CHAMPRO®

SPRING 2026

Dear Valued Customer,

The momentum at Champro has been exciting, and it's thanks to the continued trust and support of our customers — along with the passion of our team.

As sports participation continues to rise across all ages, we are committed to responding to market trends and demands by delivering elevated and innovative products that serve athletes in their communities.

In this catalog, we proudly introduce the Icon Series, a line of elite-quality gear with a premium look, feel and performance. Our team has been working hard to develop these top products, and we can't wait for your players to try them out. Look for our Icon products across various categories and experience the next level of our brand.

We've also introduced our custom Embroidery program, which brings embroidery to certain apparel. We're excited to see what you design with this expanded decoration option!

Getting our product to customers quickly and reliably has always been a top priority. In early 2025, we launched our 3-Day T-shirt Program to help customers quickly fulfill last-minute team needs. Combined with our existing 5-Day T-shirt Program, we're now delivering solutions even faster to meet your demands. In 2024, we saw high customer satisfaction ratings on custom orders and a perfect rating on stock orders. And we experienced a substantial increase in company revenue overall. We aim to maintain these high numbers and ensure we provide you unparalleled customer service.

As the industry continues to evolve, we strive to be at the forefront, fulfilling our longstanding mission of outfitting players from head to toe and getting them game ready.

Introducing

EMBROIDERY

Precision in every thread

Our embroidery decorations are now available on more than just our headwear! Customize even more Champro gear with our all-new, state-of-the-art embroidery.

Why choose embroidery?

With its three-dimensional design, embroidery helps game day apparel stand out from the rest! On top of its unique look, embroidery is also built to last—this durability means it won't easily fade, peel or wear off.

ICON

Gear Up. Stand Out. Be Iconic.

Introducing Icon: Elite Performance, Unmatched Quality

To help our customers stay ahead of the game, we're launching Icon — a premium line of equipment, team uniforms and apparel designed for athletes who demand the best.

Icon isn't just another product line. It's a statement of excellence. Every item in the Icon collection is crafted to deliver top-tier performance, durability and innovation.

And this is just the beginning — we'll continue expanding Icon with only the best Champro has to offer.

You already count on Champro for high-quality team essentials. Now, you can elevate your offering with elite gear built for athletes who refuse to settle.

Whether they're striving for their first championship or their next big milestone, Icon is made for those who push beyond limits.

This isn't just gear. This is what it takes to be an Icon.

Identify Icon series products by spotting next to product name.

Apparel Tech and Fit Guide

Look for our apparel technology icons throughout the catalog to see which products work best for your needs.

Apparel Icons:

Four-way Stretch
Fabric that stretches in all directions, allowing for extra comfort and range of motion.

Bio-Fresh
Treated with an anti-microbial to protect from mold, mildew and bacterial odors.

Cold Weather
Fabric designed to keep you warm in cold weather activities.

Color Lock
Treated to prevent color bleeding during screen printing.

Double-Ply
Reinforced with double-ply fabric in areas that need extra protection.

Dri-Gear
Fabric technology helps wick away moisture to keep athletes comfortable.

Perfect Inseam
Allows instant length adjustment up to 4 inches.

Recycled
Sustainable materials — lowering carbon emission and reducing waste.

Reversible
Item can be reversed to contrasting color for use at both home and away games.

Super-Grip
Silicone strips line the waistband to keep jersey tucked.

Ventilation
Item includes mesh fabrics or inserts to increase air flow.

UPF Rating
Garment is made of fabric with a UPF rating, which indicates the level of protection it offers from the sun's ultraviolet (UV) rays.

5-Day Lead time
Products are available with our 5-day lead time.

Realtree
Products can be designed using Realtree patterns on the Custom Builder.

Retail Packaged
Products are packaged in our white boxed retail packaging.

Cap Profiles
Caps come in three different profiles, each is displayed next to cap.

Fit Guide:

Fitted
Cut that follows the body's contour while allowing easy movement.

Loose Fit
Generous cut that allows free movement; spacious fit for all body types.

Stretch-Fit
Tight-fitting cut that expands over the body using four-way stretch fabrics.

Wave vs. Surge FAQs

Which decoration option is right for your order?

