Be Safe, Be Seen, Be Visible

2026

Reflective Products

Stay safe and highly visible during all outdoor activities with our premium reflective garments, including reflective vests approved in accordance with **EN ISO 20471** and **EN17353** standards. Our garments provide maximum visibility in low-light conditions, enhancing your safety. We supply multiple sizes and styles to complement your safety gear. Our reflective personal protective accessories include reflectors, reflective bands and reflective slap wraps.

All products pass testing and hold EN 17353 Type B1 & B2 certification, ensuring stable quality and dependable reflective performance.

Increase your visibility and stay protected outdoors with our reflective product serie

EN 17353

EN ISO 20471

300 METERS VISIBILITY DISTANCE REFLECTIVE FABRIC PROVIDE YOU SAFETY AT NIGHT

Reflective material will reflect light back in the direction of the light source when car light irradiating. It's easier for drivers to see you from a distance. So they will have enough time to take measures to avoid traffic accidents

Ordinary clothes have no reflective effect. Driver can't easily see you in low visibility condition even at close distance, it will easily happen traffic accidents if car speed is fast or driver isn't paying attention
