BEYOND THE SEASON
WHERE PERFORMANCE MEETS PASSION

Ogni nuova stagione rappresenta per noi un viaggio: un percorso di ricerca, passione e innovazione che ci spinge a immaginare capi in grado di accompagnare la leggerezza e l'energia della montagna nei mesi più dinamici dell'anno.
La collezione Spring/Summer 2027 segna un nuovo capitolo del nostro cammino, una linea dedicata a chi vive l'outdoor come terreno di libertà, scoperta e connessione autentica con la natura.

Dalle escursioni veloci sui sentieri estivi al trekking in alta quota, dall'arrampicata all'alpinismo, ogni capo nasce per accompagnare chi cerca la performance senza rinunciare al comfort. Le nostre soluzioni tecniche garantiscono traspirabilità, leggerezza e protezione anche nelle condizioni più variabili, mentre i tagli ergonomici assicurano piena libertà di movimento in ogni fase dell'attività.

Negli ultimi anni la montagna è diventata molto più di una meta: è un luogo di equilibrio, rispetto e consapevolezza. Crediamo in un modo di vivere l'outdoor che unisce prestazione e sostenibilità, tecnica e stile, tradizione e innovazione. Il nostro lavoro nasce dall'esperienza diretta sul campo: collaboriamo con atleti e professionisti che mettono alla prova i nostri capi ogni giorno, in condizioni reali, fornendo feedback preziosi che ci permettono di migliorare costantemente.

Questa collezione è dedicata a chi affronta la stagione estiva come un'opportunità per muoversi, esplorare e mettersi alla prova. A chi parte all'alba per raggiungere una vetta, a chi segue un sentiero immerso nella natura o cerca nuove linee da scalare. Qualunque sia la vostra avventura, vogliamo offrirvi capi pensati per accompagnarvi con leggerezza, protezione e libertà — passo dopo passo, vetta dopo vetta.

Buone avventure estive a tutti!

For us, every new season represents a journey: a path of exploration, passion, and innovation that drives us to design garments capable of capturing the lightness and energy of the mountains during the most dynamic months of the year. The Spring/Summer 2027 collection marks a new chapter in our journey, a line dedicated to those who experience the outdoors as a realm of freedom, discovery, and authentic connection with nature.

From quick hikes on summer trails to high-altitude trekking, from climbing to mountaineering, every garment is designed to support those seeking performance without sacrificing comfort. Our technical solutions guarantee breathability, lightness, and protection even in the most variable conditions, while ergonomic cuts ensure full freedom of movement at every stage of the activity.

In recent years, the mountains have become much more than just a destination: they are a place of balance, respect, and mindfulness. We believe in an outdoor lifestyle that combines performance and sustainability, technique and style, tradition and innovation. Our work is rooted in hands-on experience in the field: we collaborate with athletes and professionals who put our gear to the test every day, in real-world conditions, providing valuable feedback that allows us to constantly improve.

This collection is dedicated to those who approach the summer season as an opportunity to move, explore, and challenge themselves. To those who set out at dawn to reach a summit, to those who follow a trail immersed in nature, or seek new routes to climb. Whatever your adventure, we want to offer you garments designed to accompany you with lightness, protection, and freedom—step by step, summit by summit.

Happy summer adventures to all!

NEXT GENERATION PERFOR-MANCE

La **SYNCRO LINE** unisce **innovazione tecnologica**, **performance** e **comfort**, offrendo capi per l'alpinismo e l'outdoor. Assicurano protezione dagli agenti atmosferici e si adattano perfettamente a ogni movimento e condizione climatica. Ogni capo della linea è studiato per garantire il **massimo equilibrio tra protezione**, **leggerezza** e **traspirabilità**. Il cuore del progetto è la gestione dell'aria: tecnologie avanzate regolano il flusso d'aria tra i tessuti, creando un microclima ideale che mantiene il corpo sempre asciutto e alla temperatura ottimale durante l'attività.

The ***SYNCRO LINE*** combines ***technological innovation***, ***performance*** and ***comfort***, offering garments for mountaineering and outdoor use. They ensure protection from atmospheric agents and adapt perfectly to every movement and weather condition. Each garment in the line is designed to guarantee the ***maximum balance between protection***, ***lightness*** and ***breathability***. The core of the project is air management: advanced technologies regulate the flow of air between fabrics, creating an ideal microclimate that keeps the body dry and at the optimum temperature at all times during activity.

SYNCRO LINE

Alla base della SYNCRO LINE ci sono tre tecnologie chiave: *At the heart of the SYNCRO LINE are three key technologies:*

AIR 3D MESH

Una tecnologia innovativa che utilizza una **struttura a maglia tridimensionale** per ottimizzare il ricircolo dell'aria e garantire una memoria attiva del materiale. Questa **imbottitura offre un'elevata stabilità in termini di CLO e peso**, mantenendo le sue prestazioni costanti indipendentemente dalle condizioni meteo o dall'intensità dell'attività fisica.

