EDITO

Always by Your Side

Dear partners,

The 2027 season continues our commitment: to offer anglers products that are ever more efficient, innovative, and adapted to the evolution of our practices. This year, we have undertaken a significant overhaul of our bait offerings to make them more visible, clearer, and easier to comprehend. The introduction of the new Sensas 3000 Classic and Sensas One ranges complements our historical references and allows everyone to quickly find the products best suited to their needs.

On the pole side, 2027 marks the arrival of the new SRX generation. Developed to meet the expectations of the most demanding anglers, they offer a balance of lightness, rigidity, and versatility never before achieved, whether for competition or leisure fishing.

Innovation also continues in our range of floats with the development of the Magic Hybrid Quick Change models. Thanks to their interchangeable antenna system, they offer a simple and effective solution to instantly adapt to fishing conditions, especially in carpodrome settings.

Our equipment offerings continue to expand with numerous new items dedicated to feeder and method feeder fishing. The new Black Arrow XS Slim and Power Method rods, accompanied by many technical accessories, strengthen a range that has become essential.

The seat boxes and accessories are not left behind with the arrival of the new World Champion 4800 along with the evolution of the SCC36. Functionality, robustness, and modularity remain more than ever at the heart of our developments.

In terms of equipment, we continue our commitment to offering solutions that are ever more practical and effective to accompany anglers by the water, whatever their requirements.

Finally, our luggage and clothing ranges continue to grow with new references that combine quality, comfort, and modernity. From the Jumbo Black, Classic, and Match 2.0 ranges to the new textile collections, everything has been designed to meet the expectations of enthusiasts.

We thank you for your renewed trust and are pleased to share this new season with you, rich in innovations and ambitions.

See you soon by the water, The Sensas Team

contents

SENSAS 3000 POWER

3000 POWER CANAL

The POWER CANAL is a light brown groundbait developed for roach fishing in canals. It will also be perfect for fishing venues where the depth exceeds 3.00m. Its strong binding power, common to all baits in our POWER range, makes it the ideal mix when you need to concentrate the mechanical action of your bait on the bottom. Flavoured with coriander and vanilla to attract big roach to your swim!

3000 POWER BREAM NATURAL

A fine groundbait with subtle sweet and spice tones that breaks up slowly keeping your feed on the bottom. The smell is reminiscent of Belgian groundbaits of years gone by that were so deadly on skimmers and bream. This modern groundbait binds well and has a specific action that is less attractive to small fish but holds bream and skimmers in your swim for longer. Perfect for rivers and big navigable canals. A veritable bream magnet!

3000 POWER DARK SALTY

The Power Dark Salty is a dark and salty bait, ideal for winter fishing in cold water and particularly effective during the spawning period. It mixes easily with other 3000 baits like the 3000 Gros Gardons.

3000 POWER ROACH NATURAL

A special fine-grain bait mix that has the advantage of working slowly. It will allow you to easily sink and keep all your baits on the bottom in order to select the finest fish. Thanks to its strong adhesive power, which delays the action of the bait, it also and especially has the ability to remain firmly stuck to the bottom, making it a top choice bait for fishing in large-gauge canals and rivers subject to navigation, even with regular barge passages and frequent lock operations. The best for fishing in the Northern canals!

SENSAS 3000 SUPER BLACK

Range of groundbaits developed for year round fishing in clear waters. Carefully manufactured so the colour lasts all through your fishing session. The dye stays in the groundbait so you will not stain your hands mixing these feeds! They have already proved themselves in countless matches so if conditions are tough and water clarity a problem give these 3000 Super Black mixes a go!

3000 SUPER BLACK BREAM

Fine particle size, slightly sticky groundbait perfect for targeting bream and skimmers on tough venues especially where pike are a nuisance.

3000 SUPER BLACK CARP

Perfect for carp waters where the fish are under a lot of pressure.

3000 SUPER BLACK LAKE

All year round mix that can be used either with leam or other BLACK series groundbaits.

3000 SUPER BLACK ROACH

Fine particle size and medium binding properties make this the perfect mix for using in cage feeders even in slightly deeper water.

SENSAS TIPS

Despite what you might think, black groundbaits work all year round – not just in winter! With increased water clarity fish are warier and harder to catch than in years gone by. SENSAS 3000 SUPER BLACK is the answer to clear water conditions throughout the year!

Top Mix from... Christophe Noualhier

'River - Medium Current

RRP : RETAIL RECOMMENDED PRICE

ETANG - EXPLOSIVE - FINE MOUTURE

3000 EXPLOSIVE ROACH/ LAKE

Sometimes when using a classic groundbait it can be difficult to pull in fish which are holding off the baited area. The fast action of the 3000 explosive lake will disperse through the water quickly and pick up any flow or drift to draw fish quicker to your feed.

EXPLOSIVE BREAM

A fine, yellow groundbait that 'works' immediately on contact with the water. Like all the other groundbaits in the 'Explosive' range, you can add Terre de Somme and damp yellow loam to create more of a cloud to hold skimmers and bream.

3000 EXPLOSIVE RIVER BRASEM

Fantastic groundbait that pulls in quality fish quickly. Works best in summer when big fish are most active and the water has fully warmed up.

EXPLOSIVE GARDONS (ROACH)

A fine-textured groundbait that turns an attractive shade of brown when mixed. It has a subtle smell and 'works' rapidly in the water. It's a brilliant groundbait for roach and very versatile when mixed with Terre de Somme in varying quantities.

3000 ETANG NATURAL (LAKE)

Versatile mix suitable for all types of still water fishing. It can slow the action of a surface groundbait or make a heavier groundbait more active.

3000 GROS GARDONS FINE TEXTURE

A fine-textured version of the famous Gros Gardons that is slightly more sticky. Very good for big roach on canals affected by the opening and closing of locks.

