ONS ²⁰/₂₆ COURAGE

Welcome to Stavanger & ONS 2026

It is an honour and a great pleasure to welcome you to Stavanger and to ONS 2026.

We are living in a time of profound transformation. The challenges facing the global energy system are complex and urgent, demanding bold decisions, new partnerships and the willingness to lead through uncertainty.

This year's theme, Courage, sets the stage for ONS 2026. Throughout the week, we will explore the courage to innovate, invest, collaborate and drive the transition towards a sustainable and secure energy future.

More than 1,000 speakers from around the world, including industry leaders, technical experts, researchers and analysts, will share their insights and perspectives on the future of energy.

At the exhibition, companies from across the globe will showcase their latest technologies, innovations and solutions, highlighting the resilience and problem-solving capabilities that continue to shape our industry.

My hope for the coming week is that you will experience the industry first-hand, connect with people from across the sector and build relationships that inspire new ideas, partnerships and business opportunities.

Your contribution to ONS is significant and may help shape the future of the global energy industry.

Thank you for your participation.

Leif Johan Sevland
President and CEO,
ONS Foundation

Welcome to Stavanger, the energy capital of Norway, and welcome to ONS 2026!

It is a great honor to once again welcome participants from around the world to Stavanger and Norway, and to a week dedicated to dialogue, expertise, diversity, and innovation.

We are proud to say that ONS is one of the world's leading meeting places for the international energy industry. ONS plays a vital role in bringing the world to Stavanger. Energy has been a driving force in shaping Stavanger into an international city, now home to more than 190 nationalities.

This year's conference theme is **COURAGE**.

We live in a turbulent world, where war and conflict have direct consequences for secure and stable access to energy. At the same time, many countries and cities – including Norway and Stavanger - have ambitious targets for reducing emissions and advancing the green transition. Achieving both is possible.

However, it is more important than ever that decision makers and businesses demonstrate courage and take responsibility, ensuring development that is both secure and predictable, while also protecting our fragile planet for future generations.

By bringing together leading global expertise and placing the most critical challenges on the agenda, ONS once again makes Stavanger the place to be.

Welcome to a week of agenda-setting, and a week of energy.

Enjoy your stay!

Tormod W. Losnedal
Mayor of Stavanger

Invested.

Invested in oil & gas. Invested in Norway. Invested in ONS.

Vår Energi is a leading pure-play E&P company. We're one of the largest oil & gas producers in Norway. We are committed to delivering long term value – for society, people, and investors. Join our talks at the stand, or read more on varenergi.no

Innovation Award Finalists

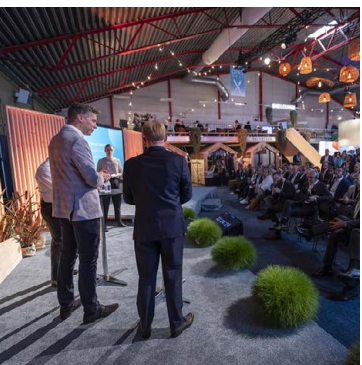

ONS Innovation Awards

The Innovation Awards celebrate the vital role of cutting-edge technology and forward-thinking solutions. They also have a strong track record of highlighting companies and concepts that later go on to achieve significant success.

The awards feature two categories: one for large companies and one for small and medium-sized enterprises (SME). There will be one winner in each category.

Each Finalist is given the opportunity to pitch their innovation during ONS.

Monday, 24 August 2026 | 13:00 - 14:30
Technical Sessions venue, Hall 5 – Room 2

The Innovation Award

For larger companies, who already have sizable sales and a large market share in place.

Finalists:

- **Archer (Hall 9, Stand 9280)**
- **A/S Norske Shell (Hall 10, Stand 1090)**
- **Hitachi Energy (Hall 2, Stand 2300)**
- **Reach Subsea**
- **DNV (Hall 9, Stand 9410)**

SME Innovation Award

The SME Innovation Award, established in 2004, ensures that small and medium-sized enterprises (SMEs) can showcase their groundbreaking developments alongside larger industry players.