*An innovative technology using a **three-dimensional mesh structure** to optimise **air recirculation** and ensure **active material memory**. **This padding offers high stability in terms of CLO and weight**, keeping its performance constant regardless of weather conditions or intensity of physical activity.*

DOUBLE WAVE

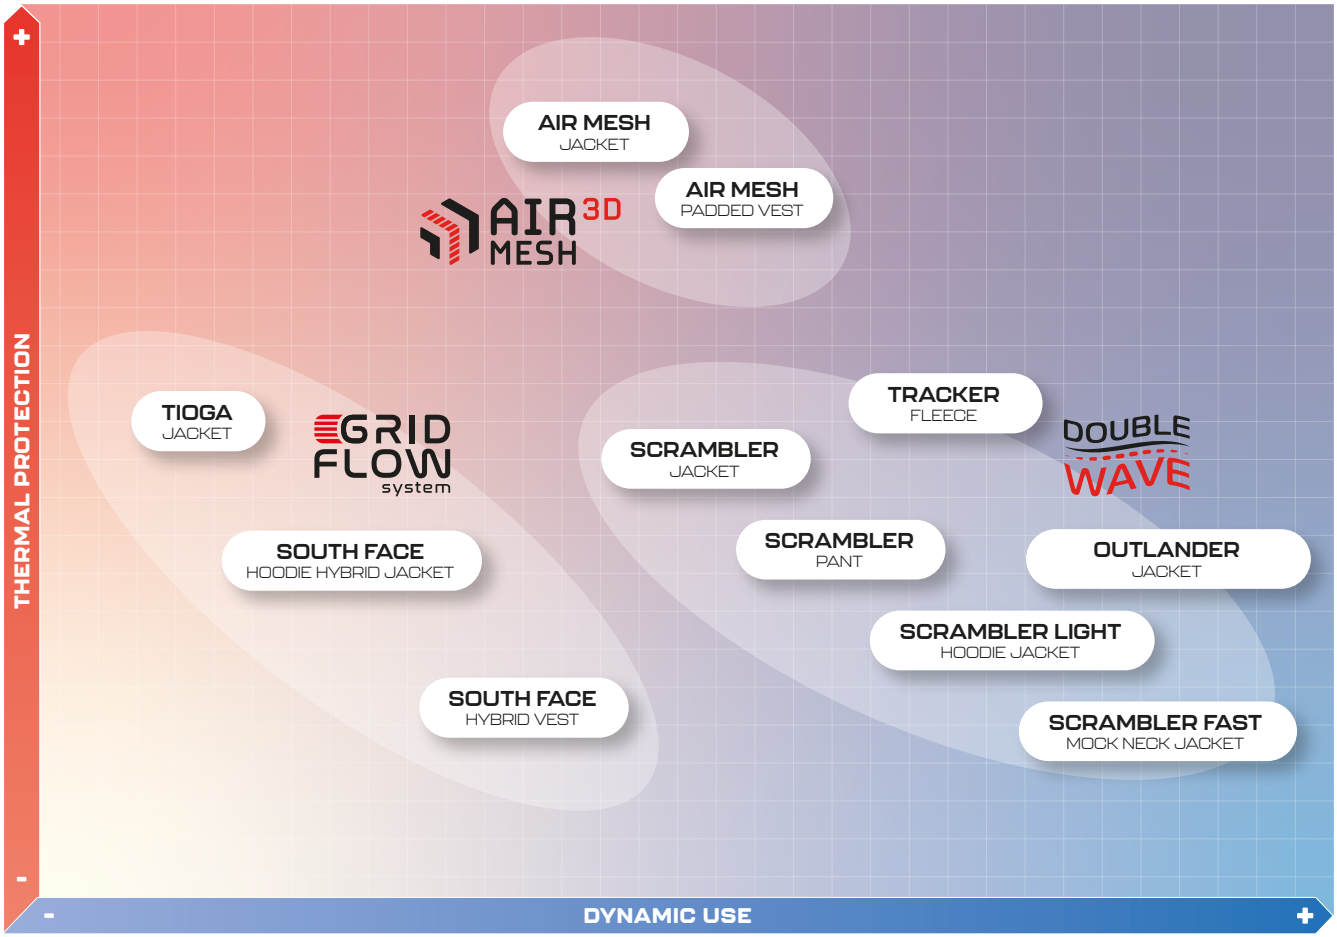

Grazie a **un design a doppia onda** che prevede l'utilizzo in sincronia di due diversi tessuti, questa tecnologia bilancia perfettamente **elasticità** e **robustezza**. Il risultato sono capi che seguono il movimento naturale del corpo, offrendo il miglior rapporto tra **protezione** e **traspirabilità**, **isolamento** e **peso**.

*Thanks to **a double wave design** that uses two different fabrics in sync, this technology perfectly balances **elasticity** and **strength**. The result is garments that follow the body's natural movement, offering the best balance between **protection** and **breathability**, **insulation**, and **weight**.*

GRID FLOW system

Una **struttura a griglia** che migliora la **ventilazione** e l'**elasticità**, assicurando una gestione ottimale del microclima corporeo. La tecnologia GRID FLOW permette di ridurre al minimo il peso e l'ingombro, rendendo il capo confortevole e pratico da indossare a lungo.