Want to customize stock garments with team names, player names, logos or numbers? Wave and Surge offer fast and reliable decoration options that bring team uniforms, sportswear and bags to life!

What are Wave and Surge?

Wave is Champro's screen printing service, while Surge is our direct-to-film printing service. Both Wave and Surge allow quick customization of stock garments with team names, player names, logos and numbers.

What are the biggest differences between Wave and Surge?

Wave allows custom designs that include up to four colors. Surge offers custom designs in up to 22 colors.

When should I choose Wave?

Choose Wave for mesh fabrics or football garments, as Surge is not compatible with these materials. Wave is also the more cost-effective option for orders of 150 units or more. For orders between 25 and 149 units, pricing depends on the number of colors used — refer to the charts below for detailed cost comparisons.

When should I choose Surge?

If your design includes more than four colors, Surge is the way to go. It's also the more cost-effective choice for numbered jerseys and orders of 12 pieces or fewer, no matter how many colors are used.

Check the charts below to determine which service best fits your order based on quantity.

SURGE

Team Name/Logo/Number/Player Name	1-6 pcs	7-12 pcs	13-24 pcs	25-71 pcs

2-Color	$11.00	$6.75	$4.25	$4.25	$3.75	$3.00

Can all stock garments be decorated with Wave or Surge?

No, not every stock garment is compatible with both decoration methods. Wave can be applied to all stock tops and shorts, while Surge is only available on select styles. To check if a specific garment can be decorated with Surge, visit champrosports.com for details.

Is Wave or Surge better for decorating bags?

Champro only offers Surge decoration on bags.

What are the lead times on Wave and Surge?

Both Wave and Surge have a 10-day standard lead time with an upcharge for an upgraded 5-day lead time. But, lead time availability is always based on production capacity.

What are the order minimums for Wave and Surge?

There is no order minimum for either Wave or Surge!

Caps Decoration

The Champro Cap Program has endless decoration options with no set-up charges. Personalize your Champro cap with either flat or 3D embroidery on the front, and opt for flat embroidery on the sides and/or back. Select from our library of stock fonts and mascots or send us your own custom vector logo. You can also add player names or numbers.

Caps Terminology Made Simple

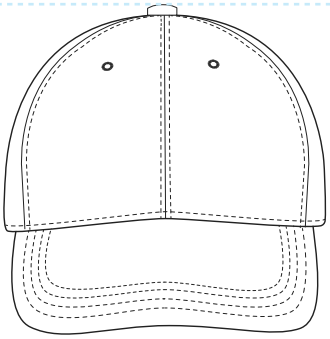

Understand the features. Find the perfect fit.

Understanding cap terminology makes it easier to find the right fit and style. Use this guide to learn the key terms found in our product descriptions.

Crown

The **crown** is the upper part of the cap, shaping its fit, function and style.
Two key aspects of the crown are **profile** and **structure**.

Profile refers to the cap's height and shape.

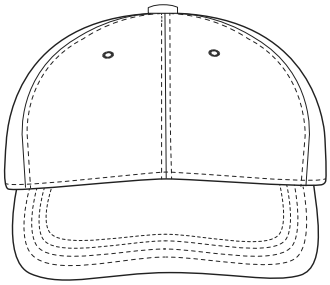

HIGH PROFILE

Sits higher on the head with a structured, boxy appearance for better airflow

MID PROFILE

A balanced fit, ideal for sports like baseball and golf

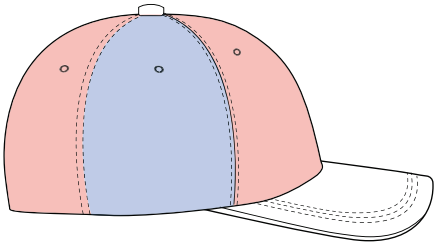

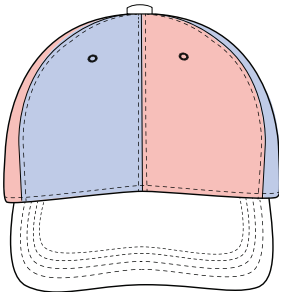

LOW PROFILE

Fits close to the head for a casual, streamlined look

Panels

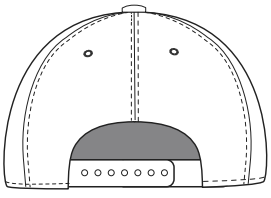

Panels are the fabric sections sewn together to create the cap. A **six-panel cap**, made from six triangular pieces, is the most common design.