3000 ETANG (LAKE) FINE TEXTURE

This versatile mix is perfect for all stillwater situations where the fish are not really having it. Highly adaptable - this mix is perfect for all situations where you are worried about overfeeding fish.

3000 GROS GARDONS FINE TEXTURE BLACK

Black version of our famous 3000 Gros Gardons Fine Texture groundbait. A classic for roach fishing particularly on clearer venues.

3000 GARDONS (ROACH) FINE TEXTURE

A fine-textured version of the successful 3000 Roach, this groundbait is ideal for delicate roach fishing.

3000 CANAL NOIRE (BLACK)FINE TEXTURE

This is the perfect winter mix combining a fine texture with a sombre black colour. A must for all difficult fishing conditions where care is needed in feeding your swim. Also suitable for lakes and slow moving rivers.

BOTTOM - RIVER

3000 FOND (HEAVY MIX)

A heavy, binding groundbait which is light brown in colour and designed for big fish on the bottom.

N 3000 BARBEL DARK HALIBUT 1KG

Based on our famous 3000 Barbeaux, this Dark Halibut version is specially designed for barbel fishing in clear or cold waters. Its powerful Halibut aroma, combined with a protein-rich composition, makes it a highly effective mix for targeting the largest specimens in both rivers and streams.

3000 RIVIERE (RIVER)

Containing large particles and lots of binder. It is orange in colour and suitable for medium to strong flows. Good for big bottom feeding fish.

3000 BARBEL WITH CHEESE

Same as 3000 barbel, only cheese flavoured. A very successful bait used in the south of France.

Top Mix from... Robert Berlioux

Big river fish - medium to fast flow
2 kg of Sensas 3000 River
1 kg of Sensas 3000 Big Roach
1 packet Super Bremix

SILVERS AND CARP

Range of groundbaits designed to be quick acting and pull fish fast into your swim. Rich in active particles such as ground seeds. Each groundbait has been blended to target different species making these groundbaits more selective and faster acting than other feeds.

3000 ATTRACTIVE BREAM

Light beige coloured bream groundbait. Enhanced with particles to appeal to larger bream. This light coloured groundbait is a positive mix and one for using when big nets of bream are on the cards.

3000 ATTRACTIVE CARP

Carp love seed baits so they'll love this groundbait! This mix will hold carp in your swim for hours!

Top Mix from... Arnaud Dupin

Bream in slow moving rivers:
2kg Sensas 3000 Attractive Bream
1kg Sensas 3000 Attractive Lake
1kg Sensas 3000 Bottom
1 packet Super Brasem
2 packets yellow leam

3000 ATTRACTIVE ROACH

This dark brown groundbait is a real roach magnet ! Boosted in seed particles making the groundbait very active. This extra seed attraction is guaranteed to hold roach longer in your swim!

3000 ATTRACTIVE GROS GARDONS

Made with coarser particles than the «attractive roach» to help select bigger roach. Light brown in colour.

Ref		Sticky Power	Rich	Grain size	Color wet	Fish	Season	Water quantity (cl)	RRP€

SENSAS 3000 SPECIFICS *CANAL - ROACH - BIG ROACH*

Team Sensas anglers have drawn on their vast experience to develop these top quality specialist groundbaits. They are perfectly adapted to the requirements of the target fish attracting and holding them in your swim.

3000 CANAL

Dark, salty groundbait with low food content. Perfect canal roach mix.

3000 NOIRE BLACK

This popular dark sticky Roach Groundbait is most successful for difficult fish in cold waters.

3000 GARDONS (ROACH)

Brown in colour and light in texture, this quick acting groundbait is one of the most successful feeds in Europe.

3000 GROS GARDONS BIG ROACH

A dark brown groundbait with large particles that interest the bigger roach in your swim.

3000 GROS GARDONS BIG ROACH BLACK

A black groundbait created to tempt bigger roach in difficult conditions, especially when the water is cold and clear.

3000 GARDONS RED ROACH

Good for big roach in winter, spring and autumn, effective in coloured water

Top Mix from... Éric Laudier

Roach on small canals
2 kg Sensas 3000 Canal

SENSAS 3000 SPECIFICS *BREAM - CATFISH AND TENCH*

3000 SKIMMER

As the name suggests, this is a groundbait developed specifically for skimmer fishing. Suited to both initial and top up feeding. The mix is relatively light and orange coloured, perfect for shallow lakes and canals and fishing up in the water.

3000 BREAM

Contains fluorescent red and yellow particles which attract and hold bream in a swim.

3000 BREMES YELLOW CLOUD

A soft yellow mix with little binder, for regular feeding and midwater fish.

Top Mix from... Alexandre Caudin

Top up feeding for skimmers on lakes and slow rivers
2 kg of Sensas 3000 Skimmer
1 kg of Sensas 3000 lake
1 packet Belgian Brasem
2 kg of damp loam

3000 TENCH

Dark, rich and heavy, this groundbait gives off a pleasant aroma much loved by tench.

3000 SUPER BREAM

Developed in the UK. Super Bream is perfect for targeting bigger bream

Ref		Sticky Power	Rich	Grain size	Color wet	Fish	Season	Water quantity (cl)	RRP€

SENSAS 3000 SPECIFICS *WAGGLER - CRUCIANS - BIG FISH*

3000 WAGGLER SPECIAL ANGLAISE

A groundbait specially designed to be catapulted. Although a heavy mix, it starts to break down immediately it hits the bottom .

3000 CRUCIAN

A coarse grained groundbait that takes on a lovely yellow colour once wetted which crucians cannot resist. This high food value mix can also be used to target other big fish like tench, bream and carp.

3000 GIALLA

A yellow, coarse textured groundbait for big fish. Very popular in Italy for carp, crucians and carassio.