*A **grid structure** that improves **ventilation** and **elasticity**, ensuring optimal management of body microclimate. GRID FLOW technology minimizes weight and bulk, making the garment comfortable and practical to wear for a long time.*

Il grafico mette in relazione due caratteristiche fondamentali dei capi della linea SYNCRO LINE:
- Il **Thermal Protection**, ovvero la capacità del capo di trattenere il calore e proteggere dal freddo. Salendo verso l'alto, i capi offrono un isolamento maggiore, pensati per temperature più rigide.
- Il **Dynamic Use**, che misura quanto un capo sia adatto a un'attività fisica intensa: più si va verso destra, più il capo è leggero, traspirante e studiato per garantire libertà di movimento.

Questo tipo di visualizzazione aiuta a comprendere a colpo d'occhio il comportamento tecnico dei capi e facilita la scelta in base all'attività e all'ambiente in cui verranno utilizzati.

The graph relates two fundamental characteristics of SYNCRO LINE garments:
- *The **Thermal Protection**, which is the garment's ability to retain heat and protect against the cold. Moving upwards, the garments offer greater insulation, designed for colder temperatures.*
- *The **Dynamic Use**, which measures how suitable a garment is for intense physical activity: the further to the right you go, the lighter, more breathable and designed for freedom of movement the garment is.*

This type of visualisation helps to understand the technical behaviour of the garments and facilitates the choice according to the activity and the environment in which they will be used.

TECNOLOGIE APPLICATE
ICONS SYSTEM

Rock Experience ha da sempre l'obiettivo di fornire i migliori prodotti per chi vive la montagna in ogni situazione. A ogni esigenza corrisponde un prodotto con caratteristiche tecniche specifiche. La seguente simbologia aiuta a identificare i principali plus di ogni capo della collezione.

Rock Experience has always aimed to provide the best products for those who experience the mountains in any situation. For every need corresponds a product with specific technical characteristics. The following symbology helps to identify the main pluses of each garment in the collection.

WATER REPELLENT

Il tessuto di questo capo ha un trattamento WATER REPELLENT, che permette all'acqua di scivolare sulla sua superficie senza penetrare.

The fabric of this garment has a WATER REPELLENT treatment, which allows water to slide over its surface without penetrating.

4WAYS STRETCH

Questo capo è progettato con un tessuto elastico in quattro direzioni, con lo scopo di adattarsi alle forme del corpo e garantire la massima libertà di movimento.

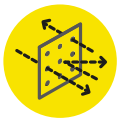

This garment is designed with a four-way stretch fabric, with the aim of adapting to the shape of the body and guaranteeing maximum freedom of movement.

ODOR FREE

Il tessuto con cui è realizzato questo capo ha un trattamento ODOR FREE, che blocca lo sviluppo dei batteri che causano cattivo odore, senza interferire con la naturale traspirazione del corpo.

The fabric used to make this garment has an ODOR FREE treatment, which blocks the bacteria that cause odour, without interfering with the body's natural breathability.

HOLESNET

Questo capo è realizzato con un'imbottitura che assicura un'equilibrio perfetto tra calore e traspirabilità. Una rete di piccoli fori permette una maggiore aerazione, aumentandone la traspirabilità senza diminuirne la capacità termica. Questa imbottiutra conferisce al capo performance e comfort adatti a tutte le attività aerobiche, anche ad alta intensità.

This garment is made with a padding that ensures a perfect balance between warmth and breathability. A network of small holes allows greater ventilation, increasing breathability without decreasing the thermal capacity.This padding gives the garment performance and comfort suitable for all aerobic activities, even at high intensity.

GRUPPO RAGNI CAI LECCO

Questo capo è il risultato della collaborazione con il gruppo alpinistico Ragni di Lecco: un capo tecnico che unisce funzionalità, resistenza e leggerezza, pensato per affrontare le sfide verticali con la massima affidabilità.

This garment is the result of the collaboration with the mountaineering group Ragni di Lecco: a technical garment that combines functionality, resistance and lightness, designed to face vertical challenges with maximum reliability.

OCTOPUS

La mesh OCTOPUS utilizzata in questo capo è realizzata con una fibra di poliestere con una sezione a croce con otto sporgenze attorno a una fibra cava. Il materiale risulta estremamente leggero, funzionale nell'assorbimento del sudore e con un'elevata capacità termica.

The OCTOPUS mesh used in this garment is made from a polyester fibre with a cross section with eight protrusions around a hollow fibre. The material is extremely light, functional in absorbing sweat and with an high thermal properties.

WOOL RICH BLEND

La lana merino è un materiale molto leggero e confortevole. Possiede tutte le caratteristiche positive della lana e protegge il corpo dalle basse temperature. Merino è anche un tessuto traspirante e morbido al tocco con elevate proprietà di termoregolazione. Il tessuto misto lana previene il restringimento mantenendo le stesse proprietà della pura lana.

