JTB EXIM

PREMIUM QUALITY • TRUST • GLOBAL REACH

ABOUT US

JTB Exim is an Indian proprietorship firm established in 2025, specializing in the export of premium food and agricultural products. We are committed to delivering quality, consistency, and trust across global markets.

Our product portfolio includes frozen peas, bananas, tamarind seeds, organic strawberry jam, organic jaggery, organic turmeric powder, ginger, raisins (Manuka), organic honey, organic moringa soup powder, organic shatawari, and natural organic strawberry.

With a strong focus on export and import operations, we bridge the gap between Indian agricultural excellence and international buyers. Our founder, Aishwarya Prasad Kadam, brings over 2 years of experience and a background in computer science, ensuring a tech-enabled, efficient supply chain.

We believe in transparency, quality assurance, and customer-centric service, making us a reliable partner for global buyers.

PREMIUM QUALITY

We ensure the highest standards in every product we deliver.

TRUST & TRANSPARENCY

We believe in honest practices and long-term relationships with our partners.

GLOBAL REACH

Connecting India's finest products with buyers worldwide.

OUR VISION

“

To establish JTB Exim as a globally trusted export company, showcasing India's agricultural excellence through premium quality, authenticity, sustainability, and innovation while building lasting partnerships with buyers worldwide.

”

OUR MISSION

01

Deliver premium-quality products that meet international standards and exceed customer expectations.

02

Build trusted global partnerships through transparency, reliability, and customer focused service.

03

Promote responsible sourcing and sustainable trade while showcasing India's agricultural excellence worldwide.

Quality Assured

Our Collection

Multifloral Honey

A balanced honey derived from nectar collected across diverse blossoms, offering a naturally rich and varied floral character.

Jamun Honey

A distinctive Indian varietal with a deeper amber appearance and a characteristic mildly tangy-sweet profile.

Neem Honey

A specialty honey associated with neem blossoms, known for its distinctive robust taste and subtle bitter notes.

Tulsi Honey

A specialty honey preparation featuring the characteristic aromatic profile of Tulsi (Holy Basil).

Ajwain Honey

A specialty honey preparation with the distinctive aromatic character associated with Ajwain.

Custom / Private Label

Retail and bulk formats can be developed according to buyer requirements, subject to MOQ and production feasibility.

Product Positioning

Pure and natural honey range

No artificial colours or unnecessary preservatives added

Distinctive floral and botanical flavour profiles

Suitable for retail, food-service and ingredient applications

Bulk export and private-label supply options

Batch-wise quality documentation available as applicable

 Tulsi Honey	A honey preparation with the recognizable aromatic character of Tulsi (Holy Basil).	<ul style="list-style-type: none"> • Herbal beverages • Specialty retail • Food & beverage
 Ajwain Honey	Aromatic honey preparation featuring the characteristic notes associated with Ajwain.	<ul style="list-style-type: none"> • Herbal beverages • Culinary use • Specialty retail

Export Packaging Options

RETAIL

Glass jars or food-grade PET/HDPE containers in 100 g, 250 g, 500 g and 1 kg formats; custom label and carton packing available.

BULK

Food-grade HDPE pails/drums or other suitable food-contact bulk containers. Typical commercial formats can include 25 kg, 30 kg and 300 kg, subject to product and buyer requirements.

EXPORT PROTECTION

Tamper-evident sealing, leak-resistant closures, secondary cartons/palletization and moisture/heat-consicous handling as appropriate to the shipment.

LABELLING

Product name, net weight, batch/lot identification, origin and other mandatory declarations can be provided according to destination-market requirements.

Quality & Export Documentation

For confirmed orders, documentation can be arranged according to the product, destination and buyer requirements. Typical export documentation may include a commercial invoice, packing list, certificate of origin, inspection/quality documents and shipment documentation. Batch-specific Certificate of Analysis (COA) can be provided where applicable.

Quality Parameters

Parameter	Buyer / Batch Specification
 Moisture	As per applicable product standard and confirmed batch COA
 HMF	Tested as applicable to the destination-market specification
 Diastase Activity	Tested as applicable to the product and destination requirements
 Sugar Profile / Adulteration Screening	Available as part of quality verification where required
 Pesticide / Antibiotic Residues	Destination-market testing can be arranged where required
 Microbiological / Contaminant Testing	Available according to buyer and regulatory requirements

Buyer Note: Honey is a natural product and its colour, aroma, viscosity and tendency to crystallize may vary by floral source, season and storage conditions. Final specifications and certificates should be confirmed against the actual batch before shipment.

ABOUT JTB EXIM

JTB EXIM is an India-based export and sourcing company supplying agricultural and processed food products to international buyers. We work with selected Indian processing and manufacturing partners to offer buyer-specific specifications, export packaging, documentation coordination and shipment support.

Our Frozen Green Peas range is positioned for importers, distributors, foodservice companies, retailers and food manufacturers seeking consistent Indian-origin supply.

OUR EXPORT FOCUS

Product Sourcing

Selected Indian suppliers and processors based on buyer specification.

Quality Coordination

Product specifications, samples and quality documents can be coordinated before shipment.

Flexible Packaging

Bulk, foodservice, retail and private-label formats subject to product availability.

Cold-Chain Logistics

Frozen cargo movement through temperature-controlled logistics and reefer shipment planning.

Documentation

Commercial and shipment documentation coordinated according to transaction and destination requirements.

Buyer Customization

Calibre, grade, pack size, labeling, certifications and inspection requirements can be discussed.

FROZEN GREEN PEAS — PRODUCT PROFILE

Frozen Green Peas are shelled green peas processed and frozen for convenient storage, transportation and use. Depending on the supplier and buyer specification, JTB EXIM can source conventional frozen peas and IQF (Individual Quick Frozen) formats.

PARAMETER	DETAILS
Product	Frozen Green Peas
Botanical Name	Pisum sativum
Origin	India
Category	Processed / Frozen Vegetable
Form	Shelled frozen green peas; IQF where specified and available
HS Code	07102100 – peas (Pisum sativum), shelled/unshelled, frozen, as listed by APEDA

Note: Calibre, tolerances, microbiological limits, pesticide residues, additives, shelf life and other technical parameters must be finalized against the actual supplier specification/COA and destination-country requirements.

PRODUCT RANGE & BUYER GRADES

PREMIUM FROZEN GREEN PEAS

Uniform appearance and calibre, suitable for retail, foodservice and premium distribution channels.

STANDARD FROZEN GREEN PEAS

Commercial export grade suitable for wholesalers, restaurants and foodservice applications.

PROCESSING GRADE FROZEN PEAS

Suitable for food manufacturers, ready meals and processed-food applications, according to agreed specification.

IQF GREEN PEAS

Individual Quick Frozen format where available; convenient for portioning, handling and foodservice/industrial use.