Top Mix from... Éric Lubin

Waggler on shallow lakes

SENSAS 3000 SPECIFICS *CARP*

3000 CARP

A light coloured protein-rich groundbait an ideal particle carrier. It binds well and is designed for carp and big fish.

3000 CARP RED

Protein rich red groundbait perfect for coloured waters.

3000 CARP FINE PARTICLES

It's fine texture makes this mix very versatile, suitable for all large bottom feeding fish.

3000 CARP BLACK

A dark version of the very successful classic 3000 carp. Ideal for winter fishing when the cold makes fish more cautious.

3000 CARP LARGE PARTICLES

There are some extra large particles in this protein-rich and binding groundbait. Ideal for baiting up for big carp.

Top Mix from... Christophe Noualhier

Top mix from.... Big river fish.
2 kg Sensas 3000 gros gardons
1 kg Sensas 3000 carp fine particles
1 kg Sensas 3000 River
1 packet Carpix
6 kg terre de Riviere

3000 CARP YELLOW

A protein-rich groundbait for carp. Can also be used as a method mix.

SENSAS 3000 SPECIFICS *BLEAK & SURFACE - SMALL FISH*

3000 ABLETTES (BLEAK)

This groundbait forms a light and lingering cloud in the water to hold bleak in your swim. Best when overwetted.

3000 ABLETTES (ORANGE BLEAK)

A light soft textured groundbait perfectly suited for bleak fishing. It's bright orange colour makes it highly effective whatever the season.

3000 SURFACE

A very light groundbait with little binder which is light in colour. Perfect for small fish feeding at the surface or in midwater. Expands on mixing.

Top Mix from... Éric Lubin

Bleak mix
1 pkt Sensas Surface 3000 friture yellow
1/2 pkt terre de surface yellow
1/2 tub tracix yellow

CLASSIC SENSAS 3000 UK RANGE *LAKE - MAGIC - RIVER*

3000 LAKE

Versatile and our most popular mix. Full of attractors that work constantly in your swim to keep all species interested. The base to many of Team England's successful mixes.

3000 RIVER

Another popular mix. Can be mixed heavy to go straight to the bottom of fast rivers. Full of feed, with medium sized particles.

3000 BLACK LAKE

The black equivalent. Perfect for clear waters and difficult conditions.

3000 MAGIC BLACK

A winter mix, fine, black and full of sweet active ingredients.

3000 MAGIC NATUREL

An old favourite. This sweet mix is great for Skimmers and Bream.

3000 MATCH BLEND

A relatively dark low-feed groundbait that breaks down quickly. Perfect for harder conditions on smaller canals and lakes.

3000 MAGIC RED

A popular summer mix. Magic Red is ideal for coloured waters. Its sweetness makes it a perfect bream and skimmer mix, both for feeder fishing or balling.

3000 RIVER BLACK

The same consistency as River Natural. In clearer water Black River gives fish confidence to feed.

SENSAS 3000 CLASSIC

Our CLASSIC bait range has been developed with all our expertise and experience in baiting to offer effective recipes of great freshness that will help you achieve your best catches!

N 3000 CLASSIC GARDON (ROACH)

Fairly fine-grained primer that works quickly upon contact with water. It takes on a very beautiful brown color when wet.

N 3000 CLASSIC ETANG (LAKE)

We have found with this bait the perfect balance between the necessary work of the ball upon contact with water and the sticking power for it to disintegrate on the bottom. A very nice bait for pond fishing. Cream color, fine granularity.

N 3000 CLASSIC CARP

Bait whose degree of richness, sticking power, and creamy color allow for the best selection of the largest fish in the body of water.

N 3000 CLASSIC BREAM

A very nice groundbait that takes on a lovely yellow color when wetted. With medium granularity and sticking power, this bait allows for the selection of bream. It can ideally be mixed with other groundbaits in the range to best adapt it according to the body of water being fished.

N 3000 CLASSIC FRITURE (SMALL FISH)

Fast dispersing groundbait, forming an effective cloud for fishing bleak, gudgeon, roach, and other small fish.

REGIONAL

3 tips to get the most from your DEUX COQS groundbait.
1, To get a heavier mix, wet your DEUX COQS with warm water. If you need to add more weight or create a stickier mix add 10% of PV1 and 10% grey leam. This will break down in a similar way to groundbait mixed with pigeon poo.
2. To create a surface feed wet your DEUX COQS groundbait to a smooth and light mix. Feed regular pinches of the mix and fish at mid-depth.
3. You can wet your DEUX COQS mix the night before fishing for a less active mix that selects bigger fish.

DEUX COQS

A hemp based groundbait much loved in Northern France. Favoured by roach.

CHARLOT BLANC (WHITE)

Formes an attractive dense white cloud.

MEIN FUTTER

A bream mix created by former World Champion Germany's Wolfgang Kremkus.

SOILS AND CLAYS *SURFACE LEAMS*

Leams allow you to modify the mechanics of a groundbait without altering its feed content. Some leams are light and help disperse a mix whilst other leams and clays are binders. Certain leams even help a groundbait cloud on the bottom. Leams are a vital part of the modern angler's armoury!

SURFACE LEAM YELLOW

Very fine clouding leam that is used to add a little weight to surface groundbaits when you need to feed by hand at distance or in a wind. Can also be used with groundbait to create mixes that break up at mid depth! Available in 3 colours.

Ref	Weight (kg)	RRP€
26571	0,500	3,99

SOILS AND CLAYS *TERRE DE SOMME*

STANDARD DAMP LEAM

Fine soil that is not too sticky. Slightly damp light brown coloured soil that is best suited to lakes, canals and slow rivers. Widely used in Northern France to create a soil cloud (tapis de terre) into which larger groundbait balls are fed at the start of a match.