Merino wool is a lightweight and comfortable material. It has all the benefits of wool and protects the body from low temperatures. Merino wool is also a breathable and soft touch fabric with high thermoregulation properties. The wool blend fabric prevents shrinking whilst maintaining the same properties of pure wool.

SEAM TAPED

Capi impermeabili con cuciture sigillate mediante l'utilizzo di un nastro adesivo termosaldabile che, applicato con il calore, impedisce all'acqua di infiltrarsi attraverso le cuciture, garantendo una protezione completa senza compromettere traspirabilità e leggerezza.

Waterproof garments with taped seams using an heat-sealable adhesive tape that, when applied with heat, prevents water from infiltrating through the seams, ensuring complete protection without compromising breathability and lightness.

NATURAL INSECT REPELLENT

A questo capo è stato applicato un repellente per insetti a base di oli naturali, conforme alla normativa EU 528/2012. Il trattamento è atossico e inodore per gli esseri umani, ma risulta sgradevole per zanzare, zecche, mosche e molti altri parassiti. L'efficacia del trattamento può ridursi dopo ripetuti lavaggi.

An insect repellent based on natural oils has been applied to this garment, which complies with EU regulation 528/2012. The treatment is non-toxic and odourless for humans, but is unpleasant for mosquitoes, ticks, flies and many other pests. The effectiveness of the treatment may diminish after repeated washings.

IMPERMEABILITÀ E TRASPIRABILITÀ
WATERPROOFNESS AND BREATHABLE

I capi outdoor si valutano in base a due caratteristiche fondamentali: impermeabilità e traspirabilità.

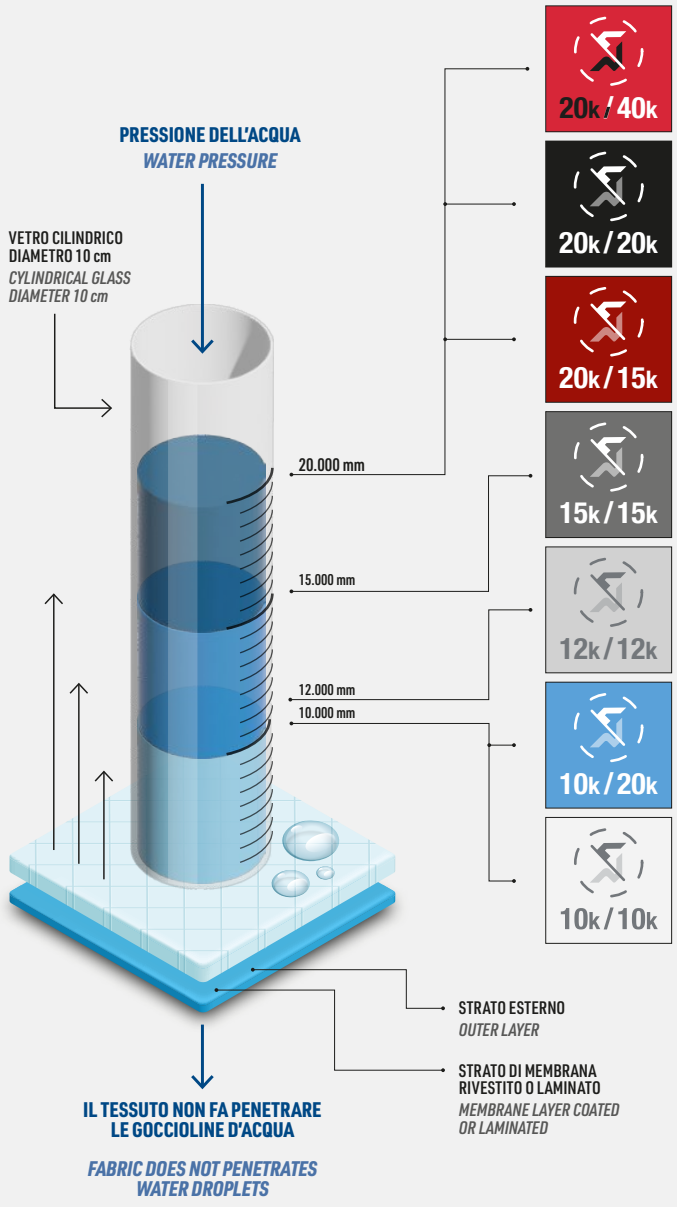

- Impermeabilità: si misura con il valore della colonna d'acqua (in mm), che indica la pressione d'acqua che il tessuto può sopportare prima di lasciarla passare. Un capo da 10.000 mm resiste a piogge abbondanti, mentre oltre i 20.000 mm si parla di protezione estrema anche in condizioni di temporali e neve intensa.
- Traspirabilità: indica la capacità del tessuto di far uscire l'umidità prodotta dal corpo, mantenendo asciutto l'interno. Si misura in g/m²/24h (MVTR) o con il valore RET: più è basso, maggiore è la traspirazione.