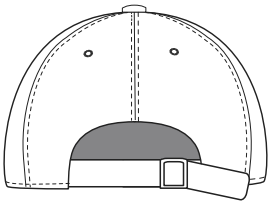

Closure

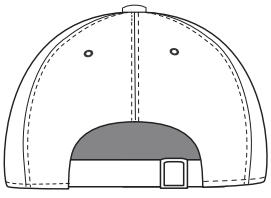

The **closure** is the adjustment system at the back of the cap.

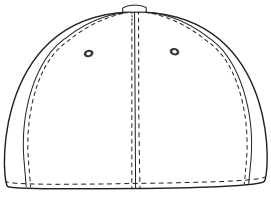

Snapback
Adjustable plastic snaps

Hook-and-Loop
Adjustable strap, often used for casual wear

Metal Triglide
Sliding metal buckle for a precise fit

Fitted
No adjustment; sized for a snug, professional fit

Style

- **Traditional** – Lightly structured, mid-profile caps with a vintage appeal.
- **Pro Style** – A modern, performance-focused variation designed for professional use.

Visors

- **Custom-Curve** – Ships flat so the wearer can shape it to their preference.
- **Curved** – Comes with a preset curve, ready for wear.

BASEBALL CORES

Collegiate

Designed for elite athletes, this core features white virgin wool, a vinylon finish and a double-cushion cork center.

MBT MOISTURE BARRIER TECHNOLOGY

Double Cushion

This core provides long-term durability at high levels of play. Metered-tension winding allows the ball to retain its shape.

MBT MOISTURE BARRIER TECHNOLOGY

Cork and Rubber

Metered-tension winding in this core allows the ball to keep its shape and firmness during gameplay.

Bond Cork and Rubber

The C-2 poly-bond cork and rubber core is the most ideal for practice baseballs.

BASEBALL SEAMS

Flat Seam

Flat seam provides aerodynamics to increase distance and provides pitchers and hitters with true feel.

Raised Seam

Our High-M raised seam makes the ball easier to grip, offering pitchers and fielders the most control.

Reduce the potential for sliding injuires with the

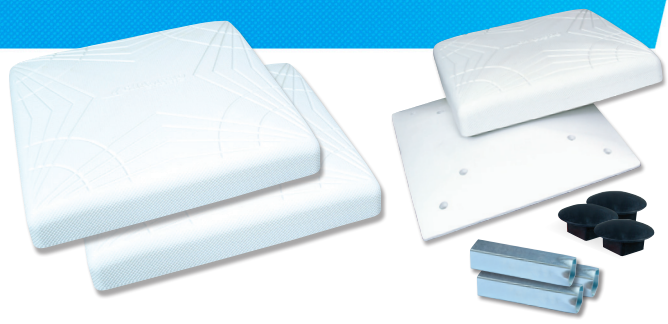

DISLODGING SAFETY BASE

The top pad supports a player standing on the base but dislodges and separates from the smooth bottom plate upon contact with sliding players. This allows the sliding player to smoothly glide over the plate after the top dislodges, while the top continues to support the standing player. The top can reconnect to the bottom plate in seconds after the play ends.

CHAMPRO

KNOW YOUR SOFTBALL

We manufacture a complete range of softballs to ensure that we have a ball that meets the durability and performance standards required by any league, on any team's budget. Our high-performance polyurethane cores are pressure-molded to provide maximum durability and adhere to the prescribed performance metrics of ***Little League, the National Federation of State High School Associations, USA Softball and the United States Specialty Sports Association.*** *Never let the ball slip away with our leather and durahide covers, which provide the best, longest-lasting grip on the field. Throw like a champion with our fastpitch softballs, which are equipped with our raised High-M seam and offer the feel that players prefer the most.*

Champro softballs are coded on their center panel to instantly identify the construction of each ball.

The first letter is always "T" for Tournament or "G" for Game.

T: Leather cover and polyurethane core, high performance
G: Durahide cover and polyurethane core for all levels of play

The second and third letters are either "FP" to indicate Fastpitch or "SP" to indicate Slowpitch, which will also identify the seam construction.