Ref	Weight (kg)	RRP€
02412	2	3,99
02416	6	8,99

RIVER LEAM

A brown binding leam which is ideal for slowing down the action of your river groundbaits. Equally useful in deep lakes and stillwaters with tow.

Ref	Weight (kg)	RRP€
02418	3	4,69

BLACK DAMP LEAM

Black version of the base double leam mix. Perfect for clear waters and using with other groundbaits in our BLACK range.

Ref	Weight (kg)	RRP€
09892	2	6,49

STICKY TERRE DE RIVIERE

Binds more than classic Terre de Riviere to let you get more live bait straight down to the bottom.

Ref	Weight (kg)	RRP€
03915	3	5,99

NATURAL DRY LEAM

Perfect for mixing with your DRY groundbait ingredients before wetting. Will add weight to a mix and create a cloud in the water which fish find attractive. Can be used in mixes fished off the bottom or hard on the deck.

Ref	Weight (kg)	RRP€

N POWER BOOST BREAM SPICE

A spicy-flavored aroma that will drive the breams completely crazy. The spices in this additive are highly appreciated by large fish, especially breams. To be used in all seasons.

Ref	Weight (g)	RRP€
51269	300	5,99

N POWER BOOST ROACH CORIANDER

Coriander aroma, formidable on large roaches! This product aids digestion and allows fish to remain active on your fishing spot for longer.

Ref	Weight (g)	RRP€
51279	300	5,99

RRP : RETAIL RECOMMENDED PRICE

LIQUID ADDITIVES

Liquid additives are designed for adding to mixing water before wetting your groundbait so every particle in the mix soaks in the flavour. Some liquid additives like «Aromix» will also act as a binder. This makes a heavier, stickier mix much used on canals to prevent particles being swept away by water movement from locks or boat/wave wash.

N POWER BOOST LIQUID

The POWER BOOST LIQUID additive series consists of 4 powerful aromas, which will enhance your mixes and baits to attract the maximum number of beautiful fish to your spot! We recommend diluting the POWER BOOST LIQUID in your wetting water so that the groundbait particles are thoroughly impregnated. It can also be used to boost your hook baits.

SENSAS FEEDER 3000

Range of groundbaits developed specifically for feeder fishing. The range covers all the venues and conditions you are likely to encounter. Extensively field tested by our specialists. Each groundbait is made from the finest quality ingredients.

SENSAS FEEDER 3000 ACID WORM

A starter formula boosted with amino acids and enhancer, fortified with natural 'earthworm' flavor to which fish show great interest. The fish's sensory receptors allow them to detect these amino acids from afar, which are also found in earthworms. A perfect mix to use when you want to fish with chopped worms.

SENSAS FEEDER 3000 SUPER EXPLOSIVE

SENSAS FEEDER 3000 SWEET FISHMEAL

New sweet fishmeal groundbait developed for targeting big fish on the feeder in lakes and rivers where fish are used to seeing pellets and other fishmeal feed. Great for bream but also effective for carp, tench and other big fish.

N SENSAS FEEDER 3000 BREAM YELLOW

The perfect bait for bream fishing! Rich in corn derivatives, this medium-grain, yellow bait emits an irresistible sweet corn aroma that bream are particularly fond of. Its generous composition makes it an essential base for successful spring and summer fishing, attracting beautiful fish to your fishing spot.

SENSAS CARP

The SENSAS CARP range of baits, specifically developed for carp fishery fishing, includes the essentials: super soft pellets, ready paste, super feed pellets, super expander... But also the SUPER GROUNDPASTE 2IN1, which can be used both as groundbait and as a paste. A very comprehensive range with 4 flavors, already widely approved by our teams and the general public!

SUPER GROUNDPASTE 2 IN 1 FISHY HEMP

This 2-in-1 mix can be used as a bait paste by mixing it 1/1: one part bait mix / one part water, or by wetting it like a classic groundbait, resulting in a fine, homogeneous mix. fishmeal based bait with hemp/coriander flavour.

SUPER GROUNDPASTE 2 IN 1 DARK GARLIC

This 2-in-1 mix can be used as a bait paste by mixing it with water in a 1/1 ratio: one dose of groundbait / one dose of water, or by wetting it like a classic groundbait to obtain a fine, homogeneous mixture. Fishmeal-based groundbait with a garlic flavour.

SUPER GROUNDPASTE 2 IN 1 NATURAL CORN

This 2-in-1 mix can be used as a bait paste by mixing it 1/1: one part bait / one part water, or by wetting it like a classic groundbait, resulting in a fine, homogeneous mix. fishmeal based bait and sweetcorn flavour.

SUPER GROUNDPASTE 2 IN 1 SPICY INDIAN

This 2-in-1 mix can be used as a bait paste by mixing 1/1: one part bait mix / one part water, or by wetting it like a classic groundbait, resulting in a fine, homogeneous mix. Groundbait based on fishmeal, enhanced with spices.

RRP : RETAIL RECOMMENDED PRICE

SUPER GROUND PASTE

Paste that just needs wetting before use. Based on ground pellets. We recommend mixing one part of water with one part of powder but this can be adapted to suit different circumstances. If the fishing is tricky try overwetting the paste to get a faster breakdown and softer texture. Conversely if the fishing is easy or small fish a nuisance try a drier mix to get a harder paste nugget on the hook. We also recommend that you use a tip cup to help ship out your paste hookbaits.

Ref		Sticky Power	Rich	Grain size	Color wet	Fish	Season	Water quantity (cl)	RRP€
36424	SUPER GROUND PASTE 1KG	3,5	3,5	2	Light beige	Carps and Big fish	Spring/Summer	45 - 50	9,99

SUPER EXPANDER 350GR

Featuring a special coating, you no longer need a pump to achieve the perfect pellet! Excellent hook hold, they withstand multiple strikes unlike a traditional expander. Ideal spongy texture. For the perfect preparation we recommend placing the desired quantity of pellets in a box. Then cover them with water and leave them in the refrigerator overnight before use. You will achieve the perfect hooker pellet every time.