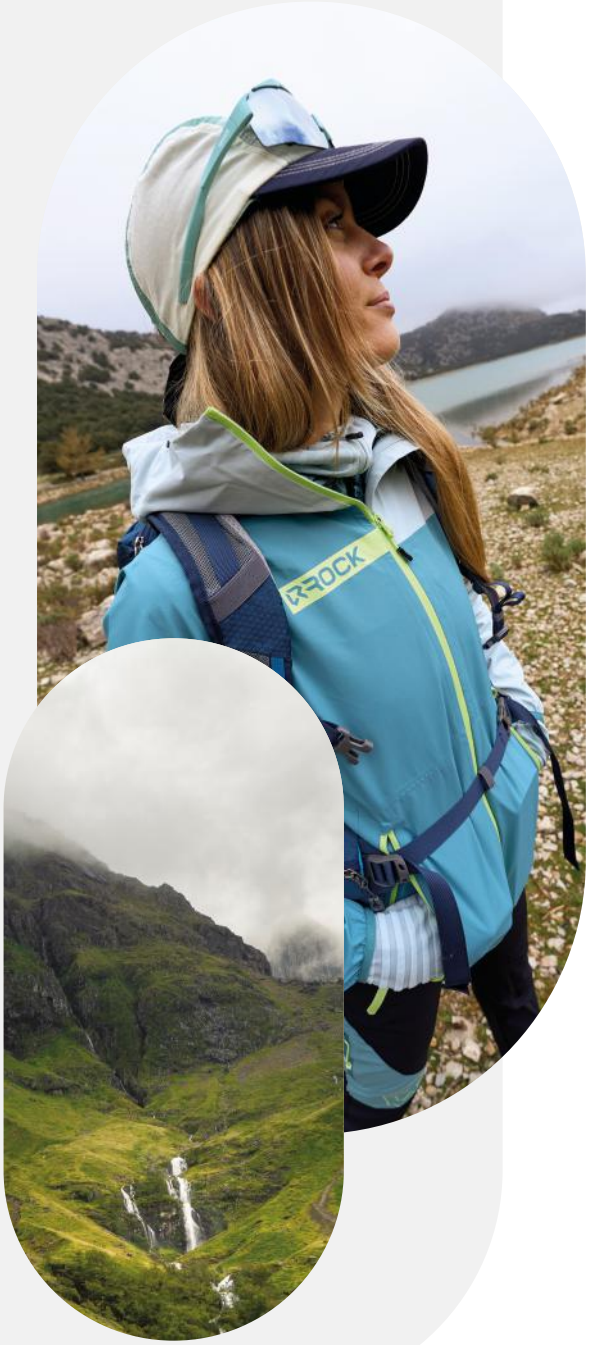

Il giusto equilibrio tra questi due valori garantisce comfort e prestazioni in ogni attività outdoor.

Outdoor garments are evaluated based on two fundamental features: waterproofness and breathability.

- *Waterproofness: measured by the water column rating (in mm), which indicates the amount of water pressure the fabric can withstand before leaking. A garment with 10,000 mm resists heavy rain, while over 20,000 mm provides extreme protection even in severe storms and heavy snow.*
- *Breathability: refers to the fabric's ability to allow body moisture to escape, keeping the inside dry. It is measured in g/m²/24h (MVTR) or by the RET value: the lower the RET, the higher the breathability.*

The right balance between these two values ensures comfort and performance during any outdoor activity.

MAN JACKET / VEST - **REMJ15461 / REMV02191**
WOMAN JACKET / VEST - **REWJ08751 / REWV01001**

La **CROSSROAD LIGHT** è una vera active insulation, pensata per attività dinamiche con continui cambi di intensità. A differenza delle imbottite tradizionali, trattiene il calore quando serve e lo rilascia rapidamente durante lo sforzo, mantenendo il microclima sempre bilanciato.
La costruzione senza membrane, con tessuti leggeri e DWR idrorepellente, favorisce il passaggio dell'aria creando un effetto frangivento evoluto: protegge senza bloccare la ventilazione.
L'imbottitura in fibra cava è mappata: 40 gsm nelle zone chiave per l'isolamento, 20 gsm nelle aree più calde per favorire la dispersione del calore. Leggera (355 gr. giacca, 239 gr. gilet), è comprimibile e ripiegabile nella propria tasca, ideale come layer sempre pronto all'uso.

*The **CROSSROAD LIGHT** is a true active insulation, designed for dynamic activities with constant changes in intensity. Unlike traditional padded jackets, it retains heat when needed and releases it quickly during exertion, keeping the microclimate constantly balanced. The membrane-free construction, featuring lightweight fabrics and a water-repellent DWR finish, promotes airflow, creating an advanced wind-breaking effect: it protects without blocking ventilation. The hollow-fiber insulation is strategically mapped: 40 gsm in key insulation zones, 20 gsm in warmer areas to promote heat dissipation. Lightweight (355 gr. jacket, 239 gr. vest), it is compressible and folds into its own pocket, making it ideal as a layer always ready for use.*

OUTLANDER è un fleece tecnico con costruzione ibrida a mappatura funzionale, progettato per offrire protezione, traspirabilità e adattabilità. Combina tre materiali posizionati strategicamente per rispondere alle esigenze del corpo in attività.
Nelle zone più esposte (fronte, cappuccio e spalle) utilizza la tecnologia Double Wave: una mesh spazzolata in poliestere da 135 gsm, termica e altamente traspirante, accoppiata a un tessuto microripstop da 35 gsm con finitura cirè, che riduce l'impatto del vento. Sul dorso, dove lo zaino limita l'esposizione, è impiegata solo la mesh spazzolata per massimizzare traspirabilità e gestione dell'umidità.

