

Revolutionizing Banking ATM Experiences

Our banking solutions provide the platform for branch transformation. Whether you want to create convenient cash access, offer automated, full-service banking, enable efficient and secure cash management, Hyosung Americas has you covered.

HYOSUNG

SERIES 5 ATMs

Hyosung ATMs are built with a commitment to high availability, flexible architecture, and large-capacity performance. All models are engineered for minimal maintenance, maximum uptime, and easy repair and upgrades through modular design. Advanced security features like anti-skimming, locked-down OS, and encryption are standard across the board.

5L

Hyosung's Proven, Reliable, Cash Dispense Lobby ATM

Compact Design: Optimized for tight spaces with a small footprint and modular construction.

Seamless Integration: Easily connects with monitoring solutions for streamlined data transfer and management.

5T

Best in Class Reliability, Security, and High Capacity

Large 19" user-friendly interface: In a through the wall functionality allows for 24 hour customer access to cash

High Capacity: Built for high-volume environments while remaining secure and accessible.

SERIES 7 ATMs

Hyosung's Series 7 ATMs deliver exceptional reliability, modular flexibility, and high transaction capacity. Their innovative design and Hyosung core technologies ensure minimal downtime, fast replenishment, and easy upgrades from simple cash dispense only to full deposit automation. All models come standard with robust physical and digital security features, including a locked-down operating system, anti-skimming technology, and encryption.

7D

Full-Function Capable Drive-up ATM

- ✓ **Through-The-Wall Design:** Rear load replenishment for reduced CIT costs and employee security.
- ✓ **Deposit-Ready Upgrade Path:** Transition from dispense-only to full deposit automation when needed.

7T

Reliable, Full-Function Through-the-Wall ATM

- ✓ **Through-The-Wall Design:** Secure and accessible installation for external wall deployment.
- ✓ **Full-Function Configuration:** Enables full-service functionality including potential future deposit upgrades.

7I

Full-Function, Capable Island-Style, Drive-Up ATM

- ✓ **Island Drive-Up Build:** Designed specifically for high-traffic, vehicle-accessible installations without sacrificing functionality or security.
- ✓ **Enhanced Accessibility:** Stand alone design allows for housing network equipment for off-site installation without exterior buildings or surrounds required.

SERIES 8 ATMs

Hyosung's Series 8 ATMs increases flexibility by allowing for traditional cash dispense or upgrades to our industry-leading cash recycling, which reduces the need for cash-in-transit replenishment—boosting uptime, lowering costs, and increasing security. Each unit features a sleek, intuitive interface with upgradeable options like video banking and palm vein and ID scanner options. All units are built with modular, high-availability architecture for fast serviceability and minimal downtime.

8T

New Generation, Full-Function Recycling ATM

Full-Function Walk-Up: Ideal for branch or retail environments requiring advanced transaction support.

19" Infinity Display: Modern, edge-to-edge LCD interface enhances customer engagement.

8D

Recycling ATM Designed for Customers on the Go

Through-The-Wall Format: Designed for external, secure installations with full function as a standard.

Video Banking Ready: Future-proofed for assisted services via BlueVerse SW.

8L

High Capacity Cash Recycling Lobby ATM

Compact Footprint: Space-saving lobby unit with full deposit functionality.

Branch Extension: Enables full banking transactions beyond traditional branch hours or spaces.

8I

Next Gen Recycling ATM

Island/Drive-Up Deployment: Built for vehicle-accessible, high-traffic locations.

Only available as a recycler: The 8I boosts a strong CEN3EX safe, virtually eliminating hook and chain attacks.

SERIES 9 ATMs

Hyosung's Series 9 ATMs are engineered to revolutionize cash automation through modular flexibility, recycling efficiency, and secure cash transfer. All models support a configurable array of features such as cash processing methods, check deposit, video banking, and biometric authentication providing institutions with future-proof upgrade paths. Integrated transit cassette technology* automates cash loading/unloading, eliminating manual cash handling and improving branch-wide efficiency. Built with Hyosung's core tech, each unit delivers maximum uptime, high transaction capacity, and multi-denomination recycling, while reducing cash-in-transit frequency for cost savings and operational continuity.