Ref	Weight (g)	Size (mm)	RRP€
18874	350	4	9,99
18875	350	6	9,99

READY PASTE

Very well-designed bait with the perfect balance between holding on the hook and flavour diffusion. We recommend using a pole cup for greater precision. Its active diffusion helps attract and keep fish active in the desired area.

Ref		Color wet	RRP€

METHOD FEEDER

Our range of Method feeder baits is the result of many months of research, testing, and various feedback experiences. The effectiveness of these products on carp and large fish has been tested and approved by our top specialists, who were able to quickly achieve exceptional results. There is no doubt that this range will satisfy Method feeder fishing enthusiasts!

METHOD MIX DARK MACKEREL

The METHOD MIX DARK MACKEREL is a meat-based mix with a strong fish odour. Made with fishmeal, this mix can be used in all seasons and proves to be effective on large bream and carp.

METHOD MIX YELLOW CORN

The METHOD MIX YELLOW CORN is a yellow-colored bait made with fishmeal, featuring a pronounced sweet corn aroma. Ideal for the summer season, its attractiveness can be enhanced by moistening it with the juice from your can of corn.

METHOD MIX NATURAL SCOPEX

The light beige color METHOD mix, based on fishmeal, with a strong scent of scopex and biscuit, is a blend to be used in all seasons. Combined with beige or white hook baits, this mix will be a formidable weapon in winter!

METHOD MIX RED KRILL

This red METHOD MIX, with krill aroma, is ideal for stained waters, in all seasons. A fishmeal base that will work wonders on carp and tench!

Ref		Sticky Power	Rich	Grain size	Color wet	Fish	Season	Water quantity (cl)	RRP€

EXTENSIONS *MINI PLUS - SHORT - EXTENSIONS*

The SENSAS pole ranges are designed with flexibility in mind. Because they are all developed on the same mandrills a range of fine tuning accessories like extensions, short sections and different top kits can be used on most of our poles. So whether you have a pack worth 500 or 5000 euros you can benefit from our technology and tailor your gear to suit your style of fishing!

PACK MINI-BUTTS

Pack of 3 mini-butts for protecting your no.3, 4 and 5 sections of your pole. Particularly useful when margin fishing. Compact pack that fits neatly in your holdall. Compatible with Series 4, 5 and 6 top kits.

Ref		RRP€
28380	NO.3,4&5	129,99

MINI BUTT

Designed to protect the original sections of your pole. These mini-butt sections fit the no. 6 section of our Series 4, 5 and 6 poles and the no.7 section on Series 4 and 6 poles. Ideal for mid-range fishing or fishing up in the water when feeding by hand. Great for protecting your long sections when shipping back fast.

Ref		RRP€
64177	SERIES 4 & 5 - NO. 6	49,99
64178	SERIES 6 -NO. 6-SERIES 4-NO. 7	49,99

N SHORT NO6 - SRX

This shortened section allows you to change your XL rod from 13 m to 11.50 m, while increasing rigidity for better comfort of use and enhanced precision.

Ref		Size (cm)	Weight (g)	RRP€
55852	SERIE	109	104	74,99

EVA BUTT PROTECTOR

Conical plug that fits various butt section diameters. Fits Series 3 poles from the 7th section upwards and series 4,5 and 6 poles from the Number 6 onwards.

Ref		Dim.	RRP€
61298	- S	12cm - 41/45.5mm	8,99
61299	- L	12cm - 43.5/50mm	8,99

SHORT NANOFLEX

We have redesigned our short No.4 and No.6 sections making them 50cm long. These short sections will stiffen the action of your pole. If you replace a full no.4 section with a Mini Plus no.4 and a Short no.4 you can break down half way along the kit – at section 3.5- which is handy when the depth is just too much for a standard no.3 but not enough for a full 4.

Ref		Size (cm)	Weight (g)	RRP€
41188	NO.4	91	39	59,99

NANOFLEX MINI PLUS

We have redesigned all the Mini Plus sections – 4/5, 5/6 and 6/7. They are now a standard 50cm long so that your pole will always fish at full length with the no.1 tip removed from your top kit.

Ref		Size (cm)	Weight (g)	RRP€
43209	4/5 SERIES 3,4 & 5	60	37	64,99
43210	5/6 SERIES 3,4 & 5	60	46	64,99
43211	6/7 SERIES 4 & 5	60		74,99

SENSAS TIPS

You can replace a no.4 with a short no.4 and a Mini 4/5 so you can break down at the half section if that is more comfortable.

SENSAS CARP SUPER POWER

SENSAS CARP SUPER POWER are reinforced sections that can be used for margin fishing or as a strong butt section to avoid damaging your no. 4,5 or 6 sections when bagging on big fish. Compatibility:
Super Power no, 4 and 5 : Series 4,5 and 6 poles.
Super Power no. 6 : Series 4 and 5 poles.

Christophe
NOUALHIER
SRX
SUPER COMPETITION

Over the years Sensas have developed very specific poles to meet the needs of the modern angler. It stands to reason that the best pole for speed fishing for small roach on a canal will not be the one you want for fishing big flat floats on powerful rivers or tackling specimen sized carp at a fishery. To make the choice of pole easier we decided to give you more information about each model.
To begin with not all of our poles have the same diameter. In general the thinner the diameter of a pole the softer the action and the greater the diameter the stiffer the pole.
We have added a rigidity score to each of our poles, kits and top 2's on a scale of 1 to 5 that reads like this:
5/5: very stiff 4/5: stiff 3/5: fairly stiff 2/5: fairly soft 1/5: very soft

NANOFLEX SRX

The SRX range is based on an exclusive technical design: Slim inteR eXtension. Already used several years ago on our models designed for the UK market, this concept has been completely revamped and optimized. To extend from 11m50 to 13m, the 8th section is inserted between the 7th section and the butt (9th section). This way, you keep exactly the same butt in hand, regardless of the length used. With a diameter positioned between Series 4 and Series 5, SRX offers elegance, comfort, and modernity. A new combination of materials, along with an optimized distribution of masses, enhances rigidity and stability for remarkable handling and increased accuracy when striking. The Top 5 remains compatible with Series 4, 5, and 6, while the 6th and 7th sections are compatible with Series 6. The SRX range is available with a classic mandrel or XL mandrel to perfectly match individual preferences and requirements. SRX: designed to perform, built to last.