*The **OUTLANDER** is a technical fleece with a hybrid construction featuring functional zoning, designed to offer protection, breathability, and adaptability. It combines three strategically placed materials to meet the body's needs during activity. In the most exposed areas (forehead, hood, and shoulders), it uses Double Wave technology: a 135 gsm brushed polyester mesh that is thermal and highly breathable, paired with a 35 gsm micro-ripstop fabric with a waxed finish, which reduces wind impact. On the back, where the backpack limits exposure, only the brushed mesh is used to maximize breathability and moisture management.*

ALPITUDE

ALPITUDE è la nuova capsule che porta l'energia della montagna fuori dai sentieri, tra materiali caldi, texture avvolgenti e dettagli ispirati al mondo alpine.

ALPITUDE is the new capsule collection that brings mountain energy beyond the trails — with warm materials, cozy textures, and alpine-inspired details.
Not designed for extreme performance, but to accompany those who live the mountain with style, and bring a touch of the outdoors into everyday life.
The right kind of warmth for those who love open spaces and a lighter state of mind.

FOR EVERYDAY.
BEYOND THE ORDINARY.

RIGHE LARGHE, COLORI VIVI, TAGLI AMPI: LA MAGLIA ORIZON PARLA DI MOVIMENTO E PERSONALITÀ, MENTRE IL CARGO ANTONY RACCONTA GRINTA, LIBERTÀ E ATTITUDINE. È UN OUTFIT CHE NON SEGUE LE REGOLE, MA LE RISCRIVE: UN EQUILIBRIO TRA ESTETICA E FUNZIONE, TRA IDENTITÀ URBANA E SPIRITO OUTDOOR.

DALLA CITTÀ AL BOSCO, DALLA ROCCIA A UN CONCERTO ESTIVO, DALLO SKATE ALLE SESSIONI DI BOULDER CON GLI AMICI: QUESTO OUTFIT NON SI FERMA MAI, PERCHÉ NASCE PROPRIO PER QUESTO. È PENSATO PER CHI NON VUOLE CAMBIARSI, MA CAMBIARE SCENARIO. CHE TU STIA CAMMINANDO IN CITTÀ O CERCANDO APPIGLI SULLA ROCCIA, MANTIENE SEMPRE LO STESSO EQUILIBRIO TRA COMFORT E PERFORMANCE, TRA LIBERTÀ E CONTROLLO.

È UN MODO DI VESTIRE CHE SI ADATTA AL TUO RITMO, NON IL CONTRARIO. TI ACCOMPAGNA NELLE TRANSIZIONI DELLA GIORNATA – DAL LAVORO AL TEMPO LIBERO, DAL MOVIMENTO ALLA PAUSA – MANTENENDO SEMPRE UNA COERENZA STILISTICA FORTE. PERCHÉ OGGI NON ESISTONO PIÙ CONFINI NETTI TRA LE ATTIVITÀ: ESISTE SOLO IL TUO MODO DI VIVERLE.

UN LOOK ALPITUDE CHE UNISCE STREET, CLIMBING E NATURA IN UN'UNICA VISIONE: FRESCO, GIOVANE, VERSATILE. UN LINGUAGGIO CONTEMPORANEO CHE PARLA A CHI VIVE SENZA COMPARTIMENTI, A CHI MESCOLA CONTESTI, PASSIONI E MOMENTI. PER CHI VEDE NELLA CITTÀ UN TERRENO DI GIOCO E NELLA NATURA UNA CASA, PER CHI TRASFORMA OGNI SPOSTAMENTO IN UN'ESPERIENZA E OGNI GESTO IN ESPRESSIONE.

WIDE STRIPES, VIBRANT COLORS, LOOSE FITS: THE ORIZON SHIRT EXUDES MOVEMENT AND PERSONALITY, WHILE THE ANTONY CARGO PANTS EMBODY GRIT, FREEDOM, AND ATTITUDE. IT'S AN OUTFIT THAT DOESN'T FOLLOW THE RULES—IT REWRITES THEM: A BALANCE BETWEEN STYLE AND FUNCTION, BETWEEN URBAN IDENTITY AND OUTDOOR SPIRIT.

FROM THE CITY TO THE WOODS, FROM THE ROCK FACE TO A SUMMER CONCERT, FROM SKATEBOARDING TO BOULDERING SESSIONS WITH FRIENDS: THIS OUTFIT NEVER STOPS, BECAUSE THAT'S EXACTLY WHAT IT WAS MADE FOR. IT'S DESIGNED FOR THOSE WHO DON'T WANT TO CHANGE CLOTHES, BUT WANT TO CHANGE SCENERY. WHETHER YOU'RE WALKING THROUGH THE CITY OR SEARCHING FOR HANDHOLDS ON THE ROCK FACE, IT ALWAYS MAINTAINS THE SAME BALANCE BETWEEN COMFORT AND PERFORMANCE, BETWEEN FREEDOM AND CONTROL.