9L

Designed for Branches

Lobby Installation: Compact design optimized for secure indoor placement with full recycling capability.

Self-Service Focus: High-volume functionality to extend tellerless branch experiences.

9T

Revolutionizing Cash Automation

Through-The-Wall Deployment: Built for external access with full security and high-capacity performance.

Ideal for Branch Entry Points: Offers seamless integration into existing branch infrastructure.

9D

Latest Advancements in Cash Automation

- ✓ **Full-Function Walk-Up:** Designed for indoor use with full transaction capabilities, including check deposit and recycling.
- ✓ **Enhanced Transaction Options:** Best fit for branch lobbies requiring high versatility in service delivery.

9I

State-of-the-Art Self-Service Capabilities

- ✓ **Island Drive-Up Configuration:** Built for vehicle-based access with weather-resistant design.
- ✓ **Remote Accessibility:** Ideal for high-traffic, outdoor environments without sacrificing functionality or security.

Teller Cash Recycler

Hyosung's TCR is a flagship solution designed to bring speed, security, and efficiency to the branch environment by automating cash handling. Built for high performance recycling, the MS500 reduces teller workload, accelerates transactions, and minimizes errors while ensuring accurate, real-time cash management. Our Secure Cash Transfer allows for greater security and ease of cash management across the branch device ecosystem.