NANOFLEX SRX *XL*

N NANOFLEX 5G SRX SUPER COMPETITION XL

SRX XL SUPER COMPETITION represents the pinnacle of the long chuck range. Designed for experts and enthusiasts of high-end equipment, this XL pole combines power, rigidity, and extreme balance. Developed for high-level competition, it ensures maximum precision in striking and total control, even in the most demanding conditions when setting up your line. A benchmark for those who want to exploit every detail and aim for absolute performance.

NANOFLEX 5G SRX COMPETITION XL

SRX XL COMPETITION is a long mandrel pole fishing rod designed for intensive competition use. The XL butt section alters the fulcrum point and provides better overall balance to the rod, particularly noticeable at 13 meters. Its reinforced structure offers exceptional stiffness, improving accuracy both when striking and when setting up the line. The weight distribution maintains perfect balance for increased maneuverability, especially at high speeds. An XL pole rod intended for competitors seeking efficiency, consistency, and reliability in fishing action.

NANOFLEX 5G SRX ALLROUND XL

SRX ALLROUND XL is the long butt version of our versatile model. This XL pole fishing rod is suitable for both pond and river fishing, while also allowing you to approach carp fishing with confidence if needed. Thanks to its long handle and balanced structure, it provides balance, comfort, and precision when striking, even at great lengths. A versatile model, ideal for anglers who want a powerful and comfortable all-around pole fishing rod.

SRX-SUPER COMPETITION EXTENSION

The SRX Super Competition mini-extensions are designed to accompany the high-level models of the SRX XL range as well as those of the SRX range. Available in 50 cm, 100 cm, and 150 cm, they allow you to precisely adjust the length of your rod while maintaining rigidity, balance, and precision when striking. These mini-extensions are to be used on section no7 or on the parallel butt section 11m50/13m. They will allow you to make every 50cm length between 9m and 13m. A very practical option.

SRX - FLAT BASE EXTENSION

The SRX Extension – Flat Base stands out due to its specific design incorporating flat spots on the top and bottom. This geometry significantly improves grip and ensures optimal handling of the rod in all circumstances. Particularly effective during feeding phases, it provides additional stability and makes it easier to hold the rod, even in challenging conditions such as wind. Compatible with SRX mandrels as well as our Series 4, it will perfectly fit into your usual equipment. A technical element designed to enhance comfort, precision, and control while fishing.

NANOFLEX 5G SRX ALLROUND

SRX ALLROUND is the ultimate versatile fishing pole: the all-purpose model of the SRX range. It adapts to both pond fishing and more demanding river conditions, allowing for varied approaches without changing the pole. Thanks to its compatibility with a carp kit, it can also be used in carp fishing venues or to tackle more powerful fish. Balanced, stable, and pleasant, SRX ALLROUND is the ideal fishing pole for those who want a single model capable of doing everything, with excellent comfort and great control.

NANOFLEX 5G SRX MATCH

SRX MATCH is a pole fishing rod designed for anglers who want to take their first steps in competitive fishing. More responsive and precise, it helps to improve consistency, execution speed, and control in technical fishing. Its optimized balance and rigidity enhance striking accuracy while maintaining SRX comfort at both 11.5m and 13m. A pole rod crafted to help advance to the next level and enter competitions with mastery and efficiency.

NANOFLEX 5G SRX ONE

SRX ONE is a pole fishing rod ideal for discovering the SRX range with a simple, effective, and comfortable model. Designed for anglers who want a reliable and accessible pole rod, it offers excellent grip and fully benefits from the Slim inteR eXtension concept. Its finesse, maneuverability, and rigidity allow for quick progress and improved hooking accuracy, whether in a pond, river, or canal. An excellent choice for starting with a modern, well-balanced, and enjoyable-to-use rod.

NANOFLEX PARALLEL SERIES 4

The 4 Parallel series are compatible with the old series 4, whether it be the kit, the 6, 7, and 8 sections. From section 9 (butt), we have a parallel butt. Although it is stored separately from the 11.5m section, to avoid additional clutter in your sleeve, you can use it to store the cup kit, landing net handle, or other mini plus and short of any size. These rods are made from an even more advanced carbon. The XL rods come with two Parallel mini-extensions that can be fitted on both the 11.5 m and 13 m mandrel, allowing you to fish at length when the tip is removed. The XL rods will surely delight the most demanding in terms of lightness and maneuverability. The XL SW versions are even more rigid, more powerful, and offer excellent wind resistance. On the XL rods, the rods are delivered with 'finesse' tops with an internal outlet of 2.5mm, to improve maneuverability and fishing comfort. The 5G carbon gives the rod exceptional rigidity for rods of this mandrel. Also noteworthy is the return of the 'power match' and the appearance of 'power carp', rods for all budgets, designed by specialists. You are sure to find what you are looking for in this wide range of products!

WHIPS *RECORD*

To pick the right whip you need to think of two main criteria: 1) The target species and 2) The size of the fish. It stands to reason that you can't use the same whip to target bleak and small roach under 15g compared with catfish and bigger roach weighing 30 grams plus. A solid tip would be better on the very small fish (under 15g) whereas a hollow tip better on slightly bigger fish. Picking the right whip will help you gain time and be more efficient which is often the key to success in whip fishing!