IT'S A WAY OF DRESSING THAT ADAPTS TO YOUR RHYTHM, NOT THE OTHER WAY AROUND. IT ACCOMPANIES YOU THROUGH THE TRANSITIONS OF THE DAY—FROM WORK TO LEISURE, FROM MOVEMENT TO REST—WHILE ALWAYS MAINTAINING A STRONG STYLISTIC COHERENCE. BECAUSE TODAY THERE ARE NO LONGER CLEAR-CUT BOUNDARIES BETWEEN ACTIVITIES: THERE IS ONLY YOUR WAY OF EXPERIENCING THEM.

AN ALPITUDE LOOK THAT BLENDS STREET, CLIMBING, AND NATURE INTO A SINGLE VISION: FRESH, YOUTHFUL, VERSATILE. A CONTEMPORARY LANGUAGE THAT SPEAKS TO THOSE WHO LIVE WITHOUT COMPARTMENTS, TO THOSE WHO MIX CONTEXTS, PASSIONS, AND MOMENTS. FOR THOSE WHO SEE THE CITY AS A PLAYGROUND AND NATURE AS A HOME, FOR THOSE WHO TRANSFORM EVERY JOURNEY INTO AN EXPERIENCE AND EVERY GESTURE INTO AN EXPRESSION.

SPAGHETTI BOULDER

FONDATO DA UN COLLETTIVO DI ARRAMPICATORI, IN PARTICOLARE DA UN'IDEA DI FRANCOIS E STEFANO, IL BRAND PRESENTA FORTI INFLUENZE DERIVANTI DAL MONDO DELLO SKATEBOARD E DEL SURF; QUESTA NUOVA WAVE SI È FIN DA SUBITO AFFERMATA NEL MONDO DELL'ARRAMPICATA. SPAGHETTI BOULDER NON VUOLE SEMPLICEMENTE RAPPRESENTARE L'ARRAMPICATA, VUOLE ESSERE UN VERO E PROPRIO STILE DI VITA.
IL SOGNO DI POTER MISCELARE LE DISCIPLINE SPORTIVE DELL'OUTDOOR, TRA CUI ANCHE SKATEBOARD E SURF, CON LA LIFESTYLE AD ESSE ASSOCIATA, È OGGI UNA REALTÀ SOTTO UN MARCHIO COMPLETO E INNOVATIVO.

FOUNDED BY A COLLECTIVE OF CLIMBERS, IN PARTICULAR FROM AN IDEA OF FRANCOIS AND STEFANO, THE BRAND HAS STRONG INFLUENCES FROM THE WORLD OF SKATEBOARDING AND SURFING; THIS NEW WAVE HAS IMMEDIATELY ESTABLISHED ITSELF IN THE CLIMBING WORLD. SPAGHETTI BOULDER DOES NOT SIMPLY WANT TO REPRESENT CLIMBING, IT WANTS TO BE A REAL LIFESTYLE. THE DREAM OF BEING ABLE TO MIX OUTDOOR SPORTS, INCLUDING SKATEBOARDING AND SURFING, WITH THE LIFESTYLE ASSOCIATED WITH THEM, IS NOW A REALITY UNDER A COMPLETE AND INNOVATIVE BRAND.

ROCK EXPERIENCE

DISCOVERY TOUR

ESPLORARE, VALORIZZARE E COSTRUIRE COMUNITÀ

Il **Discovery Tour**, sostenuto da Rock Experience, è un progetto intrapreso 4 anni fa **con l'obiettivo di esplorare e valorizzare nuove pareti** e **comunità di arrampicatori**.

La sua essenza in collaborazione con il gruppo alpinistico lombardo Ragni e i Bobo's dalla Sicilia, sta nella scoperta non solo di territori inesplorati, ma anche nell'incontro con nuove comunità e nell'arricchimento di territori con lo sviluppo di nuove falesie e comunità attraverso l'arrampicata.

I progetti più autentici non nascono da schemi rigidi, ma da intuizioni istintive. Proprio come un'opera d'arte che prende forma da sovrapposizioni spontanee, anche il Rock Experience Discovery Tour è nato così: da un'idea che ha trovato direzione nel tempo.

La prima tappa è stata a Stilo, in Calabria, dove fin da subito è emersa la volontà di collaborare con la comunità locale per lasciare qualcosa di concreto: una nuova falesia per le future generazioni.
Un intento che ha preso vita anche in Bulgaria, insieme ai Ragni di Lecco e all'Istituto Italiano di Cultura di Sofia, con Rock Experience al fianco del progetto come sponsor e sostenitore.

