thoi, and Bai Truong areas, ensuring smooth access for delegates and visitors.

The Bai Dat Do mixed-use urban area will feature parks, beaches, and public squares, creating a cohesive landscape around the APEC complex, complemented by premium hotels operated by leading international brands.

These high-level infrastructure and urban investments highlight Phu Quoc's emergence as one of Vietnam's foremost international destinations, ready to welcome the world in 2027.