RECORD 455 WHIPS

The RECORD 455 telescopic whips have been specifically developed for speed fishing. Lightweight and manageable these rods come with both a hollow carbon tip and a solid tip, allowing you to handle any situation.

WAGGLER RODS *CORUCHE FEELING*

The CORUCHE FEELING range was developed to meet the demands of match anglers, regardless of the conditions encountered by the water. Built around a responsive and perfectly balanced blank, these rods offer great smoothness during strikes while maintaining sufficient power reserve to handle the fights and ensure effective casting.
Available in Light, Medium, and Heavy versions, the range covers a wide array of situations, from fine and delicate fishing to heavier setups requiring power, control, and long-distance precision. Each model benefits from a harmonious action, ensuring accurate casts and excellent control of the line.
Carefully finished and designed for the angler's comfort, the CORUCHE FEELING rods stand out for their balance in hand, reliability, and great versatility. A complete and coherent range, ideal for accompanying both regular anglers and competitors in all their match fishing sessions.

N CORUCHE FEELING LIGHT

Ideal for fine English fishing, the CORUCHE FEELING Light stands out for its high sensitivity and smoothness when striking. Its progressive action ensures casting precision and optimal control during fights, even with fine leaders. Perfect for delicate fishing at short and medium distances.

FEEDER RODS *BLACK ARROW XS SLIM*

Our famous Black Arrow SLIM rod series has been completely revamped for a boosted version! Now available in 3 versions: Competition, Power, and Distance, our new XS SLIM range is designed to tackle all types of environments and fishing conditions you may encounter!
The Competition rods are the lightest in the series, with a parabolic action, perfect for fine fishing! Their 'single leg' rings help lighten the weight of the rods and provide unmatched action. Their lightness and maneuverability are simply astonishing.
The Power rods are the 4x4 of the range, comfortable in all areas! Developed based on the SLIM COMPETITION MEDIUM, these new XS SLIM POWER rods will allow you to practice all classic feeder fishing with cage weights ranging from 20g to 60g.
The Distance rods are powerful, with a regular/semi-parabolic action that will allow you to fish at very long distances, as well as in rivers with significant cage weights (100/120g).

FEEDER RODS *BLACK ARROW SPOD*

The Black Arrow Spod is a rod dedicated to baiting with a feeder. Available in two lengths: 330cm (2 sections) and 390cm (3 sections), they will allow you to perform your initial baiting without risking damage to your rod and setup. They are equipped with large-diameter three-legged rings, allowing you to gain distance and casting accuracy.

POWER MATCH 3000 REEL

The POWER MATCH 3000 is equipped with high-quality mechanics mounted on stainless steel bearings. Here are its main features:
- V rotor arm: offers smooth rotation and perfect handle balance thanks to reduced inertia on the rotor.
- Stainless steel pick-up offering smoothness and flawless durability over time.
- Semi-metallic construction, providing greater resistance and durability through die-casting.
- New oscillation process for even winding and better longevity.
- Two ball bearings are installed in the handle to help wind the line onto the spool more smoothly.
- Compact design
- Infinite anti-reverse
- Micrometric progressive drag

Delivered with an additional spool.

HOW TO CHOOSE THE RIGHT FLOAT ?

As you flick through the pages of this catalogue you will see a wide range of pole floats on offer. We have put together a few simple pointers to help you make the right choice -starting with a look at the different materials pole floats are made from.

BRISTLES

Wire bristles
These are the lightest and most delicate of bristles. Ideal for technical fishing and reading delicate bites. The diameters vary between 0.4 and 0.8mm (once painted). Generally these are used with light lines and small hooks. All of our wire stems are painted with a fluorescent anti-capillary paint.

Fibre bristles
These are generally made from clear fibreglass then coated with a fluorescent paint (red, yellow or orange. They are used in diameters between 0.5 and 1.5mm and are just as sensitive and more visible than equivalent wire bristles. They are tough and will not bend so they can be fished even with an eye on the bristle. These are the most versatile bristles combining strength. visibility and sensitivity.

Solid plastic bristles
These are the most widely used bristles. The plastic itself is dyed right through making these bristles very visible. Usually found between 0.6 and 4.5mm thick, covering a wide range of fishing situations. These bristles can be quickly coloured up black with the help of a marker pen but to get back the original colour you should use acetone to remove the marker pen.

Hollow plastic bristles
These are widely used on waggler and bolo floats as well as pole floats. Generally used in sizes between 1 and 6mm. Being hollow they are easy to dot right down. They are also highly visible even in poor weather conditions as the light passes through the bristle. Hollow bristles can hold up bigger baits and are ideal in strong winds or waves generated by big boats. All our hollow plastic bristles are coated in special anti-capillary paint.

Cane bristles
These bristles will take a big bait but still stay relatively sensitive. They generally have a diameter between 1.5 and 3mm. It is possible to shot these down to half bristle height or dot them right down in the water. Widely used in carpodromes.

Balsa bristles
Generally thick bristles used for big fish and big baits like paste, corn or worms. Widely used by trout anglers using big natural baits like lobworms and match anglers fishing up in the water.

To help you select the right float we have included technical diagrams with certain patterns to better explain how they work.

Line through the side
Your nylon runs in line through the side of the float body. Perfect for controlling a float in the flow and much stronger than conventional float eyes.

Line through the centre
Classic in-line floats. The line goes through the centre of the body along with the stem.

Line across the body
The line runs diagonally through the float body. Great for Bolo fishing when you need to hold back in a flow.

EYES

Eye at the top of the body
This is the most common eye position on a pole float. The great advantage is that you can hold back on the float without the body riding up in the water.