FP: Raised seams
SP: Flat seams

The two-digit number at the end of the name indicates the coefficient of restitution (COR) of the softball.

Note: The United States Specialty Sports Association's specifications prohibit marking the COR and compression numbers on the ball.

DECORATION OPTIONS

JUICE INFUSED GEAR | SURGE | WAVE | EMBROIDERY | CAPS

This section includes a detailed guide to decorating your Champro stock apparel, custom apparel and caps. You will find options for colors, textures, text layouts, art placements and font styles for each decoration category, as well as their terms and conditions.

Want to place an order through email? Follow this checklist!

When submitting your new order request via email, please include the following information in the body of your email:

- [ ] **Customer account number**
- [ ] **Reference ticket or previous sales order (SO)**
  - Only applicable to reorders.
- [ ] **Desired SKUs**
  - Clearly identify SKU number.
  - Specify if you will need a Youth/Adult or Girls'/Women's size.
  - For Wave, Surge and Embroidery orders: Also specify the desired colorway (you will find colorway options on product pages in the catalog and online).
- [ ] **Desired fabric (only required for Juice orders)**
  - Available fabrics are listed with each Juice product description.
- [ ] **Design name and number or reference design image**
  - Include the design name and number for your order or provide the reference image found on the product page online.
  - For Juice and Caps only: If you created your order in our Custom Builder, include the Custom Builder file.
- [ ] **Design specifications**
  - Include all fonts, sizes, colors and art placements for each item.
  - For Caps, specify the desired effect (3D, 3D partial or flat).
  - For 3D partial: Use the notes section to specify what should be 3D and what should be flat.
- [ ] **Editable vector**
  - Adobe Illustrator (AI), EPS or high-resolution PDF are the only file formats we accept.
  - All art must be vector art and saved in original formats.

Preapproval Information Needed

Once you provide the above information, Champro will send you a proof to review and preapprove. For preapproval, we will need you to submit:

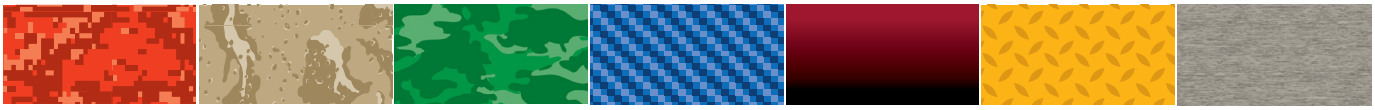

- [ ] **Editable roster and item quantities**
  - Roster in a typed, editable format
  - Provide the following information:
    - Names
    - Sizes
    - Numbers
    - Quantities
  - Specify if the garment's sizes are Youth/Adult or Girls'/Women's

Lead Times

· Juice Express Plus: Five or three business days*
Juice Express: 10 business days*
Juice Standard: 15 business days
· FOB Chicago.

Lead times vary by order volume. Champro will confirm lead time after the customer approves artwork. Production begins the day after artwork approval. Approvals received after 4 p.m. CST will be processed the next business day. Lead times are manufacturing days and do not include shipping to the customer from our distribution center.

***Program may be suspended if capacity is not available. Orders will be accepted in the order in which they are received. If capacity is not available for the lead time date, the order will be processed the next available day.**

****If additional preproduction work is needed to ensure graphics are recreated correctly, Champro may add additional processing time.**

Minimum Order

· There is a six-piece order minimum per style, per color.
· Customers will incur a 25% per-piece upcharge for orders of fewer than six pieces.
· There is no upcharge or minimums for fill-in orders with the same design and graphics. A 25% upcharge applies if the customer requests changes to the fill-in order.

Order Submission

· Champro will not accept orders without a PDF and roster from the Custom Builder or an electronic order form. Contact our customer service department for an electronic copy of the order form.
· Build and order your uniform online at champrosports.com or email it to juice@champrosports.com.

Custom Juice Submission

· There is no art charge for template designs or numbers.
· Template designs within a sport are interchangeable, but template designs requested in another sport pattern will incur a set-up charge of $50.
· Unique designs not based off a Champro template will incur a one-time $50 set-up charge.
· Customers must specify all colors, decoration, locations and sizing.
· Any custom orders not submitted with specific direction may be subject to artwork fees.
· Customers must submit artwork in one of the acceptable artwork formats below.