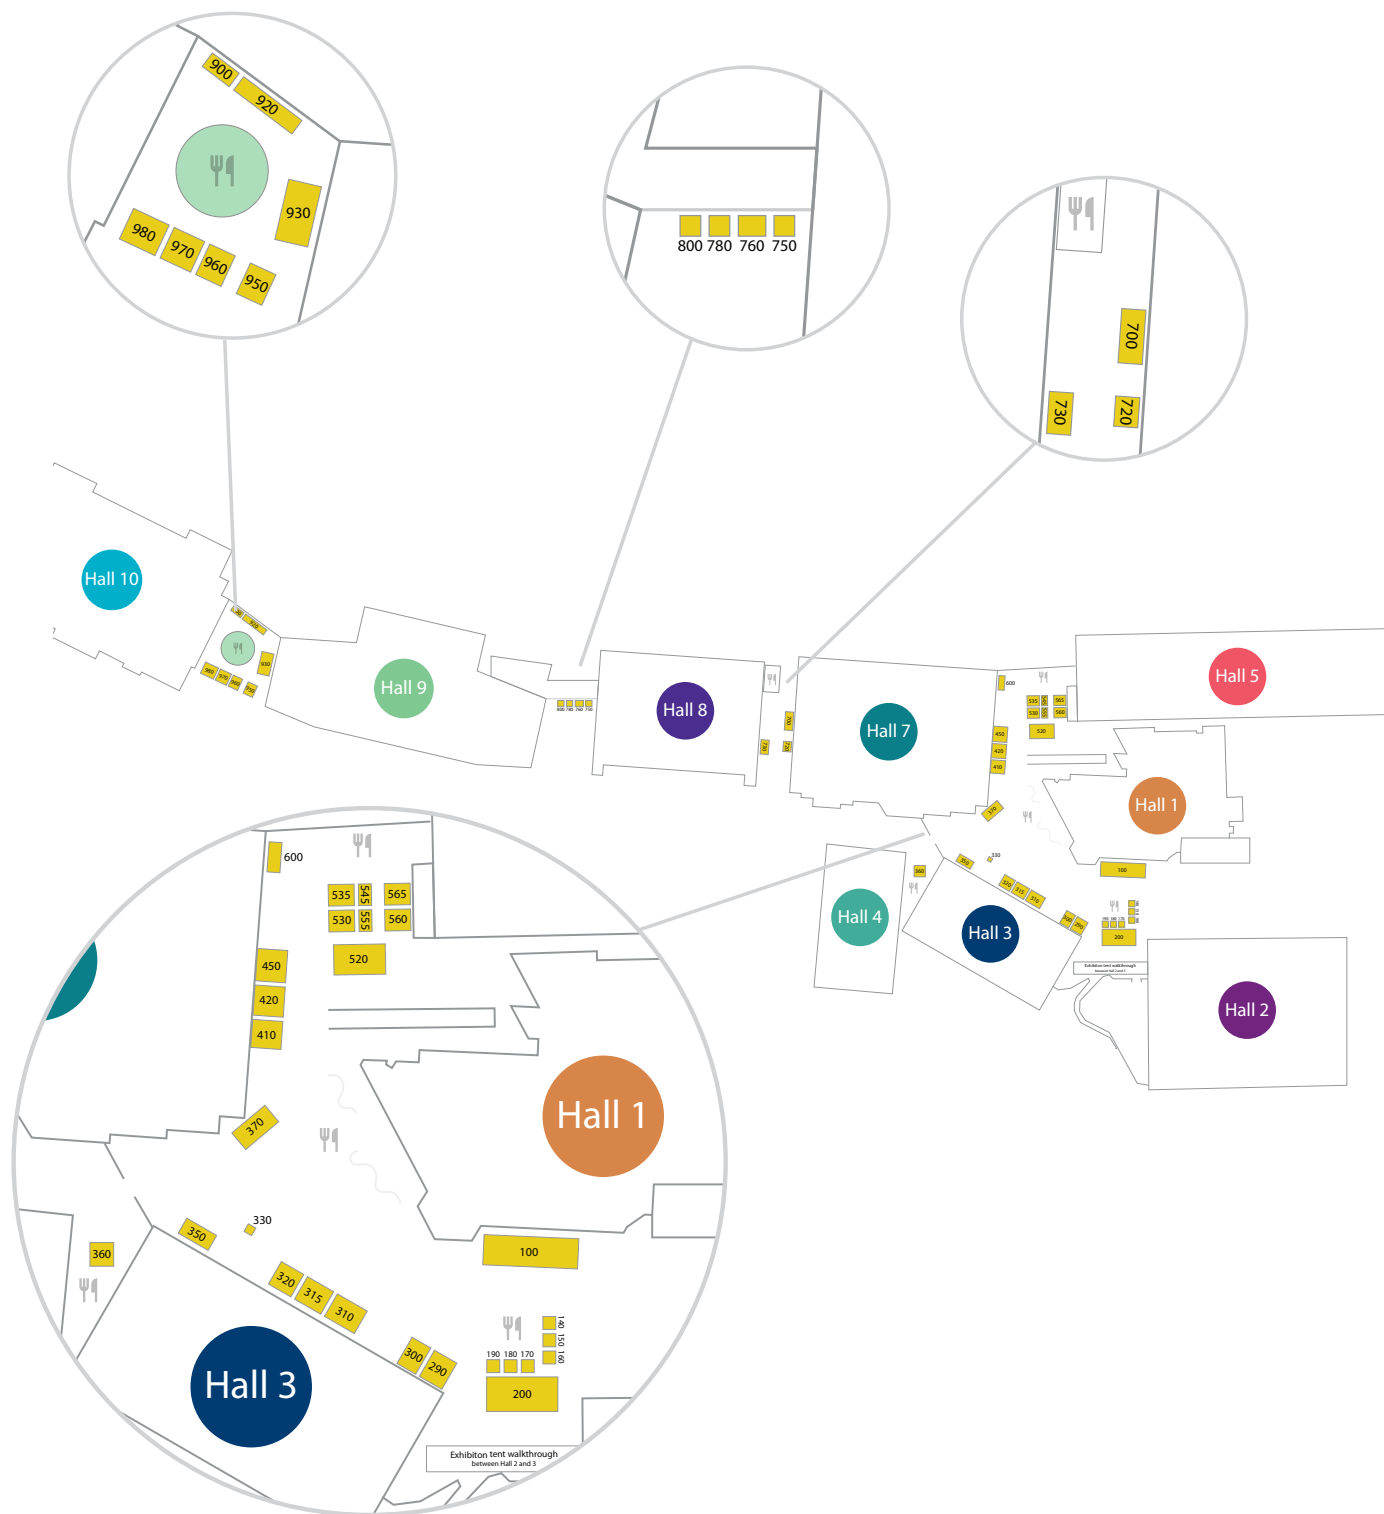

Finalists:

- **Enerin (Hall 8, Stand 8300)**
- **ElBits**
- **Hystar**
- **Imenco Future Technologies (Hall 8, Stand 8300)**
- **Roofit Solar Energy**

The winners will be announced at the ONS Strategic Conference in the session "Disrupting the energy trilemma: Breakthrough ideas shaping the future of energy? Innovation Award"

A high-angle, nighttime photograph of a harbor festival. The sky is filled with large, brilliant fireworks in shades of red, purple, and white. Below, the harbor is crowded with numerous boats, including sailboats and motorboats, many of which are illuminated with colorful lights. The water reflects the lights from the boats and the fireworks. On the left, a promenade is visible with people walking, outdoor seating with umbrellas, and buildings that are brightly lit. The overall atmosphere is festive and celebratory.