MS500

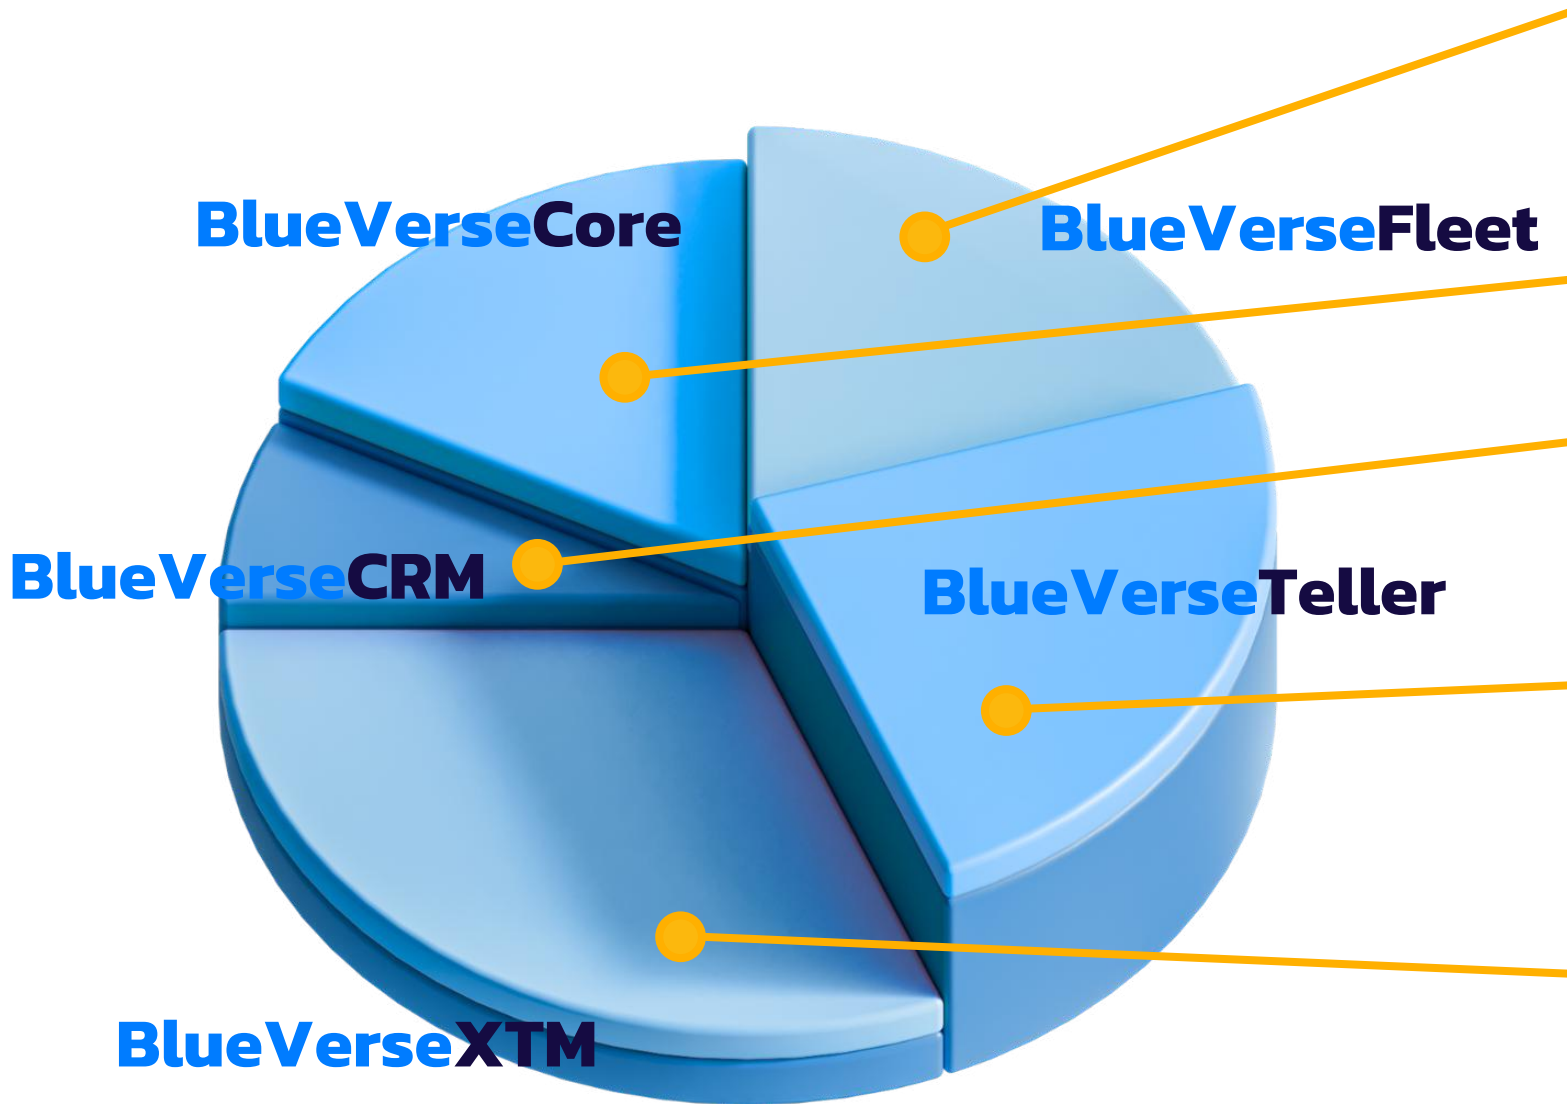

Compact, Fast, and Service-backed TCR

- ✓ **Secure Cash Transfer:** External transit cassette reduces cash exposure while remaining interchangeable with other Hyosung products.
- ✓ **High-Capacity & Automated Auditing:** Holds up to 12,000 notes while built-in counting and self-audit software make cash management fast and accurate.

BlueVerse

A powerful, customizable software suite designed to seamlessly connect physical and digital touchpoints. Delivering smarter, more personalized banking experiences tailored to every customer's unique needs.

Online Monitoring Software for
higher availability and operational
efficiency

Core Integration for advanced self-
service transactions

CRM for targeted marketing

Video Teller for enhanced self-service
transactions

Multivendor ATM software designed
for a better customer experience