Acceptable Artwork Formats

Vector Art

· We accept print-ready vector art files in the following formats: Adobe Illustrator (AI), EPS or PDF. Vector art can be scaled to any size while maintaing quality. **Vector art is always preferred.** Please remove any overprints within your file; these will drop out when printed. If vector art cannot be supplied, files that require digitization will incur a graphic design service charge at the rate of $50 per hour with a minimum charge of one hour.

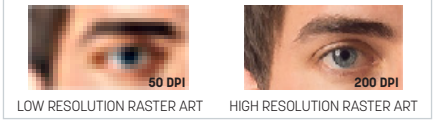

· PDF files will be converted to AI; we are not liable for any errors during conversion.

UNACCEPTABLE RASTER ART — ACCEPTABLE VECTOR ART

Raster Art

· Raster art, otherwise known as bitmap art, is composed of pixels grouped together to make one complete image. When scaled larger, the image will look pixelated. If you must submit a raster image, make sure the resolution is 200 dots per inch (DPI) or larger.

LOW RESOLUTION RASTER ART — HIGH RESOLUTION RASTER ART

Outlined Fonts

· Outlined fonts are required for all artwork formats. Font selection can vary on different computers, which can cause a desired font to be replaced with a generic one. To preserve your fonts, always outline, embed or convert them to shapes before submitting artwork. If you require a specific font, you must submit the name of the font and the font file (TFF or OTF).

DESIRED FONT — MISSING FONT REPLACED WITH A GENERIC ONE — DESIRED FONT WHEN OUTLINED TO PRESERVE THE SHAPE

Embedded Images

· Most programs allow the user to add an image to a file by linking or embedding it. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can vanish when opened from a different computer. Please embed all images to avoid losing them when you submit files. Any embedded images must be high resolution. If submitting a PSD file, all layers should be flattened.

Unacceptable File Formats

· Microsoft Office, InDesign, Quark, Corel Draw, Publisher or low-resolution scanned images are prohibited.

Graphic Design Services and General Details

· If you cannot supply vector art, Champro can create it for you for $10 per logo. For complex logos that require more design time, the cost may be higher. Champro will contact you before we create it.
· Champro reserves the right to adjust the size of decoration proportionally to garment size.
· Champro will not be responsible for errors resulting from copy that was received or approved incorrectly.
· Proofs provided electronically should not be used for final color output or image resolution.

Roster and Artwork Approval

· Champro will send an email with order acknowledgement and proof of the order.
· The customer must review the order, proof for accuracy and approve for production.
· All information on the proof and roster will be considered correct after receipt of customer approval.
· Champro will acknowledge receipt of approval and confirm lead times.
· Production and lead time will not begin until Champro receives the customer's written artwork and roster approval.
· Champro will not accept changes to an order after we receive artwork and roster approval. The customer must submit any additional changes as a new order.

Shortages, Claims and Cancellation

· Customers must report any order claims or shortages within 10 business days of receiving their goods.
· Any cancellation after the customer approves an order will be subject to 50% charge of the order total

Color Disclaimer

· It is not possible to achieve a perfect color match from one Juice garment to another or from Juice garments to Champro stock garments. Therefore, we cannot guarantee a perfect match from order to order or from one fabric to another. If you have questions about our colors, please contact us for more information. Art submissions with specific Pantone color callouts will automatically be converted to CMYK. If your order is color-sensitive, please contact us for information on color matching services. RGB files will be converted to CMYK; some color shifting will most likely occur. Unless the customer orders a sample, Champro is not responsible for unsatisfactory color results.

Color Matching

· We cannot color match gradients. We print digitally in CMYK and use PMS colors; therefore the colors are not exact. If you have a color-sensitive project, we recommend that you order a sample. In the event that you do not, we will match as close as possible, Champro is not responsible colors not printed to your liking.

Care Instructions

· Do not dry clean.
· Do not wash in hot water, chlorine bleach, wash whites and colors together, or dry on high heat.
· Excessive heat may cause fabric shrinkage and color change.
· Do not put Juice garments through a screen print dryer.
· Champro is not responsible for damage to apparel as a result of improper care.