Il passo successivo è arrivato in Sicilia, con un approccio più libero e collaborativo. Per 30 giorni, gruppi come i **Bobo's**, i **Ragni** e i climber locali hanno lavorato fianco a fianco alla chiodatura di nuove pareti, in uno spirito che ricordava l'arrampicata degli anni '80. Un'esperienza ancora viva, che ha spinto Rock Experience a intervenire in modo più diretto e consapevole. Lo stesso spirito ha guidato la creazione della nuova falesia del Ferro, in Val di Mello: un progetto vicino, ma con una visione ampia.

Oggi, il Rock Experience Discovery Tour guarda al futuro con una visione più ampia. Non si tratta più solo di aprire nuove falesie, ma di **valorizzare i luoghi** in cui nascono.
Attraverso azioni di comunicazione mirate e il **coinvolgimento diretto delle comunità locali**, il progetto punta a creare un impatto duraturo, sia dal punto di vista sportivo che turistico.

Grazie alla collaborazione tra i gruppi Ragni e Bobo's e alle realtà di scalatori locali, **Rock Experience vuole continuare a costruire un'eredità**: falesie attrezzate, territori valorizzati, comunità unite. **Un modello di sviluppo sostenibile e condiviso, dove l'arrampicata diventa strumento di connessione, inclusione e crescita per tutti**.

Falesia:

È stata una collaborazione tra Ragni e l'istituto di cultura italiano di Sofia, alla base del progetto c'era la cultura del alpinismo (riconoscimento come patrimonio dell'UNESCO) come mezzo di aggregazione e possibilità turistica, la creazione di una nuova falesia ha avuto anche una collaborazione attiva con gli scalatori del posto, la struttura aveva anche alcune caratteristiche importanti è immersa in una zona dove ci sono altre falesie già frequentate a uno stile differente rispetto alle precedenti più "moderno" un esposizione differente così da aumenta la frequentazione della zona e è raggiungibile da Sofia con mezzi pubblici quindi anche i ragazzi possono utilizzarla con un approccio Green.

Ferro
Val di Mello, Italia

Progetto:
L'idea era di utilizzare il processo creativo usato x la Sicilia anche in una falesia nella zona proprio per lasciare un concetto fruibile vicino, il Ferro è una struttura in quota immersa nelle montagne con un accesso di tutto rispetto, per 2 anni una serie di persone si sono susseguite con me per creare la falesia, molte volte si trascorrevano più giorni giorni tra chiodare e scalare dormendo sotto un enorme masso sotto la falesia, il tutto a creato in un posto magico dove la scalata è solo un aspetto di quello che vivi lassù è sicuramente il Ferro è una falesia particolare nel mondo della scalata.

Falesie:

La Cattedrale, San Giuseppe Jato, Sicilia, Italia

Sicilia, Italia

Progetto:
Questa magnifica falesia immersa nella piana degli Albanesi nel cuore della Sicilia era da anni che la si osservava ma le sue gigantesche dimensioni non davano grandi possibilità per essere chiodata, troppo grande, troppo difficile! Con il progetto Discovery Tour di Rock Experience i 3 gruppi: Ragni, Gamma e Bobo's hanno deciso di intraprendere questa nuova avventura, e così è stato! Fra tutte le sfide di chiodatura questa è stata in assoluto la più tecnica per la complessità della falesia, con tiri impressionati fino a 60 metri, contornati da canne giganti in una struttura che ricorda una gigantesca cattedrale gotica immersi in un paesaggio spettacolare.

Durata del progetto:
14 giorni

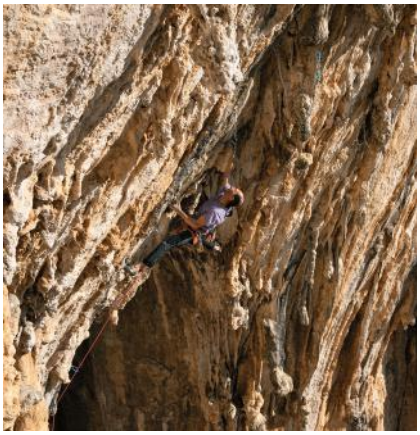

Tiri chiodati:

Difficoltà:
Dal 6A al 8B+ più alcuni progetti

Falesie:

Iron Feet e La Quercia nel canyon del fiume Una

Bihac, Bosnia

Progetto:
In questo viaggio non vi è stato solo l'aspetto sportivo ma anche quello sociale, ovvero far crescere una comunità verticale ancora giovane, un aspetto che é stato al centro della spedizione. Obiettivo il proseguimento di un progetto iniziato anni fa grazie a Francesco e Open Medditeran, che avevano creato una palestra indoor, fino ad allargarsi all'aperto con la chiodatura di una falesia con alcuni scalatori italiani, i Ragni la piccola comunità del posto era entusiasta di tutti questi stimoli, quindi abbiamo pensato che il Discovery Tour potesse allacciarsi a questi valori e dare un enorme contributo e così è stato. Abbiamo continuato a valorizzare il territorio con due falesie e svolto corsi di formazione nella palestra Dalkja, con tracciature, allenamenti, manovre.

Durata del progetto:
10 giorni

Tiri chiodati:
30 tiri in due falesia Iron Feet e La Quercia
