About PALO

PALO is an Indian brand dedicated to crafting premium ergonomic and wellness solutions for everyday work and life.

Our mission is to help individuals and organizations understand the long-term value of investing in physical well-being. We design products that support the body where it needs the most. Our products help individuals stay healthy, energized, and focused.

By integrating ergonomics into workplace, PALO helps reduce absenteeism, improve posture-related discomfort, and boost overall productivity.

Our goal is to make ergonomics not just a solution, but a lifestyle habit.

At PALO, we don't just provide comfort—we build a culture of health.

Why Your Body Complains

The Hidden Impact of Poor Ergonomics

Your body is built to move, not to stay glued to a chair for 8+ hours. Poor posture compresses your spine, tightens your muscles, and reduces circulation. Without regular movement or proper support, long sitting hours can result in:

- Back pain from slouching.
- Stiff neck and shoulders from incorrect postures.
- Tingling hands or wrist pain from poor wrist placement.
- Leg fatigue or swollen feet due to improper leg elevation.

NECK COMFORT MADE EASY

PALO[®]
Makes Life Easy

Unsupported necks strain easily—bridge the gap between your neck and seat for lasting comfort and reduced stiffness.

- Supports neck alignment
- Aligns neck to correct posture.
- Reduces neck strain and tech-neck fatigue.