Artwork Disclaimer

· Champro wants to work with you to put your designs, artwork and logos on the products you purchase from us. Any such designs that Champro prepares for you ("Artwork") will be the property of Champro and will remain Champro intellectual property, even if you have paid a fee for our design services. You will receive the Artwork only as it appears on goods purchased from Champro and not in any electronic format. We will have the right to use the Artwork for any lawful purpose, including without limitation, for sales and advertising.

· You represent that you have all the appropriate rights to use Customer Designs that you provide to Champro, and you agree to indemnify and hold harmless Champro for all costs or damages arising from a claim of infringement against Champro related to your Customer Design. Champro may request that you provide written proof of your rights to use any third-party logo or trademark prior to Champro using such logos or incorporating such logos into your Artwork. However, Champro making any such request does not affect your obligation to indemnify and hold harmless Champro for all costs or damages arising from a claim of infringement against Champro related to your customer design.

U.S. federal regulations state that youth garments are not allowed to have drawstrings due to strangulation hazard.

UPF STATEMENT

Ultraviolet Protection Factor (UPF) indicates the extent to which a type of fabric blocks ultraviolet (UV) radiation, including ultraviolet A (UVA) and ultraviolet B (UVB) rays, from reaching the skin. Champro conducts third-party UV protection testing in accordance with the American Association of Textile Chemists and Colorists TM183 test protocol. All fabrics are tested in unwashed and unworn condition, and testing is performed on dry, white fabric. Garments white in color typically exhibit the lowest-rated UPF of any fabric color. The protection the fabric on these garments offers may be reduced when the fabric is damp, wet, fits tightly and/or is stretched. The UPF rating, and therefore protection, of these garments may diminish over time due to frequent wear, laundering and/or other factors. Only skin the fabric covers is protected from sunlight exposure. The UPF rating Champro provides for a garment in this catalog represents the lowest UPF rating observed during testing. For garments that consist of multiple fabrics, please refer to the UPF Rating column in the Fabric Guide: Stock Apparel chart on Pages 386 and 387.

Apparel Sizing Guide

Important Note

The measurements listed in the charts below are body measurements (in inches), not garment measurements. If your body measurement borders between two sizes, order the smaller size for tighter fit or the larger size for looser fit.

How to Measure

Bust/Chest

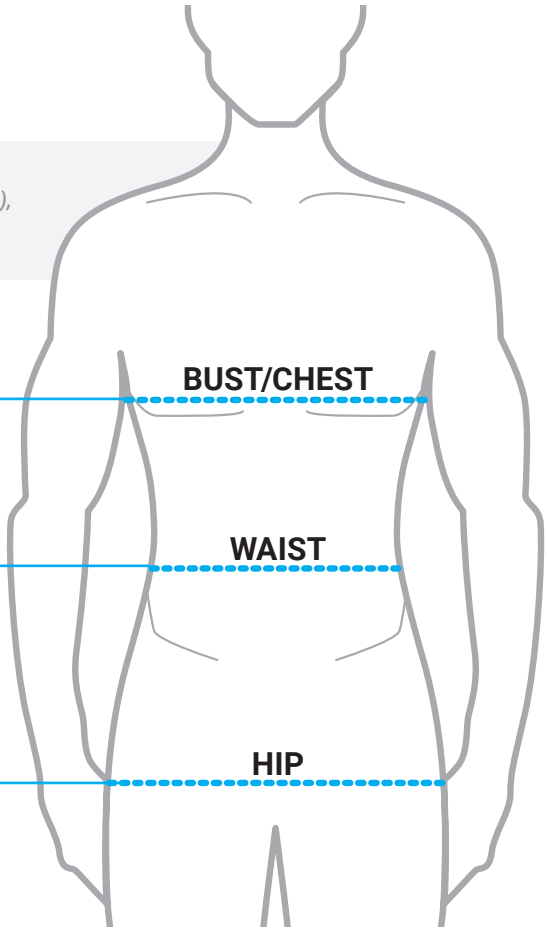

With arms relaxed at sides, measure around the body at the fullest part of the bust or chest, keeping the tape parallel to the floor.

Waist

Measure around the body, not on top of clothing, at the natural waist level.

Hip

With feet together, measure around the fullest part at hip level, keeping the tape parallel to the floor.