Eye at the base of the bristle
This helps you hold back on a float because the entire float body is below the eye. This gives you better float control and can let you fish with the pole tip out of the water when holding back which makes for cleaner striking.

Line straight through the body
Often used for big fish or for bagging up and building big weights. Line through the body float are very tough and can take some hammer. They are also completely waterproof thanks to the plastic tubing which lines the central hole on each float.

Line through the side of the body
This lets you have extremely tough but sensitive floats which can be used on rivers, lakes or canals.

Eye through a balsa bristle.
These let you flick out floats without them tangling. Often used for up in the water fishing or on trout floats where the line can be wound back to create a wake in the water.

STEMS

Wire stems
All of our wire stems are treated against corrosion. These are the most widely used stems as they keep floats very stable yet sensitive. Perfect for both keeping bait still for delicate, technical presentation. Wire stems are found on all types of floats from bleak floats to big flat floats. Diameters commonly used from 0.3 to 1,2mm.

Glass stems
These are strong stems used on floats for big fish. Fiber stems are also widely used on bolo floats. Diameters commonly used from 0.8 to 2mm.

Carbon stems
Lighter and stiffer than glass stems. Carbon stems are more sensitive than glass and are widely used for on the drop style fishing over loosefeed, for long lining or when you need to fish on deep venues. They are also widely used for reading lift bites.

BODIES

There are literally hundreds of different float body types. To keep things simple, round bodied floats are generally used in flowing water. Pencil or pear shape floats are more versatile and slender carrot style boodies used for delicate fishing in calm water.

Balsa
This material is both solid and sensitive.

Super competition foam
Aerospace grade top quality foam that won't take on water and has a totally consistent density. Floats designed for top flight match fishing!

Reinforced eye
Certain floats designed for use on fisheries and carp venues feature a reinforced eye to stand up to the pressures of bagging on big fish.

PAINT

All the floats in our range have a special anti-capillary paint. This has the advantage of not sticking to the water surface whilst making sure all our floats are completely waterproof.

MATCHCOMPETITION *SPEED FISHING*

CANAL M0

Metal bristle and wire stem. Very sensitive, this leading competition float has been used for many years in technical fishing situations.

RRP : RETAIL RECOMMENDED PRICE

CRAZY HOLLOW ELASTIC

Created to meet the needs of the modern big fish pole angler, the Crazy hollow elastics are designed with a very high stretch ratio. This gives the angler the choice - ramp up the tension on your bung to get quick control over hooked fish or slacken it off to let the fish run and avoid pull outs... you decide! These elastics come with a built-in abrasion and UV resistant walls. A benchmark in hollow elastic design and performance!

FEELING LOOSE HOOKS *CLASSIC*

This range of hooks has been designed and recommended by Team Sensas match anglers. Made from special high carbon steel wire with exceptionally strong chemically sharpened points. The sizes and styles in this range cover all fishing situations from super fine bloodworm and pinkie hooks to maggot, caster and meat hooks. All Feeling hooks are incredibly strong for their size!

On this page you will find the stronger types hooks. Perfect for targeting bigger fish.

SENSAS HOOKS 3405 BLACK

With a fairly fine wire, this hook has a wide gape and round bend perfect for maggot and pinkie. There's no sacrifice to the hooking power because the round bend stops the bait covering the hook point. Pack of 15.

Ref	N°	Ø mm	Weight (mg)	RRP€

FEELING LOOSE HOOKS *FINE*

These hooks have been developed for using in tougher fishing conditions for targeting both large and small fish. Perfect where optimum bait presentation is vital. They work especially well with bloodworm. Several of the models are equally at home for general small-fish-work, (small roach and bleak).

SENSAS HOOKS 4530 BRONZE

Barbless version of the 3530 for delicate speed fishing. Allows easy hooking without bait damage. Pack of 15.

Ref	N°	Ø mm	Weight (mg)	RRP€

Styl weights have been used for decades by some of the world's top anglers. Even today they are perfect for slow falling rigs or fine adjustments to delicate shotting.

SHOT DISPENSERS *REGULAR*

STYL INDIVIDUAL BOX

These styls allow you to make minute adjustments to a rig. Perfect for highly sensitive floats which can be difficult to shot. Also helps a rig fall more naturally through the water.

Ref	N°	RRP€
59811	PM (n°7 à 12)	14,99
59821	GM (n°13 à 20)	14,99

SHOT DISPENSERS *SQUARE*

Offering numerous advantages for rig assembly, Square Styl shot can be used for different applications depending on the size selected.

Small sizes are ideal for the final trimming of conventional float rigs. When assembling your rigs at home, always position 2 to 4 Square Styl shot directly above the main bulk. This allows you to make precise adjustments on the bank simply by removing (or not) one or more shot.

Several factors, including water density, weather conditions, surface drift, current or the buoyancy of the bait, can affect the overall balance of a rig and therefore the visibility of the float antenna.

Larger sizes are especially suitable for carp rigs. Thanks to their perfect alignment and, above all, their slot designed to accept all line diameters, Square Styl shot are unmatched for assembling rigs using heavy main lines.

Try them once and you'll never use anything else!

SQUARE CARP STYL 5 SIZE DISPENSER

Dispenser box of square-style pellets, available in 2 versions: 5 compartments No. 8 to No. 12 and 5 compartments No. 3 to No. 7.

Ref	N°	RRP€

N WINDOW PLASTIC CAGE

The WINDOW PLASTIC CAGE is designed for feeder anglers who seek accuracy, distance, and efficiency. Its design with side windows allows for easy loading of maggots, chopped worms, pellets, or particles while ensuring a gradual and precise release of bait on the bottom. Thanks to its aerodynamic shape and optimized weight distribution, this cage provides excellent stability in flight, ideal for improving casting accuracy and consistency. Available in 3 sizes: S, M, and L.
